Re: Docket No. DMA-1304X (Copper)
Shattuck Denn Mining Corporation
Kay Copper Mine
Yavapai County, Arizona

Dear Mr. East:

Reference is made to your memorandum of February 19, 1952, to Mr. Mittendorf, with which you enclosed copy of letter from Mr. Thomas Bardon, President of the above company, dated November 14, 1951, requesting you to defer a field team examination of the property because of negotiations pending at that time which might result in the application being amended or withdrawn. We note that the docket was placed in your inactive file.

Inasmuch as this docket is carried on the Washington office records as a referral to the Region for a field team examination, it is suggested that you make further inquiry of Mr. Bardon as to the present status of the negotiations, and that he also be informed the docket will be closed within a specified period of time if the corporation is not interested in processing the application. Thereafter, if the docket is to be closed, it should be returned to the Washington office. Of course, if the application is to be revised, our records will continue to show it as referred to the field team for an examination.

Sincerely yours,

Frank E. Johnson

Memorandum

To: G. O. Mittenzdorf, Acting Administrator, Defense Minerals Exploration Administration

From: Field Team, Region IV

Subject: Docket DMEA 1304X, Shattuck Denn Mining Corporation, Kay Copper Mine, Yavapai County, Arizona, and Docket DMA 1699X, Thomas Conway, Durango, Colorado (Copper) Mining Claims in Laplata County. Your memorandum of February 12, 1952.

In accordance with the request contained in a letter dated November 14, 1951, from Mr. Thomas Bardon, President, Shattuck Denn Mining Company, DMA Docket 1304X, Kay Copper Mine, Yavapai County, Arizona, was placed in our inactive files. A copy of Mr. Bardon's letter is attached for your files.

Our Colorado field office was informed by telephone on October 30, 1951, by Mr. Thomas Conway that his property, Docket DMA 1699x, was inaccessible because of early snow at extremely high altitude. Mr. Conway also stated that he could not participate financially to the extent required by the application. He stated that he would inform Mr. Tom Lyons of the situation, but we have no information to indicate that he has done so.

The docket was placed in our inactive files pending further information or request by the applicant.

Dear Mr. East:

The monthly reports submitted by your office for December and January have greatly assisted our Commodity Divisions in keeping records current on applications being investigated by the Field. The Rare and Miscellaneous Metals Division, however, has noted that no reference was made in either of these reports to the above captioned applications which, according to our records, were referred to Region IV on September 14, 1951, and October 17, 1951, respectively. There have been no inquiries to this office from any source regarding these dockets since that time, but it would be helpful to be informed at your convenience, the status of these applications.

Sincerely yours,

Re: Docket DMA No. 1304X

Dear Mr. East:

Since writing you on October 31 in regard to a field examination of the Kay mine in connection with our application for exploration funds, we have reached a point in negotiations with another mining company which make it advisable to defer the examination which the DMA Field Team would ordinarily make.

If our negotiations with this mining company are concluded, our application for Government funds might be amended or possibly withdrawn. In any event, we are continuing our work at the Kay mine and a deferment of your examination will not in any way adversely affect the interests of the Government or of ourselves.

As soon as the above-mentioned negotiations are concluded, we will again communicate with you in regard to your field examination.

Yours very truly,

Thomas Bardon

Dear Mr. Bardon:

This is in reply to your letter of October 31 concerning DMA Docket 1904X, application for an exploration project on Kay Mine in Yavapai County, Arizona.

Information in our files indicates that your Mr. H. F. Mills advised Mr. Anderson of the U. S. Geological Survey to postpone examination because of certain negotiations that were pending. The application was therefore returned to this office and placed in an inactive file. Presumably it is now your desire that the examination be made.

If this is the case, please advise immediately and the application will be returned to the field with the request that they proceed with the examination.

Yours very truly,

J. H. East, Jr.

Re: Docket DMA No. 1304X

Dear Sir:

On May 24, 1951, we made an application for an exploration project pursuant to Mineral Order 5 under the Defense Production Act of 1950 for the Kay Mine in Yavapai County, Arizona. The DMA in Washington assigned the above mentioned docket number to the application and advised us that the project had been referred to you for an examination of the property.

Other than these two advices from Washington we have had no response to our application.

The Kay Mine is situated about forty miles north of Phoenix, Arizona and within a few hundred yards of a paved highway. We have a small crew of men with an engineer in charge at the mine. Records and maps have been kept up to date. For these reasons an examination could be made by one of your field teams with a minimum expenditure of time and effort.

We would very much appreciate any indication you can give us as to the probable date of your examination of this property. Mr. Frank W. Garrett is the engineer in charge. General supervision of the work is under Mr. H. F. Mills, the Manager of our Iron King Mine at Humboldt, Arizona.

Yours very truly,

Memorandum

To: Field Team, Region IV (through A. H. Koschmann)

From: C. A. Anderson

Subject: DMA Docket 1304X, Kay Copper Mine, Yavapai County, Arizona

I have talked to H. F. Mills, General Manager, Iron King mine, Shattuck Demm Mining Corporation, about a possible date for field examination of the Kay Copper mine. Mr. Mills has informed me, confidentially, of certain negotiations that Shattuck Demm Mining Corporation is making with other interested parties in the exploration program at the Kay Copper mine. At present, Mr. Mills wishes that no examination of the mine be made by DMA examining personnel, but that if present negotiations fail to materialize, he would like the examination to be made.

The brochure covering DMA docket 1304X is enclosed, and I recommend it be placed in the inactive files in the Denver office. When and if Mr. Mills requests the examination, the brochure can be returned to Tucson.
