SIGLTON MINING COMPANY

The two 40 acre tracts outlined in red compose the acreage in the accompanying copy of lease. You will note the adjacent leases to the South noted as Margaret A. Eck and Earl E. & Orpha Weaver. It is proposed by applicant that if trend goes in that direction, to explore these properties. Applicant holds leases on these properties. Also to the southwest on plot noted as Nelly Ary, consisting of 30 acres, applicant has lease. It is thought that trend of ore follows a southwesterly trend, and would appear on this property. Applicant also has lease on 80 acres noted on map as A. J. Perry & Wife. Applicant hopes to eventually explore all this leased land.

You will note curved line running through these leases is outline of shale beds, and is indicative of possible producing ore bodies.
