Memorandum

To: George C. Selfridge, Chief
Division of Field Operations, OME
Washington 25, D.C.

From: Acting Field Officer, OME, Region III

Subject: Application for OME Aid (Gold-Silver and Base Metals)
Juan Green
Alto Juan Property Golden Goodman
San Juan County, Colorado

Enclosed are the original and one copy of the subject application and two copies of my letter to the applicant.

One copy of the application is being retained in this office.

Yours very truly,

Original signed by

Hugh M. Connors

GENERAL INSTRUCTIONS

Before filling out this application, please read the *OME Regulations for Obtaining Federal Assistance in Financing Explorations for Mineral Reserves* (30 CFR Chap. III). To assure prompt action, your application must provide all applicable material and information specified on the back of this application form. Avoid unnecessary correspondence and delays by submitting complete and accurate information. *Please submit four copies of this application and all accompanying papers* except as otherwise noted. Place your name and address on each sheet. Each item of information, maps, and reports required as a part of this application is described on the back of this form. Identify each attached statement by the item number to which it applies. If an item does not apply to your application, show the item number on your statement and after it write "not applicable." Maps or sketches should be used to supplement narrative descriptions of the property location and boundaries in item 2, existing mine workings and geology in item 3, and the proposed exploration work in item 5. When this information is not too complex, all of it may be shown on one map or sketch. All documents and other attachments submitted as a part of this application, except those in item 3(g) which you mark to be returned, become the property of the Government and will not be returned to the applicant. Send true copies, *not originals*, of leases, contracts, and other documents which are an essential part of your business records. *File this application with the Office of Minerals Exploration, Department of the Interior, Washington 25, D. C., or with the nearest OME Field Office.*

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief, and that he would not ordinarily undertake the proposed exploration under current conditions and circumstances at his sole expense.

TITLE

A wilfully false statement or certification to any Department or Agency of the United States Government is a criminal offense. U. S. Code, Title 18, Sec. 1001.

INFORMATION REQUIRED WITH THIS APPLICATION

1. Financial Eligibility:

(a) Submit evidence of efforts made within 90 days preceding the filing of this application to obtain credit from your bank of account and at least one other banking institution or other private source of credit. Such evidence shall include true copies of correspondence which show: (1) date of loan request, (2) amount and terms requested, (3) proposed use of loan funds, and (4) the replies from credit sources. If the loan was offered under terms which you consider unreasonable, state why you consider them so.

(b) List names and addresses of affiliated, parent, or controlling companies or organizations and state extent and nature of their interest.

(c) State how you propose to furnish your share of the cost of the exploration work.

2. Applicant's Rights in Land:

(a) State your interest in the land and mineral rights, whether owner, lessee, purchaser under contract, or other. If you are not the owner, submit one true copy of the lease, contract, or other document (with address of owner) under which you control the property. Describe all liens, mortgages, or other encumbrances on the land and state book and page number and official place where recorded.

(b) State the legal description (section, township, and range; metes and bounds; patent number of claims) of the land upon which you wish to explore and all adjacent land which you own or control. Describe any part of the land or workings which should not be subject to Government royalty and liens. If the land consists of unpatented claims, state book and page number for each recorded location notice, including amended locations, and official place where recorded. State all the names by which you know the property.

(c) For all land or mineral rights encumbered or not owned, submit five copies of Lien and Subordination Agreements on MME Form 52. If the agreements cannot be obtained, state reasons and provide copies of letters of refusal.

3. Physical Description:

(a) Describe in detail and illustrate with maps or sketches all mining or exploration operations which you know have been or are being conducted upon the land. Include existing mine workings and all production facilities.

(b) State your interest, if any, in operations described in (a).

(c) State, if you know, the past and current production, supporting your statement with copies of settlement sheets, mine records, or published data if available.

(d) Describe known ore reserves, giving quantities and grades and sampling methods used. Support your statement with copies of assay certificates and assay maps if available.

(e) Describe by narrative and maps or sketches the geologic features of the property, including ore minerals, geologic formations if known, and type of deposit (vein, bedded, etc.).

(f) State your reasons for expecting to find ore, and if you have sampled the area you propose to explore, show where the samples were taken, describe sampling methods used, and provide copies of assay certificates.

(g) Send with your application at least *two* copies of all geologic or engineering reports, assay maps, or technologic information which you have, indicating whether you require their return.

4. Accessibility of Property:

(a) To aid the OME representative who may examine the property, state name and address of person who will meet him; give directions for reaching the property; and describe accessibility of property and of any mine workings.

(b) Name the shipping and supply points and state the distances to the property.

5. Exploration Work:

(a) Describe fully the proposed exploration work giving individual footages and sizes of openings *for each item of work.* Use narrative, maps, plans, and sections as necessary. Show location of the proposed work as related to geologic features such as veins, ore-bearing beds, contacts of rock formations, etc. Show also the relation of the proposed work to any existing mine workings and to *land boundaries* or to the closest identifiable corner.

(b) If an access road must be built, show the proposed location on the property map and state the length, type and construction methods proposed.

(c) If an OME contract is executed, state how soon thereafter work would be started and finished. State your anticipated average daily or monthly rate of progress for each type of work.

6. Experience:

State your operating experience and background to conduct this exploration work and also that of the person who will supervise the work.

7. Estimate of Costs:

Furnish detailed estimates of the necessary costs *for each item of the work proposed in 5(a)* under the headings listed below with a total for each heading and the estimated total cost of the work. Costs for any work to be performed by an independent contractor should be listed separately under category (a) below. Costs for any work that is not to be performed by an independent contractor should be listed under categories (b) through (g).

(a) Independent contracts. State the total cost of any proposed independent contract for all or any part of the work, and the number of units and the unit cost for each type of work, such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, or per cubic yard of material moved. Cost estimates should be supported by bids from three contractors if possible. (*Note*—If none of the work is to be contracted, write "none" after this item.)

(b) Personal services. The cost of supervision, engineering and geological services, outside consultants, and labor should be itemized by numbers and classes of employees; rates of wages, salaries or fees; and periods of employment. State whether these services are available.

(c) Operating materials and supplies. List items of material and supplies giving quantity and cost of each. Include under this heading power, water, and fuel, and units of equipment and tools costing less than $50 each.

(d) Operating equipment. List items of equipment and tools costing $50 or more per unit. Give specifications and indicate how each item is to be acquired—i.e., rented, purchased or provided by the applicant. If rented or purchased, state the estimated rental or purchase price. If furnished by the applicant, state condition and present fair market value.

(e) Initial rehabilitation and repairs. Describe the type and the cost of *initial* rehabilitation or repair of existing buildings, fixtures, installations (exclusive of mine workings), and movable operating equipment now owned by the applicant which will be used in the exploration work.

(f) New buildings, fixtures, installations. Describe each building, fixed improvement, and installation to be purchased, constructed, or installed for the exploration work, stating specifications and cost including labor, materials, and supervision.

(g) Miscellaneous. Describe the type and estimate the cost of repairs and maintenance of the operating equipment listed in 7(d). Do not repeat initial repairs listed in 7(e). Show also the costs of analytical work, accounting, workmen's compensation and employees' liability insurance, payroll taxes, and other required costs that do not fall within the previous categories. [*Note*—The Government will not contribute to costs incurred before the date of the contract, or to costs of or incident to: (1) acquiring, using, or possessing land and any existing improvements, facilities, buildings, installations, and appurtenances, or the depreciation and depletion thereof; (2) general overhead, corporate management, interest and taxes (other than payroll and sales taxes); (3) insurance (other than employees' liability insurance); and (4) damages to persons or property (other than authorized repair to or replacement of equipment or other property used in the work).]

INT.-DUP. SEC., WASH., D.C. 50399

APPLICATION FOR FINANCIAL ASSISTANCE
IN MINERALS EXPLORATION

Name of Applicant
Juan Green

1. Financial Eligibility:
   A. Metropolitan State Bank
      Colorado National Bank (letters enclosed)

   B. Juan Green (only owner)

   C. Time and labor, some equipement

2. Applicant's Rights in land:

   A. Unpatented claim - No encumbrances

   B. For discription see Map No. 3. Location- countyseat San Juan county Silverton Colo. Book 186 Page 499.

   C. None

3. Physical Description:

   A. Refer to Maps 1-2-3.

   B. Old tunnel driven by previous owner. Now deceased. I had no interest in his operation.

   C. Former owner worked the mine and sold his gold to the Denver mint. Due to rules of the mint they cannot disclose what amount he sold.

   D. No reserve.

   E. See Map No. 1

   F. I expect the vein to open up again because it is typical of this country.
      one assay taken from the bottom of the shaft. Assay inclosed.

   G. See Maps

4. Accessibilty of property

   A. Juan Green 7200 E. 60th. Ave. Denver, Colo. will meet OME representative in Silverton colo. Grand Imperial Hotel. Mine is located in Paradise basin, three miles from OFIR road mine dump can be seen.

   B. Silverton Colo. fifteen miles from the mine

5. Exploration Work
   Drive a tunnel on in from breast of old tunnel approximately 400 ft. to intersect vein exposed at the surface. Also drop down the hill and drive a tunnel approximately 1,000 ft. to intersect vein continuing down from bottom of shaft. and to reach the vein at depth that is exposed at surface

5. A. (continued)

I believe values to be at this depth. Refer to maps 1-2-3. Approximately a 7ft x 7ft tunnel is allowing for mucker and muck cars.

B. See map 4

C. Due to the short minning season in silverton (eight or nine months with the right equipement) I would have to start as soon as the snow melted in the spring. If we worked one shift a day we could mine about five feet daily. Or we could work double shifts for ten feet daily. This is using six foot steel.

6. Experience:
1955-1957 Prospected for Uranium in the four corners area. Working in Bull canyon out of Naterita Colo.
1957-1959 Explored, and made a survey of rare earth and platinum bearing property in northern Colorado.
1958-1959 Field engineer for private Company holding samarskite, beryl and gold bearing property in the Idaho Springs area.
1959-1961 Devoted most of my interest to Silverton Colo. prospecting and exploring for private companies and for myself. Supervised the Silver Cloud base and precious metals mine outside Silverton.

7. See itemized sheets.

Dear Mr. and Mrs. Green:

I presented your request for a loan of $50,000.00 to be used to activate your gold mine near Silverton, Colorado, to our discount committee today.

Please be advised that we will not be able to make this loan.

Yours very truly

Richard L. Agnew

Dear Mr. Green:

This is in connection with your recent application for a loan of approximately $50,000 to develop various gold claims and mining properties located near Silverton, Colorado and owned by you.

It is the feeling of our people that we would not care to make a loan of this type at the present time.

Very truly yours,

H Kountze Jr.
