Re: Loan

My dear Mr. Davis:

Receipt is acknowledged of your application and attachments of June 18, 1951 for a loan under the Defense Production Act of 1950.

The application was assigned Docket Number DMA-1269X and referred to Mr. James A. Barr, Chief, Industrial Minerals Branch on June 27, 1951.

In any future correspondence relating to your application, kindly refer to DMA-1269X.

Sincerely yours,

LANDON F. STROBEL

Salinas, California

Dear Mr. Davis:

Subject: Docket DMA-1269X
Mable H Mining Claim

Your application for aid for an Exploration Project on the Mable H. Mining Claim, docketed as DMA-1269X, has been carefully studied by this office.

The program which you propose does not appear to properly fall within the scope of Exploration Projects as defined in Mineral Order 5, Defense Production Act of 1950.

However, your mining operation might merit consideration for assistance in the form of a loan for development and operation purposes, and we would be glad to consider the application to that end should you care to apply. Forms MF-100, MF-101 and MF-102 are enclosed for your convenience. Consideration of a loan application on your project may or may not necessitate a field examination.

Sincerely yours,

James Barr

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four signed copies of the application to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive officer thereof, with your name and address on each sheet of the application and all accompanying papers. If any question is inapplicable, or if you cannot answer it, so state on the form. Where the space provided for answer is insufficient, answer on a separate sheet, annex it to the application form, and refer to it in space for answer. If the application is approved, you will be presented with an exploration project contract on Form MF-200, for your signature.

THE APPLICANT

*1. Is applicant an individual, partnership, or corporation? Partnership

*2. If a partnership, state names and addresses of partners. H.V. Davis, Salinas; G.H. Rankin, Springville Calif; and A.N. McDonald, Gilroy, Calif.

*3. If a corporation, state names and addresses of officers, directors, and five largest stockholders.

*4. Describe the mining and general business experience of (a) the applicant, and (b) the person or persons who will manage the project. Several years experience in mining.

*5. Are you the owner or the lessee of the property? Owners.

6. If owner, state what claims, liens, or encumbrances, if any, are against the property. None

7. If lessee, attach a copy of the lease and state if it is in good standing.

NOTE.—It will be necessary to procure and attach to the exploration project contract agreements of claimants, lienors, encumbrances and lessors subordinating their interests in the property to the interest of the Government under the contract.

8. Furnish current financial statement, showing assets and liabilities, and a profit and loss statement. No production.

9. How much money is applicant prepared to invest in proposed project? Is it sufficient to pay your part of the cost of the project as detailed in question 23 of this application form, in accordance with the regulations on Government participation (Section 9 of Mineral Order 5)? $7,000.00, amount sufficient.

*If you have already answered these questions on MF-100, you are not required to answer the questions for this application.

16—64067-1

THE PROPERTY

10. (*a*) Give a description of the real property that will be affected or involved in the exploration project, including any existing mine or operating property. See aff. attached.

(*b*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

NOTE.—If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*b*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

*11. State the present and former names of the property, if any. Mabel H. Mining Claim

*12. State, in detail, the location of the property with reference to towns, railroads, roads, shipping points, including distances and directions and kinds and conditions of roads. 27 miles N.E. Porterville, Cal. SP RR.

*13. State source and quantity of water available for operations and its sufficiency at all seasons. Stream-adequate

State amount of power to be used, rate per hour or other cost, and source. No power.

*14. Describe any existing useable mining equipment, buildings, or structure now on the property that will be devoted to the exploration work. Mining tools.

15. State in detail how the ore could be shipped and how and where milled. Los Angeles

*16. History:

(*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for any past suspensions of operations.

(*b*) State briefly the known history and production of adjoining and neighboring properties.

(*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations. See aff. attached

*17. Production:

(*a*) If mine is in production, furnish the following information:

	Tons per day	*Grade or analysis*	*Costs per ton*	*Net value per ton*
(1) Mining	worked each summer since 1944-about 2 tons of quartz crystals now stored in L. A.			
(2) Milling				
(3) Shipped or sold				

*18. Ore or mineral reserves: (If property is or has been operating) quartz crystals

(*a*) Describe the ore or mineral deposits briefly.

(*b*) Submit available maps and assay data.

(*c*) Give estimated tonnage and grade of each class of ore reserves.

19. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

THE EXPLORATION

20. For what mineral or minerals and for what types of deposits and ores will the exploration be conducted? quartz crystals

21. Describe briefly, but concisely, the proposed work and the estimated time required to complete it.

NOTE.—The Government will not participate in a project that will require more than 2 years to complete.

22. Furnish statement of the geological basis of the project with particular emphasis on factors leading the operator to expect the finding of commercial ore bodies. This statement should be accompanied by supporting maps such as geological maps, maps of the proposed openings and assay maps, sample lists, and other pertinent data. See aff. attached

THE REQUIREMENTS AND COSTS

23. Tabulate in the form of an itemized statement with a sum for each item the estimated requirements and costs of the project so that the total will give the estimated cost of the project in which the Government will participate, as follows:

(*a*) Labor, by numbers and classes (miners, muckers, millmen, etc.), with wages of each.

(*b*) Supervisors, by numbers and positions, with salaries of each.

(*c*) Cost of necessary repairs to existing facilities, structures, and buildings.

(*d*) Cost of necessary installation or construction of additional facilities, structures, and buildings.

(*e*) Cost of items of equipment, not now owned by the applicant which must be purchased for operations at a cost of $50 or more each.

(*f*) Cost of rental for equipment which the operator proposes to rent.

(*g*) Rental value of items of equipment which the operator now owns and which will be devoted to the work.

(*h*) Cost of materials and supplies, including items of equipment costing less than $50 each.

(*i*) Cost of power, water, utilities, and any other items not provided for above.

24. Furnish a time schedule of the project, stated in terms of months after project is approved, showing progress expected to be accomplished and the money expected to be spent.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this form and accompanying papers is correct and complete to the best of their knowledge and belief.

16—64067-1 U. S. GOVERNMENT PRINTING OFFICE

State of California)
) ss.
County of Monterey)

H. V. Davis being first duly sworn deposes and says: That he is the applicant for aid for exporation project for minerals as per form MF-103 annexed hereto.

That affiant is requesting a loan for the sum of $7,000.00 in order to operate the Mabel H. Mining claim, located on the North Slope of Slate Range in the Northwest quarter of Sec. 1, Township 21 south, Range 31 E. M.D.B. & M. by Jay L. Hoover on Sept. 5, 1942, and recorded on Page 110 of Vol. 1004 of Official Records of Tulare Co., Calif., and more particularly described as follows:

750 feet North to center mon. of rock; 300 feet East to cor. monument; 300 feet West of North center mon to cor. mon.; 1500 feet South to cor mon.; 1500 feet East to cor. mon.

That affiant is one-third owner and general manager of the said mine and has worked the mine every summer since June 28, 1944. The mine has produced several crystals which have been tested in several testing plants, one test at SCOSCL - SF C - 1 , Proj.869A Signal Corps Engineering Lab. Fort Monmouth, on Dec. 20, 1950. Final test Feb.14, 1951. Also test made June 5, 1950, with 22 crystals.

In order to operate the said mine the owners will require 1 air compressor and jack hammer, which will cost about $800.00, and it will be necessary to construct a road about three miles up the mountain to get the air compressor to the mine, at a cost of about $600.00. The operators will also require a jeep at a cost of $800.00 and a house (small) at the mine which will cost $500.00 to build, also one pump costing about $100.00. The operators have the balance of the mining tools.

To date all of the work has been done by hand, and there is a 60 foot hole which is still on the lead and from which crystals are still being found, one weighing about

54 lbs.

Affiant will require two men besides himself to work the mine, and they will work from 6 to 7 days a week until Jan. 1, 1952, as they will be forced to quit work on account of the snow at that time. The mine is at 8500 feet elevation. The wages to be paid to the men will be about $50.00 per week per man.

Estimated costs are as follows;

3 men wages for 7 months	$4,200.00
Road to mine	600.00
Air compressor	800.00
Jeep	800.00
2 room house	500.00
Pump	100.00
	7,000.00
