GENERAL INSTRUCTIONS

Before filling out this application, please read the *OME Regulations for Obtaining Federal Assistance in Financing Explorations for Mineral Reserves* (30 CFR Chap. III). To assure prompt action, your application must provide all applicable material and information specified on the back of this application form. Avoid unnecessary correspondence and delays by submitting complete and accurate information. *Please submit two copies of this application and all accompanying papers* except as otherwise noted. Place your name and address on each sheet. Each item of information, maps, and reports required as a part of this application is described on the back of this form. Identify each attached statement by the item number to which it applies. If an item does not apply to your application, show the item number on your statement and after it write "not applicable." Maps or sketches should be used to supplement narrative descriptions of the property location and boundaries in item 2, existing mine workings and geology in item 3, and the proposed exploration work in item 5. When this information is not too complex, all of it may be shown on one map or sketch. All documents and other attachments submitted as a part of this application, except those in item 3(g) which you mark to be returned, become the property of the Government and will not be returned to the applicant. Send true copies, *not originals*, of leases, contracts, and other documents which are an essential part of your business records. *File this application with the Office of Minerals Exploration, Department of the Interior,* ~~Washington, D. C., or with the nearest OME Field Office.~~ Washington, D. C., 20242, or with the nearest OME Field Office.

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief, and that he would not ordinarily undertake the proposed exploration under current conditions and circumstances at his sole expense.

INFORMATION REQUIRED WITH THIS APPLICATION

1. Financial Eligibility:

(a) Submit evidence of efforts made within 90 days preceding the filing of this application to obtain credit from your bank of account and at least one other banking institution or other private source of credit. Such evidence shall include true copies of correspondence which show: (1) date of loan request, (2) amount and terms requested, (3) proposed use of loan funds, and (4) the replies from credit sources. If the loan was offered under terms which you consider unreasonable, state why you consider them so.

(b) List names and addresses of affiliated, parent, or controlling companies or organizations and state extent and nature of their interest.

(c) State how you propose to furnish your share of the cost of the exploration work.

2. Applicant's Rights in Land:

(a) State your interest in the land and mineral rights, whether owner, lessee, purchaser under contract, or other. If you are not the owner, submit one true copy of the lease, contract, or other document (with address of owner) under which you control the property. Describe all liens, mortgages, or other encumbrances on the land and state book and page number and official place where recorded.

(b) State the legal description (section, township, and range; metes and bounds; patent number of claims) of the land upon which you wish to explore and all adjacent land which you own or control. Describe any part of the land or workings which should not be subject to Government royalty and liens. If the land consists of unpatented claims, state book and page number for each recorded location notice, including amended locations, and official place where recorded. State all the names by which you know the property.

(c) For all land or mineral rights encumbered or not owned, submit five copies of Lien and Subordination Agreements on MME Form 52. If the agreements cannot be obtained, state reasons and provide copies of letters of refusal.

3. Physical Description:

(a) Describe in detail and illustrate with maps or sketches all mining or exploration operations which you know have been or are being conducted upon the land. Include existing mine workings and all production facilities.

(b) State your interest, if any, in operations described in (a).

(c) State, if you know, the past and current production, supporting your statement with copies of settlement sheets, mine records, or published data if available.

(d) Describe known ore reserves, giving quantities and grades and sampling methods used. Support your statement with copies of assay certificates and assay maps if available.

(e) Describe by narrative and maps or sketches the geologic features of the property, including ore minerals, geologic formations if known, and type of deposit (vein, bedded, etc.).

(f) State your reasons for expecting to find ore, and if you have sampled the area you propose to explore, show where the samples were taken, describe sampling methods used, and provide copies of assay certificates.

(g) Send with your application at least *two* copies of all geologic or engineering reports, assay maps, or technologic information which you have, indicating whether you require their return.

4. Accessibility of Property:

(a) To aid the OME representative who may examine the property, state name and address of person who will meet him; give directions for reaching the property; and describe accessibility of property and of any mine workings.

(b) Name the shipping and supply points and state the distances to the property.

5. Exploration Work:

(a) Describe fully the proposed exploration work giving individual footages and sizes of openings *for each item of work.* Use narrative, maps, plans, and sections as necessary. Show location of the proposed work as related to geologic features such as veins, ore-bearing beds, contacts of rock formations, etc. Show also the relation of the proposed work to any existing mine workings and to *land boundaries* or to the closest identifiable corner.

(b) If an access road must be built, show the proposed location on the property map and state the length, type and construction methods proposed.

(c) If an OME contract is executed, state how soon thereafter work would be started and finished. State your anticipated average daily or monthly rate of progress for each type of work.

6. Experience:

State your operating experience and background to conduct this exploration work and also that of the person who will supervise the work.

7. Estimate of Costs:

Furnish detailed estimates of the necessary costs *for each item of the work proposed in 5(a)* under the headings listed below with a total for each heading and the estimated total cost of the work. Costs for any work to be performed by an independent contractor should be listed separately under category (a) below. Costs for any work that is not to be performed by an independent contractor should be listed under categories (b) through (g).

(a) Independent contracts. State the total cost of any proposed independent contract for all or any part of the work, and the number of units and the unit cost for each type of work, such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, or per cubic yard of material moved. Cost estimates should be supported by bids from three contractors if possible. (*Note*—If none of the work is to be contracted, write "none" after this item.)

(b) Personal services. The cost of supervision, engineering and geological services, outside consultants, and labor should be itemized by numbers and classes of employees; rates of wages, salaries or fees; and periods of employment. State whether these services are available.

(c) Operating materials and supplies. List items of material and supplies giving quantity and cost of each. Include under this heading power, water, and fuel, and units of equipment and tools costing less than $50 each.

(d) Operating equipment. List items of equipment and tools costing $50 or more per unit. Give specifications and indicate how each item is to be acquired—i.e., rented, purchased or provided by the applicant. If rented or purchased, state the estimated rental or purchase price. If furnished by the applicant, state condition and present fair market value.

(e) Initial rehabilitation and repairs. Describe the type and the cost of *initial* rehabilitation or repair of existing buildings, fixtures, installations (exclusive of mine workings), and movable operating equipment now owned by the applicant which will be used in the exploration work.

(f) New buildings, fixtures, installations. Describe each building, fixed improvement, and installation to be purchased, constructed, or installed for the exploration work, stating specifications and cost including labor, materials, and supervision.

(g) Miscellaneous. Describe the type and estimate the cost of repairs and maintenance of the operating equipment listed in 7(d). Do not repeat initial repairs listed in 7(e). Show also the costs of analytical work, accounting, workmen's compensation and employees' liability insurance, payroll taxes, and other required costs that do not fall within the previous categories. [*Note*—The Government will not contribute to costs incurred before the date of the contract, or to costs of or incident to: (1) acquiring, using, or possessing land and any existing improvements, facilities, buildings, installations, and appurtenances, or the depreciation and depletion thereof; (2) general overhead, corporate management, interest and taxes (other than payroll and sales taxes); (3) insurance (other than employees' liability insurance); and (4) damages to persons or property (other than authorized repair to or replacement of equipment or other property used in the work).]

Dear Sir:

We would like to know if your bank makes loans for mining purposes.

We would like to borrow $6,000 to open up new ore deposits in our leased Golden Turkey Mines near Bumble Bee, Arizona.

Thank you.

Yours truly,

Taken from the

MINERALS YEARBOOK

The Golden Turkey Mining Co., was chief producer in Black Canyon Mining District of gold in 1937 and 1938. The Company operated its mine and 50 ton flotation plant continuously and the output was (25,765 tons in 1938) with gold production of 2,550 ounces. The same in 1937 but production of silver and lead wasgreater in 1938. It was the only important producer in the district in 1937.

Output of group in 1940 was 43,544 tons
" " " " 1941 was 27,283 tons

The Golden Turkey Mining Co., Inc, was the largest producer of gold from 1933 to 1941 inclusive. Closed its mine and 200 ton mill in January 1942. Mill treated 1140 tons of gold ore in 1942. The Golden Turkey produced more than 1800 ounces of gold in 1935.

LEASE PURCHASE AGREEMENT

FOR AND IN CONSIDERATION of the mutual covenants and agreements herein, CHARLES H. MANLY and SAMAR M. MANLY, his wife, hereinafter known as First Parties, and DON ROBISON and JOHN NESBIT, hereinafter known as Second Parties, do hereby bind themselves, their heirs and assigns as follows:

WITNESSETH:

WHEREAS, the First Parties are the sole owners of certain unpatented mining claims which are hereafter more fully described and it is the intention of the First Parties to lease and sell said mining claims to the Second Parties on the terms and conditions herein set forth.

NOW, THEREFORE, IT IS HEREBY AGREED as follows:

These certain unpatented mining claims situated in the Black Canyon Mining District, Yavapai County, Arizona, the names of said claims and the books and pages wherein said location notices are recorded in the office of the County Recorder of Yavapai County, are as follows:

	Name of Claim	Book	Page
?	Johanna (Amended	120	174
?	Johanna No. 1 (Amended)	130	175
?	Turkey (Amended)	278	522
	Caroline	140	255
	Mary Ethel	140	256
?	Mari or Mary (Amended)	61	554
?	Turkey Extension	269	360

	Johanna 3	276	408
	Johanna 4	276	409
	Los Angeles	276	411
	Townsend	276	412

The First Parties do hereby grant, sell and convey to the Second Parties a lease on the aforesaid mining claims, to have and to hold the same from this day forward, on the following terms.

As and for the rental of said property, the Second Parties agree to pay to the First Parties $50.00 upon the signing of this contract and $50.00 on or before the 8 day of each month hereafter, or ten percent

(10%) whichever is greater. Beginning the second year $100.00 per month is to be paid, or ten percent (10%) whichever is greater. Beginning the third year $150.00 per month is to be paid, or ten percent(10%) whichever is greater, thereafter. And when so paid all payments and royalties shall be credited and applied upon the purchase price of said mining claim.

- 2 -

It is understood and agreed between the parties hereto that when Second Parties have paid to the First Parties the total sum of One Hundred and Fifty Thousand Dollars $150,000.00, that First Parties will convey all their right, title and interest in said mining claims to Second Parties and thereafter Second Parties shall have the sole title and interest to said mining claims except as hereinafter provided. It is understood that Second Parties may pay First Parties the unpaid balance on the aforesaid payout price at any time, and that upon the payment of said unpaid balance First Parties shall convey all right and title in said mining claims to Second Parties.

- 3 -

Upon the signing of this contract and the first payment of $50.00 to First Parties, Second Parties shall be entitled to the Possession of the aforesaid described mining property and shall have the right to work, operate and develop the sme in the manner and by such means as are proper and to extract, mine, mill and ship for treatment or other disposition, the ores and minerals therefrom. Second Parties agree that all such work shall be done in a good and miner like manner.

- 4 -

Second Parties agree to keep a true and correct record of production reduction and disposition of all ores or other materials mined, milled or otherwise handled by them under this agreement, which records shall be open to the inspection of First Parties or their authorized agents, or representatives at all reasonable times. The First Parties or their authorized Agents, or representatives, reserve the right to go upon the mining claims and property herein described for the purpose of making reasonable inspection.

(5)

Second Parties agree that during the period of this Lease and Option they will not mortgage, sell or otherwise encumber or dispose of this Mining Lease and Option Agreement in whole or in part to another person or persons firm or corporation without the approval of First Parties and further, that any such encumbrance or disposition of the property, or any part thereof, shall be made expressly subject to the rights of First Parties hereunder.

(6)

The minimum monthly royalty payment by Second Parties, whether made from net mint, or net smelter returns or from other sources, and all royalty payments shall be made by the mint, smelter, or other place of treatment purchasing such bullion, ores, concentrates or products, direct to CHARLES H. MANEY, Bumble Bee, Az. 85327.

Minimum monthly payments shall be made on the dates as herein after set forth, and all other royalty payments shall be made on or before the 15th day of the month next succeeding the month during which delivery of bullion ores, concentrates or products to said mint, smelter, or other place of treatment shall have been made, and accompanying such payments shall be a true copy of smelter mint or other return for delivery.

(7)

Second Parties shall have access to all the water, but First Parties shall have the right to be supplied, free of charge, of all water necessary for their domestic and household use, and for their garden and watering of goats, provided, however, it is understood that First Parties shall not waste said water. It is also understood and agreed between the parties hereto that First Parties shall have the right to the use of the house wherein they now reside during their lifetime.

(8)

Second Parties agree to supply to the First Parties annually on or before the first day of July of each year hereafter,

sufficient proof of labor performed on said mining claims and Second Parties will cooperate in the preparation of notices of proof of labor in order that the same may be recorded in the office of the County Recorder of Yavapai County in accordance with the laws of the State of Arizona and the United States.

(9)

Second Parties agree to post notices of non-liability of said property and to hold First Parties free and clear of all claims and liabilities for damages, suits for fallen rock, etc, debts or any other obligations for labor performed, materials furnished, and supplies used in the operation of any mining activities or equipment during the term of this contract. Said notices shall be posted in a conspicuous place on the property by the Second Parties, in accordance with the laws of the State of Arizona.

(10)

Second Parties, may, at any time, abandon this Agreement upon thirty (30) days written notice to First Parties, and all parties hereto shall be relieved of all further obligations hereunder, provided, however, that such abandonment shall not relieve Second Parties of any defaults under their agreement that exist on the date of such abandonment. In the event of such abandonment or forfeiture, herein provided, Second Parties shall have the right to remove from the afore described mining property all machinery, tools, and equipment of every kind and character that they have placed thereon, with the specific exceptions of timbering, rails, ladders and pipes placed underground and with the further specific exception of all buildings placed upon the surface of said mining claims. Second Parties shall make such removal within sixty (60) days after the effective date of an abandonment or forfeiture. If not so removed, title to such property shall vest in First Parties. In the event of an abandonment or a forfeiture of this Agreement, any and all moneys which have been paid to First Parties as royalty payments or otherwise, shall belong to First Parties and be retained by First Parties as rent of said property and as liquidated damages, or either.

(11)

In the event that Second Parties fail, refuse or neglect to perform any of the covenants and agreements herein to be kept and performed by them, at the time and in the manner herein provided, and First Parties claim any default in the performance of said covenants and agreements, First Parties shall give Second Parties thirty (30) days written notice of any such default or defaults, such notice to be addressed to Second Parties by registered or certified mail, postage prepaid, to Second Parties either to Don Robinson, 4332 Whitten, Phoenix, Az. or John Nesbit 1519 N. 28th Drive Phoenix, Az. and if Second Parties fail to completely correct any such default within said thirty (30) days, then this Agreement may, at First Parties option cease and terminate without any further notice to Second Parties and First Parties shall have the right to declare a forfeiture of this Lease and Option and to take possession of the afore described mining property, and Second Parties agree to give up, relinquish and give the said mining Property to First Parties, and in which event, Second Parties shall have sixty (60) days in which to remove the personal property as hereinbefore provided for and under the same conditions hereinabove set forth.

(12)

Should either of the parties herein desire, upon the occurrence of any misunderstanding between the parties herein, said parties may call for arbitration of any difference between said parties. Then each of said parties shall appoint an arbitrator, and the arbitrators appointed by each party, shall in turn appoint a third arbitrator who shall act as Chairman of the arbitration board, which board shall meet and determine all differences between said parties within thirty (30) days after the call for arbitration of either party, and the decision of said Board of arbitration shall be binding upon the parties herein, and the parties agree that such decision of the arbitration board shall be considered a part of this contract.

(13)

It is understood and agreed that this is an Option to purchase, coupled with the right to operate, and that Second Parties, may, at their pleasure surrender said properties back to First Parties upon giving the notice hereinbefore provided for, without further obligation hereunder, subject to the requirement that they shall perform all obligations which have matured and are owing to First Parties or their account or prior to the giving of such notice of termination. This Agreement is a Lease and Option and not a contract for the purchase of real estate that is enforceable by specific performance.

(14)

The Parties hereto agree that the entire agreement between them is written herein and the parties hereto are not bound by any agreements, understandings, or conditions other than as set forth in this Agreement. The provisions of this Agreement shall extend and be binding upon and inure to the benefit of the heris, executors, administrators and assigns of the parties hereto.

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year first hereinabove written, in triplicate, each to be considered an original.

Re: OME-6590 (Silver-Gold)

Golden Turkey Mines

Gentlemen:

A preliminary review of your application for financial assistance to explore the Golden Turkey Mines indicates that the following additional information is required:

In lieu of a Lien and Subordination Agreements (MME Form 32) signed by the owners of the claims involved, it is necessary to have your assurance that you are able and willing to obtain a Performance Bond covering the Government's share of the proposed work in the event of a contract.

It is not clear from the photocopies of the property map or the Lease Purchase Agreement where the deposit you propose to explore is located. Some of the claims shown on the photocopies are not mentioned in the lease, and some claims mentioned in the lease are not indicated on the maps. It is impossible to determine from the maps which symbols represent present mine workings and which designate proposed exploration.

Please describe the specific exploration target, and show it on a map or sketch. On what claim or claims does it occur? How long an exploration drift or crosscut would be needed to reach the target? What is the estimated size and grade of the deposit you propose to explore? The assay reports submitted give no sample widths; the Bledsoe claim from which Sample 2384 was obtained is not indicated on the map. Where was Sample 2385 taken in the Turkey mine, where was Sample 2386 cut in Tunnel No. 3, and where is Tunnel No. 3? How many feet of rehabilitation would be necessary, and what is the estimated cost per-foot for this work? What is your estimate for per-foot costs of the proposed new work? You propose driving a 4 x 6-foot tunnel into new ground. It is customary on OME contracts to drive tunnels with a cross-sectional dimension of 5 x 7 feet.

23263

We note that a mineral report was to accompany your application, but none was included. An excerpt from a minerals yearbook describing production to 1941 was received.

We suggest that you carefully study the application form and note what information is requested and the requirements to be met in order to complete your application. Submittal of additional information should not be construed as a commitment by the Government to grant an exploration contract.

We shall hold the further processing of your application in abeyance until the required data are received.

Sincerely yours,

FRANK E. JOHNSON
