MF-103 Should Be Filed With General Technical Data Form MF-100

APPLICATION FOR AID FOR AN EXPLORATION PROJECT PURSUANT TO MINERAL ORDER 5, UNDER DEFENSE PRODUCTION ACT OF 1950

Not To Be Filled in by Applicant

Docket No. DMEA-2585
Metal or Mineral
Date Received 6-16-52
Amount $
Participation (Government %)

Mr. Elias Bushati
Leevining
California

Name and address of applicant

Date June 9, 1952

If you have already filed MF-100, give date filed Feb., 1952, type of assistance requested Exploration Mining Loan,

DMA Docket Number (if available)

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four copies each, of the signed application form, General Technical Data Form MF-100, and answers to questions as specified, to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive office thereof, with your name and address on each sheet of the application and all accompanying papers. If you have previously filed MF-100, it is not necessary to file it again. However, you should indicate in space provided above the type of assistance previously applied for (loans, procurement contracts, etc.) and DMA Docket Number, if available. *When a question is inapplicable it should be so stated in the form.* Additional sheets should be attached in answering any of the questions or in supplying additional information. IF YOU CANNOT ANSWER A QUESTION, SO STATE.

DEPARTMENT OF THE INTERIOR
Defense Minerals Administration
RECEIVED
JUN 16 1952

1. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property. Zinc and lead claims.

   (*b*) If you are not the owner of the property, submit a copy of the lease, purchase option, or other agreements under which you are authorized to operate the property with each copy of your application. Sole owner.

   (*c*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

   Section 4, Township 2 south, Range 26 east, Mt. Diablo Meridian, Calif.

   NOTE: (1) If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*c*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area. Exploration is to be on Claim No. 11 where the Bureau of Mines diamond drilled it,

   (2) If applicant is not the owner of the property or if there are any liens or encumbrances against the property, copy of agreements of claimants, lienors, encumbrances, and lessors subordinating their interests in the property to the interest of the Government under the Exploration Project Contract will be required for attachment to the Contract.

   and the driller Port R1-4453.

2. (*a*) What metals or minerals do you expect to find? Zinc and lead.

   (*b*) Furnish statement of the geologic features of your property, giving type of ore deposit and reasons for expecting to find commercial ore bodies. Illustrate with maps or sketches. If you have a geologic or engineering report, or assay maps showing width and grade, please send them with application, stating whether or not you wish to have them returned.

16—64067-2

Driller Port No. R1-4453. Complete report furnished by U. S. Bureau of Mines.

The information requested in questions 3, 4, 5, 6, 7, 8, and 9 below should be answered specifically and in detail, as this information will be attached to and incorporated as part of the Exploration Project Contract, if such contract is entered into with you by the Government.

ANSWER EACH QUESTION ON SEPARATE SHEETS OF PAPER AND SUBMIT A COPY OF EACH ANSWER FOR EACH COPY OF YOUR APPLICATION.

3. (*a*) Describe fully the proposed work and give the total cost of the project. To drive a tunnel where they diamond drilled. Approx. $100,000 for equipment, housing and working capital.
   (*b*) State the time required to start the project and to complete it.
   Can begin in 30 days, possible completion 6 months.
4. Submit a map or sketch of the property involved showing a plan (and cross section, if needed) of the present mine workings and the *location of the proposed exploration work* as related to geologic features, such as contacts, veins, ore-bearing beds, etc.
   Complete report at U. S. Bureau of Mines, Driller Port No. R1-4453
5. Furnish an itemized list of existing facilities, buildings, installations, and fixtures with a statement of the cost of any necessary rehabilitation or repairs to put into useful and operable condition.
   No buildings, no fixtures at present.
6. Furnish a detailed list of additional facilities, buildings, and fixtures to be purchased, installed, or erected by you, with the estimated cost of each item.
   Housing and water system - $10,000. Machinery-$30,000.
7. Furnish a detailed list of operating equipment, separated into items to be—
   (*a*) Rented
   (*b*) Purchased All equipment to be purchased.
   (*c*) Furnished by you
   with the rental, purchase price, or depreciation of each item, as the case may be, to be charged as a cost of the project.
8. Furnish an itemized schedule of labor, by numbers and classes (miners, muckers, etc.) and of supervisors by numbers and positions, with the maximum wages or salaries to be paid to each. Will be supervised by myself.
   Approximately 10 miners at $2.00 hr. each.
9. Furnish a detailed list with estimated cost of each item for materials, supplies, engineering, assaying, accounting, power, water, utilities, and any other items not provided for above.
   $60,000 to cover labor and working capital; oil, rail, cars, locomotives trucks, powder, etc.
10. (*a*) How much are you prepared to invest in the proposed project? None.
    (*b*) Is this amount sufficient to pay your part of the cost of the project, in accordance with the regulations on Government participation (Sec. 9 of MO–5)?
11. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

CERTIFICATION

Re: Docket No. DMEA 2585 (Lead-Zinc)
Elias Bushati, Mono County, California

Dear Mr. Bushati:

The Government has made a careful study of the data submitted in your application with full consideration given to all the geological and other reports available. This study has caused us to reach a conclusion that the program of work you propose cannot be supported by sufficient, positive evidence to indicate that it might result in the discovery or production of significant amounts of critical metals.

Further consideration has been given to the possibility of determining a program which might be compatible with the evidence which has been developed, but we have been unable to reach any favorable conclusions regarding such a program. Under the circumstances, it is necessary for us to advise you that your application for exploration project assistance is denied.

It is with regret that we have found it necessary to inform you of this unfavorable decision regarding your request. We wish to express our appreciation of the opportunity you have given us to consider your defense exploration project.

Sincerely yours,

C. O. Mittendorf (for)

Memorandum

To: Acting Administrator 7-10-52 JUL 10 1952

From: Base Metals Division

Subject: Recommendation for denial of application for exploration project assistance, Docket No. DMEA-2585, Elias Bushati, Mono County, California

The above-numbered application was submitted under date of June 9, 1952, in which the applicant's proposal contemplates an expenditure of $100,000 to provide for equipment and working capital, and to drive a tunnel in a general location of where the U. S. Bureau of Mines had previously undertaken a limited amount of diamond drilling. No definite program or plan of work was proposed.

Of the above sum, $10,000 was for housing and a water system, $30,000 for machinery, and $60,000 for labor and supplies.

The applicant reports that he is the sole owner of the property but has no housing, equipment, water or other facilities, nor is he prepared to pay his portion of any part of the cost of the project. In his earlier applications, the applicant indicates that he is only interested in a 100 percent Government loan.

Several earlier applications, DMEA-295, 296, 995 and DMPA-2313 have been submitted by the applicant for mining loans on the above property. These applications were all denied. The Washington examiners for the U. S. Geological Survey and Bureau of Mines have stated that their available information did not indicate that the Bushati property could reasonably be expected to provide any significant amount of minable ore.

The property was examined by the U. S. Bureau of Mines in 1944 and 1945, and five diamond drill holes were drilled by them in 1946 and 1947. As a result of 26 surface samples, only three (hand sorted material), approached an ore grade. Diamond drill hole No. 1 indicated a 15-foot mineralized zone analyzing 0.1 percent lead and 4.1 percent zinc at about 65 feet below the outcrop. Hole No. 2 was considerably poorer and Holes Nos. 3, 4 and 5 showed only a trace.

In view of the lack of favorable showing, lack of definite program, and the applicant's statement that he is not prepared to make any contribution to his share of the costs, the Washington reviewers of the U. S. Geological Survey and Bureau of Mines recommend that the application be denied. The Base Metals Division concurs in this recommendation.

IN REPLY REFER TO:

UNITED STATES
DEPARTMENT OF THE INTERIOR
GEOLOGICAL SURVEY
WASHINGTON 25, D. C.

June 30, 1952

Memorandum

Re: DMEA-2585
Elias Bushati
Mono County, California

To: Mr. H. F. Keller

From: E. L. Newcomb, USGS
O. M. Bishop, USBM

Subject: Review of application - Rush Creek Mines

The applicant requests Government assistance to drive a tunnel on his property. Where the tunnel will be driven or the amount of work involved are not given. He also requests $100,000 for equipment, housing, and working capital. Several earlier applications DMA-295, 296, 995, DMPA-2312 and 2313, have been submitted by the applicant for mining loans on this same property. All of these applications were denied because of insufficient minable reserves to guarantee repayment of the requested loans. In our review of a recent access road application AR-162, we stated that our available information did not indicate that the Bushati property could reasonably be expected to provide any significant amount of minable ore for the present Defense program.

Even though the present application lacks considerable pertinent data, I see no reason to request the data since Mr. Bushati states that he is not prepared to invest any funds in the proposed project. The earlier mining loan applications indicated that the applicant is only interested in a 100 per cent Government loan.

It might here be noted that the property was examined by the USBM in 1944 and 1945, and that 5 diamond drill holes were drilled by the same organization on the Bushati property in 1946-1947. Of 26 surface samples only 3 representing hand sorted material approached ore grade. Diamond drill hole No. 1 indicated a 15-foot mineralized zone analyzing 0.1% lead and 4.1% zinc at about 65 feet below the outcrop. Hole 2 was considerably poorer and Holes 3, 4, and 5 showed but trace mineralization. In view of these poor showings, the lack of a program, and the applicant's statement that he will make no investment it is recommended the application be denied.

File 2585

MF-103
(Revised June 1951)

UNITED STATES DEPARTMENT OF THE INTERIOR
DEFENSE MINERALS ADMINISTRATION

Budget Bureau No. 42-R1035.1.

MF-103 Should Be Filed With General Technical Data Form MF-100

APPLICATION FOR AID FOR AN EXPLORATION PROJECT PURSUANT TO MINERAL ORDER 5, UNDER DEFENSE PRODUCTION ACT OF 1950

Not To Be Filled in by Applicant

Docket No. DMEA-2585
Metal or Mineral
Date Received 6-16-52
Amount $
Participation (Government %)

Mr. Elias Bushati
Leevining
California

Name and address of applicant

Date June 9, 1952

If you have already filed MF-100, give date filed Feb., 1952, type of assistance requested Exploration Mining Loan,

DMA Docket Number (if available)

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four copies each, of the signed application form, General Technical Data Form MF-100, and answers to questions as specified, to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive office thereof, with your name and address on each sheet of the application and all accompanying papers. If you have previously filed MF-100, it is not necessary to file it again. However, you should indicate in space provided above the type of assistance previously applied for (loans, procurement contracts, etc.) and DMA Docket Number, if available. *When a question is inapplicable it should be so stated in the form.* Additional sheets should be attached to answer any questions or in supplying additional information. IF YOU CANNOT ANSWER A QUESTION, SO STATE.

DEPARTMENT OF THE INTERIOR
Defense Minerals Administration
RECEIVED
JUN 16 1952

1. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property. Zinc and lead claims.

   (*b*) If you are not the owner of the property, submit a copy of the lease, purchase option, or other agreements under which you are authorized to operate the property with each copy of your application. Sole owner.

   (*c*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

   Section 4, Township 2 south, Range 26 east, Mt. Diablo Meridian, Calif.

   NOTE: (1) If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*c*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area. Exploration is to be on Claim No. 11 where the Bureau of Mines diamond drilled it, and the driller Port R1-4453.

   (2) If applicant is not the owner of the property or if there are any liens or encumbrances against the property, copy of agreements of claimants, lienors, encumbrances, and lessors subordinating their interests in the property to the interest of the Government under the Exploration Project Contract will be required for attachment to the Contract.

2. (*a*) What metals or minerals do you expect to find? Zinc and lead.

   (*b*) Furnish statement of the geologic features of your property, giving type of ore deposit and reasons for expecting to find commercial ore bodies. Illustrate with maps or sketches. If you have a geologic or engineering report, or assay maps showing width and grade, please send them with application, stating whether or not you wish to have them returned.

   Driller Port No. R1-4453. Complete report furnished by U. S. Bureau of Mines.

16—64067-2

The information requested in questions 3, 4, 5, 6, 7, 8, and 9 below should be answered specifically and in detail, as this information will be attached to and incorporated as part of the Exploration Project Contract, if such contract is entered into with you by the Government.

ANSWER EACH QUESTION ON SEPARATE SHEETS OF PAPER AND SUBMIT A COPY OF EACH ANSWER FOR EACH COPY OF YOUR APPLICATION.

3. (*a*) Describe fully the proposed work and give the total cost of the project. To drive a tunnel where they diamond drilled. Approx. $100,000 for equipment, housing and working capital.
   (*b*) State the time required to start the project and to complete it.
   Can begin in 30 days, possible completion 6 months.
4. Submit a map or sketch of the property involved showing a plan (and cross section, if needed) of the present mine workings and the *location of the proposed exploration work* as related to geologic features, such as contacts, veins, ore-bearing beds, etc.
   Complete report at U. S. Bureau of Mines, Driller Port No. Rl-4453
5. Furnish an itemized list of existing facilities, buildings, installations, and fixtures with a statement of the cost of any necessary rehabilitation or repairs to put into useful and operable condition.
   No buildings, no fixtures at present.
6. Furnish a detailed list of additional facilities, buildings, and fixtures to be purchased, installed, or erected by you, with the estimated cost of each item.
   Housing and water system - $10,000. Machinery-$30,000.
7. Furnish a detailed list of operating equipment, separated into items to be—
   (*a*) Rented
   (*b*) Purchased All equipment to be purchased.
   (*c*) Furnished by you
   with the rental, purchase price, or depreciation of each item, as the case may be, to be charged as a cost of the project.
8. Furnish an itemized schedule of labor, by numbers and classes (miners, muckers, etc.) and of supervisors by numbers and positions, with the maximum wages or salaries to be paid to each. Will be supervised by myself.
   Approximately 10 miners at $2.00 hr. each.
9. Furnish a detailed list with estimated cost of each item for materials, supplies, engineering, assaying, accounting, power, water, utilities, and any other items not provided for above.
   $60,000 to cover labor and working capital; oil, rail, cars, locomotives trucks, powder, etc.
10. (*a*) How much are you prepared to invest in the proposed project? None.
    (*b*) Is this amount sufficient to pay your part of the cost of the project, in accordance with the regulations on Government participation (Sec. 9 of MO–5)?
11. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this form and accompanying papers is correct and complete to the best of their knowledge and belief.
