SUNSHINE CONSOLIDATED, INC.

President's Report

March 12, 1962

To the Stockholders of
SUNSHINE CONSOLIDATED, INC.:

Your directors herewith submit for your consideration the 1961 Annual Report covering your Company's mining operations and financial statements.

The Sunshine Mining Company, operator of your Company's property, mined 1,604 tons of ore from the Sun Con Area during 1961. The silver content of this ore averaged 31.93 ounces per ton. Development work amounted to 101.5 feet of drifting on two intermediate levels and 124 feet of raising.

The long diamond drill hole, being driven downward from the surface at the beginning of the year, cut the Yankee Girl vein at approximately 800 feet below the surface. The vein contained some silver mineralization and plans are being made to drill the vein again from other horizons.

During the latter part of the year, plans were being discussed involving an extensive exploration program. This program would entail diamond drilling mineralized structures from various levels in the mine and the driving of the 3100 level on westward.

In November, 1961, by Presidential order, the U. S. Treasury discontinued its sales of "Free Silver" to domestic consumers. Immediately the price of silver advanced from 91.5c to $1.045 per ounce, then settled back to $1.015 per ounce. This represents approximately a 10% increase in price. With the world's consumption of silver greater than its production, it is anticipated that there will be a gradual increase in the price of silver. With a higher price for silver some of the unstoped ground in the Sun Con Area would become ore. Also with a brighter outlook for silver, more exploration work would be justified.

If you cannot attend the Annual Meeting, I would appreciate your returning the enclosed proxy.

FOR THE BOARD OF DIRECTORS,

W. M. YEAMAN, *President*

SUNSHINE CONSOLIDATED, INC.

Income Statement

Year Ended December 31, 1961

Income—		
Sale of concentrates	$ 33,448.80	
Interest income	4,101.26	
Other income	58.25	$ 37,608.31
Costs and other Expenses—		
Concentrates on hand at beginning of year	10,672.02	
Mining and milling	45,276.34	
Officers' salaries	4,800.00	
Office services and expenses	3,183.16	
Legal and auditing	1,695.00

Less concentrates on hand at end of year	746.22	66,971.44
Loss before depletion		29,363.13
Depletion of property (Note 2)		16,106.66
Net loss		$ 45,469.79

NOTES TO FINANCIAL STATEMENTS

NOTE 1: Big Creek Apex Mining Company is an Idaho corporation with authorized and outstanding capital of 2,000,000 shares having a par value of 5c per share. Its principal assets are mineral claims adjoining the claims of Sunshine Consolidated, Inc. If Sunshine Consolidated, Inc. desires to dispose of its Big Creek Apex Mining Company stock (it is the owner of 1,400,000 shares) it is obliged to give Sunshine Mining Company the first refusal thereof on terms as favorable as it may then be able to obtain elsewhere. Development costs within areas belonging to Big Creek Apex Mining Company paid for by Sunshine Consolidated, Inc. are to be recovered by the latter company out of the net proceeds of commercial ores (in the event any are discovered) taken from these areas.

NOTE 2: Mineral claims and development are stated at cost, less substantial write downs, and include $269,750 representing one-half of the par value of 2,158,000 shares of capital stock issued in connection with the claims. The provision for depletion has been computed by the units mined method at a rate sufficient in the amount to provide for the amortization of the net book value of the property on exhaustion of the estimated ore reserves.

SUNSHINE CONSOLIDATED, INC.

Report of Independent Public Accountants

To the Board of Directors
Sunshine Consolidated, Inc.:

We have examined the balance sheet of Sunshine Consolidated, Inc., as of December 31, 1961, and the related income statement for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and income statement, together with the notes thereto, present fairly the financial position of Sunshine Consolidated, Inc., at December 31, 1961, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.
