Memorandum

To: Operations Control & Statistics Division

From: Chief, Base Metals Division

Subject: Withdrawal of Application Docket No. DMEA-3432, Edmund E. Pohl, et al, January Mine, Broadwater County, Montana (Lead-Zinc-Copper)

We desire to have the cited application withdrawn from the active files, and the proposed work of this application to be applied to an amended contract to Contract No. Idm-E246, Docket No. DMEA-2260.

The reason for withdrawing this application is that the proposed work is to be done in the same mine, same property, and by the same company.

We believe that withdrawing this application and having the work done under an amended contract will be for the best interest of the Government.

Dear Mr. Weissenborn:

We are enclosing the original and five copies of an amended contract to the cited contract, signed by this office for the Government together with Exhibit "A" (2 pages), one map, and Annexes I and II.

The work that was proposed under the application, Docket No. DMEA-3432, is to be done according to the terms of the amended contract. The reasons for doing this are explained in the attached memorandum from the Acting Assistant Solicitor, Defense Minerals, dated October 29, 1954.
