DEFENSE MINERALS EXPLORATION ADMINISTRATION
CONTRACT ADMINISTRATION AND AUDIT DIVISION

REPORT OF REVIEW

I have reviewed the Monthly Reports of:

C. C. Burleson

Minneapolis

North Carolina

pertaining to Exploration Project Contract No. Idm-2244, Docket No. DMA-1955, including Amendment No. 1, for the months of April and May, 1952.

My review included an examination of the Monthly Reports (Forms MF-104) and supporting documents attached thereto, comparison of the costs claimed with the contract and pertinent schedules, consultation with the Government representative who visited and examined the project, and a determination of the reasonableness and propriety of the costs.

This review was made in lieu of an audit of the Operator's accounts and records for the following reasons:

(a) the administrative cost to the Government of an audit would be excessive in relation to value of the contract or the estimated amount of possible disallowances thereunder;
(b) the Monthly Reports were supported by documentary proof of the costs incurred under the contract.

The review disclosed the following facts in regard to the amount paid or to be paid the contractor:

Total cost as billed by Contractor		$ 1,913.86
Exceptions:		
By DMEA Finance Officer	$ 60.80	
Herewith	-0-	60.80
Total Accepted Cost		$ 1,853.06

The contract calls for a 90 per cent participation of exploration expenses by the United States Government. Therefore, payment to the contractor by the Government in the amount of One thousand six hundred sixty-seven Dollars and 75/100

- $1,667.75 -

is considered valid and proper.

Date: JUN 25 1952

TERMINATION OF EXPLORATION PROJECT CONTRACT BY AGREEMENT
AFTER COMMENCEMENT BUT BEFORE COMPLETION OF THE WORK

It is agreed this 23rd day of May, 1952, between the United States of America, acting through the Department of the Interior, Defense Minerals Exploration Administration, hereinafter called the "Government," and [illegible], hereinafter called the "Operator," parties to that certain Exploration Project Contract I-dm-E-211, Docket No. DMEA-1951, dated 23 [illegible] 1952, that the said contract shall be and is hereby terminated as of the first date above written.

Any work prosecuted or costs incurred by the Operator after the date first above written shall be for the sole account of the Operator, except for (a) such necessary and reasonable costs and expenses as may be incurred in preserving and disposing of any facilities, buildings, fixtures, equipment, or other items, to the cost of which the Government has contributed and in which the Government has an equity, and (b) the costs of any reports, accounts, and winding-up and settlement actions provided for in the contract.

The undersigned Operator hereby releases and agrees to save harmless the Government from all claims and demands under or arising out of said Exploration Project Contract, except as herein expressly otherwise provided.

Witness the following signatures as of the day and year first above written.

CONTRACT AMENDMENT I .

Contract Docket No. DMA-1955, Idm-E2hh, dated January 25, 1952 between THE UNITED STATES OF AMERICA and C. C. BURLESON, an individual, is hereby amended as follows:

1. Item 3 is amended to read, "The Operator, within 90 days from date of this contract, shall commence work...." instead of 30 days , and provided for completion within six (6) months from date of contract instead of sixty (60) days.

This amendment shall not be construed to increase the estimated total cost of the project, the aggregate total amount which the Government may be obligated to pay, or the percentage of the cost which the Government may be obligated to pay, under the provisions of Article 13 of the contract form.

EXPLORATION PROJECT CONTRACT [1]

It is agreed this 25 day of January, 1952, between the United States of America, acting through the Department of the Interior, Defense Minerals Administration, hereinafter called the "Government," and [2] ~~George H. Bowman, Elk Park, N.C. and~~ C. C. Burleson, Minneapolis, N. C., ~~a partnership~~

C C B
C C B

hereinafter called the "Operator," as follows:

1. *Authority for contract.* This agreement is entered into under the authority of the Defense Production Act of 1950, pursuant to Mineral Order 5, entitled "Regulations Governing Government Aid in Defense Exploration Projects."

2. *Operator's property rights.* The exploration project shall be conducted on that certain property situated in the State of North Carolina, County of Avery described as follows: [3] That part of B. W. Winters' farm, known as Shell Place and conveyed by Manie Wiseman to B. W. Winters and Fannie Winters by deed of December 4, 1931, recorded in Book 26 on page 433 of the land records of Avery County at Newland, North Carolina, which is described as set forth in Annex I.

with respect to which the Operator represents and undertakes: [4]

(*a*) ~~That he is the sole owner, in possession and entitled to possession, and that the property is subject only to the following claims, liens, or encumbrances as to each of which the subordination agreement of the holder is attached:~~

(*b*) That he is a lessee, in possession and entitled to possession, and the subordination agreement of the lessor is attached.

3. *Exploration project.* The Operator, within thirty (30) days from the date of this contract shall commence work on a project of exploration for [5] strategic mica; shall prosecute the work efficiently, expertly, in a workmanlike manner, in accordance with good mining standards, with suitable and adequate equipment, materials, and labor, all properly designed to bring the project to completion within a period of [6] sixty (60) days from the date of this contract. The exploration project and the work to be performed are more fully described on Exhibit "A" attached hereto, which, with any maps or drawings thereto attached, is made a part of this contract.

4. *Performance of the work.* The work shall be performed by the Operator, under his sole direction and control: *Provided,* That with the consent of the Government and its written approval of the contract or contracts, all or any part of the work may be performed by the Operator through contract or contracts with independent contractors. The Government shall have the right to enter and observe and inspect the work at all reasonable times, and the Operator shall provide the Government with all available means for doing so. The Government may consult with and advise the Operator on all phases of the work.

5. *Fixtures and improvements.* The Operator shall devote the land and all existing improvements, facilities, buildings, installations, and appurtenances to the purposes of the exploration project without any allowance for the use, rental value, depreciation, depletion, or other cost of acquiring, owning, or holding possession thereof. Any additional facilities, buildings, and fixtures, to be purchased, installed, or erected by the Operator, with the estimated cost of each, to which the Government will contribute currently its agreed pro rata share, are listed in Exhibit "A" attached hereto. The difference between the cost of such additional facilities, buildings, or fixtures, and the salvage value thereof at the conclusion of the work, shall be charged as a cost of the project to which the Government has contributed its pro rata share.

6. *Operating equipment.* Any operating equipment to be rented, purchased, or furnished by the Operator, with the allowable rental, purchase price, or depreciation, as the case may be, is listed under appropriate headings in Exhibit "A" attached hereto. As to equipment purchased for the project, the Government will contribute its agreed pro rata share of the cost thereof, and the difference between the cost and the salvage value at the conclusion of the work shall be charged as a cost of the project to which the Government has contributed its pro rata share.

[1] If sufficient space is not provided in any blank, use an extra sheet of paper and refer to it in the blank.
[2] State name, address, and nature of organization if any.
[3] Give legal description or enough to identify the property.
[4] Strike out the provision not applicable.
[5] Name of mineral.
[6] Not in excess of 2 years.

7. *Title to and disposition of property.* All facilities, buildings, fixtures, equipment, or other items costing more than $50 each, paid for or purchased with funds contributed jointly by the Operator and the Government, shall belong to the Operator and the Government jointly, in proportion to their respective contributions, and upon the termination of the contract, if they have any salvage value, shall be disposed of for their joint account unless the Government, in writing, waives its interest in any such items. The Government may require the dismantling, severance from land, and removal of any such items in order to realize its interest in the salvage value thereof, and the cost of any such removal and of the disposal of the items shall be for the joint account of the parties in proportion to their respective interests.

8. *Labor and supervision.* An itemized schedule of labor, by numbers and classes (miners, muckers, millmen, etc.), and of supervisors, by numbers and positions, with the maximum wages or salaries that may be paid to each as an allowable cost of the project is set forth in Exhibit "A" attached hereto.

9. *Rehabilitation and repairs.* A statement of the cost of any necessary rehabilitation or repairs to put existing facilities, buildings, installations, and fixtures into useful and operable condition and which are to be allowed as costs of the project is included in Exhibit "A."

10. *Allowable costs of the project.* The costs of the project in which the Government will participate are limited to the necessary, reasonable, direct costs of performing the exploration work, including the costs of materials, supplies, engineering, power, water, analytical work, accounting, and utilities, including items of equipment costing less than $50 each; and the costs referred to in Articles 5, 6, 8, and 9, and the exhibits annexed to and referred to in this contract. Although the Government may pay part of the cost of new or additional facilities, structures, buildings, and equipment, only the depreciation on such items, computed as indicated in Articles 5 and 6, will be charged as a cost of the project. No items of general overhead, corporate management, interest, taxes, or any other indirect costs not expressly allowed by these provisions, or work performed or costs incurred before the date of this contract, shall be allowed as costs of the project in which the Government will participate.

11. *Accounts and audits.* The Operator shall keep suitable records and accounts of operations, which the Government may inspect and audit at any time. The Government may at any time require an audit of the Operator's records and accounts by a certified public accountant, the cost thereof to be treated as a cost of the project. The Operator shall keep and preserve said records and accounts for at least 3 years after the completion of the project or the termination of this contract.

12. *Progress reports.* The Operator shall provide the Government with monthly reports of work performed under the contract upon forms to be provided by the Government. Each monthly progress report shall bear the certification of the Operator and shall constitute the Operator's invoice of costs incurred on the project during the period covered by the report.

13. *Payment to the Operator.* The monthly progress report (invoice), to the extent approved by the Government, shall be processed for payment by the Government. Payment shall be made in the amount of 90 percent of the approved costs incurred; *Provided,* That the aggregate total of all sums paid by the Government under this agreement shall not exceed $2,389.50, which is 90 percent of the agreed estimated total cost of this project, $2,655.00.

14. *Final reports by Operator.* Upon completion of the project or termination of this contract, the Operator shall provide the Government with a comprehensive geologic and engineering report, including an estimate of ore reserves, to the best of his ability. Four copies of all reports shall be furnished to the Government.

15. *Repayment by Operator.* If, upon the completion of the exploration project or termination of the contract, the Government considers that a discovery or development has resulted from the work from which commercial production of ore may be made, the Government, within 6 months thereafter, shall so certify to the Operator, particularly describing and delimiting its estimate of the discovery or the development. Thereafter, if and as ore is produced as a result of such discovery or development, the Operator and his successor in interest shall be and become obligated to pay to the Government a percentage royalty on the net smelter returns or other net proceeds realized from such ore, concentrates, or metal produced within ten (10) years from the date of this contract, until the total amount contributed by the Government, without interest, is fully repaid or said 10 years have elapsed, whichever occurs first, as follows:

Of net smelter returns or other net proceeds not in excess of eight dollars ($8.00) per ton of ore: One and one-half (1½) percent.

Of net smelter returns or other net proceeds in excess of eight dollars ($8.00) per ton of ore: One and one-half (1½) percent, plus one-half (½) percent for each additional full fifty cents ($0.50) in excess of eight dollars ($8.00) per ton of ore, but not in excess of a maximum of five (5) percent.

This obligation to repay from net returns or proceeds shall be and remain a claim and lien upon the mineral deposit which is the subject of the exploration project and upon any production resulting from such discovery or development, in favor of the Government, until fully paid, or until said 10-year period has elapsed; and this claim and lien and the Government's right to repayment shall survive any termination of the contract, whether by completion of the exploration project or otherwise. This article is not to be construed as imposing any obligation on the Operator or his successor in interest to produce ore from any such discovery or development.

16. *No assignment of contract.* Without the written consent of the Government, the Operator shall not assign or otherwise transfer or hypothecate this contract or any rights thereunder.

17. *Termination and completion.* The Government may, at any time, by written notice to the Operator, terminate this contract: (*a*) If the Operator fails to provide his share of the money necessary to prosecute operations pursuant to the terms of the contract; (*b*) if the Operator, in the opinion of the Government, fails to prosecute operations pursuant to the terms of the contract; or (*c*) if in the opinion of the Government, operations up to the time of the notice have not indicated the probability of making any worthwhile discovery and in the opinion of the Government further operations are not justified. Upon the completion of the project or any termination of the contract the Operator shall render to the Government a full and final accounting of his operations under the contract and his expenditures of money; shall dispose of any unused materials, supplies, and equipment for the joint account of the Operator and the Government in the proportion of their respective interests; and shall pay to the Government its pro-rata share of any money remaining.

Executed in sextuplicate the day and year first above written.

EXPLORATION PROJECT CONTRACT
GEORGE M. BOWMAN AND C. C. BERLESON
DOCKET NO. DMEA-1955

EXHIBIT "A"

Statement of the Work

Bulldoze trench thirty feet in length and six to eight feet in depth and, if in the opinion of the Government, the exposures justify further exploration, sink a 25-feet inclined shaft and a 10-feet drift in the most favorable area in the trench as indicated by the pit marked 2 on the map. The location of trench is shown in the accompanying map. A shaft will be sunk also on or near the outcrop at or near the point marked 1 on the accompanying map and the drift, not to exceed 10 feet in length, will be driven from the bottom of the shaft.

Estimated time — 35 working shifts or 60 calendar days

Estimated cost $2,655.00

Estimated Costs of the Project

Fixtures and improvements

Does not apply

Operating equipment

To be purchased:

Hand tools, pipe, etc.	$250.00	
Supplies, timber, gasoline, oil, drill steel bits	400.00	$ 650.00

To be rented 1/

1 Bulldozer, 30 hrs. @ $10.00 per hour 2/	300.00	
1 Compressor, one mo. @ $175.00 per mo. 3/	175.00	
1 Jackhammer, one mo. @ $60.00 per mo. 3/	60.00	
1 Hoist, one mo. @ $70.00 per mo. 3/	70.00	
1 Pump, one month @ $50.00 per mo. 3/	50.00	655.00

1/ As indicated in Sec. 4 of contract, all subcontracts are subject to approval by the Government in writing.
2/ Includes operators' wages, supplies and repair cost, rates for actual operating time.
3/ Includes repairs but not fuel.

Furnished by Operator

None

Labor and supervision

1 Working foreman-hoistman, 30 days @ $12.00 per day	$360.00	
1 Miner-timberman, 30 days @ $12.00 per day	360.00	
2 Laborers, 30 days @ $8.00 per day each	480.00	$1,200.00

Miscellaneous

Taxes, insurance, etc.	150.00
Estimated total	$2,655.00

A map of monthly progress is to be included in the monthly progress report as required under section 12 of the Exploration Project Contract.

Proposed Test pit

Project Summary Report

By: Walter C. Anderson

1. Docket No. DMEA-1955-Mica
Contract No. dMn-E 244
Winters Prospect
Avery County, North Carolina

Operator: C. C. Burleson
Minneapolis, North Carolina.

Application: Form MF-103 (April 1951) received August 13, 1951.
Work proposed: Start by removing prospect with a bulldozer and follow up with the best advantage method, as open cut, tunnel, shaft or incline.
Amount requested - $ 9,600.00

Operator's property rights:
Mining lease for thirty months dated August 7, 1951
Landlord's Subordination Agreement dated November 19, 1951

2. Contract - Form MF-200 (June 1951) dated January 25, 1952.
Work authorized - actual costs:
Bulldoze trench 30 feet long by 6 to 8 feet deep, sink a 25 foot inclined shaft and drive 10 feet of drift
Estimated cost $ 2,655.00
Government participation @ 90% 2,389.50

Amendments: No. 1 - 2/19/52 - Extends starting time from 30 days to 90 days, and completion date from 60 days to 6 months.

Work completed - actual costs:

Bulldozed trench 30 feet long and sank two inclined test pits, one 8 feet deep and one 10 feet deep

Total accepted cost	$1853.06
Government participation @ 90%	$1667.75

Starting and ending of working dates not indicated on any reports.
Project terminated before completion by mutual agreement on May 28, 1952.
Field Team Final Report received June 23, 1952.
Operator's Final Report - not received.
Some recovery of mica - amount not stated in reports.
No items of salvage value.

3. Audit - Report of Review issued June 25, 1952.

Accepted cost	$1,853.06
Government participation	$1,667.75

4. Certification of Discovery - None issued.

5. Comments:

How conducted - In a competent manner. All work in which the Government participated is acceptable.
Operation - Acceptable.
Engineering - Operator was lax on reporting.
Geological premise - The exploration work did not substantiate the premise that varying quantities of strategic mica would be found, since there were no concentrations of mica, which were non-ruby in color and therefore unacceptable

for the National Stockpile at the time.

Geological criteria upon which work was based:

1. Unweathered pegmatite 4 feet thick conformably enclosed in mica schist.
2. Books of mica up to 4 inches across, brownish to rum in color, hard and splits well.

Criteria developed during project:

1. Two assayed parallel pegmatites - 15 feet apart, in the form of pods 15 feet by 20 feet by 5 feet thick connected by stringers.
2. No mica concentration
3. Mica, non-ruby in color.

Future possibilities: Insufficient concentration of mica for a profitable operation.

Recommendations: The Nonmetallic Minerals Division concurs in field teams recommendation not to issue a Certification of Discovery.

Room 13, Post Office Building
Knoxville 2, Tennessee

July 16, 1952

Memorandum

To: Operating Committee, D.M.E.A. Washington

From: Executive Officer, D.M.E.A. Region 7

Subject: Termination of Contracts by Mutual Agreement

The forms for mutual agreement to termination (18262-1) have been sent to the following Operators on the dates indicated:

DMEA-1761,	Idm-E206	May 13, 1952
DMEA-1914,	Idm-E191	May 15, 1952
DMEA-1929,	Idm-E198	June 14, 1952
DMEA-1955,	Idm-E244	June 14, 1952

No reply has been received from the first three. Signed form for DMEA-1955 was received on June 17 and has been forwarded to Washington office.

It appears probable that the other three forms will never be signed. Meanwhile we are considering the projects as terminated, on the basis of letters written to the Operators.

Robert A. Laurence (sgd)

FINAL REPORT

DMA-1955X, Idm-E244, WINTERS PROSPECT
Spear, Avery County, N.C.

This prospect is located along the east side of North Toe River, about one mile south of Spear, Avery County, North Carolina.

Exploration at this place consisted of exposing the pegmatite at Location I on the attached map for a distance along the strike of 30 feet. This stripping also exposed a parallel pegmatite about 15-feet southeast of the one originally exposed. Several shots in the first pegmatite failed to show any mica concentration, so efforts were concentrated on the newly exposed one.

Work on this exposure consisted of sinking two inclined test pits in the pegmatite. The southwest pit is 8 feet deep and only small books of mica were obtained. Another pit, 10 feet northeast of the 8-foot and 10 feet deep exposed a pegmatite about four feet thick. Considerable mica in books up to five inches in diameter were recovered from this pit.

The two pegmatites explored under this Contract are paralled and about 15 feet apart. They trend about N 45° E, dipping 30°-45° southeast; the pegmatites are conformable in both strikes and dip to the foliation of the mica schist wall rock. The pegmatites consist of a series of linticular pods connected by thin stringers. The pods appear to have a thickness up to five feet, and a vertical and horizontal length of 15 to 20 feet. From the limited exposures it would appear that the pods plunge to the northeast at about 45 degrees.

The pegmatite consist of rather coarse uniformly intergrown smoky quartz, plagioclase feldspar, and mica. There is no apparent zoning, or any evidence of mica localization in the pegmatites.

The mica from this prospect is hard, relatively flat, and splits well. Most of the books are badly cracked and some "A" structure is in evidence. Samples of mica from this prospect were sent to the General Services Administration for appraisal. Results from this appraisal indicated that the mica is non-ruby in color and is unacceptable for the National Stockpile. The project was terminated on May 28, 1952.

The Field Team does not believe that sufficient mica was discovered by this project to justify certification of a discovery.

This contract was for $2655.00 of which $1853.06 was expended. Of the amount used, the Government's share amount to $1667.75, thus $721.75 is returned to the revolving fund. The project was terminated before exploration was completed because of the non-strategic quality of the mica, therefore, the objectives set forth in the Contract were not accomplished. The Operator conducted the project in a competent manner. There were no items of salvage value involved in the project. No strategic mica was discovered or commercial minerals of any kind.

STRATEGIC AND CRITICAL MINERAL EXPLORATION PROGRAM
OPERATOR'S MONTHLY PROGRESS REPORT

Operators are to submit monthly reports to the designated field representative of the Defense Minerals Administration. Reports are to be submitted in quadruplicate prior to the 15th day of the month following the reporting period.

Narrative.—A concise narrative description of progress made, results accomplished, and any unusual difficulties encountered is to be furnished.

Maps.—Wherever possible, the narrative is to be illustrated with maps or sketches showing formations penetrated and location and assays of samples taken as well as advances in workings. In the case of diamond drilling or churn drilling, the location and inclination of holes is to be shown on a map; logs and assays also are to be submitted.

Cost Accounts.—All applicable parts of this form are to be filled in. This report will form the basis for payments of the Government's participating share of expenses. Audits of accounts may be made from time to time.

Re: DMA-1955 (mica)
Contract Ida-E244

Dear Mr. Burleson:

Your May (final) monthly report has been forwarded to our Norris office for processing.

We find that your claim for $30.40 on your April report was in error and cannot be allowed. The invoice from Jefferson Distributing Company in the amount of $158.47 was broken down on your voucher into two items, one of $128.07 for miscellaneous items and one for $30.40 for explosives. You were paid $772.35 which is the Government's share or 90 percent of the total amount, $858.17.

In addition to the deletion of the above $30.40 from this months report, we are deleting $0.30 on item 6 (b) explosives as the total amount spent for this item in May was $110.79 instead of $111.09. Your totals now will be as follows; $994.09; $858.17; and $1853.06.

As to the matter of material you have left on hand, as long as you do not have more than $50.00 worth you may dispose of it as you see fit.

Please check your records and if you find that we are wrong, please notify us.

Very truly yours,

Wm. A. Beck, for R. A. Laurence
Executive Officer, DMA-Field Team
Region VII

Minneapolis, N. C.
June 9, 1952

Mr. Wm. A. Beck,
Executive Officer, DMEA, Region VII
Room 1, Post Office Bldg.
Knoxville, Tenn.

Dear Mr. Beck:

I am to-day enclosing my second payroll, OPERATOR'S MONTHLY PROGRESS REPORT, for the month of May 1952 on the Burleson Mine, Contract No 244, Docket No. DMA 1955X.

This is my last monthly report since you ordered the Project stopped on May 28, 1952.

I want you to please note that the man who made my report for April made a mistake of $30.40 by addition on Jefferson Distributing Company's Bills, or invoices. Your allowance lacked the above amount in giving me the necessary amount for paying Jefferson Distributing Company. The mistake was by addition, since I enclosed invoices from the Jefferson Distributing Company showing that my bills amount to $158.47 instead of $128.07. So I lacked this amount of paying the Jefferson Distributing Company for the Month of April. Please allow this additional $30.40 please. I enclose all invoices and statements showing just how the matter stands.

I am enclosing invoices, etc. as follows:

Mitchell Distributing Company
Hughes Electric Supplies
Lewie Aldridge
Payroll, Labor
Payroll, Supervision
Jefferson Distributing Company, for May
Adjustment..... Jefferson Distributing Company, back pay for April
Explosives Supply Company
Calahan
Map of Progress for May

I hope indeed that you will allow this money at once so that I can close out this project. These men need their pay for labor and all companies are waiting patiently.

Figuring brokerage, I do not have fifty dollars worth of material left on hand. Please advise about this. Hope you will allow money in full so that I may close out everything.

Very sincerely yours

/s/ C. C. Burleson

Noted Contract no v 4 4 should be E v 4 4 good 6-3-52

Re: ~~DMEA-1955X-Idm-E255~~
Winters Prospect (mica)

Dear Mr. Burleson:

On May 7, 1952 the DMEA Field Team examined the mica deposit covered by the subject contract. At that date the Field Team informed you that exploration through May 7, 1952 had not indicated that a worthwhile discovery would be made.

On May 12, 1952 you contacted A. L. Peyton of the DMEA Field Team, requesting that the project be continued on the basis that good mica had been obtained from the deposit after the Field Team's visit. Mr. Peyton again visited the project on May 13, 1952 and obtained samples of mica from the deposit. These mica samples were submitted by the DMEA to the General Services Administration for appraisal. Results from this appraisal indicates that mica from the Winters Prospect is non-ruby in color, and is not acceptable for the National stockpile. Since the mica cannot be sold under the Purchasing Program for Domestic Mica, no further expenditure of funds under this contract is justified.

This letter is to notify you, as required in Section 17 of contract, that the contract is hereby terminated effective at the end of the working day May 28, 1952.

Yours very truly,

Robert A. Laurence, Executive Officer

STRATEGIC AND CRITICAL MINERAL EXPLORATION PROGRAM
OPERATOR'S MONTHLY PROGRESS REPORT

Operators are to submit monthly reports to the designated field representative of the Defense Minerals Administration. Reports are to be submitted in quadruplicate prior to the 15th day of the month following the reporting period.

Narrative.—A concise narrative description of progress made, results accomplished, and any unusual difficulties encountered is to be furnished.

Maps.—Wherever possible, the narrative is to be illustrated with maps or sketches showing formations penetrated and location and assays of samples taken as well as advances in workings. In the case of diamond drilling or churn drilling, the location and inclination of holes is to be shown on a map; logs and assays also are to be submitted.

Cost Accounts.—All applicable parts of this form are to be filled in. This report will form the basis for payments of the Government's participating share of expenses. Audits of accounts may be made from time to time.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this report is correct and complete to the best of their knowledge and belief.

16—64068-3 U. S. GOVERNMENT PRINTING OFFICE

Mr. Robert A. Laurence
Executive Officer, DMEA
Field Team, Region VII
Room 13, Post Office Building
Knoxville 01, Tennessee

Subject: Docket No. DMEA-1388 - Mica
" " DMEA-1955 - "
" " DMEA-2249 - "
" " DMEA-2327 - "
" " DMEA-2414 - "
" " DMEA-2429 - "
" " DMEA-2430 - "
" " DMEA-2431 - "

Dear Mr. Laurence:

Reference is made to Mr. Mittendorf's letter of May 21st transmitting samples of mica to Mr. George A. Purcell, Mica Consultant, General Services Administration, Federal Supply Service, Unit 2, 7th Floor, 34 Exchange Place, Jersey City, New Jersey, for evaluation. The following are Mr. Purcell's findings:

Puskins Mine: DMEA-1388	"Sample 3 pieces well prepared. Color: Ruby. Quality acceptable for stockpile.
Winters Prospect: DMEA-1955	"Sample 7 pieces of poor preparation. Color: Ruby. Quality wavy and some black spots. Not acceptable for stockpile.
Luther Mine: DMEA-2249	"Sample 5 small pieces poorly prepared. Color: Non-ruby. Quality poor except for 2 specimens. Not acceptable for stockpile.
May Mine: DMEA-2327	"Sample 4 pieces of fair preparation. Color: Ruby. Quality somewhat wavy. Samples would indicate acceptable stockpile quality obtainable from this source.
Doublehead Mine: DMEA-2414	"Sample 7 pieces of fair preparation. Color: Non-ruby. Quality contains some black spots. Not acceptable for stockpile.
Carpenter Mine: DMEA-2429	"Sample 6 pieces very small, untrimmed. Color: Ruby. Usable area of samples too small to indicate quality or size obtainable. Acceptable for stockpile as to color.

Hungardner Mine: DMEA-2430 — "Sample 6 thin sheets of fair preparation. Color: Ruby. Sample would indicate acceptable quality obtainable from this source.

Glen Meade Mine: DMEA-2431 — "Sample 3 very small specimens poorly prepared. Color: Ruby. Samples too small to evaluate quality. It is possible acceptable quality could be obtained from this source but cannot be determine from present samples."

Please note that the mica from the Winters Prospect, DMEA-1955, Lum-3224, is not acceptable for stockpile. If the seven samples are representative of the quality of mica to be expected from this prospect, then you would be justified in terminating this contract.

The Lacher Mine, DMEA-2249, and the Doublehead Mine, DMEA-2414, are not eligible for exploration assistance, and this office will write letters of denial on them.

Dear Mr. Lawrence:

Please find herewith the original and five copies of a contract covering the subject exploration project which have been signed by this office for the Government with register number and effective date as shown.

If the contract meets with your approval, present it to the Operator for his approval and signature. If any provisions are unsatisfactory to the Operator, return all copies to this office along with suggested changes for consideration.

After signing of the contract, one copy is to be given to the Operator, one copy retained for your files, and the remaining copies, including the original, are to be returned to this office as soon as possible.

A copy of the contract required by the Regional Finance Office will be forwarded directly by the Washington Finance Section.

LANDLORD'S SUBORDINATION AGREEMENT

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, the undersigned is the owner in fee simple of that certain parcel of ground in the county of Avery, State of North Carolina, described in a certain Exploration Project Contract dated [illegible], 195__, between George M. Bowman and C. C. Burleson, the Lessee of said property, and the United States of America;

NOW, THEREFORE, the undersigned, as Lessor of said property under lease dated August 7, 1951, does by these presents subordinate all of his right, title, and interest under the provisions of said lease to the right, title, and interest of the United States of America under the provisions of said Exploration Project Contract, and agrees that the lien and claim of the United States of America under the provisions of said contract shall be prior to the undersigned's rights to rentals or royalties under the terms of said lease; and

The undersigned further agrees that if said leasehold interest should be surrendered or if said lease should terminate at any time prior to the expiration of the rights of the United States of America under said Exploration Project Contract, the undersigned shall assume and does hereby assume all of the obligations of the Lessee under said Exploration Project Contract to make repayment to the United States of America according to the terms of said contract; and

The undersigned agrees to commit no act, nor assert any claim under judicial process or otherwise that may contravene or conflict with the prior lien and claim of the United States of America under the provisions of said Exploration Project Contract.

This undertaking and covenant shall be binding upon the heirs, successors, and assigns of the undersigned. This lien and claim is on nothing other than the mica or minerals to be extracted from the ground.

Dated this 19 day of Nov, 195 1

NORTH CAROLINA, AVERY COUNTY.

SALE OF MINING INTEREST

On this day, the Seventh Day of February, 1952, the following Agreement is entered into between George M. Bowman, of Avery County, North Carolina, and C. C. Burleson, of Avery County, North Carolina, such agreement to be valid and in force from the above date upon the proper execution of the signatures of both parties, both the seller and buyer.

WITNESSETH

I, George M. Bowman, of Elk Park, North Carolina, on account of the uncertainty of mica prices and the Government mica program, for the sum of one dollar and no more, receipt of which is hereby acknowledged, do sell, part with forever, and deliver to C. C. Burleson, of Minneapolis, North Carolina, my one-forth, or all my interests whatever that may be, in the certain mining lease, granted by B. H. Winters and wife, Fannie Winters, of Avery County, North Carolina on the seventh day of August, 1951, and executed before A. P. Brinkley, Notary Public, of Elk Park, N. C. on August the Seventh, 1951, also my one-half, or all interests whatever that may be in a loan made by the Federal Government to George M. Bowman and C. C. Burleson under Exploration Contract Agreement, dated the twenty-fifth of January 1952, based upon the above mentioned mining lease, cost of such project under such loan to be $2,655.00. Further this sale and delivery of my one-fourth, or all interests whatever that may be, in the lease made to George M. Bowman and C. C. Burleson by B. W. Winters and wife, Fannie Winters, and my one-half, or all interests whatever that may be in said Government loan designated above, shall relieve me of all responsibilities in said lease and said loan designated above, in every way, financially and otherwise from now on forever, and furthermore I will not be responsible for any terms or conditions of said lease, nor for any part of said Government loan, nor for any accidents as a result of mining, nor for any debts made by Mr. C. C. Burleson nor any of his partners hereafter.

I, C. C. Burleson, of Minneapolis, Avery County, North Carolina, do hereby accept the full one-fourth, or all the interests whatever that may be in the B. W. Winters lease described above, now sold and delivered to me by George M. Bowman, of Elk Park, North Carolina, Avery County, Also George M. Bowman's one-half , or all of his interests in the Government loan designated above, for which I have paid him the sum of one dollar. I accept the full responsibilities of the lease named above, and of the full Government loan named and designated above, and all the responsibilities of the partnership of Mr. George M. Bowman, and C. C. Burleson based on the above lease and loan, financially and otherwise, and I hereby relieve George M. Bowman, of all such responsibilities forever, financially and otherwise, I take full responsibility of the Government loan designated above as to its full payments as set up under terms of the Exploration Contract Project Agreement of January 25, 1952

WITNESS OUR HANDS AND SEALS:

Seller /s. George M. Bowman (seal)

Buyer /s C. C. Burleson (seal)

NORTH CAROLINA, AVERY COUNTY

Personally appeared before me this Seventh Day of February, 1952, George M. Bowman, Seller, of the above mining interests, and C. C. Burleson, buyer of the above mining interests and acknowledged the due execution of the foregoing instrument.

s/s A. P. Brinkley

Memorandum

To : Acting Administrator

From: Chief Counsel

Subject: George M. Bowman and C. C. Burleson exploration contract — Docket No. DMEA 1955

The draft of the Exploration Project Contract in this case, submitted to us on January 8, 1952, has been revised in certain minor respects and six copies in what we consider to be satisfactory legal form are attached.

The landlord has modified the subordination agreement to limit the lien to the mica to be extracted from the ground. Moreover the landlord's wife has not signed the subordination although she is co-lessee of the property. However, in view of the small size of the contract and the delay to which it has already been subject, we believe that the subordination can be accepted as it is.

Your file is returned herewith.

J. L. Hofflund
Chief Counsel
