Re: Docket No. DMEA-4143 (Uranium)
Lot No. 309, District 12, sec. 3
Whitfield County, Georgia

Dear Mr. Kiker:

This will acknowledge receipt of your letter of August 31, 1956, in connection with the closing of the subject docket.

We regret that you experienced so much difficulty in securing the information which we must have to process an application.

Your attention is called to the last paragraph of our letter of August 7, 1956, in which we outline the procedure for reopening your application in the event information of an encouraging nature is made available to you concerning the subject property.

Sincerely yours,

G. O. Mittendorf

Washington 25, D. C.

Dear Sir:

Re: Docket No. DMEA-4143 (Uranium)
Lot No. 309, District 12, Sec. 3
Whitfield, County, Georgia.

I have your letter of the 7th. A review of the matter does not seem to fully justify your actions or conclusions.

From the time we untertook to get the lease on the property we were almost one year before being able to obtain the lease due to our having to contact so many agencies and so much delay by some of them.

We have spent something over $1000.00 on this project. On account of excessive rainfall in the section of this property which caused such Volume of water it made it practically impossible for us to develop the property immediately as requested.

Very truly yours,

C W Kiker

Re: Docket No. DMEA-4143 (Uranium)
Lot No. 309, District 12, sec. 3
Whitfield County, Georgia

Dear Mr. Kiker:

Reference is made to our letter of July 3, 1956, in which we stated that the subject docket would be considered closed unless certain information required to process your application had reached this office on or before August 2, 1956.

Your answering letter of July 24 stated that there has been so much rain that you could not operate successfully. However, our first letter requesting additional information was dated February 1, 1956, and we believe that we have allowed you ample time to submit the required information. We, therefore, inform you that the subject docket is considered closed, effective as of August 2, 1956.

We regret the necessity of this action but cannot hold an application in an indefinite status for an extended period of time. This action, however, is taken without prejudice to the merits of your proposed project and if you wish to reopen your application at some future time you may do so by filing new application forms, referring to your previous application, and submitting the information requested in our letter of February 1, 1956.

Sincerely yours,

C. O. Mittendorf (for)

Re: Docket No. DMEA-4143 (Uranium ?)
Lot No. 309, District 12, Sec. 3
Whitfield County, Georgia

Dear Mr. Kiker:

In reviewing your application for aid in an exploration project, we find the information submitted too incomplete for further processing. We are, therefore, enclosing some literature which will help you understand our requirements in connection with an exploration project.

It is suggested that you obtain the services of someone who is familiar with mining and geology to go over this literature with you and, if possible, to examine your property to see if all the requirements can be met. Thereafter, a supplemental letter and map should be forwarded to us supplying all the information required on the application form MF-103.

Some of the more important information omitted in your application are listed hereafter. You should submit four copies of each of the following items:

1. The mineral or minerals for which you wish to explore;

2. A copy of the prospecting permit or lease which establishes your property rights;

3. A map or sketch, drawn to scale, showing the boundaries of the property, geological features, existing workings, location of any samples taken, and location and extent of the work proposed;

4. A description of the mineralization or type of deposit which exists on the property. Also, assay certificates or results of radiometric or other surveys which give positive indication of the presence of mineralization on the property;

5. A complete description of the work you propose to do, relating such description to various features shown on the map requested under item 3, above;

6. A detailed estimate of the cost, broken down under the various categories in item 6 of the application form.

For your information, you should not expect Government geologists or engineers to do the consulting work on your proposed project as they will visit your property only after you have submitted a complete application which is sufficiently encouraging to justify an examination and appraisal. Such an examination would only be for the purpose of determining the feasibility of entering into an exploration contract with you.

Upon receipt of the supplemental information outlined in this letter, we shall be pleased to continue the processing of your application.

Sincerely yours,

SIGNED

Ernest Wm. Ellis, Chief

BUREAU OF MINES
WASHINGTON 25, D. C.

RECEIVED
FEB - 1 1956

January 31, 1956

Memorandum

To: ~~Nonmetallic~~ 700 Minerals Division
Defense Minerals Exploration Administration

From: Chief, Branch of Ceramic and Fertilizer Materials

Subject: DMEA -4143 (~~mica~~) Uranium ?

Applicant: C.W. Kiker, H.L. Dyer

Name and Location of Property: _____, Whitfield Co., Ga.

Date Application Rec'd. by Br. of Ceramic & Fertilizer Materials: 1/25/56

Comments:

1. From the limited information presented, it is difficult to determine if an exploration program is justified or if the proposed plan would be the best method of exploring this property.

2. Although it would be desirable for the applicant to furnish more complete information, it appears that a visit by an examiner would furnish more useful data.

Recommendation:

It is recommended that the field team visit this mine when in that vicinity to ascertain if an exploration project is justified. If so, the field team and applicant should agree on a definite plan of exploration on a unit-cost basis.

Memorandum

To: Chief, Nonmetallic Minerals Division

From: Chief, Operations Control and Statistics Division

Subject: Docket DMEA-4143

The attached Docket DMEA 4143, covering application for C. W. Kiker and H. L. Dyer was submitted without mention of the commodity involved.

Mr. Johnson had a congressional inquiry by phone concerning the application and called for the docket. I mentioned that I was holding the application with the idea of writing the applicant and asking what commodity was involved. Mr. Johnson said that since the application is quite incomplete insofar as the work to be performed is concerned that many more questions should be answered. He agreed that since the application was from Georgia, it was probably for mica or beryl and that the docket should be sent to your Division where a request for the commodity as well as other necessary information would be requested.

R. E. Adams, Chief
Operations Control and
Statistics Division

INSTRUCTIONS

1. *Name of applicant.*—(*a*) State here your full legal name, in the form in which you will wish to contract, and your mailing address:

C. W. Kiker, Blue Ridge, Georgia
H. L. Dyer, Dalton, Georgia.

(*b*) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

(*c*) If a corporation, add to above statement, titles, names and addresses of officers.

(*d*) If a partnership, add to the above statement the names and addresses of all partners.

2. *General.*—Read DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. *Applicant's property rights.*—(*a*) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract

166.5 acres of lot of land No. 309, District 12, Section 3, Whitfield County, Georgia.

(*b*) State any mine name by which the property is known.

(*c*) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise

Mining lease permit from U. S. Government

(*d*) If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property.

(*e*) If you own the land, describe any liens or encumbrances on it

(*f*) If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice.

4. *Physical description.*—(*a*) Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes.

(*b*) State past and current production, and ore reserves, if any, giving quantities and grades.

(*c*) Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc.), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you.

(*d*) State the facts with respect to the accessibility of the project: Access roads, distances to shipping, supply and residence points.

(*e*) State the availability of manpower, materials, supplies, equipment, water, and power.

16—66551-1

BL mf-04.64

5. *The exploration project.*—(*a*) State the mineral or minerals for which you wish to explore .....

(*b*) Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed) of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, etc.

(*c*) The work will start within ..... days and be completed within ..... months from the date of an exploration project contract.

(*d*) State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations.

6. *Estimate of costs.*—Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings to give the estimated total cost of the project:

(*a*) *Independent contracts.*—(Note.—If the applicant does not intend to let any of the work to contractors, write "none" after this item. To the extent that the work is to be contracted, do not repeat the cost of the contract-work in subsequent items.) State the cost of any proposed independent contracts for the performance of all or any part of the work, expressed in terms of units of work (such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved, etc.).

(*b*) *Labor, supervision, consultants.*—Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants.

(*c*) *Operating materials and supplies.*—Furnish an itemized list, including items of equipment costing less than $50 each, and power, water and fuel.

(*d*) *Operating equipment.*—Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value, as the case may be.

(*e*) *Rehabilitation and repairs.*—Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project.

(*f*) *New buildings, improvements, installations.*—Furnish a detailed list showing the cost of any necessary buildings, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project.

(*g*) *Miscellaneous.*—Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes.

(*h*) *Contingencies.*—Give an estimate of any necessary allowances for contingencies not included in the costs stated above.

NOTE.—No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs.

7. (*a*) Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMEA No. 1)?

(*b*) How do you propose to furnish your share of the costs?

☒ Money ☐ Use of equipment owned by you ☐ Other

Explain in detail on acompanying paper.

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

Dated January 21, 1956
