Re: Docket No. DMA-10837 (Copper)
Enigma Mining Co., Snowmass River
Pitkin County, Colorado

Dear Mr. Phillips:

Reference is made to our letter to you of March 10, 1952, in response to your undated communication, at which time we outlined the additional information which is required by this agency before further action can be taken on your application dated June 2, 1951.

Nothing further has been received from you and we assume that you no longer desire to proceed with the application. We wish to cooperate with you in the matter of allowing ample time, but if the needed data has not been received by June 30, 1952, we will then consider the docket closed.

Sincerely yours,

SIGNED

Re: Docket No. DMA-1883X (Copper)
Enigma Mining Co., Snowmass River
Pitkin County, Colorado

Dear Mr. Phillips:

Reference is made to your application under the above docket. Part of the additional information requested by Mr. Gowen in October 1951 was included in your recent letter received March 6, 1952, but we still need more information before your application can be considered.

In a review of your application and the supporting data you have submitted to date, it is apparent that you are more interested in a development loan than one for exploration. However, you have so far not submitted sufficient data to substantiate even an exploration contract. We must have some idea of the type of deposit and grade of the ore.

Please send us the following information so that we can process your application:

1. Length and width of vein exposed on surface. Strike and dip of vein and the mineralization. Submit the analyses of any samples taken across outcrop.

2. Width of vein cut in upper tunnel. Analysis of sample taken across vein.

3. Width of vein cut in lower tunnel. Analysis of sample taken across vein.

4. What is the country rock? Give the strike and dip of formation if applicable.

5. Present a more detailed plan of the proposed exploration. If possible include sketch showing relative position of tunnels, vein and proposed exploration. Give breakdown on exploration showing footage of different type of proposed work and cost.

We trust we may receive the above information from you in the near future in order that your application may be given further consideration.

Sincerely yours,

Ernest Wm. Ellis, Chief

Re: Docket No. DMA-1883X (Copper)
Enigma Mines, Snowmass River,
Pitkin County, Colorado

Dear Mr. Phillips:

A review of your application of June 2, 1951, for a $50,000 exploration contract reveals that a letter written to you in October of 1951 by Mr. J. B. Gowen of the former Supply Division of DMA requests additional information necessary to process your application. No reply has been received to this communication and we assume that you no longer desire to proceed with the application. We wish to cooperate with you in the matter of allowing ample time, but if the needed data has not been received by March 18, 1952, we will then consider the docket closed.

Sincerely yours,

Re: Docket No. DMA-1653x

Dear Mr. Phillips:

In studying your application for Exploration aid we find that more information is needed before it can be further processed.

Additional information is needed in regards to the following questions found on Form MF-103.

9. State in dollars the equivalent of your share of the project in money, labor or rental of equipment.

18. Give a legal description of your claims. State where record of claim is located.

21. In order to qualify for exploration aid a definite exploration project must be outlined. A map should accompany this showing location of claims and the proposed exploration.

22. More detailed information is needed of the ores exposures in the drifts as to type, width, grade, etc.

23. All parts of this question pertaining to your application should be submitted in detail or itemized.

Enclosed is a copy of Form MF-103 with those questions under discussion marked.

Very truly yours,

J. B. Gowen
