Memorandum

To: Chief, Operations, Control and Statistics Division

From: Chief, Nonmetallic Minerals Division

Subject: Closing of Docket No. DMEA-2541
M. J. Mognett
Talc, Quartz Crystal, Asbestos
Eureka Mining Claim No. 1
Sierra County, California

The above application, dated April 25, 1952, was received May 20, 1952. On June 4 and 5 recommendations were made by the Geological Survey and the Bureau of Mines respectively, that the applicant be asked to furnish samples of the various minerals for which exploration aid was requested as there was no information to indicate their occurrence on the property involved. These samples were requested by letter dated June 9. No reply was received and on October 16th the applicant was notified that the Docket would be considered closed on November 16 if the samples had not been received by that date.

Since nothing further has been received, it is recommended that the Docket be closed.

OCT 1 6 1952

Mr. M. J. Mognett
Box 896
Florence, Arizona

Subject: Docket No. DMEA-2541 - Talc,
Quartz Crystal, Asbestos
Eureka Mining Claim No. 1
Sierra County, California

Dear Mr. Mognett:

Reference is made to the subject application for exploration assistance for talc, quartz crystal, asbestos and gold on Eureka Mining Claim No. 1, located about ten miles north of Sierra City, Sierra County, California.

In a letter dated June 9, 1952, you were advised of the Defense Minerals Exploration Administration's interest in obtaining samples of your block talc which might be suitable for electronic insulators. A short treatise on stockpile acceptability tests for talc was enclosed and the suggestion was made that representative samples be forwarded to the General Services Administration if you felt that the samples merited testing. Also enclosed was "National Stockpile Specification P-43, Crystals, Quartz, Raw", with the suggestion that the Director, Squier Signal Laboratory, Fort Monmouth, New Jersey, be contacted for testing.

It was requested that two samples of long fiber asbestos be sent to this office, one-half pound of the best obtainable material and one-half pound representative of the exposed outcrop.

Nothing further has been received from you and we assume that you no longer desire to proceed with the application. We wish to cooperate with you in the matter of allowing ample time, but if the needed samples have not been received by November 16, 1952, we will then consider the docket closed.

Sincerely yours,

C. O. Mittendorf (for) 10.16.52

Subject: Docket No. DMEA-2541 - Talc, Quartz Crystal, Asbestos
Eureka Mining Claim No. 1
Sierra County, California

Dear Mr. Mognett:

Reference is made to the subject application for exploration for talc, quartz crystal, asbestos, and gold, located about ten miles north of Sierra City, Sierra County, California.

Your application is not completed in sufficient detail to enable this office to properly evaluate its merits. I would suggest that you supply this office with representative samples of the talc, quartz crystal and asbestos which occur on your property before any attempt is made to complete your application form. The Defense Minerals Exploration Administration does not provide exploration assistance on gold prospects.

The Defense Minerals Exploration Administration is interested in obtaining samples of your block talc which may be suitable for electronic insulators. You will find enclosed a short treatise on talc sample stockpile acceptability tests. I would suggest that after reading the specification, should you feel your samples merit testing, that you supply representative samples of the talc to the General Services Administration. You will also find enclosed National Stockpile Specification P-43, Crystals, Quartz, Raw, which will give you information on current specifications for quartz crystals. You may contact the Director, Squier Signal Laboratory, Fort Monmouth, New Jersey, for testing.

Samples of your long fiber asbestos should be sent to this office. I would suggest that you send approximately one-half pound of the best obtainable material and one-half pound representative of the exposure.

WASHINGTON 25, D. C.

June 5, 1952

Memorandum

To: Nonmetallic Minerals Division
Defense Minerals Exploration Administration

From: E. Robert Ruhlman, Commodity Specialist
Ceramic and Fertilizer Materials Branch

Subject: DMEA - 2541, M. J. Mognett, Talc.

From the information given in MF-100 and MF-103, the talc on this property is not of strategic grade and therefore the applicant is not eligible for DMEA assistance for block steatite.

There is no evidence of the occurrence of radio-grade quartz crystals on the property. If further information or samples are submitted, the application may warrant further consideration.

June 4, 1952

Memorandum

REVIEW OF APPLICATION DMEA-2541.

To: L. G. Houk, Non-Metallic Minerals Division, DMEA.
From: P. L. Weis, U. S. Geological Survey.
Applicant: M. J. Mognett.
Commodity: Talc (Asbestos?).
Name of Property: Eureka Mining Claim No. 1.
Location of Property: NW¼, sec. 16, T. 20 N., R. 13 E., Sierra Co., California.
Estimated Cost of Project: Applicant gives several figures, nearly all different. Apparently less than $1,000.
Summary of Applicant's Proposal: Not clear. Apparently consists of trenching on claim reported to contain talc, asbestos, quartz crystals and gold.
Sources of information on applicants' property: None.
Comments:

Applicant has submitted no data to indicate that his deposit contains any strategic talc, asbestos, or quartz crystal. Furthermore the application is very incomplete. The applicant's plans, if any, on how the exploration will be done are not stated clearly.

RECOMMENDATION:

Request applicant to submit samples of strategic talc, strategic asbestos, or strategic quartz crystal as evidence of their presence on the property.
If the material submitted is of strategic quality, or approaches strategic quality, a field team examination should be made.

INSTRUCTIONS

This form is to be filed with Defense Minerals Administration, Department of the Interior, Washington 25, D. C. It should be accompanied by appropriate application form when a specific type of Government assistance is requested, in the form of (1) loan, (2) purchase contract, (3) Government guarantee of a private loan, (4) priorities or allocation of mining equipment, and maintenance, repair and operating supplies, and (5) other forms of Government assistance that might arise under the Act. Submit four (4) signed copies of the form and accompanying papers. Name and address should be stamped or typed on each sheet of this form and all accompanying papers. *When a question is inapplicable it should be so stated on the form.* Additional sheets may be attached in answering any questions or in supplying additional information. (IF YOU CANNOT ANSWER A QUESTION, SO STATE.) If a question is answered elsewhere indicate where answered. It is not necessary to answer it again.

EXAMINED BY THE INTERIOR DEFENSE MINERALS ADMINISTRATION
RECEIVED
MAY 20 1952

GENERAL TECHNICAL DATA

Supply the following information on separate sheets, arranged, numbered, and lettered as indicated:

1. Materials produced:
   (a) What are the chief mine, mill, or smelter products? Gold, Quartz Crystals
   (b) What are the byproducts, if any? Talc
2. Name(s) and type(s) of mine(s), mill(s), smelter(s), refinery(ies), pit(s), quarry (ies), drilling operation(s). Include old names of property, if any. Show extent of workings, including the following: Geo. & John Brooks worked 65 years ago.
   (a) Linear feet of shafts.
   (b) Linear feet of drifts and crosscuts.
   (c) Linear feet of tunnels or adits. 40 ft. caved in tunnel.
   (d) Linear feet of other mine openings (explain briefly). None

   Indicate whether mine is flooded or not. Describe any pumping problems. Give size or productive capacity. Not flooded
3. For each operation listed above supply the following:
   (a) Distance and direction from nearest town and shipping point. 12 mi. N. of Sierra City. R.R. ship Point 50 mi. at Truckee on S.P.
   (b) Mining district. Sierra-Sierra Co. Calif.
   (c) Township, Section, Range. Sec. 16, T20N R13E
   (d) County, State. Sierra Co. Calif.
4. (a) State whether or not property is now in operation, and if in operation, by whom operated Not in operation
   (b) Are you operating this property as:
   - [X] Owner.
   - [ ] Lessee.
   - [ ] Contractor.
5. Number of years in production 1 year ~~about 65 years ago~~

   If not in production or operation, estimated date when production will begin ~~August 1, 1952~~
6. Experience of operators:

   Describe the mining and general business experience of (a) the applicant, and (b) the person or persons who manage the project. 5 years mining experience, 20 yrs. in business and in now.
7. History:
   (a) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for suspension of operation All I know on this for sure is hear say.
   (b) State briefly the known history and production of adjoining and neighboring properties. Butte Mine Good
   (c) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations. None that I know of.

16—63792-2

8. Names and addresses of Officers, Directors, or Partners, and in addition thereto, the five largest stockholders if applicant is a corporation.

Name and Address (a)	Official Title (If officer is also director indicate by "D") (b)	Total of Annual Salary, Commissions, Bonuses, Etc., Received From Applicant and Affiliates During Last Fiscal Year (c)	Estimated Net Worth Outside of Interest in Applicant (d)	Number of Shares Held in Applicant Corporation		Life Insurance Carried for Benefit of Applicant	
				Common (e)	Preferred (f)	Amount (g)	Net Cash Surrender Value After Loans (h)
	Total		x x x x x			x x x x x	x x x x x

If more lines are needed continue on separate sheet.

9. Capital Stock Issues:

For Corporate Applicants

Item	Authorized (a)	Outstanding (b)	Par Value (c)	Number of Shares Outstanding (d)	Dividend Rate Last Paid* (e)
Common stock	$	$	$		
Preferred stock	$	$	$		

*Indicate period covered.

10. Production:

Item	Kind of Product (a)	1948 Total (b)	1949 Total (c)	1950 Total (d)	Present Average Monthly (e)
1. Quantity of product mined or quarried (Short, long, metric tons; barrels; pounds; etc.)					
2. Quantity of product processed (specify unit of measure and type of process)					
3. Quantity and grade of product sold or shipped (specify units of measure)					

11. Do you contemplate a change in the present average monthly rate of production? If so, state estimated maximum monthly production and basis of change.

12. Ore or Mineral Reserves: None, this is new.

(a) Describe the ore or mine[illegible] deposit briefly. Accompany the application [illegible]any available report on the geology and ore reserves. Talc le[illegible]ge

Section 16

There is considerable talc float at this point - Sec. 16 - T20N- R13E, and if I can find a spot that Guy Moore and I were at in 1925, there is a good ledge of Talc not too hard that carries gold, and I am sure the gold will pay all the mine expense.

(*b*) If deposit is other than placer:

(1) Submit assay plans and/or sections showing location and size of proved (measured) and probable (indicated) ore or mineral reserve.

(2) State the tonnage (indicate type of ton) and grade of each class of ore reserve, as above, and show how computed. Tabulated total ore reserve as follows:

TOTAL ORE OR MINERAL RESERVES

Ore or Mineral Reserve	Estimated Tons (a)	Metal or Mineral Content Per Ton (Grade) (b)	Gross Value Per Ton (c)	Recoverable Unit Value Per Ton (d)	Estimated Cost of Production Per Ton (e)
Measured (proved)					
Indicated (probable)	60 tons per month	All Talc	Do not know		$8.00 per ton 2000#

(*c*) If placer:

(1) Give estimated total yardage and average marketable mineral content of each deposit. Unable to Estimate

(2) Submit map showing location of placer deposit and surrounding area, with all test holes or pits. Submit logs of each hole and test pit with depth and average value of each. Not yet tested

(3) Describe gravel, stating whether fine, medium or coarse; loose, tight, cemented, or frozen, and whether it contains stumps or boulders more than 1 foot in diameter; if so, how large, and in what proportion. Loose Gravel, No Stumps, Boulders less than 1 Foot

(4) Describe bedrock, giving type (granite, sandstone, shale, etc.) and state whether it is hard or soft, smooth, even or rough. Uneven Granite

(5) Describe overburden, stating whether loose, tight, or cemented; fine or coarse textured; furnish estimate of average thickness and total amount. Loose, Fine Texture-Thickness 10 Ft. Average

(6) Tabulate the reserves using the form outlined above for ore or mineral reserves.

13. Access Roads:

Give road distances to shipping, supply and residence points, stating kind and condition of roads. Shipping S.P at Truckee 50 mi. Paved Hiway 49-Supply-Sierra City-12 mi. on Hiway 49.

14. Water Supply: Ample supply gravity water 10 months a year.

State source and quantity of water available for operations and whether sufficient for all seasons of year.

15. Power: P.G. & E. Electric Power Available.

State amount of power used, rate per hour, and source thereof. Do Not know rates.

16. Labor: Have not employed labor yet.

State number and classes (miners, muckers, millmen, etc.) of men employed during a recent representative payroll period.

17. Equipment and Facilities: No buildings. I will build a 16' X 20' Cabin this next June on the property.

Describe present equipment on the property, including buildings. (State condition.) List major pieces of equipment now owned or controlled and in serviceable condition available for this operation.

18. Are there any particular conditions or circumstances affecting your operations that are not described above? If so, explain.

Budget Bureau No. 42-R1035.1.

MF-103 Should Be Filed With General Technical Data Form MF-100

APPLICATION FOR AID FOR AN EXPLORATION PROJECT PURSUANT TO MINERAL ORDER 5, UNDER DEFENSE PRODUCTION ACT OF 1950

Not To Be Filled in by Applicant

Docket No. DMEA-2541
Metal or Mineral
Date Received 5-20-52
Amount $
Participation (Government %)

N.J. Mognott.
Box 896 Florence,
Arizona.

Name and address of applicant

Date April, 25, 1952.

If you have already filed MF-100, give date filed None, type of assistance requested ,

DMA Docket Number (if available)

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four copies each, of the signed application form, General Technical Data Form MF-100, and answers to questions as specified, to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive office thereof, with your name and address on each sheet of the application and all accompanying papers. If you have previously filed MF-100, it is not necessary to file it again. However, you should indicate in space provided above the type of assistance previously applied for (loans, procurement contracts, etc.) and DMA Docket Number, if available. *When a question is inapplicable it should be so stated in the form.* Additional sheets should be attached in answering any questions or in supplying additional information. IF YOU CANNOT ANSWER A QUESTION, SO STATE.

1. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.

   (*b*) If you are not the owner of the property, submit a copy of the lease, purchase option, or other agreements under which you are authorized to operate the property with each copy of your application.

   (*c*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

   Cal. & Bl.49
   The long fibre asbestos is about one and half mi. N. E. of Sierra City

   NOTE: (1) If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*c*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

   (2) If applicant is not the owner of the property or if there are any liens or encumbrances against the property, copy of agreements of claimants, lienors, encumbrances, and lessors subordinating their interests in the property to the interest of the Government under the Exploration Project Contract will be required for attachment to the Contract.

2. (*a*) What metals or minerals do you expect to find?

   Talc, Quartz Crystals, Asbestos, Gold.

   (*b*) Furnish statement of the geologic features of your property, giving type of ore deposit and reasons for expecting to find commercial ore bodies. Illustrate with maps or sketches. If you have a geologic or engineering report, or assay maps showing width and grade, please send them with application, stating whether or not you wish to have them returned.

   Gold in Talc. Quartz. The vein runs from northeast to Southwest
   We do not know the with and grade nor do we have assay maps.

The information requested in questions 3, 4, 5, 6, 7, 8, and 9 below should be answered specifically and in detail, as this information will be attached to and incorporated as part of the Exploration Project Contract, if such contract is entered into with you by the Government.

ANSWER EACH QUESTION ON SEPARATE SHEETS OF PAPER AND SUBMIT A COPY OF EACH ANSWER FOR EACH COPY OF YOUR APPLICATION.

3. (*a*) Describe fully the proposed work and give the total cost of the project.

   (*b*) State the time required to start the project and to complete it.

4. Submit a map or sketch of the property involved showing a plan (and cross section, if needed) of the present mine workings and the *location of the proposed exploration work* as related to geologic features, such as contacts, veins, ore-bearing beds, etc.

5. Furnish an itemized list of existing facilities, buildings, installations, and fixtures with a statement of the cost of any necessary rehabilitation or repairs to put into useful and operable condition.

6. Furnish a detailed list of additional facilities, buildings, and fixtures to be purchased, installed, or erected by you, with the estimated cost of each item.

7. Furnish a detailed list of operating equipment, separated into items to be—

   (*a*) Rented

   (*b*) Purchased

   (*c*) Furnished by you Furnished by me.

   with the rental, purchase price, or depreciation of each item, as the case may be, to be charged as a cost of the project.

8. Furnish an itemized schedule of labor, by numbers and classes (miners, muckers, etc.) and of supervisors by numbers and positions, with the maximum wages or salaries to be paid to each.

9. Furnish a detailed list with estimated cost of each item for materials, supplies, engineering, assaying, accounting, power, water, utilities, and any other items not provided for above. Water under question A on map.

10. (*a*) How much are you prepared to invest in the proposed project? $ ~~1000.00~~ 400 00

    (*b*) Is this amount sufficient to pay your part of the cost of the project, in accordance with the regulations on Government participation (Sec. 9 of MO–5)? Yes.

11. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this form and accompanying papers is correct and complete to the best of their knowledge and belief.

Question 7

I have a Camp outfit & bedding, Cooking utensils, Camp Cots and tent.	100.00
1 - 4 line Block and tackle	8.00
2 sets hand Drills 7/8"	10.00
1 Drill spoon	2.00
1 - #4 Hammer	2.00
1 - #8 Hammer	5.00
2 Axes	5.00
3 Saws	14.00
2 Drift Picks	6.50
1 R.R Pick	2.50
1 Adz.	5.00
$500.00 worth of Pipe cutters, Glas & Plumbers tools.	500 -
$500.00 worth of Carpenter tools	500 -
$200.00 worth of Automotive tools	200 -
1 - 41 Chev. Truck Pickup, 4 speed forward $500.00	500 -
1 - 40 Chev. Sedan Two Door, all in good condition mechanically, tires good, $500.00	500 -
1 Windlass complete for hoisting & pulling	25 -
200 ft. 3/8 Cable	20 -
50 ft 1/2" Cable	10 -
1 - 6" Drill	30 -
1 - 6" Sand Pump	17 -
1 Sump Pump and Power(gasoline) Unit and 60' 1½" Hose for same with fittings.	300 -
	2762.-

These are all sharp and in good condition.

My dear Mr. Mognett:

This will acknowledge receipt of your application dated April 25, 1952 for a loan under the Defense Production Act of 1950.

Your application was assigned Docket Number DMEA-2541 and referred to the Non-Metallics Division.

Kindly refer to DMEA-2541 in any future correspondence relating to your application.

Sincerely yours,

ROBERT E. ADAMS

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four copies each, of the signed application form, General Technical Data Form MF-100, and answers to questions as specified, to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive office thereof, with your name and address on each sheet of the application and all accompanying papers. If you have previously filed MF-100, it is not necessary to file it again. However, you should indicate in space provided above the type of assistance previously applied for (loans, procurement contracts, etc.) and DMA Docket Number, if available. *When a question is inapplicable it should be so stated in the form.* Additional sheets should be attached in answering any questions or in supplying additional information. IF YOU CANNOT ANSWER A QUESTION, SO STATE.

1. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.

   (*b*) If you are not the owner of the property, submit a copy of the lease, purchase option, or other agreements under which you are authorized to operate the property with each copy of your application. None

   (*c*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.
   [illegible]

   NOTE: (1) If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*c*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

   (2) If applicant is not the owner of the property or if there are any liens or encumbrances against the property, copy of agreements of claimants, lienors, encumbrances, and lessors subordinating their interests in the property to the interest of the Government under the Exploration Project Contract will be required for attachment to the Contract. None, [illegible]

2. (*a*) What metals or minerals do you expect to find?

   (*b*) Furnish statement of the geologic features of your property, giving type of ore deposit and reasons for expecting to find commercial ore bodies. Illustrate with maps or sketches. If you have a geologic or engineering report, or assay maps showing width and grade, please send them with application, stating whether or not you wish to have them returned.
   [illegible]

The information requested [illegible] questions 3, 4, 5, 6, 7, 8, and 9 below should b[illegible]nswered specifically and in detail, as this information will be attached to and incorporated as part of the Exploration Project Contract, if such contract is entered into with you by the Government.

ANSWER EACH QUESTION ON SEPARATE SHEETS OF PAPER AND SUBMIT A COPY OF EACH ANSWER FOR EACH COPY OF YOUR APPLICATION.

3. (*a*) Describe fully the proposed work and give the total cost of the project.

   (*b*) State the time required to start the project and to complete it.

4. Submit a map or sketch of the property involved showing a plan (and cross section, if needed) of the present mine workings and the *location of the proposed exploration work* as related to geologic features, such as contacts, veins, ore-bearing beds, etc.

5. Furnish an itemized list of existing facilities, buildings, installations, and fixtures with a statement of the cost of any necessary rehabilitation or repairs to put into useful and operable condition.

6. Furnish a detailed list of additional facilities, buildings, and fixtures to be purchased, installed, or erected by you, with the estimated cost of each item.

7. Furnish a detailed list of operating equipment, separated into items to be—

   (*a*) Rented

   (*b*) Purchased

   (*c*) Furnished by you Furnished by me.

   with the rental, purchase price, or depreciation of each item, as the case may be, to be charged as a cost of the project.

8. Furnish an itemized schedule of labor, by numbers and classes (miners, muckers, etc.) and of supervisors by numbers and positions, with the maximum wages or salaries to be paid to each.

9. Furnish a detailed list with estimated cost of each item for materials, supplies, engineering, assaying, accounting, power, water, utilities, and any other items not provided for above. Labor under question 6 on exp.

10. (*a*) How much are you prepared to invest in the proposed project? $ ~~2000.00~~ 400.00

    (*b*) Is this amount sufficient to pay your part of the cost of the project, in accordance with the regulations on Government participation (Sec. 9 of MO–5)? Yes.

11. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

CERTIFICATION

Question 1 - A.

There is an old mine tunnel about 40 feet long, caved in, about 15 ft, under surface, an old dump cabin 10 x 20' gold in talc, and I think the kind you want for rubber work, there is a vein of harder talc near this which may be uncovered, and I think it will cost 6 or 8 hundred dollars to expose the ledge, with the cable I have, trailer 6 hammers Pluto 2 Chevrolet, and a 42 4 speed Chev. Pickup in good condition, and a good carp outfit. If I can borrow 1000.00 for this project, I am sure I can produce as stated you want in 60 days after June 1, 1950.

Name and address of applicant

Date April 25-52

INSTRUCTIONS

This form is to be filed with Defense Minerals Administration, Department of the Interior, Washington 25, D. C. It should be accompanied by appropriate application form when a specific type of Government assistance is requested, in the form of (1) loan, (2) purchase contract, (3) Government guarantee of a private loan, (4) priorities or allocation of mining equipment, and maintenance, repair and operating supplies, and (5) other forms of Government assistance that might arise under the Act. Submit four (4) signed copies of the form and accompanying papers. Name and address should be stamped or typed on each sheet of this form and all accompanying papers. *When a question is inapplicable it should be so stated on the form.* Additional sheets may be attached in answering any questions or in supplying additional information. (IF YOU CAN NOT ANSWER A QUESTION, SO STATE.) If a question is answered elsewhere indicate where answered. It is not necessary to answer it again.

DEPARTMENT OF THE INTERIOR
Defense Minerals Administration
FILED
MAY 20 1952

GENERAL TECHNICAL DATA

Supply the following information on separate sheets, arranged, numbered, and lettered as indicated:

1. Materials produced:
   (*a*) What are the chief mine, mill, or smelter products? Gold, Quartz Crystals.
   (*b*) What are the byproducts, if any? Talc.
2. Name(s) and type(s) of mine(s), mill(s), smelter(s), refinery(ies), pit(s), quarry (ies), drilling operation(s). Include old names of property, if any. Show extent of workings, including the following: Geo & John Brook's worked
   (*a*) Linear feet of shafts. 65 years ago.
   (*b*) Linear feet of drifts and crosscuts.
   (*c*) Linear feet of tunnels or adits. 40 ft. caved in tunnel.
   (*d*) Linear feet of other mine openings (explain briefly). None
   Indicate whether mine is flooded or not. Describe any pumping problems. Give size or productive capacity. Not
3. For each operation listed above supply the following:
   (*a*) Distance and direction from nearest town and shipping point. 12 mi N of Sierra City
   (*b*) Mining district. Sierra-Sierra Co. Cal. Point 58 mi at Truckee on S.P.
   (*c*) Township, Section, Range. Sec. 15, T 20 N R 13E.
   (*d*) County, State. Sierra Co. Calif.
4. (*a*) State whether or not property is now in operation, and if in operation, by whom operated. No, not in operation
   (*b*) Are you operating this property as:
   - [x] Owner.
   - [ ] Lessee.
   - [ ] Contractor.
5. Number of years in production 1 year about 65 years ago.
   If not in production or operation, estimated date when production will begin August 1, 1952.
6. Experience of operators:
   Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who manage the project. 5 years mining experience, 20 yrs. in business, am an owner.
7. History:
   (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for suspension of operation. All I know on this property is hearsay.
   (*b*) State briefly the known history and production of adjoining and neighboring properties. Butte mine good.
   (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations. None that I have of.

8. Names and addresses of Officers, Directors, or Partners, and in addition thereto, the five largest stockholders if applicant is a corporation.

Name and Address (a)	Official Title (If officer is also director indicate by "D") (b)	Total of Annual Salary, Commissions, Bonuses, Etc., Received From Applicant and Affiliates During Last Fiscal Year (c)	Estimated Net Worth Outside of Interest in Applicant (d)	Number of Shares Held in Applicant Corporation: Common (e)	Number of Shares Held in Applicant Corporation: Preferred (f)	Life Insurance Carried for Benefit of Applicant: Amount (g)	Life Insurance Carried for Benefit of Applicant: Net Cash Surrender Value After Loans (h)
	Total		x x x x x			x x x x x	x x x x x

If more lines are needed continue on separate sheet.

9. Capital Stock Issues:

For Corporate Applicants

Item	Authorized (a)	Outstanding (b)	Par Value (c)	Number of Shares Outstanding (d)	Dividend Rate Last Paid* (e)
Common stock	$	$	$		
Preferred stock	$	$	$		

*Indicate period covered.

10. Production:

Item	Kind of Product (a)	1948 Total (b)	1949 Total (c)	1950 Total (d)	Present Average Monthly (e)
1. Quantity of product mined or quarried (Short, long, metric tons; barrels; pounds; etc.)					
2. Quantity of product processed (specify unit of measure and type of process)					
3. Quantity and grade of product sold or shipped (specify units of measure)					

11. Do you contemplate a change in the present average monthly rate of production? If so, state estimated maximum monthly production and basis of change.

12. Ore or Mineral Reserves: None. this is new.

(a) Describe the ore or mine[illegible] deposit briefly. Accompany the application b[illegible]y available report on the geology and ore reserves. Talc ledge.

DEPARTMENT OF INTERIOR
BUREAU OF MINES
REGION III
RECEIVED

1952 MAY 14 PM 1:58

SAN FRANCISCO, CALIFORNIA

(*b*) If deposit is other than placer:

(1) Submit assay plans and/or sections showing location and size of proved (measured) and probable (indicated) ore or mineral reserve.

(2) State the tonnage (indicate type of ton) and grade of each class of ore reserve, as above, and show how computed. Tabulated total ore reserve as follows:

TOTAL ORE OR MINERAL RESERVES

Ore or Mineral Reserve	Estimated Tons (a)	Metal or Mineral Content Per Ton (Grade) (b)	Gross Value Per Ton (c)	Recoverable Unit Value Per Ton (d)	Estimated Cost of Production Per Ton (e)
Measured (proved)					
Indicated (probable)	bottom not no.	All talc	Do not know		8.00 per ton FOB

(*c*) If placer:

(1) Give estimated total yardage and average marketable mineral content of each deposit. UNABLE to ESTIMATE.

(2) Submit map showing location of placer deposit and surrounding area, with all test holes or pits. Submit logs of each hole and test pit with depth and average value of each. NOT YET TESTED

(3) Describe gravel, stating whether fine, medium or coarse; loose, tight, cemented, or frozen, and whether it contains stumps or boulders more than 1 foot in diameter; if so, how large, and in what proportion. LOOSE GRAVEL - No STUMPS - BOULDERS LESS THAN 1 FOOT

(4) Describe bedrock, giving type (granite, sandstone, shale, etc.) and state whether it is hard or soft, smooth, uneven or rough. UNEVEN GRANITE

(5) Describe overburden, stating whether loose, tight, or cemented; fine or coarse textured; furnish estimate of average thickness and total amount. LOOSE, FINE TEXTURE - THICKNESS 10 FT. average

(6) Tabulate the reserves using the form outlined above for ore or mineral reserves.

13. Access Roads:

Give road distances to shipping, supply and residence points, stating kind and condition of roads. Shipping point TRUCKLE 50 MILES. PAVED HIGHWAY 49 - SUPPLY - SIERRA CITY - 12 MILES [illegible]

14. Water Supply: Ample supply gravity water 10 months [illegible]

State source and quantity of water available for operations and whether sufficient for all seasons of year.

15. Power:

State amount of power used, rate per hour, and source thereof. P.G.&E. ELECTRIC POWER AVAILABLE. Don't know [illegible]

16. Labor: Have not employed labor yet.

State number and classes (miners, muckers, millmen, etc.) of men employed during a recent representative payroll period.

17. Equipment and Facilities: No buildings. Should build a 16' x 20' cabin this next June on the property.

Describe present equipment on the property, including buildings. (State condition.) List major pieces of equipment now owned or controlled and in serviceable condition available for this operation.

18. Are there any particular conditions or circumstances affecting your operations that are not described above? If so, explain.
