
After Tweto and Sims, 1963, pl. 1)

EXPLANATION

IGNEOUS AND METAMORPHIC ROCKS

TERTIARY

Volcanic rocks

CRETACEOUS AND TERTIARY

Stocks — Dikes and sills — Groups of sills

Laramide intrusive rocks

PRECAMBRIAN

Granitic rocks

Metamorphic rocks

Lines indicate general trend of foliation

SEDIMENTARY ROCKS

TERTIARY AND QUATERNARY

QTs

Sedimentary rocks and surficial deposits

CAMBRIAN TO CRETACEOUS

K€

Sedimentary rocks

Contact

High-angle fault

Dashed where inferred

Thrust fault

Sawteeth on upper plate

Shear zone
