Re: Docket No. DMEA-3145

Dear Mr. Swanson:

This will acknowledge receipt of your letter dated December 19, 1953 stating that you had leased your property to the Vanadium Corporation of America and requesting that your application be held in an inactive status until next summer.

Since you submitted your application a large part of the work you requested has already been accomplished and before DMEA would be interested in further work we would want to know the results of all work which has been done.

We are therefore closing Docket No. DMEA-3145.

If, at some later date, you wish exploration assistance on this property you may submit a new application together with the results obtained in the drilling program which has been accomplished to that date.

Very truly yours,

W. H. King

Docket No. DMEA-3145

W. H. King
224 New Customhouse
Denver, Colorado

Dear Sir:

I leased the Uranium Girl to the Vanadium Corporation of America. If their drilling program has proved itself for them, then I may cancel the docket, otherwise they will abandon the lease and I shall attempt to prove the property with your aid.

If at all possible would you place this docket in an inactive status until next summer.

Sincerely,

Eugene B. Swanson

Re: Docket No. DMEA-3145

Dear Mr. Swanson:

A preliminary inspection of the Uranium Girl claim indicates that a drilling program similar to the one requested in your DMEA application has already been completed.

If you have made other arrangements for the exploration of your property we would appreciate a letter from you to that effect so that we may close the docket.

Very truly yours,

W H King

Re: Docket No. DMEA-3145

Dear Mr. Swanson:

Our letter to you dated August 21, 1953 stated that your application was being held in the inactive file pending receipt of proof of valid title.

This is to advise you that this docket will be closed in thirty days if you do not present proof of valid title before that time.

Very truly yours,

W H King

Re: Docket No. DMEA 3145

Dear Mr. Swanson:

Your application states that you own the Uranium Girl by right of location, but that it was formerly known as the Emergency Claim.

Records available to this office indicate that the Emergency Claim was located by Robert B. and Shirley V. Lammert, and James and H. W. Lammert.

From this record, it would appear that the Uranium Girl Claim was located on the site of the Emergency Claim. Perhaps the Emergency Claim was allowed to lapse after its location was recorded, and before the Uranium Girl Claim was located and recorded.

Until you furnish proof of valid title, we will hold your application for exploration assistance in our inactive file.

Very truly yours,

W. H. King

INSTRUCTIONS

1. *Name of applicant.*—(*a*) State here your full legal name, in the form in which you will wish to contract, and your mailing address: Eugene B. Swanson
Paradox, Colorado

(*b*) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

(*c*) If a corporation, add to above statement, titles, names and addresses of officers.

(*d*) If a partnership, add to the above statement the names and addresses of all partners.

2. *General.*—Read DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. *Applicant's property rights.*—(*a*) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract Separate paper

(*b*) State any mine name by which the property is known. the "Uranium Girl" formerly "Emergency"

(*c*) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise owner

(*d*) If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property. By right of relocation

(*e*) If you own the land, describe any liens or encumbrances on it none

(*f*) If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice. Book 357 Page 128 Montrose County Courthouse, Colorado

4. *Physical description.*—(*a*) Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes.

(*b*) State past and current production, and ore reserves, if any, giving quantities and grades.

(*c*) Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc.), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you.

(*d*) State the facts with respect to the accessibility of the project: Access roads, distances to shipping, supply and residence points.

(*e*) State the availability of manpower, materials, supplies, equipment, water, and power.

5. *The exploration project.*—(*a*) State the mineral or minerals for which you wish to explore Uranium

(*b*) Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed) of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, etc.

(*c*) The work will start within 10 days and be completed within 3 months from the date of an exploration project contract.

(*d*) State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations.

6. *Estimate of costs.*—Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings to give the estimated total cost of the project:

(*a*) *Independent contracts.*—(Note.—If the applicant does not intend to let any of the work to contractors, write "none" after this item. To the extent that the work is to be contracted, do not repeat the cost of the contract-work in subsequent items.) State the cost of any proposed independent contracts for the performance of all or any part of the work, expressed in terms of units of work (such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved, etc.).

(*b*) *Labor, supervision, consultants.*—Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants.

(*c*) *Operating materials and supplies.*—Furnish an itemized list, including items of equipment costing less than $50 each, and power, water and fuel.

(*d*) *Operating equipment.*—Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value, as the case may be.

(*e*) *Rehabilitation and repairs.*—Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project.

(*f*) *New buildings, improvements, installations.*—Furnish a detailed list showing the cost of any necessary buildings, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project.

(*g*) *Miscellaneous.*—Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes.

(*h*) *Contingencies.*—Give an estimate of any necessary allowances for contingencies not included in the costs stated above.

NOTE.—No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs.

7. (*a*) Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMEA No. 1)?

(*b*) How do you propose to furnish your share of the costs?

[X] Money [ ] Use of equipment owned by you [ ] Other

Explain in detail on acompanying paper.

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

Item 3

one claim only located on the South Rim of La Sal Creek in the Paradox Mining District on Wray Mesa 2 miles Southwest of the "Yellow Bird" Mine owned by the Vanadium corporation of America

4(a) Open pit exploratory work in 1951 by other interests. I did not participate in these workings. an old repairable accessible road still remains.

(b) Non producing as yet. not known if any ore of commercial grade was ever removed. There is a trace of ore showing.

(c) Geologic features include pale course sandstone, dark gray sandstone with indications of a Uranium and Vanadium content bedded in thick layers in the Morrison formation. The area surrounding this claim contain several mines producing Uranium Ore. I have used a Scintillator for detecting Uranium Ore and have received very favorable count along the rim.

(d) Easily accessible to claim and plainly marked the "Uranium Girl" off the "Yellow Bird" Mine road on Highway 90 from Paradox, Colo. to La Sal, Utah formerly known as the old Lammert claim called the "Emergency"

(over)

4(d) The U.S.V. Mine at Uravan, Colorado is 65 miles from this claim on highway 90 to 141. Supplies can be obtained at Uravan. I intend living on the claim as soon as a cabin is erected and take charge of the exploration. Paradox, Colorado is the closest point of residence which is 26 miles from this claim.

(e) Manpower with considerable mining experience is available; also materials and supplies. There is equipment for hire. Water must be hauled 8 miles from La Sal Creek.

5(b) Bulldozer work is necessary to reopen the existing road for 1/2 mile and for cutting along the rim approximately 400 feet to connect two ore showings on the same level; also for making several roads for wagon drill equipment. This bulldozing work could be completed within 30 days by contracting at $10.00 per Hour or approximately $1500.

300 wagon drill Holes approximately 100 feet deep each with probing and logging for 75¢ per foot.

5(d) My operating experience has been gained through working with independent

Application for DMEA Loan

5(d) (Continued)

miners to gain knowledge. I have had some experience in Uranium Mining. I will contract the bulldozer and wagon drill work to independent operators working in the Paradox District who are active in this field.

6.(a) Bulldozer work	$10.00 per Hour	$1500.00
Wagon Drilling	.75 per foot	$2250.00
Accountant Fee		50.00
		$3800.00

I will let this contracting work by the hour and by the foot and this is the absolute maximum I will need for this phase of exploration.
