DEFENSE MINERALS EXPLORATION ADMINISTRATION
CONTRACT ADMINISTRATION AND AUDIT DIVISION

2874

FIRST ROYALTY AUDIT CERTIFICATE

I have examined the records and sales documents pertaining to the sale of manganese ore for the period September 21, 1953, to April 4, 1955, by:

WSM

IRVING G. IRVING and ROBERT H. NELSON, Partners
84 Hirbour Building
Butte, Montana

produced from land in Silver Bow County, Montana, under terms of Contract Idm-E604, Docket No. DMEA-2874.

My examination was made in accordance with generally accepted standards applicable to the circumstances.

The audit established the total net sales of manganese ore for this period, subject to repayment royalties, to be $16,919.92. Royalty due the U. S. Government at the contract rates is $780.02. The royalty paid and balance due are as follows:

Total Royalties Due	$780.02
Total Royalties Paid	780.02
Balance of Royalties Due	-0-

Royalty Audit

FIRST ROYALTY AUDIT REPORT

I. INTRODUCTION

On May 4, 1955, an audit was made of the sales and royalty accounts and records of :

Irving G. Irving and Robert H. Nelson, Partners
84 Hirbour Building
Butte, Montana

pertaining to the sale of manganese ore during the period September 21, 1953, to April 4, 1955, from Plutus Mine located in Silver Bow County, Montana, in accordance with Contract Idm-E604, Docket No. DMEA-2874, including Amendments No's. 1 through 4.

A considerable amount of pre-audit work was accomplished in the DMEA office, Region I, Northwest District, Spokane, Washington, prior to the field audit.

Mr. Irving G. Irving, partner, and Mr. John D. Bardill, Mining Engineer, Bureau of Mines, Spokane, Washington, were present during the audit and were consulted as necessary. Their cooperation greatly facilitated the audit work.

II. GENERAL INFORMATION

The exploration project contract was dated September 21, 1953. The exploration work had not been completed, nor had a certificate of discovery or development been issued as of the date of this audit, which was limited to determining the amount of royalty due and paid on manganese ore recovered during the exploration period. The operator does not mill the ore but sells carbonate and oxide manganese ores to the General Services Administration Manganese Purchase Depot at Butte, Montana. Annex I to the contract provides for payment of royalty regardless of certification.

The total reported and unaudited cost of the project at April 30, 1955, amounted to $14,866.90, with the Government's contribution on a 75 per cent basis, amounting to $11,150.18.

III. SCOPE OF AUDIT AND FINDINGS

The operator has authorized the Manganese Purchase Depot to withhold repayment royalties on sales to it of shipments from the Plutus Mine. Such amounts withheld are transmitted to the Executive Officer, Region I, Northwest District, along with copies of acceptance invoices from the depot.

The audit consisted of a review and tabulation of the acceptance invoices on file in the regional office and a comparison thereof with the operator's production and sales records. A statement listing such acceptance invoices and royalties paid thereon is filed as a part of my audit working papers.

The audit disclosed that all royalties due on manganese ore recovered from the exploration project and sold during the period September 21, 1953, to April 4, 1955, have been paid to the Government at rates provided in the contract. Carbonate lots No's. 1 to 11, inclusive, covered sales of manganese produced prior to the date of the contract not subject to repayment royalties. Carbonate lot No. 16 was rejected by the depot as not meeting specifications. Mr. Irving stated that the manganese in this lot No. 16 was subsequently blended with later shipments of higher grade ore and the product was sold to the depot as parts of later lots on which Government royalties were paid.

A summary of the audit findings follows:

	SALES TO G. S. A.		ROYALTY DUE	
LDT*	Amount	Per LDT*	Rate	Amount
Manganes Carbonate				
119.1781	$ 849.74	$ 7.13	1½%	$ 12.75
34.6446	295.52	8.53	2 %	5.91
105.1362	955.69	9.09	2½%	23.89
23.1942	233.10	10.05	3½%	8.16
679.8678	10,245.01	**	5 %	512.26
962.0209	$12,579.06			$562.97
Manganese Oxide				
243.6526	$ 4,340.86	**	5 %	217.05
1,205.6735	$16,919.92			$780.02

* Long dry ton

** Various. All in excess of $11.50/LDT.

Check Sheet of Accompanying Engineer

Operator's Name Irving and Nelson, Partners

Address Hirbour Building

Butte, Montana

Exploration Contract No. Idm-E604 Docket No. DMEA-2874

Date May 4, 1955

	Check One Yes	No
1. (a) Does the Operator stockpile ore subject to royalty repayment?	x	
(b) If so, is segregation and identification procedure adequate?	x	
2. (a) Does Operator co-mingle production subject to DMEA royalties with exempt production?		x
(b) If so, do you consider the allocation of the co-mingled production equitable?		
3. (a) Does the Operator stockpile mine or mill rejects (low grade ore, tailing, middlings, etc.) that may have potential value within the royalty payment period?	x	
(b) If so, are adequate records maintained on such material to protect the Government's interest?		x
4. Do you consider the assay controls in effect are adequate?	x	
5. Do you consider that the manner of disposing of production gives the Government its fair royalty returns?	x	
6. Do your periodic examinations of operations indicate the Operator is properly reporting his production of ores subject to DMEA royalties?	x	

7. Comment on any item 2 to 6 if answer is No.
See attached sheet.

John D. Bardill

Mining Engineer

Supplemental Check Sheet

Operator's Name: Irving and Nelson, Partners
Hirbour Building
Butte, Montana

Exploration Contract No. Idm-E604 Docket No. DMEA-2874

Date: May 4, 1955

1. (a) Only small quantities are stored in the 200 level mine pocket before being shipped to the GSA stockpile at Butte.

2. (a) No. Operator ships DMEA ore separate from GSA and lessees ore.

3. (a) Approximately 500 tons of Plutus vein rock is stored in special dump. Assays 5 - 6 percent manganese.

   (b) No, because Operators consider tonnage too small and of no value. No records are kept.

John D. Bardill

Mr. A. E. Weissenborn, Exec. Officer
U. S. Geological Survey
Room 157 Remore Street
Spokane 8, Washington

Re: DMEA Contract No. IDM-8001

Dear Mr. Weissenborn:

We are now mining both Norwich ore and Little Sarah ore.

Little Sarah Lot 1, the first lot, was recently closed out and is marked as follows:

L.S. Lot 1
Umont, Little Sarah

This is to remind you that there will be no DMEA deduction of DMEA royalties on Little Sarah lots inasmuch as Little Sarah claim is not included in the above contract.

Norwich lots will continue to be shipped and will be marked as usual, for example:

Lot 155 Raise
Umont-Norwich
DMEA Class A

Such ore will continue, as long as it is shipped, to have the 5% DMEA royalty deducted.

We have found more ore in Norwich and expect to be shipping Norwich ore as well as Little Sarah ore, until the low grade [illegible] terminates.

Very truly

Dooley P. Wheeler, Jr.

Umont Mining, Inc.
Plutus and Norwich claims
Silver Bow County, Montana
Amended Contract No. Idm-5604

Dear Mr. Lake:

I think you will be interested to know that a check for $24,604.41 was received this morning from the Denver Office of the General Services Administration. This is larger than the amount that you reported due DMEA because it includes royalty from several shipments made after your audit.

You will note from the enclosed letter that Mr. Johnson, the Regional Comptroller, has stated that royalty checks for future lots will be sent to us at the time the invoices are processed for payment.

Sincerely yours,

A. E. Weissenborn
Executive Officer, DMEA

Field Team, Region 1

Gentlemen:

The enclosed Treasury Check No. 11,318,557 dated December 27, 1957, amount $24,804.41, is sent in accordance with our wire of December 19, 1957.

The complete file of supporting documents referred to on the attached S.F. 1047, Refund Voucher, contains all information relative to 5% royalty deductions made by us on Lots 4 through 176-Raise and 23 through 78-Drift.

Royalty checks for future lots will be sent to you at the time the invoices are processed for payment.

Sincerely yours

M. C. JOHNSON
Regional Comptroller

Re: Docket No. DMEA-2874 (Manganese)
Umont Mining Company (Assignee of
Irving M Nelson)
Norwich and Plutus Mine
Silver Bow County, Montana
Amended Contract No. Idm-2604

Dear Mrs. Long:

Attached is Check No. 13,114,351 dated February 26, 1957, for $2,904.15 from the Treasurer of the United States, Regional Disbursing Officer at Portland, Oregon, which represents the Government's royalty due on three shipments of raise ore from the Norwich claim, Lots 1, 2, and 3, and twenty-two shipments of drift ore also from the Norwich claim, Lots 1 through 22, to the General Services Administration's manganese purchase depot, in accordance with the attached Acceptance Invoices and Administrative Difference Statements.

Sincerely yours,

A. E. Weissenborn
Executive Officer, DMEA
Field Team, Region I
Northwest District

Dear Mr. Hindman:

Attached are checks and settlement sheets on Lots 12 to 15 inclusive covering royalty received to date on the subject contract, as follows:

Check No. 14,253,969 (Lot No. 12), in the amount of $12.75.
119.1781 tons at $7.13 per ton for net proceeds of $849.74.

Check Nos. 14,253,971 and 14,266,039 (Lot No. 13), in the amount of $12.75 and $8.51 respectively.
31.0075 tons at $13.71 per ton for net proceeds of $425.11.

Check No. 14,266,742 (Lot No. 14), in the amount of $5.91.
34.6446 tons at $8.53 per ton for net proceeds of $295.52.

Check No. 14,266,347 (Lot No. 15), in the amount of $32.03.
35.2210 tons at $18.19 per ton for net proceeds of $640.67.

Re: Docket No. DMEA-2874 (manganese)
Plutus Mine
Silver Bow County, Montana
Contract Idm-2604

Dear Mr. Irving:

We have recently received two checks from General Services Administration in Seattle, Washington, both in the amount of $12.75, for ore shipped from the Plutus mine. However, we did not receive a copy of the settlement sheets for these shipments and therefore have no way of knowing the tonnage, grade, or manner in which these repayments were calculated. As we must have such information to keep our files current on properties making DMEA royalty repayments, we have written GSA asking that we be given copies of any future settlement sheets from ore produced at the Plutus mine.

For the present time, however, we would appreciate your sending us a copy of the settlement sheets as pertaining to the aforementioned checks. We do not like to bother you for this information but we must have it. We hope that in the future such information will come direct from GSA.

Thanking you in advance, I remain,

Yours truly,

Thor H. Kiilsgaard

Re: Docket No. DMEA 2874 (manganese)
Irving G. Irving and Robert H. Nelson
Plutus Mine
Silver Bow County, Montana
Contract No. Idm-2604

Dear Mr. Swim:

This will acknowledge receipt of two checks, Nos. 14,253,969 and 14,253,971, both in the amount of $12.75. It is our understanding that these checks represent royalty repayment to DMEA for ore produced from the Plutus mine at Butte, Montana, which is currently being explored under DMEA Contract Idm-2604.

To keep our files current on production from properties under DMEA contract, we require that a copy of the settlement sheet for each shipment of ore be attached to royalty checks forwarded to this office. Most of these settlement sheets as well as checks are mailed to us directly from the smelter; however, some are mailed from the mine operator. We would therefore appreciate your attaching to any future checks payable to us from ore produced at the Plutus mine a copy of the settlement sheet.

We are not familiar with settlement sheets issued by General Services Administration, but we assume such sheets show the tonnage, grade, and the manner in which payments to the Operator and to the Government are computed.

Your attention to the foregoing request will be appreciated.

Sincerely yours,

Thor H. Kiilsgaard

Gentlemen:

Your letter of October 23, 1953, enclosing copy of Contract Idm-EE04, is received.

In addition to your letter we are now also in receipt of letter dated October 26, 1953 from Irving & Nelson, and together they serve to satisfy quite satisfactorily the conditions set forth in our letter of October 15, 1953 and will enable this office to process royalty deductions for you from Plutus ore payments to Irving & Nelson.

Commencing with payment for Lot No. 12 from the Plutus Mine we will prepare our disbursement schedules in such manner that you will be mailed checks by the Treasury Disbursing Office, drawn payable to the Treasurer of the United States, in the amount of the royalties as computed by this office.

Very truly yours,

HAROLD E. SWIM
Regional Comptroller

Re: GSA Contract GS-1CP(D)-3 (Manganese)
Irving G. Irving & Robt. H. Nelson
Butte, Montana, and

DMEA Docket No. 2874 (manganese)
Contract IDM-2604, Plutus Mine
Irving G. Irving & R. H. Nelson

Dear Mr. Swim:

Please refer to a letter from your office, signed by Mr. R. V. Oliver and dated October 16, 1953, and addressed to the Defense Minerals Exploration Administration, for the attention of Mr. A. E. Weissenborn, Executive Officer. And also, to a letter, on the subject matter, dated October 23, 1953, from Mr. Weissenborn, addressed to you.

In the letter first referred to, the matter of making deductions from certain Plutus ore shipped by Irving and Nelson for repayment of an exploration loan, from the DMEA, is discussed. Certain conditions were to be met. Among these the necessity of getting an authorization from Irving and Nelson was mentioned, and also it was pointed out that Irving and Nelson would have to invoice you separately for the shipment from which the deductions were to be made, or otherwise designate them. You also required a copy of Contract IDM-2604. The latter, I believe, has been sent you by Mr. Weissenborn, as is indicated in his letter of October 23, above referred to.

The matter of designation of the shipments was discussed by us in our recent phone conversation. We will mark all Plutus shipments as such on the regular Acceptance Invoice we receive from the Domestic Manganese And Development Co, at your Butte depot, and also further mark them with the letters -"DMEA". Let it be also mentioned that it has been agreed that all Plutus ore shipments (as distinct from those coming from the Norwich Mine, and so marked) will be subject to the deduction required by the DMEA. As for authorization, please refer to the paragraph to follow:

Your office is hereby authorized, in connection with our contract (No. Idm-E604) with the Defense Minerals Exploration Administration, to make the deductions required by the terms of the previously mentioned contract, until the terms and conditions of the contract, in this connection, have been satisfied. The amount of the deduction to be made is specified in the above-mentioned contract and are to apply on all shipments of ore from the Plutus Claim, starting with shipment No. Lot 12.

Very truly yours,

/s/ Irving G. Irving

Re: Docket No. DMEA 2874 (manganese)
Irving G. Irving and
Robert N. Nelson, partners
Plutus mine, Silver Bow Co., Mont.
Contract Idm-1604

Dear Mr. Swim:

In reply to your letter of October 16, we would like to request you to make the deductions from Irving and Nelson for ore payments shipped from the Plutus mine. In accordance with the conditions you have outlined, we are transmitting herewith a copy of Contract Idm-1604. We are also asking Irving and Nelson, by copy of this letter, to authorize you in writing to make such deductions. In fact this matter has been discussed with Mr. Irving over the telephone. In accordance with a request that we arrange for Irving and Nelson to invoice you separately for ore from which deductions for our account are to be made, Irving and Nelson have advised us that all ore from the Plutus mine will be subject to royalty. They further advise us that invoices of all such ore shipments would be marked "DMEA." We are further informed that Lots 1 to 11 from the Plutus property were shipped prior to the date the contract went into effect (September 21, 1953). Lot 12 and all lots thereafter marked "Plutus-DMEA" will be subject to royalty. Mr. Irving advises that he has discussed this matter with you and you have stated that such identification will be sufficient. If it proves that such identification is not sufficient, we would appreciate your advising Irving and Nelson in what manner the ore shipments should be identified, with a copy of this notification to us.

In regard to your comments concerning the Taylor-Knapp contract, I did not, in any way, intend to imply that the GSA was not willing to cooperate in the matter of deductions and in checking the correspondence, I find that my statement is not quite correct. You did advise us on March 5, 1952 that "in view of the uncertainty which exists here as to authorities and procedure involved, your request is being referred to our regional counsel for their consideration and decision." You are quite correct, however, that on August 22, 1952, you wrote us again stating that

Re royalty payment procedure

the deductions for royalty could be made. However, in the case of the Taylor-Knapp contracts, there were other complications, not in any way involving the GOA, which made it preferable for us to obtain payments direct from Taylor-Knapp.

If any further action on our part is needed, please advise.

Sincerely yours,

A. E. Weissenborn
Executive Officer, DMEA
Field Team, Region IX

Spokane 4, Washington

Attention: Mr. A. E. Weissenborn, Executive Officer
DMEA, Field Team, Region II

Gentlemen:

Your letter of October 6, 1953 is received.

Subject to the following conditions we will be glad to make deductions for you from ore payments due Irving and Nelson:

1. That you provide us with a copy of Contract No. Idm-E604;
2. That Irving and Nelson authorize us in writing to make such deductions;
3. That you arrange for Irving and Nelson to invoice us separately for ore from which deductions for your account are to be made and that such invoices are clearly identified;
4. That we assume no responsibility in connection with this matter over and above making deductions for payments for ore identified as applicable to the DMEA contract and remitting the amounts so deducted to you.

Please let us know whether these conditions are acceptable to you and if so, provide us with the documents mentioned under Items 1 and 2 above. Authorization from Irving and Nelson can, of course, be sent to us directly by them if you so prefer.

In the second paragraph of your letter of October 6, in speaking of the Taylor-Knapp contract you indicate that "GSA..... has not cared to assume the responsibility of making the royalty deduction and preparing the necessary check in payment thereof." We are always glad to cooperate in any way we can with another Government agency and offered our cooperation in the Taylor-Knapp case. If you will refer to Mr. Swim's letter to you dated

August 22, 1951, you will find that we offer to make deductions for royalties from payments to Taylor-Knapp and Oklahoma conditions somewhat similar to those above under which such deductions could be made. In Mr. Hillebrand's reply of October 2, 1952, he indicated that arrangements had been made for the Taylor-Knapp Company to make payments direct to your office.

Pending reply to this letter and receipt of the documents discussed above, it will be impossible for us to make any deductions from Lindy and Nelson payments. If, in the meantime, deliveries of "exploration ore" are to be made by this firm, it might be advisable for you to arrange for direct payment as you have done in the Taylor-Knapp case.

Very truly yours,

HAROLD L. SMITH
Regional Comptroller

Seattle 4, Washington

Re: Docket No. DMEA 2874 (manganese)
Irving G. Irving & Robert H. Nelson
Plutus Mine, Silver Bow Co., Mont.
Contract Idm-K604

Dear Mr. Bradsen:

As you are aware, the Defense Minerals Exploration Administration has recently entered into an exploration contract with Irving and Nelson to explore the Plutus vein. In connection with this, we have received copies of memoranda between Mr. Ford, Mr. Brussolo and yourself concerning the need to see that the DMEA Plutus project and the existing DMPA project (Contract GS-10F(D)-3) on the Norwich vein are conducted independently of one another. As you will note from the attached omlid copy of a letter from Mr. Irving dated October 3, 1953, the DMEA and the DMPA projects are being carried on from separate levels and, therefore, are physically separated except for the fact that they are of necessity being operated through a common shaft.

The Defense Minerals Exploration Administration has also a contract with the Taylor-Knapp Company, which company has made quite a number of shipments to the GSA manganese buying depot. Normally, on shipments of ore to a smelter which are susceptible to DMEA royalty, the smelter makes the deduction and mails to the Executive Officer a check made out to the Treasurer of the United States for the amount of the royalty. However, in the case of the Taylor-Knapp Company, which is shipping manganese ore to the GSA buying depot, Taylor-Knapp is figuring the deduction itself and sending a check to us drawn on its account, because the GSA, as you will recall, has not cared to assume the responsibility of making the royalty deduction and preparing the necessary check in payment thereof.

In the case of the Irving & Nelson contract, we note that Annex II provides as follows: "The Defense Materials Procurement Agency, the General Services Administration, or any other department or agency of the Government which may receive ore from the property

described in Article 8 of the contract form, or which may be or become in any manner obligated to pay money to the Operator, is authorized and directed to deduct from any such money or amounts payable to the Operator, and pay to or for the account of Defense Minerals Exploration Administration, any sums that may be due to the Government on account of royalties under the exploration contract to which this memo is attached." We had assumed that any shipments made by Irving & Nelson of ore on which royalty is due would also be handled by direct payment from the operator as is done in the case of the Taylor-Kemp Company. However, in view of the provisions of this part of Annex II of the contract, we infer that it may be possible for the GSA to make the deduction and we wonder if you have any information on this matter. We would appreciate it if you could inform us of this at your earliest convenience as Mr. Irving has told us that he expects to make a shipment of exploration ore in the near future, and he has asked us for advice as to how the royalty should be paid.

Sincerely yours,

A. E. Weissenborn
Executive Officer, IMMA
