

## EXPLANATION

—?———?—
Probable subsurface fault

———
——5000——
Structure contours
*Drawn on top of basement complex; datum is sea level. Contour interval 500 feet at minus 2000 feet and greater depths (long dashes); contour interval 100 feet at depths less than minus 2000 feet (short dashes)*

Approximate boundary of oil field

75
Selected exploratory well or outpost well that reached basement complex
*Numbered according to table 2*

M
Selected producing oil well that reached basement complex

A Socony Mobil Oil Ferrini 73
B Socony Mobil Oil Hambey 18
C Socony Mobil Oil Hambey 150
D Socony Mobil Oil Orradre 1-6
E Socony Mobil Oil Orradre 28
F Socony Mobil Oil Orradre 152
G Texaco Rosenberg 50
H Texaco Rosenberg 52
I Texaco Rosenberg 57
J Texaco Rosenberg 81
K Texaco Rosenberg 90
L Texaco Rosenberg 96
M Texaco Rosenberg 106
