Application
- [x] Denied
- [x] Withdrawn

Contract
- [ ] Terminated - Not Certified
- [ ] Terminated - Certified
- [ ] Cancelled
- [ ] Royalty Agreement

The records contained in this file are marked (x) and arranged in this order:

Folder No. 1:

Left Side

- [ ] Royalty Audits
- [ ] Certification of Discovery
- [ ] Closing Letter
- [ ] Cost Audits
- [ ] Termination Notice or Agreement
- [ ] Recision Notice
- [ ] Assignment of Contract
- [ ] Contract Amendments
- [ ] Contract with all exhibits and annexes
- [ ] Owner's Consent to Lien and Subordination Agreement
- [x] Application and Attachments

Right Side

- [ ] Project Summary (final)
- [ ] Work Completed Analysis (final)
- All other material filed in chronological order including the following reports if checked:
- [ ] Field Team Semiannual Report for Certified Project
- [ ] Final Field Team Report (Tab)
- [ ] Operator's Final Report (Tab)
- [ ] Interim Field Team Reports
- [ ] Operator's monthly reports and all attachments
- [ ] On-site Exam. Report (Tab)
- [ ] Settlement Sheets
- [ ] Drill Logs

Additional Folders:

Left Side

Folders No. _____: Reports
- [ ] Analysis of Semiannual Inspection Reports
- [ ] Project Summary (Interim) by MME Engineers

Right Side

- [ ] Field Team Semiannual Report for Certified Project
- [ ] Field Team Interim Reports
- [ ] Operator's Monthly Reports with Transmittal, Narrative and Maps

Folders No. _____: Maps (Use pocket folder or envelope)

Folders No. _____: Settlement Sheets

INITIALS	CODE

Memorandum

To: Chief, Office of Minerals Exploration

From: Willard P. Puffett, Geologist, OME, Region I

Subject: Transmittal of Application for Financial Assistance
Glen Silver Mining Corporation (Silver)
Glen Silver Property
Owyhee County, Idaho

Enclosed is an application for OME assistance in exploring for silver ore in the DeLamar district, Owyhee County, Idaho. The applicant is an Idaho Corporation formed as part of an agreement between the North American Silver Corporation, an Idaho corporation, and Mikaris Holdings, Ltd., an Ontario, Canada, corporation, who is the majority stock holder in the new corporation.

The Glen Silver Mining Corporation owns or controls 17 unpatented claims and holds Mining Lease and Option to Purchase Agreements on 5 additional unpatented and 7 additional patented claims. These claims are northwest of those that were covered by Docket No. OME-6455, Contract No. 2214, Continental Quicksilver, Inc. (DeLamar Mine). Copies of all the agreements are in the application. The applicant has been unsuccessful in obtaining signatures on the Lien and Subordination Agreements, and if a contract is offered, will furnish a Performance Bond.

The application is complete as regards letters to the banks, bids for drilling, assay maps, and description of the project proposal. Copies of assay data are included, but there is no identifying number on the assay maps that will permit a comparison between the assay data and the figures on the assay maps.

The assay maps do not show geology, except on the small scale composite plan map, and one cannot be certain as to the type of material that was sampled. Presumably, the higher silver values are in quartz stringers, but the number, orientation, and thickness of the stringers is not shown. One cannot determine from the assay map if there are silver values in the country rock between the quartz stringers.

The type of deposit sought is "an area of stringers and disseminations large enough to support an open-pit mining operation." No details are given as to the necessary silver content that is required. Assay data indicate broad zones that contain from 1 to 3 ounces silver per ton, and this grade of rock must be rich enough to be of interest to the applicant.

The composite plan map shows that 18 trenches have crosscut the zone to be explored. These trenches are 150-200 feet apart and appear to have explored the limits of the silver mineralized area. The additional 3,550 feet of trenches proposed by the applicant do not seem justified.

Diamond core drilling to explore the downward projection of the mineralized zone or zones is planned from six surface drill sites and from underground in the "200 adit." The cross-section map does not show the expected dip of the mineralized zone, but the holes are planned to explore vertically below the surface showings. There is no suggestion in the application that the rock to be penetrated by the core drilling will be richer than that exposed in the trenches.

Additional information required before an appraisal of the application can be complete includes detailed geologic maps of the mineralized areas in the trenches and a justification of the expected profitable mining of rock that contains only 1-3 ounces per ton of silver. It is suggested that the applicant be required to furnish this additional information before a field examination is planned.

MINERAL(S) FOR WHICH YOU WISH TO EXPLORE: Silver and Gold

ESTIMATED COST OF PROJECT: $93,577.83

PROPERTY NAME	LOCATION COUNTY	STATE
Glen Silver	Owyhee	Idaho

GENERAL INSTRUCTIONS

Before filling out this application, please read the *OME Regulations for Obtaining Federal Assistance in Financing Explorations for Mineral Reserves* (30 CFR Chap. II). To assure prompt action, your application must provide all applicable material and information specified on the back of this application form. Avoid unnecessary correspondence and delays by submitting complete and accurate information. *Please submit two copies of this application and all accompanying papers* except as otherwise noted. Place your name and address on each sheet. Each item of information, maps, and reports required as a part of this application is described on the back of this form. Identify each attached statement by the item number to which it applies. If an item does not apply to your application, show the item number on your statement and after it write "not applicable." Maps or sketches should be used to supplement narrative descriptions of the property location and boundaries in item 2, existing mine workings and geology in item 3, and the proposed exploration work in item 5. When this information is not too complex, all of it may be shown on one map or sketch. All documents and other attachments submitted as a part of this application, except those in item 3(g) which you mark to be returned, become the property of the Government and will not be returned to the applicant. Send true copies, *not originals*, of leases, contracts, and other documents which are an essential part of your business records. *File this application with the Department of the Interior, U.S. Geological Survey, Office of Minerals Exploration, Washington, D. C., 20242, or with the nearest OME Field Office.*

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief, and that he would not ordinarily undertake the proposed exploration under current conditions and circumstances at his sole expense.

x April 7, 1969
DATED

x Glen Teague
BY *(Signature)*

President
TITLE

A wilfully false statement or certification to any Department or Agency of the United States Government is a criminal offense.
U. S. Code, Title 18, Sec. 1001.

INFORMATION REQUIRED WITH THIS APPLICATION

1. Financial Eligibility:

(a) Submit evidence of efforts made within 90 days preceding the filing of this application to obtain credit from your bank of account and at least one other banking institution or other private source of credit. Such evidence shall include (1) true copies of your letters to credit sources which show date of loan request, amount and terms requested, and proposed use of loan funds and (2) true copies of replies from credit sources. If the loan was offered under terms which you consider unreasonable, state why you consider them so.

(b) List names and addresses of affiliated, parent, or controlling companies or organizations and state extent and nature of their interest.

(c) State how you propose to furnish your share of the cost of the exploration work.

2. Applicant's Rights in Land:

(a) State your interest in the land and mineral rights, whether owner, lessee, purchaser under contract, or other. If you are not the owner, submit one true copy of the lease, contract, or other document (with address of owner) under which you control the property. Describe all liens, mortgages, or other encumbrances on the land and state book and page number and official place where recorded.

(b) State the legal description (section, township, and range; metes and bounds; patent number of claims) of the land upon which you wish to explore and all adjacent land which you own or control. Describe any part of the land or workings which should not be subject to Government royalty and liens. If the land consists of unpatented claims, state book and page number for each recorded location notice, including amended locations, and official place where recorded. State all the names by which you know the property.

(c) For all land or mineral rights encumbered or not owned, submit five copies of Lien and Subordination Agreements signed by owner on MME Form 52. If the agreements cannot be obtained, state reasons and whether you can furnish a performance bond.

3. Physical Description:

(a) Describe in detail and illustrate with maps or sketches all mining or exploration operations which you know have been or are being conducted upon the land. Include existing mine workings and all production facilities.

(b) State your interest, if any, in operations described in (a)

(c) State, if you know, the past and current production, supporting your statement with copies of settlement sheets, mine records, or published data if available.

(d) Describe known ore reserves, giving quantities and grades.

(e) Describe by narrative and maps or sketches the geologic features of the property, including ore minerals, geologic formations if known, and type of deposit (vein, bedded, etc.).

(f) If you have sampled the area you propose to explore, show where the samples were taken, describe sampling methods used, and provide copies of assay certificates. State your reasons for expecting to find ore.

(g) Send with your application at least *two* copies of all geologic or engineering reports, assay maps, or technologic information which you have, indicating whether you require their return.

4. Accessibility of Property:

(a) To aid the OME representative who may examine the property state name, address, and telephone number of person who will meet him; give directions for reaching the property; and describe accessibility of property and of any mine workings.

(b) Name the shipping and supply points and state the distances to the property.

5. Exploration Work:

(a) Describe fully the proposed exploration work giving individual footages and sizes of openings *for each item of work.* Use narrative, maps, plans, and sections as necessary. Show location of the proposed work as related to geologic features such as veins, ore-bearing beds, contacts of rock formations, etc. Show also the relation of the proposed work to any existing mine workings and to *land boundaries* or to the closest identifiable corner.

(b) If an access road must be built, show the proposed location on the property map and state the length, type and construction methods proposed.

(c) If an OME contract is executed, state how soon thereafter work would be started and finished. State your anticipated average daily or monthly rate of progress for each type of work.

6. Experience:

State your operating experience and background to conduct this exploration work and also that of the person who will supervise the work.

7. Estimate of Costs:

Furnish detailed estimates of the necessary costs for time and materials *for each item of the work proposed in 5(a)* under the headings listed below with a total for each heading and the estimated total cost of the work. Costs for any work to be performed by an independent contractor should be listed separately under category (a) below. Costs for any work that is not to be performed by an independent contractor should be listed under categories (b) through (g).

(a) Independent contracts. State the total cost of any proposed independent contract for all or any part of the work, and the number of units and the unit cost for each type of work, such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, or per cubic yard of material moved. Cost estimates should be supported by bids from three contractors if possible. (*Note*—If none of the work is to be contracted, write "none" after this item.)

(b) Personal services. The cost of supervision, engineering and geological services, outside consultants, and labor should be itemized by numbers and classes of employees; rates of wages, salaries or fees; and periods of employment. State whether these services are available.

(c) Operating materials and supplies. List items of material and supplies giving quantity and price of each. Include under this heading power, water, and fuel, and units of equipment and tools costing less than $50 each.

(d) Operating equipment. List items of equipment and tools costing $50 or more per unit. Give specifications and indicate how each item is to be acquired—i. e., rented, purchased or provided by the applicant. If rented or purchased, state the estimated rental or purchase price. If furnished by the applicant, state condition and present fair market value.

(e) Initial rehabilitation and repairs. Describe the type and the cost of *initial* rehabilitation or repair of existing buildings, fixtures, installations (exclusive of mine workings), and movable operating equipment now owned by the applicant which will be used in the exploration work.

(f) New buildings, fixtures, installations. Describe each building, fixed improvement, and installation to be purchased, constructed, or installed for the exploration work, stating specifications and cost including labor, materials, and supervision.

(g) Miscellaneous. Describe the type and estimate the cost of repairs and maintenance of the operating equipment listed in 7(d). Do not repeat initial repairs listed in 7(e). Show also the costs of analytical work, accounting, workmen's compensation and employees' liability insurance, payroll taxes, and other required costs that do not fall within the previous categories. [*Note*—The Government will not contribute to costs incurred before the date of the contract, or to costs of or incident to: (1) acquiring, using, or possessing land and any existing improvements, facilities, buildings, installations, and appurtenances, or the depreciation and depletion thereof; (2) general overhead, corporate management, interest and taxes (other than payroll and sales taxes); (3) insurance (other than employees' liability insurance); and (4) damages to persons or property (other than authorized repair to or replacement of equipment or other property used in the work).]

GLEN SILVER MINING CORPORATION
c/o 9th and Dearborn Streets
CALDWELL, IDAHO 83605

Item 1. Financial Eligibility:

(a) Copies of correspondence with the Idaho First National Bank and the First National Bank of Oregon are attached.

(b) North American Silver Corporation, P. O. Box 696, Homedale, Idaho, 83628 is the owner of 40% of the shares of Glen Silver Mining Corporation. Grandroy Mines Limited, Suite 908 - 330 Bay Street, Toronto 1, Ontario, Canada is the owner of 60% of the shares of Glen Silver Mining Corporation.

(c) Glen Silver's share of the cost of exploration will be furnished from funds currently in the company's treasury.

GLEN SILVER MINING CORPORATION
c/o 9th and Dearborn Streets
CALDWELL, IDAHO 83605

Item 2. Applicant's Rights in Land:

(a) Glen Silver Mining Corporation owns, or controls, a block of 29 contiguous mining claims. It is the outright owner of 17 unpatented claims and holds Mining Lease and Option to Purchase Agreements on two additional groups of 6 claims each. Of the claims covered by these agreements, 7 are patented and 5 are unpatented. Copies of all the pertinent agreements are attached. There are no other encumbrances against any of the claims.

(b) The mining claims are located in Sections 5, 6, 7, and 8 of Township 5 South, Range 4 West of the Boise Meridian, Owyhee County, Idaho. Their location is shown on the attached map. The records may be found as follows:

(c) If it is not possible to obtain the Lien and Subordination Agreements, a performance bond will be furnished by Glen Silver Mining Corporation.

GLEN SILVER MINING CORPORATION
c/o 9th and Dearborn Streets
CALDWELL, IDAHO 83605

Item 3. Physical Description:

(a) The claims lie along the descending northwesterly flank of DeLamar Mountain immediately west of the old DeLamar Mine property, which they adjoin. A number of old workings are scattered along the claims but efforts to reopen them have been largely unsuccessful to date. Recent exploration has been chiefly by bulldozer trenching and approximately $45,000 was spent on this activity last year including sampling, assaying, and related engineering and geological services. The known workings are shown on the attached map, which also shows the proposed work for the next phase of exploration. There are no production facilities.

(b) The recent bulldozer trenching mentioned above was done by the present owners.

(c) There are no production records known from any previous operations on these claims. Piper and Laney (Idaho Bureau of Mines and Geology, Bulletin 11, 1926) do, however, tabulate the production of the adjoining DeLamar Mine from 1888 - 1914 as 402,552 troy ounces of gold and 5,873,088 troy ounces of silver from which a total of $12,435,797 were realized.

(d) No ore reserves have been estimated from the present limited exploration work.

(e) The DeLamar area is largely underlain by a thick series of rhyolites, thought to be of Miocene age, which have been the most prolific host rocks for the gold-silver ores of the Silver City - DeLamar District. The rhyolites are altered and brecciated in patterns which are not thoroughly understood at present and, in the Glen Silver property, are cut by numerous northerly trending stringers of quartz. Fine-grained silver sulphides and sulpho-salts (argentite and ruby silvers probably predominating) accompany the quartz stringers and also occur as exceedingly fine-grained dissemination in the silicified and brecciated rhyolites. The type of deposit sought is an area of stringers and dissemination large enough to support an open-pit mining operation. What is currently known of the detailed local geology is shown on the attached map of the property.

(f) All of the bulldozer trenches, and such of the underground workings as were available, were sampled in 1968. The attached seven detailed assay maps show the location and results of the samples taken. Basic practice was to sample in 10-foot increments for silver values and to composite the samples into greater widths (20 - 50 feet) for gold determinations. Copies of the assay sheets are also attached. Along the 3,400 feet of length which were tested in a preliminary way by the trenching, some truly significant widths averaging more than 1 ounce of silver per ton were uncovered. It is hoped that further work will disclose sufficient areas of continuous mineralization to make a mining operation economically feasible.

(g) None of the maps accompanying this application need be returned.

GLEN SILVER MINING CORPORATION
c/o 9th and Dearborn Streets
CALDWELL, IDAHO 83605

Item 4. Accessibility of Property:

(a) Either Mr. Glen Teague, Nyssa, Oregon (telephone 503-372-2847) or Mr. Glen Pegram, Homedale, Idaho (telephone 208-337-4385) would be glad to act as a guide to the property. It is reached by dirt road from Sheaville (43 miles south of Marsing, or 11 miles north of Jordan Valley, on U.S. Highway 95) and is 16 miles southeast of Sheaville at the ghost town of DeLamar. From DeLamar to the claims requires a pickup, or preferably a 4-wheel drive vehicle, for the one-mile drive over DeLamar Mountain and along the bulldozer access roads.

(b) Shipping and supply points are Boise, Idaho (95 miles distant) or Jordan Valley, Oregon (27 miles distant).

Item 5. Exploration Work:

(a) Proposed exploration consists of diamond drilling and additional bulldozer trenching. The attached map, and cross section through the "200 Adit", show the location and footage planned for each type of work. The drilling program is divided between underground drilling from the "200 Adit" and surface drilling at various intervals along a strike-length of 3,000 feet. Six surface holes total 3,600 feet and seven underground holes total 2,975 feet, for a grand total of 6,575 feet of diamond drilling. The bulldozer trenching amounts to a total of 3,550 feet in nine separate cuts. The program was laid out both to test areas in which previous work had shown values, and to probe for possible extensions and for new areas not already indicated. It is not expected to constitute a complete and definitive program, but it seems about all that can be intelligently planned at this stage.

(b) Not applicable.

(c) Work could be started immediately after the execution of an OME contract and should be completed within a maximum period of six months thereafter. Expected progress for diamond drilling should be 1,500 feet per month, and for bulldozing could be 150 feet per day.

Item 6. Experience:

The Project Manager will be Mr. Arthur S. Ashton, a resume of whose training and experience follows:

Technical Training: University of Toronto, BS, 1949
Practical Experience:

1949-60	Assignments for various Canadian mining and exploration companies across Canada. Duties and responsibilities included mapping, property examination, claim staking, supervision of geophysical and geochemical surveys and of diamond drilling programs.
1960-66	Conwest Exploration Company Limited. Supervision of various projects and property development in Central and Western Canada.
1966-67	Homestake Mining Company. Planning and supervision of exploration in British Columbia and Yukon Territory.
1968-	M. J. Boylen Engineering Offices, Toronto. Supervision of exploration program in the Canadian Arctic, and Project Manager at the Glen Silver property.

GLEN SILVER MINING CORPORATION
c/o 9th and Dearborn Streets
CALDWELL, IDAHO 83605

Item 7. Estimate of Costs:

(a) Copies of all bids are attached.

Diamond Drilling:

Surface Drilling	0'-250'	300' @ $9.50	$ 2,850.00
	" "	1,200' " 7.46	8,952.00

Dear Sir;

Glen Silver Mining Corp., Box 696, Homedale, Idaho, would like to know if your bank would be interested in loaning our company the sum of $75,000 to be used for exploration on mining property located near DeLamar, Idaho. The exploration will consist of diamond drilling, surface trenching, sampling etc. If you are interested, under what terms would you loan the money?

Yours Truly;

Glen Teague

Item 2 (a)

Gentlemen:-

Agreement - August 27, 1968

Reference is made to the above agreement made between your companies and the undersigned, Mikaris Holdings Limited.

You are hereby notified that Mikaris Holdings Limited has assigned to Grandroy Mines Limited, Suite 908, 330 Bay Street, Toronto, Ontario, all of its right, title and interest of Mikaris Holdings Limited in and to the said agreement. This shall be your full and sufficient authority and direction to regard Grandroy Mines Limited from and after this date as the party entitled to all of the rights and benefits of the undersigned in the agreement.

For purposes of the assumption of the obligations of Mikaris Holdings Limited under the agreement, Grandroy Mines Limited has also executed this notice and direction.

Without limiting the generality hereof, you are particularly authorized and directed to cause 600,000 shares in the capital of Glen Silver Mining Corporation, available to the undersigned pursuant to the agreement, to be allotted to and issued in the name of Grandroy Mines Limited at the above address.

DATED at Toronto, Ontario, Canada, this 7th day of February, 1969.

MIKARIS HOLDINGS LIMITED

Per:

Grandroy Mines Limited
undertakes to assume the obligations and perform the covenants of Mikaris Holdings Limited referred to in the aforesaid agreement.

DATED at Toronto, Ontario, Canada, this 7th day of February, 1969.

A G R E E M E N T

THIS AGREEMENT Made and entered into this 27th day of August, 1968, by and between NORTH AMERICAN SILVER CORPORATION, an Idaho corporation, with its principal place of business at Homedale, Owyhee County, Idaho, party of the first part, and MIKARIS HOLDINGS, LTD., an Ontario, Canada, corporation, of Suite 908, 330 Bay Street, Toronto, Canada, party of the second part, WITNESSETH:

WHEREAS, The party of the first part is the owner of certain unpatented mining claims situated in the Carson Mining District, County of Owyhee, State of Idaho, location notices of which are of record in the Office of the County Recorder of Owyhee County, State of Idaho, all of which claims are more particularly described in Exhibit A attached hereto and by this reference made a part hereof; and

WHEREAS, The party of the first part is the lessee and has an option to purchase certain patented and unpatented mining claims situate in the Carson Mining District, County of Owyhee, State of Idaho, location notices of which are of record in the Office of the County Recorder of Owyhee County, State of Idaho, all of which claims are more particularly described in Exhibit B attached hereto and by this reference made a part hereof; and

WHEREAS, The parties hereto desire to form a corporation for the purpose of exploring and developing the aforesaid mining claims, and to provide for the distribution of the shares of stock and profits of said corporation.

NOW THEREFORE, In consideration of the mutual covenants and agreements herein cortained, the parties agree as follows:

1. The parties will form a mining corporation under and pursuant to the laws of the State of Idaho, to be known as GLEN SILVER MINING CORPORATION. The corporation will be authorized to issue 1,000,000 shares of no-par value stock with a stated value of 10¢ per share.

GIGRAY, BOYD & DOWNEN
ATTORNEYS AT LAW
CALDWELL, IDAHO

GLEN SILVER MINING CORPORATION
c/o 9th and Dearborn Streets
CALDWELL, IDAHO 83605

2. The party of the first part shall convey, set over and transfer and assign all its right, title and interest in and to the mining claims described in Exhibits A and Exhibit B attached hereto to the corporation to be formed and receive therefor 400,000 shares of stock. Said corporation shall assume all obligations required to be performed by the party of the first part by the terms of any and all leases which are held by the party of the first part upon the aforesaid mining claims.

3. The party of the second part agrees to purchase 600,000 shares of stock of said corporation to be formed, on or before February 1, 1969, for the sum of $60,000.00.

4. The party of the second part further agrees that on or before February 15, 1969, it will advise the party of the first part, in writing, whether or not it desires to continue in the exploration and development of the aforesaid mining claims and in the event it should desire to so continue, then the party of the second part shall obtain for the corporation, an additional sum of $100,000.00 to be secured by debentures payable within three (3) years, with interest at the rate of six per cent (6%) per annum.

In the event the party of the second part does not advise the party of the first part that it desires to continue in the exploration and development of the aforesaid mining claims, then and in that event, the party of the first part shall have the option within thirty (30) days from and after February 15, 1969, to purchase the aforesaid 600,000 shares of stock held by the party of the second part in the corporation to be formed, at 10¢ per share, with the purchase price to be payable from the production of ores as follows:

The party of the first part shall pay 20% of the profits from such production of ores to the party of the second part as and for the aforesaid purchase price for said 600,000 shares of stock.

CALDWELL, IDAHO 83605

5. The party of the second part further agrees to provide whatever additional funds are necessary after the aforesaid $160,000.00 is expended as may be required to place said mining claims into production. Provided however, that the expenditure of such additional funds is economically feasible and reasonable. And providing further, that after the aforesaid mining claims are in production, the profits of the corporation shall be divided 20% to the party of the first part and 80% to the party of the second part, until the party of the second part has been reimbursed for such additional funds expended by it in placing the aforesaid mining claims into production.

6. It is understood and agreed that the $100,000.00, secured by debentures, will be repaid from the profits of the corporation before any profits will be divided between the parties hereto.

7. The parties further agree that any claims acquired by the parties hereto after the execution of this agreement, located in Township 5 South, Range 4 West of the Boise Meridian, Owyhee County, Idaho, shall be conveyed, transferred and assigned to the corporation to be formed hereunder by the party acquiring the same.

IN WITNESS WHEREOF, The parties hereto have caused their corporate name to be hereunto subscribed by their President and their corporate seal to be affixed by their Secretary in pursuance to said resolution the day and year first above written.

acknowledged, and other considerations hereinafter contained, does rent and lease unto the lessee exclusive right to mine all kinds of minerals and ores under and on the above described mining claims so long as the lessee continues to conduct exploration, mine and operate the aforesaid mining claims in a diligent and miner-like manner.

2. The lessors do also convey and lease and give to the lessee the right to mine, use, sell, dispose of, and remove from the premises any and all minerals and ores, and to use any portion of said above described premises that may be necessary and proper to use in the mining and raising and preparing for market and conveying to market any minerals or ores mined or to be mined on said premises, and also the right to ingress and egress in and on said property, and the use of any portion thereof for placing machinery and tipples, or for the building of houses, or for the storage of refuse that may be taken from said mines, or the placing thereon of any ores mined, for any tramways, or railroads, or other roads that the lessee may desire to place thereon for the mining, raising, conveying, preparing for and forwarding to market any minerals and ores mined on said premises. Also all water and timber on the same, necessary for the developments, working, and mining said minerals and ores and the preparation of same for market and the removal of same from the premises.

3. It is agreed in consideration of the grant and lease that the lessee shall pay and hereby does agree to pay to the lessors a royalty based upon crude ore at millhead grade on a monthly basis based upon the net recoverable value per ton as follows:

5% royalty to $15.00 net recoverable value per ton.

7½% royalty to $25.00 net recoverable value per ton.

10% royalty to over $25.00 net recoverable value per ton.

It is specifically understood and agreed that the lessee

GLEN SILVER MINING CORPORATION
c/o 9th and Dearborn Streets
CALDWELL, IDAHO 83605

does not guarantee payment of any royalties to the lessors.

4. The royalty required to be paid hereunder shall be paid after each sale of concentrates or ores based upon the net smelter return.

5. The lessee agrees to begin exploration of the aforesaid mining claims immediately.

6. The lessee agrees to perform all assessment work to hold the aforesaid mining claims for the year beginning April 1, 1968, and for each year thereafter during the term of this lease and shall cause to be made and filed customary and legal proof as required by the law thereof.

7. The lessee agrees to pay all taxes that may be levied against any of the aforesaid mining claims during the term of this agreement.

8. The lessors agree to sell to the lessee at any time during the term of this agreement the mining claims above described, with all privileges granted in this lease, for the sum of Seventy-five Thousand and no/100 Dollars ($75,000.00). All royalties that may be paid to the lessors by the lessee for ore, minerals and concentrates during the term of this agreement shall apply as a part payment of the purchase price.

9. It is understood and agreed that the lessee can terminate this agreement at any time upon giving the lessors thirty (30) days notice in writing and mailing it to the last known address of the lessee.

IN WITNESS WHEREOF, The said parties hereto have hereunto set their hands and seals the day and year first above written.

MINING LEASE AND OPTION TO PURCHASE

THIS AGREEMENT, Made and entered into this 10th day of July, 1968, by and between ASHER F. GETCHELL and MARGARET GETCHELL, husband and wife, of Seattle, King County, State of Washington, parties of the first part, hereinafter referred to as lessors, and NORTH AMERICAN SILVER CORPORATION, an Idaho Corporation, with its principal place of business at Homedale, Owyhee County, State of Idaho, party of the second part, hereinafter referred to as lessee, WITNESSETH:

That the lessors, for and in consideration of the rents, covenants and agreements hereinafter mentioned, reserved and contained on the part and behalf of the said lessee to be paid, kept and performed, have leased, demised and by these presents does lease and demise unto the said lessee all of the following described patented mining claims situated in the Carson Mining District, County of Owyhee, State of Idaho, more particularly described as follows, to-wit:

(SEE EXHIBIT A ATTACHED HERETO)

for a term of five (5) years, commencing on the 10th day of July 1968.

TO HAVE AND TO HOLD The said premises unto the said lessee for its sole and proper use and benefit for and during the term aforesaid, together with the exclusive right of the lessee to mine all kinds of minerals and ores under and on the above described mining claims.

I.

The lessors do also convey and lease and give to the lessee the right to mine, use, sell, dispose of, and remove from the above described premises any and all minerals and ores, and to use any portion of said above described premises that may be necessary and proper to use in the mining and raising and preparing for market and conveying to market any minerals or ores mined or to be mined on said premises, and also the right to ingress and egress in and on

GLEN SILVER MINING CORPORATION
c/o 9th and Dearborn Streets
CALDWELL, IDAHO 83605

said property, and the use of any portion thereof for placing machinery and tipples, or for the building of houses, or for the storage of refuse that may be taken from said mines, or the placing thereon of any ores mined, for any tramways, or railroads, or other roads that the lessee may desire to place thereon for the mining, raising, conveying, preparing for and forwarding to market any minerals and ores mined on said premises. Also all water and timber on the same, necessary for the development, working, and mining said minerals and ores and the preparation of same for market and the removal of same from the premises.

II.

It is agreed in consideration of the grant and lease that the lessee shall pay and hereby does agree to pay to the lessors a royalty based upon crude ore at millhead grade on a monthly basis based upon the net recoverable value per ton as follows:

5% royalty to $15.00 net recoverable value per ton.

7½% royalty to $25.00 net recoverable value per ton.

10% royalty to over $25.00 net recoverable value per ton.

It is further understood and agreed that the lessee shall pay to the lessors a minimum royalty of $300.00 per month, in advance, to commence on the 10th day of July, 1968, and on the 10th day of each and every month thereafter during the term of this lease, with said monthly royalty payments to be credited against any future royalty which may become payable under the terms of this agreement.

III.

The royalty required to be paid hereunder shall be paid after each sale of concentrates or ores based upon the net smelter return.

IV.

The lessee agrees to begin exploration of the aforesaid

GIGRAY, BOYD & DOWNEN

CALDWELL, IDAHO 83605

mining claims immediately.

V.

The lessee shall assume and pay, during the term of this agreement, any taxes that may be levied against any of the property of the mining operation.

VI.

The lessee agrees that in its operation of the mining claims it shall comply with Sections 44-501 and 44-502 of the Idaho Code relating to mining labor, and further to comply with all Federal, State and local laws and in particular, the Workmen's Compensation Law of the State of Idaho.

VII.

It is further agreed that the party of the second part is to have the option on or before thirty (30) days before the expiration of this lease, of leasing the aforesaid mining claims for an additional five (5) year term, upon the same terms and conditions as herein contained, and on or before the end of each succeeding five (5) year period, if the lessee continues to conduct exploration, mining and operating the aforesaid mining claims in a diligent and miner-like manner, it is to have the option of leasing said mining claims for the following five (5) year period upon the same terms and conditions as herein contained. Total lease period not to exceed 15 years.

VIII.

The lessors agree to sell to the lessee at any time during the term of this agreement, or any renewal thereof, all or any of the mining claims above described, with all privileges granted in this lease for the sum of $40,000.00 per claim, or $240,000.00 for all claims. All royalties including the guaranteed royalties, that may be paid to the lessors by the lessee for ore minerals and concentrates during the term of this agreement shall apply as a part payment of the purchase price.

has made, constituted and appointed, and by these presents do make, constitute and appoint
Asher Frederick Getchell

true and lawful attorney for me and in my name, place and stead and for my use and benefit

to ask, demand, sue for, recover, collect and receive all such sums of money, debts, dues, accounts, legacies, bequests, interests, dividends, annuities and demands whatsoever, as are now or shall hereafter become due, owing, payable or belonging to me

and have, use and take all lawful ways and means in my name, or otherwise, for the recovery thereof, by attachments, arrest, distress or otherwise, and to compromise and agree for the same, and to make, sign, seal and deliver acquittances, or other sufficient discharges for the same; for

and in my name, to bargain, contract, agree for, purchase, receive and take lands, tenements, hereditaments, and accept the seizin and possession of all lands, and all deeds, and other assurances in the law therefore; and to lease, let, demise, bargain, sell, remise, release, convey, mortgage and hypothecate lands, tenements and hereditaments, upon such terms and conditions and under such covenants as shall think fit, to assign and transfer any note or mortgage; to dedicate any street, avenue, alley, place, way or park for public uses. ALSO to bargain and agree for, buy, sell, mortgage, hypothecate, and in any and every way and manner deal in and with goods, wares and merchandise, choses in action and other property, in possession or in action, and to release mortgages on lands or chattels, and to make, do and transact all and every kind of business of what nature and kind soever. AND also for me and in my name, and as my act and deed, to sign, seal, execute, deliver and acknowledge such deeds, leases and assignments of leases, covenants, indentures, agreements, mortgages, hypothecations, bottomries, charter parties, bills of lading, bills, bonds, notes, receipts, evidences of debt, release and satisfactions of mortgage, judgments and other debts, and such other instruments in writing, of whatsoever kind or nature, as may be necessary or proper in the premises:

GIVING AND GRANTING unto said attorney full power and authority to do and perform every act and thing whatsoever requisite and necessary to be done in and about the premises as fully to all intents and purposes as I might or could do if personally present; hereby ratifying and confirming all that said attorney do or cause to be done by virtue of these presents.

IN WITNESS WHEREOF, I have hereunto set my hand and seal the Tenth day of April in the year of our Lord one thousand nine hundred and fifty-seven

Signed, Sealed and Delivered in the Presence of

DIAMOND DRILL CONTRACTING COMPANY
BOX 307 PARKWATER STATION SPOKANE, WASHINGTON 99211
Telephone 509 KE-4-1588

Date 12 March 1969

Gentlemen:

Following is our quotation for diamond core drilling work at:

Glen Silver Mining Company, DeLamar, Idaho

Surface Drilling

1) MOBILIZATION & DEMOBILIZATION of personnel and drilling equipment at $ 752.00 per rig.

2) MOVES to the first drill site, rigging up, rigging down and subsequent moves and rigging operations, will be charged for at $ 504.00 per ~~XXXX~~ move per rig.

3) CORE DRILLING will be charged for at the following rates per foot:

Footage	NXC	NX NXWL	BX BXWL	AX AXWL	EX
0-250			7.46		
250-500			7.84		
500-750			8.26		
750-1000					
1000-1250					
1250-1500					
1500-1750					
1750-2000					

4) OVERBURDEN DRILLING will be charged for at the following rates per foot:

4"	NX	BX	AX	EX
	9.50	9.50		

GLEN SILVER MINING CORPORATION
c/o 9th and Dearborn Streets
CALDWELL, IDAHO 83605

5) REAMING CASING will be charged at the following rates per foot:

4"	NX	BX	AX	EX
		3.75		

6) PLACING CASING will be charged for at $_____ per hour.

7) CEMENTING and drilling out cement will be charged for at $ 15.00 per hour, plus the cost of cement or substitute.

8) STANDBY TIME for surveying or other reasons requested by the owner will be charged for at $ 15.00 per hour per rig with a two-man crew. Time loss due to breakdown or lack of equipment will not be charged for.

9) WATER HAULAGE If it becomes necessary to employ a vehicle (either 2-wheel or 4-wheel drive) for the purpose of hauling water, Contractor will furnish this unit at $ 350.00 per month plus 20 ¢ per mile. If it becomes necessary to employ a full-time water truck driver, Contractor will charge $_____ per hour for this service.

10) DRILLING MUD, CEMENT OR SUBSTITUTE, AND ADDITIVES will be charged to Owner at cost plus handling charges, fob job site. Copies of invoices for these materials will accompany statement submitted to Owner, if requested.

11) CASING LOST in hole or left in hole at owner's request will be charged to Owner at cost price, fob job site.

12) DRILL SITE PREPARATION Drill sites and access will be provided by owner, ~~XXXX

GLEN SILVER MINING CORPORATION
c/o 9th and Dearborn Streets
CALDWELL, IDAHO 83605

15) MOBILIZATION TIME:

We will require a minimum of one week mobilization time.

16) SPECIAL CONDITIONS:

We will require that you maintain and keep open all access roads to the drill site and the supply pump locations.

CONTRACTOR INSURANCE PROVISION: Contractor shall provide and continue in force during the period of this Contract, at the Contractor's expense, all insurance as specified under this section:

a) Statutory Workmen's Compensation and/or Employer's Liability insurance covering accidental injury or occupational disease (including death) sustained by employees during employment.

b) Comprehensive Automobile Liability Insurance with bodily injury limits of $50,000 each person, and $100,000 each accident, and with a property damage limit of $10,000.

c) Comprehensive Public Liability Insurance, including Protective and Contractual Liability coverages, with bodily injury limits of $100,000 each person and $500,000 each accident, and property damage limits of $50,000 each accident and $100,000 aggregate operations.

INVOICING AND PAYMENT: On or before the seventh day of each month while the agreement remains in effect, Contractor shall submit to Owner an invoice, in triplicate (two copies mailed to owner's field representative), adequately describing Contractor's charges for work performed hereunder according to the terms of this contract, during the preceding calendar month. Upon receipt of said invoice, and subject to approval, the owner shall make payment in full to Contractor for such work described in said invoice within 20 days from invoice date.

Subject: Glen Silver Mining Corporation

Dear Sir,

The following schedule of items is presented for your consideration as our proposal for preforming underground and surface diamond core drilling on Glen Silver Mining Corporation project in the Silver City, Idaho Mining District.

Items

1. Mobilization: Each drill rig- $600.00.
   Demobilization: Each drill rig- $400.00.

2. Drilling and casing unconsolidated overburden: $15.60 per foot.

3. Diamond Core Drilling:

	NXWL	BXWL or AXWL
0.0 to 250 feet	$12.30 per ft.	$11.20 per ft.
250 to 500 feet	13.70 per ft.	12.30 per ft.
500 to 750 feet		13.70 per ft.

4. Reaming for casing: NX-$10.00 per ft., BX-$7.50 per ft..

5. Moving from mine portal to underground drill hole location, from hole to hole, setting up, tearing down, return of underground equipment to mine portal, installation and recovery of water supply systems: $20.00 per hour each 2 man crew.

6. Rehabilitation of underground workings, installation and recovery of air lines, cutting drill stations, mucking and tramming: $25.00 per hour each 2 man crew.

7. The following to be furnished at no cost to Boyles Bros. Drilling Co. or by Boyles Bros. at their invoiced cost plus 10%: Explosives, exploders, pneumatic drill steel and bits, pneumatic drills (rental), adequate roads, maintained to level surface drill sites.

8. Cementing and drilling out cement: $25.00 per hour plus cost of cement, cement substitutes, drill mud, and drill fluid additives.

9. Delays for your convenience, waiting for cement to set during a regular drill shift, etc.: $20.00 per hr..

10. Boyles Bros. will furnish suitable drills for underground and surface drilling with all fittings, accessories and supplies, with exceptions noted. To do the work Boyles Bros. will furnish and operate an air compressor for underground operations, water supply systems and camp facilities for the crew. The drills will be operated 2 shifts per day 6 days per week under the direct supervision of a competent general foreman. Two weeks notice, AT.

Your interest in Boyles Bros. Drilling Company's services is sincerely appreciated. Should you have any question regarding this or any other project please call on us at your convenience.

Very truly yours,
Boyles Bros. Drilling Co.

Gentlemen:

On December 18, 1969, we wrote you outlining the current situation regarding the processing of pending applications for OME financial assistance. Will you please inform us of your plans regarding your application. If you have decided not to pursue it further, will you please so inform us.

If we do not receive a reply from you within 30 days from the date of this letter, we will assume that you are no longer interested in your application and we shall consider it as having been withdrawn.

Sincerely yours,

Harold Kirkemo (gh)

Re: OME-6794 (Silver)
Glen Silver Mining Corporation
Glen Silver Property
Owyhee County, Idaho

Gentlemen:

We wrote you on July 18, 1969, to advise that our funding situation then precluded full consideration of your application for financial assistance to explore the Glen Silver property. In late November 1969 we learned that funds for contracting purposes in the fiscal year ending June 30, 1970, are sufficient for only a few new contracts. The extent of future contracting will depend on availability of funds.

Owing to curtailment of the program, the processing of applications is being delayed. Therefore, field examinations necessary to reach decisions on applications are being made largely in connection with other field work of the program. In due course of time we will inform you whether or not your application can be approved for a contract when funds are available. Priority on available funds will be given to approved applications offering the best opportunities for making significant discoveries.

Under these circumstances, should you wish to withdraw your application, please so advise. If you wish to keep your application in active status, we will process it as explained above.

We regret that this action is necessary, but under present funding circumstances we cannot offer better service at this time.

Sincerely yours,

Harold Kirkemo (gla)

Re: OME-6794 (Silver)
Glen Silver Mining Corporation
Glen Silver Property
Owyhee County, Idaho

Gentlemen:

Reference is made to your application for exploration assistance dated April 7, 1969.

We have postponed processing applications received recently pending definite information regarding availability of funds for the fiscal year beginning July 1, 1969. Although appropriations have not yet been made for the current year, we understand that funds will be much less than were available for the year that ended June 30, and we are authorized to operate only at the level of the anticipated reduced funds. Under this situation, action on pending applications must be postponed, as proposed contracts already drafted and awaiting execution will require more funds than are available. When we can again process new applications, first priority will be given to those offering the best opportunities for making significant discoveries.

We regret that we cannot make a decision on your application at present and we are unable to estimate when we may be of possible assistance to you. When circumstances permit, we will process your application within the limitations stated above.

Sincerely yours,

Harold Kirkemo (gla)
