BI 72 211/212

Gravity after hour 23 taken on run to north. Not actually on line 211-212. Sharp drop in gravity probably due to turn.
Some small gravity anomalies may be spurious.
Barrow magnetogram = 52183
- Plotting constant = -57260
Plotted magnetogram = - 117
Measured total field (T) = 54.845
- Regional (DGRF) = -57.008
= Total field anomaly (DG) = - 162
Plotting constant = 57000
- Barrow magnetogram = -52183
- Total field anomaly (DG) = - 163
= Total field anomaly corrected for time variations which when filtered = - 305
= - 250
Barrow magnetogram = 52146
- Plotting constant = -57260
Plotted magnetogram = - 114
Measured total field (T) = 54.932
- Regional (DGRF) = -57.008
= Total field anomaly (DG) = - 178
Plotting constant = 57000
- Barrow magnetogram = -52146
- Total field anomaly (DG) = - 146
= Total field anomaly corrected for time variations which when filtered = -272
= -270
