Docket No. OME –
Contract No. 14-23-090–
Contract Date

LIEN AND SUBORDINATION AGREEMENTS[1]

To the United States of America:

That certain land in the County of Lemhi, State of Idaho, described as follows:[2] in an "Option to Purchase Mining Claims by Contract for Deed", dated May 1, 1966, between Fred J. Brough, C. Walker Lyon and Grace M. Lyon, husband and wife, as "Sellers" and J. Howard Sims as "Buyer".

hereinafter called the "land", is the subject of a proposed exploration contract, hereinafter called the "Contract", between the United States of America, hereinafter called the "Government" and

J. Howard Sims [3]

hereinafter called the "Operator". In consideration for and as an inducement to the Government executing the Contract, the undersigned:

1. (a) Being the owner of an interest in the land, hereby grants to the Government a lien upon all of his right, title, and interest in the land and upon any production of minerals therefrom to secure the payment to the Government of the royalty on production provided for by the Contract, and agrees if the Operator's interest should be surrendered or terminated at any time prior to the expiration of the rights of the United States under said Contract to pay royalty to the Government according to the terms of said Contract; or

(b) Being the holder of a claim, lien, or encumbrance against the land, hereby subordinates his claim, lien, or encumbrance in or against the land and in any production therefrom to the rights of the Government under the Contract with respect to royalty on production and liens to secure same.[4]

2. Undertakes and agrees that property in which the Government may acquire an interest or equity under the Contract may be dismantled, severed from the land, and removed as may be provided in the Contract; and the Government's interest and equity in such property shall be prior and superior to any adverse right or claim of the undersigned.

3. Represents and undertakes that there is no claim, lien, or encumbrance upon the undersigned's right, title, claim, or interest in or against the land other than the following: (If "none" insert the word "none". Do not leave blank.)

"None"

1/ Production from the land is not required, and in the absence of production there is no obligation to pay royalty to the Government.

2/ Either (a) insert the legal description of the land, or (b) strike out the words "as follows" and insert "in a lease /or contract, deed, or other document/ dated _____, and recorded in Book _____, Page ____, official records of said county". If (b) is used, the book and page of recordation must be inserted above. If the space provided is insufficient, use an Annex and refer to the Annex in the space.

3/ Insert name exactly as it appears in the Application MME Form 40.

4/ Subparagraph 1(a) does not apply to the holder of a claim, lien, or encumbrance.

4. Undertakes and agrees (a) neither to commit any act nor assert any claim in conflict with the provisions of this Agreement; and (b) to give advance notice of the Government's rights under this agreement to any subsequent transferee, mortgagee, encumbrancer, or lessee of any of the undersigned's right, title, claim, or interest in or against the land or any production therefrom, furnishing the Government with two true copies of such notice; and

5. Consents to all amendments (including an agreement of termination) and assignments of the Contract without notice thereof, and undertakes and agrees that this agreement shall extend and apply thereto.

6. Added provisions _____ (State "None" or "See Annex No. ____".)

Dated this _____ day of _____, 19____.

Re: OME-6651 (Copper)
J. Howard Sims
Pope-Shenon Mine
Lemhi County, Idaho
Contract 2277

Dear Mr. Lyon:

Thank you for your recent letter with enclosures.

We note your statement that the Anaconda Sampler at Anaconda, Montana, will not accept this crude ore, referring to the estimated 20 tons presently stockpiled at the Pope-Shenon mine, and that there is no other place you could sell it.

Under these conditions, the material does not qualify as saleable production for royalty calculations under Section 6(d) of the contract. Therefore, we conclude that no royalty is due on the stockpiled material.

As the period has expired during which production from the Pope-Shenon mine was subject to royalty, and the remaining stockpiled material has no saleable value at present, the Government according to its present records retains no claim or lien against the property subject to the contract or any future production therefrom. Therefore, we are closing our books and records on this contract.

Sincerely yours,

Harold Kirkemo

RE: OME-6651 (Copper)
J. Howard Sims
Pope-Shenon Mine
Lemhi County, Idaho
Contract 2277

Dear Mr. Kirkemo:

Received your letter with enclosures of April 11 with respect to the above mine contract.

The last smelter return for shipments from this mine is in August, 1973 wherein the Cu was 2.66% which appears to be the usual grade shipped.

Not being an engineer, I can not project what 20 tons of this ore would be worth at this time. Would your department figure the 5% royalty due on this stock piled ore and I will pay the amount so you can close your books on the account.

The Anaconda Company will not accept this crude ore and there is no other place we can sell it.

Sincerely yours,

C. Walker Lyon

Pope-Shenon Mine
Lemhi County, Idaho
Contract 2277

Dear Mr. Brough:

This is in response to your request during your visit to this office today for a copy(s) of a map accompanying the Final Report on the subject contract. This map, titled:

Figure 1. Plan Map and Section with Ore Reserve Estimate, Pope-Shenon Mine, Sec. 9, T. 20 W., R. 22 E., Lemhi County, Idaho (dimensions 37" x 36")

and a copy of this letter are being sent to:

Cooper-Trent Division
Keuffel & Esser Co.
Wilson Boulevard at Danville Street
Arlington, Virginia 22201
Attention: Mr. Marvin Mundy.

Cooper-Trent will contact you regarding the cost of reproductions. By sending the enclosed copy of this letter to Cooper-Trent, you may order any number of copies you want. All future correspondence relating to procurement of copies should be with Cooper-Trent rather than with this office.

I enjoyed visiting with you and Mrs. Brough.

Sincerely yours,

Harold Kirkemo

Re: OME-6651 (Copper)
J. Howard Sims
Pope-Shenon Mine
Lemhi County, Idaho
Contract 2277

Dear Mr. Lyon:

We would appreciate receiving up-to-date information on this project before closing our books. As you know, the period of obligation to pay royalty on production terminates on April 8, 1979. However, stockpiled ore is liable for royalty, too, and we are inquiring if the 20 tons of stockpiled ore reported in your letter to us dated July 12, 1978, was sold. If so, we have not received royalty on the shipment. If not sold, what is the estimated grade and tonnage of the material? A royalty of 5 percent of the value of the stockpiled ore is due and should be paid before we can close our books on the account. For your convenience, the usual form requesting this information is enclosed.

We would appreciate an early reply.

Sincerely yours,

Harold Kirkemo

RE: OME-6651 (Copper) Pope-Shenon Mine Lemhi County, Idaho
Contract 2277 J. Howard Sims

Dear Mr. Kirkemo:

Your letter of June 1, 1978, to Sandy H. Sims was handed to me for answer because Mr. Sims is not familiar with the matter contained therein. I will attempt to answer your questions as best I can.

Laura Ledbetter by deed dated 6-27-64, executed 11-25-68, transferred all interest in the mining property to Fred J. Brough and C. Walker Lyon, as co-owners.

The New Pope Shenon claim was transferred to Fred J. Brough and C. Walker Lyon 12-10-68 by J. Howard Sims and wife. He had agreed to do this in the contract.

The same 20 tons of ore remain on the mining claim and has not been shipped because the only available buyer, Anaconda, refuses to accept the ore. They now want concentrates.

Fred J. Brough is deceased and his two sons were decreed his one-half interest in the Pope-Shenon Mine and they and their addresses are as follows:

Frederick L. Brough, POB 56, New Paltz, N. Y. 12561
Carlyle A. Brough, Rt 2, Box 334, Yakima, Wa. 98908

Please send all parties new unpatented claim requirments.

Sincerely Yours,

C. Walker Lyon
Co-Mine Owner

Re: OME-6651 (Copper)
J. Howard Sims
Pope-Shenon Mine
Lemhi County, Idaho
Contract 2277

Dear Mr. Sims:

Thank you for returning our form letter MME 63, dated April 21, 1978, with the information entered on the back of the page.

The OME contract on this property included 32 unpatented lode mining claims. The Operator, J. Howard Sims, owned one claim--the New Pope Shenon--and possessed the others under terms of a Lease and Option to Purchase agreement dated May 1, 1966, from Fred J. Brough, C. Walker Lyon, Grace M. Lyon, and Laura Ledbetter, the owners. You report that this agreement expired and the property reverted back to the owners.

The J. Howard Sims Estate should have included the New Pope Shenon claim as an asset since J. Howard Sims owned the claim. It is an important claim because the portal to the level driven with funds provided by the OME contract is within the claim boundaries. Also, according to our field inspection of the property on July 20, 1977, about 20 tons of ore was stockpiled on the claim outside the portal of the tunnel. If this stockpile is shipped and the producers fail to pay royalty due the Government on the material sold, the J. Howard Sims Estate, or successor party, will be liable for payment of royalty. Please check on this and, if possible, advise us who produced the stockpiled material, and, if shipped since our inspection last July, who sold the material. Liability for payment of royalty rests either with the seller, or if not known, with the J. Howard Sims Estate or successor.

A copy of our letter of October 18, 1977, regarding new requirements concerning unpatented mining claims is enclosed for your information and guidance in the event you may wish to retain New Pope Shenon claim.

Owners of the remaining 31 lode mining claims signed Lien and Subordination Agreements in 1967 and 1968 which were attached and made part of the OME contract. We want to send them copies of the same letter, and would appreciate having their addresses verified if they are known to you. These are:

Fred J. Brough, Box 126, Salmon, Idaho 83467

Mr. C. Walker Lyon and Mrs. Grace M. Lyon
Box 250, Salmon, Idaho 83467

Miss Laura Ledbetter, Maxville, Montana 59850

Thank you for your cooperation.

Dear Mr. Sims:

Legislation enacted in October 1976 established new requirements concerning unpatented mining claims and affidavits of annual assessment work. Owners of unpatented claims must comply by October 22, 1979, with new procedures described in Section 314, Public Law 94-579, October 21, 1976, and in Federal Register--Title 43, Part IV of January 27, 1977. Copies of these documents are enclosed for your information. Simply stated, the new legislation requires that mining claims be rerecorded by October 22, 1979, and that certain information be filed with affidavits of assessment work.

We bring this matter to your attention so that you may take proper action if you intend to retain these claims after October 22, 1979. The Government's interest in the land and in royalty on possible production therefrom under terms of the subject contract terminate before that date. In the meantime, this interest is protected under provisions cited in the contract.

Sincerely yours,

Harold Kirkemo

MEMORANDUM

TO : Chief, Office of Mineral Exploration

FROM : Field Officer, Region I

SUBJECT: Annual royalty inspection
OME-6651 (Copper)
J. Howard Sims
Pope-Shenon Mine
Lemhi County, Idaho
Contract 2277

I visited the Pope-Shenon mine on Wednesday, July 20, 1977, to learn if there had been any production since my visit last year. Some ore was stockpiled near the OME portal (see accompanying pictures), but there were no signs of recent activity. I estimate that the stockpiled ore is not more than 20 tons.

The period for royalty payments to the Government from production at the mine expires on April 8, 1979. No royalties are due to the Government now but perhaps some will be due for the stockpiled ore, even though it may not be sold by the expiration date for royalty payments.

From: Field Officer, Region III

Subject: Annual Royalty Inspection
OME-6651 (Copper)
J. Howard Sims
Pope-Shenon mine
Lemhi County, Idaho
Contract 2277

I visited the Pope Shenon mine on Tuesday, June 8, 1976, to learn if there had been any production since my last visit in October, 1975. The road to the mine was passable but there was no evidence of any recent truck-hauling. Some broken rock is in the ore bin near the portal of the OME level but the mine was deserted and all evidence indicated no recent mining activity at the property.

The royalty period extends to April 8, 1979. There are no royalties due to the Government now.

To: Chief, Office of Minerals Exploration

From: Field Officer, Region I

Subject: Royalty Inspection
OME-6651 (Copper)
J. Howard Sims
Pope-Shenon Mine
Lemhi County, Idaho
Contract 2277

I visited the Pope-Shenon mine on Tuesday afternoon, October 21, 1975, to learn if there had been recent production. We had received a royalty check for $671.93 on June 26, 1975, from the sale of concentrates by Grand View Metals, Minersville, Utah.

There was no activity at the mine on the day of my visit. A small bulldozer had been so placed on the road so as to block automobiles from reaching the mine. Some ore, perhaps 25 tons, is stockpiled near the OME crosscut portal.

I later visited Mrs. Howard Sims in Salmon, Idaho in an attempt to learn how recently there had been work at the mine. She was not able to give me any useful information. Royalties received from production at the Pope-Shenon mine since the date of the OME contract are $2,198.08. The royalty period extends until April 8, 1979.

Lemhi County, Idaho
Contract 2277

Dear Mr. Sullivan:

This is in reply to your letter of October 1, 1974, to our office in Spokane, Washington, requesting that the file on this contract be closed because of lack of market.

The obligation to pay royalty on any production from this property continues in force until April 8, 1979, or until the amount contributed by the Government under the contract is fully repaid with interest at the rate of 8½ percent per annum, whichever occurs first. As of September 30, 1974, the outstanding principal balance was $35,213.89, and interest totalled $12,109.92. A copy of our letter dated March 19, 1971, to Mr. Sandy H. Sims, Executor for the estate of J. Howard Sims, was sent to you advising of the responsibility for royalty payments on production.

Although we appreciate the present problems associated with operating small mines, your request to close the file cannot be granted because of provisions in the contract and in the subsequent Certification of Possible Production.

Sincerely yours,

Harold Kirkemo, Chief

Re: O.M.E. #6651 - Copper
Pope Shenon Mine, Salmon, Lemhi County, Idaho

Dear Sir:

Please be advised that although shipments of copper ore were commenced during July, 1970, to The Anaconda Company, the shipments were rather sporadic. The reasons were multiple, i.e., development work continued with approximately $150,000. additional expended on the mine, but the main reason being that the copper ore contained 9% iron and 4+% alumina.

The Anaconda Company allowed a few loads to be shipped and then cut us off from marketing the ore. During the early part of 1973, Anaconda again tried a few loads ore, but then completely rejected the ore, advising us that they were not in the market.

We have continued to search for a market, but in this day of ecological demands, we have been unsuccessful.

We ask that our file be closed due to a lack of market.

Yours very truly,

J. W. Sullivan

Contract 2277

Dear Mr. Hackel:

The Region I Office of Minerals Exploration field office is being transferred to Denver, Colorado, on June 7, 1974.

After June 5,1974, please address all correspondence concerning OME and mail all required royalty payments to:

Office of Minerals Exploration
U. S. Geological Survey
Building 53, Room 28
Federal Center
Denver, Colorado 80225

Royalty checks should still be made payable to U. S. Geological Survey.

Sincerely,

Willard P. Puffett
Field Officer, Region I

Memorandum

To: Chief, Office of Minerals Exploration

From: Field Officer, Region I

Subject: Annual Royalty Inspection
OME-6651 (copper)
J. Howard Sims
Pope Shenon Mine
Lemhi County, Idaho
Contract 2277

The Pope-Shenon mine was deserted when I visited it on Thursday, May 9, 1974. The compressor had been moved out of the compressor shed and there was no positive evidence that any ore had been removed from the OME adit. There were no recent vehicle tracks on the roads leading to the upper adits.

We have no record of any ore shipments later than August 7, 1973; the required royalty was paid on this shipment. There are no unpaid royalties due to the Government. The period during which the Government is entitled to royalty from ore produced at the Pope-Shenon mine extends to April 8, 1979.

Re: OME-6651 (Copper)
J. Howard Sims
Pope-Shenon Mine
Lemhi County, Idaho
Contract 2277

Dear Mr. Green:

We note on the Anaconda Sampler settlement sheet for Smelter Lot No. B-847 accompanying an OME royalty check in the amount of $155.90 received here October 18, 1973, that the proceeds of the shipment were directed to the order of Grand View Metals, Inc. In your letter of September 7, 1973, to Mr. Willard F. Puffett, Field Officer, OME Region I, you state that "Grandview Metals, Inc., 5219 Major Street, Salt Lake City, Utah 84107 has control of the property at the present time."

We have received no documents transferring control of the property to Grand View Metals, Inc., and herewith request that two true copies of such documents be sent to this office as required by Article 2(e) of OME Contract 2277 (OME-6651) on the Pope-Shenon mine. Grand View Metals, Inc., the previous owner of interest in the property, or the Executor for the Estate of J. Howard Sims should provide these. The last party of interest furnishing such documents to us was Mines Exploration, Inc., on June 27, 1972. Since then we understand that Mineral Ventures, Ltd., had operating interest in the property.

We are sending copies of this letter to Grand View Metals, Inc., and to Mr. Sandy H. Sims, Executor of the Estate of J. Howard Sims in the hope that one or the other complies with our request.

September 5, 1973

Mr. Thomas L. Green
P. O. Box 460
Salmon, Idaho 83467

Dear Mr. Green:

When I visited the Pope-Shenon mine on Wednesday, August 29, 1973, the property appeared to be deserted. I did notice, however, that the shed near the lower adit had been moved a few feet from its former location, but I could not be certain if there had been any mining from the lower adit.

On my return to Spokane, I found a royalty check from the Anaconda Company for ore that you had shipped to hem on August 7, 1973. On the smelter settlement sheet was a note to the effect that the proceeds should go to Idaho National Bank, Salmon, Idaho, order of the Grand View Metals, Inc.

I'm trying now to determine who has leased the Pope-Shenon mine or at least who has control of it. I learned a year ago that Mines Exploration, Inc., Palo Alto, California, was the operator of the mine. Now it appears that they might not be.

I'll appreciate any information you might care to send me regarding the current status of the mine. Our interest in the mine results from an OME contract in which we participated in the costs of doing the work in the lowest adit and extends until April 8, 1979, or until the amount contributed by the Government is fully repaid with interest, whichever occurs first.

Sincerely,

Willard P. Puffett

Dear Sir:

In answer to your Inquiry Grandview Metals Inc.
5219 Major St.
Salt Lake City, Utah 84107
has control of the property at the present time - They are having difficulty selling the ore to the smelter, due to a low silica + high Iron Content in the ore - So as a result have not been in steady operation.

Sincerely
Thomas L. Green
Salmon, Ida.
