

Underground workings based on maps of the Idaho Almaden Mines Co.

Based on planetable surveys by C. P. Ross and R. P. Fuli, 1941, with additions by C. P. Ross, assisted by N. W. Balcom, 1943. Geologic data in underground workings by C. P. Ross, 1941.

Section based mainly on workings as they existed in August 1941, with later stoping indicated in dashed lines. Shapes of stopes approximate. Pillars shown here probably have been mined.

GEOLOGIC MAP AND SECTIONS OF THE PRINCIPAL WORKINGS OF THE IDAHO ALMADEN MINE, WASHINGTON COUNTY, IDAHO
