REMARKS

PRESENT STATUS:

The property is owned by Western Uranium Corporation - 1014 E. Park, Riverton, Wyoming. UREDCO transferred its right, title and interest by an agreement dated July 19, 1958 copies of which have been obtained by the Government. Western, by mining lease has contracted Chapman and Morehouse, 616 Rood, Grand Junction, Colo. to do the stripping, mining, and selling with regard to production from subordinated land.

PRODUCTION:

Mr. D. Sigismund, Chapman and Morehouse representative in charge at the property informed me that for the period in excess of 4800 wet tons of production was shipped from the Rim No. 55 claim, the only productive subordinated claim to date.

For the record, in January 1959, 410.7 tons (wet) were shipped. No production was shipped in February 1959. All production has gone to either the Lucky Mc mill, Gas Hills, or Western Nuclear at Jeffery City.

STOCKPILING:

No stockpile exists, and there is no stockpiling policy.

RESERVES ON THE RIM NO. 55 CLAIM:

As the pit now exists the ore is mined out except for mineralization which may exist in a ramp which will be eventually mined as the pit is enlarged.

PIT STRIPPING:

The job calls for stripping 325,000 cubic yards of material. The job as of February 25, 1959 is approximately 20 percent completed. Mr. Sigismund declined to reveal stripping costs but informed me that the information may be obtained by writing Mr. George Morehouse, in care of Chapman and Morehouse, 616 Rood, Grand Junction, Colo.

SEGREGATION OF DMEA ORE FROM NON-DMEA ORE:

When the ore was exposed by stripping, the contractor suspended a line across the pit which coincided with the side line dividing the Rim No. 55 claim from the Rim No. 59 claim. The terminal points of the suspended line were aligned with the common claim corners by transit. A man stationed astride the claim line at the pit edge directed DMEA ore to a segregated area as it was mined. The method gave the Government its equitable share of the proceeds derived from the subsequent sale of the DMEA Segregated Production.

DMEA production - The figure of 4890.808 SDT of DMEA production for the period was confirmed by the Casper, AEC office.

GENERAL:

The mining contractor expects to go underground to mine on the Rim No. 59 claim (not subordinated) in May 1959.

Re: Docket #DMEA-4644(Uranium)
Contract #IDM-E1166
Rim Group Claims
Fremont County, Wyoming

Gentlemen:

We are enclosing three copies of each of the following Settlement Sheets, for ore shipped from Rim Claim #55:

Liquidation Number and Company	Net Proceeds	5% to D.M.E.A.	Month
316 - Fremont Minerals	$4 621.57	$231.08	April
143 - Western Nuclear	40 584.26	2 029.21	May
357 - Fremont Minerals	43 878.26	2 193.92	May
Totals	$89 084.09	$4 454.21	
	Minus -	198.32	
		$4 255.89	Due D.M.E.A.

On our first payment to you, made in February 1959, we inadvertently substituted the amount paid on Settlement Sheet #112 for Rim Claim #59, for Settlement Sheet #107 for Rim Claim #55. Due to this the total we paid you was $198.32 more than it should have been. Therefore, we have subtracted $198.32 from the amount due D.M.E.A. for the above Settlement Sheets #316, 143, and 357.

This reduces the amount owed D.M.E.A. to $15,581.82.

Respectfully yours,
