Through: Landon F. Strobel

Memorandum

To: Mr. Weston Bourret, Chief, Miners & Rare Metals Branch

From: Field Team, Region II

Subject: Brinegar Antimony property, Blaine County, Idaho

On July 18 this office forwarded to Washington three copies of Form MF-103 submitted by Mr. C. E. Brinegar, Ketchum, Idaho, concerning an antimony property in the Vienna district, Blaine County, Idaho. Subsequently, a DMA field representative visited Mr. Brinegar's property and after some discussion Mr. Brinegar decided to withdraw his application for an exploration loan.

Mr. Brinegar gave as a reason for his request for withdrawal of the application that he intended to sell his property to another concern.

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four signed copies of the application to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive officer thereof, with your name and address on each sheet of the application and all accompanying papers. If any question is inapplicable, or if you cannot answer it, so state on the form. Where the space provided for answer is insufficient, answer on a separate sheet, annex it to the application form, and refer to it in space for answer. If the application is approved, you will be presented with an exploration project contract on Form MF-200, for your signature.

THE APPLICANT

*1. Is applicant an individual, partnership, or corporation? Individual

*2. If a partnership, state names and addresses of partners. No partnership

*3. If a corporation, state names and addresses of officers, directors, and five largest stockholders. None

*4. Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who will manage the project. 5 years

*5. Are you the owner or the lessee of the property? Yes owner

6. If owner, state what claims, liens, or encumbrances, if any, are against the property. None

7. If lessee, attach a copy of the lease and state if it is in good standing. None

NOTE.—It will be necessary to procure and attach to the exploration project contract agreements of claimants, lienors, encumbrances and lessors subordinating their interests in the property to the interest of the Government under the contract.

8. Furnish current financial statement, showing assets and liabilities, and a profit and loss statement. No liabilities

9. How much money is applicant prepared to invest in proposed project? Is it sufficient to pay your part of the cost of the project as detailed in question 23 of this application form, in accordance with the regulations on Government participation (Section 9 of Mineral Order 5)? yes by working myself

*If you have already answered these questions on MF-100, you are not required to answer the questions for this application.

16—64067-1

THE PROPERTY

10. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.

(*b*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

NOTE.—If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*b*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

*11. State the present and former names of the property, if any.

*12. State, in detail, the location of the property with reference to towns, railroads, roads, shipping points, including distances and directions and kinds and conditions of roads.

*13. State source and quantity of water available for operations and its sufficiency at all seasons.
State amount of power to be used, rate per hour or other cost, and source.

*14. Describe any existing useable facilities, equipment, buildings, or structure now on the property that will be devoted to the exploration work.

*15. State in detail how the ore could be shipped and how and where milled.

*16. History:

(*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for any past suspensions of operations.

(*b*) State briefly the known history and production of adjoining and neighboring properties.

(*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.

*17. Production:

(*a*) If mine is in production, furnish the following information:

	Tons per day	*Grade or analysis*	*Cost per ton*	*Net value per ton*
(1) Mining				
(2) Milling				
(3) Shipped or sold				

*18. Ore or mineral reserves: (If property is or has been operating.)

(*a*) Describe the ore or mineral deposits briefly.

(*b*) Submit available maps and assay data.

(*c*) Give estimated tonnage and grade of each class of ore reserves.

19. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

THE EXPLORATION

20. For what mineral or minerals and for what types of deposits and ores will the exploration be conducted?

21. Describe briefly, but concisely, the proposed work and the estimated time required to complete it.

NOTE.—The Government will not participate in a project that will require more than 2 years to complete.

22. Furnish statement of the geological basis of the project with particular emphasis on factors leading the operator to expect the finding of commercial ore bodies. This statement should be accompanied by supporting maps such as geological maps, maps of the proposed openings and assay maps, sample lists, and other pertinent data.

THE REQUIREMENTS AND COSTS

23. Tabulate in the form of an itemized statement with a sum for each item the estimated requirements and costs of the project so that the total will give the estimated cost of the project in which the Government will participate, as follows:

(*a*) Labor, by numbers and classes (miners, muckers, millmen, etc.), with wages of each.

(*b*) Supervisors, by numbers and positions, with salaries of each.

(*c*) Cost of necessary repairs to existing facilities, structures, and buildings.

(*d*) Cost of necessary installation or construction of additional facilities, structures, and buildings.

(*e*) Cost of items of equipment, not now owned by the applicant which must be purchased for operations at a cost of $50 or more each.

(*f*) Cost of rental for equipment which the operator proposes to rent.

(*g*) Rental value of items of equipment which the operator now owns and which will be devoted to the work.

(*h*) Cost of materials and supplies, including items of equipment costing less than $50 each.

(*i*) Cost of power, water, utilities, and any other items not provided for above.

24. Furnish a time schedule of the project, stated in terms of months after project is approved, showing progress expected to be accomplished and the money expected to be spent.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this form and accompanying papers is correct and complete to the best of their knowledge and belief.

16—64067-1 U. S. GOVERNMENT PRINTING OFFICE

Answers to questions on back of page 1

10A Have no mining equipment except hand tools.

10B Name of mine (Even Chance) located on Smiley creek, 1/2 mile north of mouth of Mill Gulch. 1 claim.

11 Old name (Smiley Hope) New name (Even Chance)

12 Located 38 1/2 miles north of Ketchum, nearest railroad, roads good.

13 Water supply good, year around

14 There are no useable facilities, equipment nor buildings on claim except timber.

15 Could be shipped by truck to Stibnite Smelter, 140 miles, Summer road only.

16 First located mine June 13-1940. Kept assessments up untill June 1943. Relocated June 16-1951. Discontinued work as there was no refinery closer than Texas and market not to good.

17 Mine is not in production.

17A Assay runs 50 to 63% Antimony.

18 About 300 lbs now on hand.

18A At present only a prospect. Have a cut 36 ft long + 8 ft deep, have a vein of ore producing daily about 8 inches wide.

18B At presents have no maps nor assay data.

19 I have Claim opened up to where I will have to run a tunnel under as there is to much water for a shaft.

20 Antimony and Silver

21 Not more than two years. Season is short where mine is located

22. Mine is located about 2 miles north of Vienna mine + near Silver King and other smaller mines all of which have deposits of Antimony. Will have new assay sheets soon as I can get them.

23A Two miners wages, rate $14.00 per day.

B Two - myself included at wages.

C About $400.00 for Compressor house and Co. bin.

D To build road about 900 ft to get Compressor to mine

E Cost of Compressor, hammers, tools + such $4500.00

F Cost of $4500.00 for equipment

G Do not have any usable equipment.

H. Above price will include same.

I There is no power available but plenty water and timber.

24 If I can get started soon will probably spend about $5500.00 this year. Property will be snowed in by Dec 1, 1951 until June 15 1952.

9. How much money is applicant prepared to invest in proposed project? Is it sufficient to pay your part of the cost of the project as detailed in question 23 of this application form, in accordance with the regulations on Government participation (Section 9 of Mineral Order 5)? yes. with working myself can handle some

*If you have already answered these questions on MF-100, you are not required to answer the questions for this application.

16—64067-1

THE PROPERTY

10. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.
    (*b*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

    NOTE.—If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*b*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

*11. State the present and former names of the property, if any.

*12. State, in detail, the location of the property with reference to towns, railroads, roads, shipping points, including distances and directions and kinds and conditions of roads.

*13. State source and quantity of water available for operations and its sufficiency at all seasons.
State amount of power to be used, rate per hour or other cost, and source.

*14. Describe any existing useable facilities, equipment, buildings, or structure now on the property that will be devoted to the exploration work.

15. State in detail how the ore could be shipped and how and where milled.

*16. History:
    (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for any past suspensions of operations.
    (*b*) State briefly the known history and production of adjoining and neighboring properties.
    (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.

*17. Production:
    (*a*) If mine is in production, furnish the following information:

	Tons per day	*Grade or analysis*	*Cost per ton*	*Net value per ton*
(1) Mining				
(2) Milling				
(3) Shipped or sold				

*18. Ore or mineral reserves: (If property is or has been operating.)
    (*a*) Describe the ore or mineral deposits briefly.
    (*b*) Submit available maps and assay data.
    (*c*) Give estimated tonnage and grade of each class of ore reserves.

19. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

THE EXPLORATION

20. For what mineral or minerals and for what types of deposits and ores will the exploration be conducted?

21. Describe briefly, but concisely, the proposed work and the estimated time required to complete it.

    NOTE.—The Government will not participate in a project that will require more than 2 years to complete.

22. Furnish statement of the geological basis of the project with particular emphasis on factors leading the operator to expect the finding of commercial ore bodies. This statement should be accompanied by supporting maps such as geological maps, maps of the proposed openings and assay maps, sample lists, and other pertinent data.

THE REQUIREMENTS AND COSTS

23. Tabulate in the form of an itemized statement with a sum for each item the estimated requirements and costs of the project so that the total will give the estimated cost of the project in which the Government will participate, as follows:
    (*a*) Labor, by numbers and classes (miners, muckers, millmen, etc.), with wages of each.
    (*b*) Supervisors, by numbers and positions, with salaries of each.
    (*c*) Cost of necessary repairs to existing facilities, structures, and buildings.
    (*d*) Cost of necessary installation or construction of additional facilities, structures, and buildings.
    (*e*) Cost of items of equipment, not now owned by the applicant which must be purchased for operations at a cost of $50 or more each.
    (*f*) Cost of rental for equipment which the operator proposes to rent.
    (*g*) Rental value of items of equipment which the operator now owns and which will be devoted to the work.
    (*h*) Cost of materials and supplies, including items of equipment costing less than $50 each.
    (*i*) Cost of power, water, utilities, and any other items not provided for above.

24. Furnish a time schedule of the project, stated in terms of months after project is approved, showing progress expected to be accomplished and the money expected to be spent.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this form and accompanying papers is correct and complete to the best of their knowledge and belief.

(Name of company)	By C. E. Brunzgers (Signature of authorized official)
June 27-57 (Date)	Owner (Title)

Title 18, U. S. Code (Crimes), Section 1001, makes it a criminal offense to make a willfully false statement or representation to any department or agency of the United States as to any matter within its jurisdiction.

Answers to questions on back of page 1

10A Have no equipment except hand tools

10B Name of mine (Even Chance) located on Smiley creek, 1/2 mile north of mouth of mill gulch. 1 claim

11 Old name (Smiley Hope) New Name (Even Chance)

12 Located 38 1/2 miles north of Ketchum, nearest railroad. road condition good.

13 Water supply good, year around.

14 There are no useable facilities, equipment, or buildings on claim, except timber.

15 Could be shipped by truck to Stibnite Smelter. 140 miles, Summer road only.

16 First located mine June 13-1940. Kept assessments up untill June 1943. Relocated June 16-1951. discontinued work as there was no refinery nearer than Texas and market not to good.

17 Mine is not in production.

17A Assay runs 50 to 63% Antimony.

18 About 300 lbs. now on hand.

18A At present only a prospect. Have a cut 36 ft. long + 8 ft deep. Have a vein of ore producing clay about 8 inches wide.

18B At present have no maps nor assay data.

18C Will be high grade ore.

19 I have claim opened up to where

I will have to run a tunnel under as there is to much water for a shaft

20 Antimony and Silver.

21 Not more then two years. Season is short where mine is located.

22 Mine is located about 2 miles north of Vienna and near Silver King and other smaller mines, all of which have deposits of Antimony. Will have new assay sheets soon as I can get them.

23A Two miners wages, rate $14.00 per day.

B Two - myself included at wages.

C About $400.00 for Compressor house + Cabin.

D To build road about 900 ft to get Compressor to mine.

E. Cost of Compressor, hammers, tools and such About $4500.00.

F Cost at $4500.00 for equipment.

G Do not have any useable equipment.

H. Above price will include Hame.

I. There is no power available but plenty of water and timber

24 If I can get started soon will probably spend $5500.00 this year. Property will be snowed in by Dec 1. 1951 until June 15. 1952.
