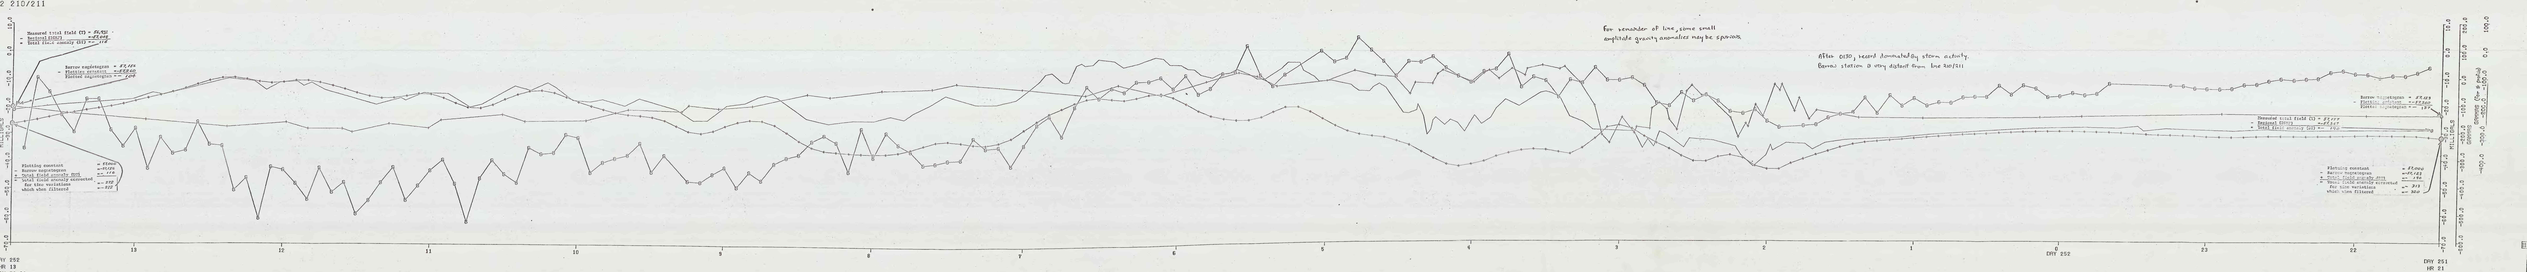
BI 72 210/211



For remainder of line, some small amplitude gravity anomalies may be spurious.
After 0130, record dominated by storm activity. Eotvos station a very distant from line 210/211
Measured total field (T) = 47,127
Measured gravity = 980,161
Total field anomaly (TF) = 1,127
Barometer eigenfreqmax = 47,125
Plotting scale(mgal) = 0.0250
Eotvos eigenfreqmax = 1,250
Plotting constant = 47,000
Barometer eigenfreqmin = 0.000
Total field anomaly (TF) = 0.000
Eotvos eigenfreqmin = 0.000
for this variables which when filtered = 0.000
