Mr. E. A. Dilks

Cross Roads, California

Re: DMA-1138
Commodity-Copper

Dear Mr. Dilks:

This is to acknowledge your letter of February 13, 1952 addressed to Mr. Jean Lagrum and which was referred to the Copper Branch, Domestic Expansion Division of this Agency for reply.

The application you speak of for the construction of a mill has been withdrawn by this office November 30, 1951 in accordance with a form letter sent to you dated October 4, 1951. Your original application received by this office was not accompanied by any Government forms. As it is a policy that a formal application be submitted on the necessary forms for Government assistance, eight copies of MF-100 and 102 were sent to you on August 1, 1951 to be filled out and returned with a request for supporting data of maps, reports, etc. to accompany the forms. This material was never received by the Copper Branch. On August 23, 1951 we sent you another letter requesting information as to the identity of an application for an E. A. Dilks in Shaw-gun, Washington which was never answered. On October 4, 1951 we sent a form letter stating that if no formal application was received before October 10, 1951 your application would be considered withdrawn. This letter was not answered either. As we did not receive any correspondence from you pertaining to our letters we concluded that you were no longer interested in Government assistance and therefore withdrew your application.

However, if you still wish to receive Government assistance for your mill we will be glad to consider your application. Enclosed herewith are six copies each of MF-100 and MF-102 to assist in making application should you so desire. Supporting material should accompany these forms to show justification for your requested loan. You must have proven ore reserves of sufficient grade and tonnage to amortize your requested loan from profits over a period of time. In case you intend to operate a custom mill it will be necessary to show the source of ores to be treated and the amount available, costs and all other information requested on Form MF-102.

Very truly yours,

J. E. Gowen
