Dear Mr. Fouts:

The check in the amount of $1,108.65, forwarded with your letter of March 10, 1961, completes the repayment in full of the Government's participation of $6,526.80 in the subject exploration contract for mica. As a result of the repayment, the Government retains no lien against the property or on any future production therefrom.

We appreciate your interest and participation in the DMEA exploration program.

Sincerely yours,

Acting Director

CONTRACT ADMINISTRATION AND AUDIT DIVISION

ROYALTY AUDIT CERTIFICATE

I have examined the production records and sales documents pertaining to the sale of mica produced from Allman Cove Mine, located in Macon County, North Carolina, for the period July 2, 1953, to February 14, 1958, on which royalty is due the U. S. Government under terms of Contract Idm-2561, Docket No. DMEA-2917 (Mica), dated July 2, 1953, with

Ray Herbert Ferts

Franklin, North Carolina

My examination was made in accordance with generally accepted standards applicable in the circumstances.

The audit established the total sales of mica for this period, subject to DMEA royalty, to be $63,802.50. Royalty due the Government at the 5 percent rate specified in the contract is $3,190.11. A Report of Royalty Review dated March 9, 1955, prepared by the undersigned indicated sales to that date amounted to $34,295.00 and the status of the royalty account to be:

| | |
|---|---|
| Total Royalty Due | $1,714.72 |
| Total Royalty Paid | 1,714.72 |
| Balance Royalty Due | $ -0- |

As of February 14, 1958, the royalty account of this project was found to be:

| | |
|---|---|
| Total Royalty Due | $3,190.11 |
| Total Royalty Paid | 3,098.61 |
| Balance Royalty Due | $ 91.50 |

C. E. Fisher

C. E. Fisher, Auditor

February 24, 1958

# ROYALTY AUDIT REPORT

## I. INTRODUCTION

On February 13 and 14, 1958, an audit was made of the production records and sales documents pertaining to the sale of mica produced from Allman Cove Mine, located in Macon County, North Carolina, for the period July 2, 1953, to February 14, 1958, on which royalty is due the U. S. Government under terms of Contract Idm-F561, Docket No. DMFA-2917 (Mica), dated July 2, 1953, with

Roy Herbert Ferts

Franklin, North Carolina

Production of mica on which royalty is due the Government has been accomplished by the Operator named in the exploration contract and by two companies who operated the mine subsequent to discontinuance of operations by Roy Herbert Ferts.

Mr. William A. Beck, mining engineer, DMFA Region V, Knoxville, Tennessee, accompanied this auditor and rendered valuable assistance in the conduct of the audit which was accomplished in Franklin, North Carolina.

## II. GENERAL INFORMATION

The exploration contract provides that should the Government, within 6 months after completion or termination of the exploration project certify that a discovery or development has resulted from the work, the Operator and his successor in interest shall be obligated to pay a percentage royalty on the net smelter returns or other net proceeds realized from the ore, concentrates, or metals produced within 10 years from the date of the contract, until the total amount contributed by the Government, without interest, is fully repaid or said 10 years have elapsed, whichever occurs first. A certificate of discovery or development was issued on May 17, 1954.

According to a Report of Review issued in lieu of final audit dated April 26, 1954, prepared by E. D. Talbert, DMFA Auditor, the total accepted costs of the exploration amounted to $7,252.00, with the Government's contribution, on a 90 percent basis, being $6,526.80.

## III. SCOPE OF AUDIT AND FINDINGS

### A. Conference with Examining Engineer

A conference with the examining engineer (Mr. Beck) disclosed that the only production from this mine consisted of mica. After processing it is sold to the Mica Purchase Depot, Spruce Pine, North Carolina, as sheet mica. All scrap or punch mica resulting from the processing is sold to local dealers in such products. All production is sold as soon as a saleable quantity is available.

B. Audit of Settlement Statements

A considerable amount of preaudit work was accomplished in the DMEA office, Region V, Knoxville, Tennessee, prior to the field audit. During this preaudit work a statement of royalty received was prepared from copies of settlement documents relating to sales of mica. These documents were furnished by the operators of the mine in support of royalty remittances to the regional office. The royalty receipts were verified with deposits made by the regional Finance Officer. All of the data included in the statement were confirmed by recomputation. This statement, which is filed as a part of my audit work papers, was also verified with the records of the Mica Purchase Depot. Sales to that depot accounted for more than 96 percent of the total dollar value of all mica subject to royalty.

Ray Herbert Foute conducted the exploration work and operated the mine through 1955. His production and sales records were examined at his home in Franklin, North Carolina, on February 13, 1958. It was determined that proper royalty had been paid to the Government on all production and sales of mica accomplished during the period of his operation. (Mr. Foute also operated Eagle Cape Mine, Docket DMEA-2926, Contract Ida-E516, for a short period of time. His records pertaining to that operation were also reviewed. A separate audit report is being made with respect to such operations.)

During 1956 and 1957, the mine was operated by Chain Mica Company, a partnership. The records pertaining to that operation were made available for audit by Chas. A. Conley, Jr., and Ralph Hanson, two of the partners, at the Conley Motor Company, Franklin, North Carolina, where they are employed. The audit revealed that additional royalty was due to the Government in the amount of $18.66 computed as follows:

| Sold to | Lbs. | | Proceeds |
|---|---|---|---|
| Tom Red Sanders | 13,30 lbs. | short | $ 64.65 |
| Franklin Mineral Products Co. | 6,095 lbs. | scrap | 95.91 |
| Tar Heel Mica Co. | * | punch | 27.66 |
| Rae Woody | * | punch | 140.79 |
| Milton Buchanan | * | Punch | 44.25 |
| | Total | | $373.26 |
| | Royalty - 5% | | $ 18.66 |

*Quantities not available . Estimated for report purposes as amounting to 2,127 pounds based on average selling price of 10 cents per pound.

Mr. Hanson promised to remit the amount of $18.66 to the Knoxville office as soon as he can contact all of the partners.

In the fall of 1957, Mica Mining Corporation acquired the interest of Chain Mica Company in the mining property. One sale of sheet mica was made to the Mica Purchase Depot by the latter company for the account of Mica Mining Corporation. The royalty due to the Government was paid on that sale.

The records of Mica Mining Corporation, Box 489, Franklin, North Carolina, were made available by L. L. Hubble, president of the company, at his motel room in Franklin, North Carolina, on February 14, 1958. The audit revealed that additional royalty is due the Government in the amount of $72.84, computed as follows:

| Sold to | Date | Item | Proceeds |
|---|---|---|---|
| Mica Purchase Depot | 12-18-57 | 125.46 lbs. sheet | $1,426.89 |
| Franklin Mineral Products Co. | 2-1-58 | 1,870 lbs. scrap | 29.92 |
| | | Total | $1,456.81 |
| | | Royalty - 5% | $ 72.84 |

Mr. Hubble promised to remit the royalty due within 10 days and to pay the royalty on future sales promptly when such sales are consummated.

## IV. CONCLUSIONS

A summary analysis of the production and sales of mica from Allman Cove Mine during the period July 2, 1953, to February 14, 1958, follows:

| Mica | Pounds | Proceeds | Royalty Due | Royalty Paid | Royalty Unpaid |
|---|---|---|---|---|---|
| **Roy Herbert Fowler** | | | | | |
| Sheet | 2,996.39 | $54,190.73 | | | |
| Punch | 15,779.00 | 1,679.94 | | | |
| Scrap | 23,268.00 | 355.43 | | | |
| Totals | 42,043.39 | $56,226.10 | $2,811.29 | $2,811.29 | $-0- |
| **Chain Mica Company** | | | | | |
| Sheet | 311.06 | $ 4,983.11 | | | |
| Punch | 2,127.00 | 212.70 | | | |
| Scrap | 6,095.00 | 95.91 | | | |
| Totals | 8,533.06 | $ 5,291.72 | 264.59 | 245.93 | 18.66 |
| **Mica Mining Corporation** | | | | | |
| Sheet | 169.71 | $ 2,254.76 | | | |
| Scrap | 1,870.00 | 29.92 | | | |
| Totals | 2,039.71 | $ 2,284.68 | 114.23 | 41.39 | 72.84 |

Paid 3/10/58

| Mine | Pounds | Proceeds | Royalty Due | Royalty Paid | Royalty Unpaid |
|---|---|---|---|---|---|
| | SUMMARY | | | | |
| Sheet | 3,477.36 | $61,428.60 | | | |
| Punch | 17,906.00 | 1,892.64 | | | |
| Scrap | 11,233.00 | 481.26 | | | |
| Totals | 32,616.36 | $63,802.50 | $3,190.11 | $3,098.61 | $91.50 |

The audit has confirmed the accuracy and propriety of the royalty payments received by the regional Finance Officer. It has also determined that all indicated sales of mica during the period covered by the audit, except as indicated above, have been properly accounted for.

C. E. Fisher, Auditor

February 24, 1958

Allman Cove Mine

## Check Sheet of Examining Engineer

Operator's Name Roy Herbert Fouts

REPORT OF ROYALTY REVIEW

I have reviewed all copies of settlement sheets on file with the Executive Officer, DMEA Field Team, Region V, applicable to royalties collected on the sales of mica for the period February 17, 1954, to March 9, 1955, by:

Roy Herbert Fouts
Franklin, North Carolina

produced from property referred to as the Almon Cove Mine located in Macon County, North Carolina, under terms of Contract Idm-E561, Docket No. DMEA-2917.

My review included a conference with Mr. William A. Beck, Mining Engineer, U. S. Bureau of Mines, Knoxville, Tennessee, who is thoroughly familiar with the project.

This review was made in lieu of an on-site audit of the Operator's accounts and records for the following reasons:

(1) This account was previously audited by Mr. B. J. Brekhus as indicated by his audit report dated July 26, 1954.

(2) A check of records of General Services Administration Mica Purchase Depot, Spruce Pine, North Carolina, indicated that all sales to that depot of mica produced from this mine are being promptly reported and Government royalties are being paid currently.

(3) The administrative cost to the Government of an on-site royalty audit at this time would be excessive in relation to the amount of possible additional royalty which might be disclosed.

The audit established the total sales of mica for this period to be $34,295.00. Royalty due the U. S. Government at the contract rate of 5 percent is $1,714.72. The royalty paid and balance due are as follows:

| | |
|---|---|
| Total Royalties Due | $1,714.72 |
| Total Royalties Paid | 1,714.72 |
| Balance of Royalties Due | $ -0- |

C. E. Fisher

C. E. Fisher, Auditor

CONTRACT ADMINISTRATION AND AUDIT DIVISION

ROYALTY AUDIT CERTIFICATE

I have examined the records and sales documents pertaining to the sale of mica for the period February 17 to June 30, 1954, by:

Roy Herbert Fonts

Franklin, North Carolina

produced from the Almon Cove Mine in Macon County, North Carolina, under terms of Contract Idm-E561, Docket No. DMEA-2917.

My examination was made in accordance with generally accepted standards applicable in the circumstances.

The audit established the total sales of mica for this period to be $9,995.38. Royalty due the U. S. Government at the contract rate is $499.77. The royalty paid and balance due are as follows:

| | |
|---|---|
| Total Royalties Due | $499.77 |
| Total Royalties Paid | -0- |
| Balance of Royalties Due | $499.77 |

B. J. BREKHUS
Auditor

July 26, 1954

# ROYALTY AUDIT REPORT

## I INTRODUCTION

On July 12, 1954 an audit was made of the sales and royalty accounts and records of:

Roy Herbert Fouts

Franklin, North Carolina

pertaining to the sale of mica during the period February 17, to June 30, 1954, from the Almon Cove Mine located approximately one and one-fourth miles north of Franklin, Macon County, North Carolina in accordance with Contract Idm-E561, Docket No. DMEA-2917.

The sales records are in the possession of Mr. Fouts at office in his mica processing plant adjoining his home in Franklin, North Carolina. The records were kept properly, except there were not duplicate copies on hand covering all sales of mica. Mr. Fouts agreed to obtain duplicates, or prepare certified copies of all sales transactions, and forward a copy to the Government along with his check for royalty due to date.

Mr. William A. Beck, Engineer, Bureau of Mines, Knoxville, Tennessee, representing the DMEA Field Team, collaborated in making this examination.

## II GENERAL INFORMATION

The exploration project contract was entered into on July 2, 1953. Actual exploration work started on July 20, 1953 and was completed on February 26, 1954. A Certificate of Discovery was issued by DMEA on May 11, 1954. The total accepted cost of the exploration project is $7,252.00. The approved Government participation in the cost of exploration is $6,526.80. A lien against the property for 10 years after date of contract is held by the Government as a guarantee of repayment of the amount of money advanced to the Company. The amount of the Government lien is repayable at a rate of 5 percent on all sales of mica produced in the area covered by the contract.

The Operator, while maintaining production records of individual employees, to determine efficiency and approximate day to day production, did not maintain processing records sufficient to enable the auditor to test reported sales. Mica as it comes from the mine requires considerable handling and hand processing by splitting, cutting and grading. Only the best grades are sold to the Government as strategic mica. The poorer grades are sold as punch and washer mica, and the lowest grades are sold by the ton as scrap mica.

## III SCOPE OF AUDIT AND FINDINGS

The audit consisted of a review of the sales of strategic mica, made, by examination of the sales documents, and comparing them with the lists previously prepared from the records of the General Services Administration Mica Depot in Spruce Pine, North Carolina. Miscellaneous non-strategic mica sales were scheduled from copies of sales invoices or other memoranda shown on Operator's books. Royalties payable were determined and agreed with the Operator's calculation and the signed check which he had prepared for submission to DMEA.

The sales of mica, as summarized were found to consist of the following:

| | |
|---|---|
| Strategic Mica sold to GSA | $9,545.21 |
| Punch and Scrap | 450.17 |
| Total Sales | $9,995.38 |
| Total Royalty Due (@ 5%) | $ 499.77 |

## IV CONCLUSION

The Operator had prepared a check as payment for royalty due. He did not have all the copies of sales transactions in mica. He promised to obtain copies of the transactions and forward along with his check to DMEA at an early date.

CERTIFICATION BY THE UNITED STATES OF AMERICA
OF A DISCOVERY OR DEVELOPMENT UNDER
AN EXPLORATION PROJECT CONTRACT

To: Mr. Roy Herbert Foote

Franklin, North Carolina

Pursuant to the provisions of Exploration Project Contract No. Idm-2561, dated July 2, 1953 (Docket No. DMEA-2917), hereinafter called the "contract" between you and the United States of America, hereinafter called the "Government"; to establish and fix the Government's percentage royalty on production and its lien thereon and on the land described in the contract, the Government considers and therefore certifies that discovery or development from which production may be made has resulted from the exploration work.

The nature of said discovery or development is described broadly or indicated as follows:

A conformable arc-shaped pegmatite was explored to and on the 100 foot level and indicated reserves of mica may be calculated.

REPORT OF REVIEW

I have reviewed the Monthly Reports of:

Ray Herbert Fouts

Franklin, North Carolina

pertaining to Exploration Project Contract No. Idm-E561, Docket No. DMEA-2917, including Amendment Nos. 1 and 2, for the months of July, 1953 to February, 1954, inclusive, covering a project for the exploration of mica on property, known as the Allman Cove Mica Mines, located in Macon County, North Carolina.

My review included an examination of the Monthly Reports (Forms MF-104) and supporting documents attached thereto, comparison of the costs claimed with the contract and pertinent schedules, verification of work performed by reference to Final Report of the Field Team, and a determination of the reasonableness and propriety of the costs.

This review was made in lieu of a final audit of the Operator's accounts and records for the following reason:

all of the costs incurred were under a contract provision for payment by the Government on the basis of agreed estimated costs of units of work actually performed.

The review disclosed the following facts in regard to the amount paid or to be paid the contractor:

| | | |
|---|---|---|
| Total cost as billed by Contractor | | $7,252.00 |
| Exceptions: | | |
| By DMEA Finance Officer | $ -0- | |
| Herewith | -0- | -0- |
| Total Accepted Cost | | $7,252.00 |

The contract calls for a 90 percent participation of exploration expenses by the United States Government. Therefore, payment to the contractor by the Government in the amount of Six thousand five hundred twenty-six and 80/100 Dollars,

**$6,526.80**

is considered valid and proper, provided that the Regional Executive Officer, the Administrator, or other competent official has accepted or will accept the project as having otherwise met the terms of the contract.

EXPLORATION PROJECT CONTRACT
Docket No. DMEA-2917

AMENDMENT NO. 2

It is agreed this 16th day of March 1954, between the United States of America, acting through the Department of the Interior, Defense Minerals Exploration Administration, and Roy Herbert Fouts, Franklin, North Carolina, each acting in consideration of the other to the terms hereinafter set forth, that Exploration Project Contract Idm-L 561, Docket No. DMEA-2917 dated 2nd day of July 1953, be modified and amended as of the date of the contract as follows:

In Exhibit "A"

(a) Under Description of the Work, delete item 3 and substitute the following:
"From about the 95 foot point in the shaft drive not more than 100 feet of crosscut and/or drift. Drifts will be 6' x 6' in cross section."

(b) Under "Agreed Unit Costs" add the words "and/or cross-cutting" after the word "drifting" in the last item.

This amendment shall not be construed to increase the estimated total cost of the project, the aggregate total amount which the Government may be required to pay, nor the amount of any item designated as 'allowable maximum.'

DEFENSE MINERALS EXPLORATION ADMINISTRATION

AMENDMENT NO. 1

Contract Docket No. DMEA-2917, Idm-E 561 (mica), dated 2nd day of July 1953, between the United States of America, acting through the Department of the Interior, Defense Minerals Exploration Administration and Roy Herbert Fouts, of Franklin , North Carolina is hereby amended as follows:

1. Article 3 is amended to read...;" and shall bring the project to completion with a period of ten (10) months from the date of the contract....." instead of eight (8) months as written in the original contract.

This amendment shall not be construed to increase the estimated total cost of the project, the aggregate total amount which the Government may be obligated to pay, or the percentage of the cost which the Government may be obligated to pay, under the provisions of Article 4 of the contract form.

## DEFENSE MINERALS EXPLORATION ADMINISTRATION

# EXPLORATION PROJECT CONTRACT[1]
(Short Form)

IT IS AGREED this 2nd day of July, 1953, between the United States of America, acting through the Department of the Interior, Defense Minerals Exploration Administration, hereinafter called the "Government," and[2] Roy Herbert Foute
Franklin, North Carolina

hereinafter called the "Operator," as follows: and as set forth in Annexes I and II attached hereto and made a part hereof:

ARTICLE 1. *Authority for contract.*—This agreement is entered into under the authority of the Defense Production Act of 1950, as amended, pursuant to DMEA Order 1 entitled "Government Aid in Defense Exploration Projects."

ARTICLE 2. *Operator's property rights.*—With respect to that certain land situated in the State of North Carolina, County of Macon, described as ~~follows~~ set forth in Annex II,

the Operator represents and undertakes:[4]

~~(a) That the Operator is the owner, in possession and entitled to possession, and that the property is subject only to the following claims, liens, or encumbrances as to each of which the subordination agreement of the holder is attached:~~

(b) That the Operator is a lessee, in possession and entitled to possession, and the Owner's Consent to Lien is attached.

The Operator shall devote the land and all existing improvements, facilities, buildings, installations, and appurtenances to the purposes of the exploration project without any allowance for the use, rental value, depreciation, depletion, or other cost of acquiring, owning, or holding possession thereof.

ARTICLE 3. *Exploration project.*—The Operator, within 60 days from the date of this contract shall commence work on a project of exploration for[5] Mica

in or upon the described land; and shall bring the project to completion within a period of eight (8) months from the date of this contract. The work to be performed is more fully described in Exhibit "A" attached hereto, which, with any maps or drawings thereto attached, are made a part of this contract. The Government will contribute to the cost of this work as hereafter provided. The work shall be performed by the Operator or by independent contractor or contractors efficiently, expertly, in a workmanlike manner, in accordance with good mining standards and State regulations for health and safety and for workmen's compensation and employers' liability insurance, with suitable and adequate equipment, materials, and labor, to bring the project to completion within the time fixed. The Government shall have the right to enter and observe and inspect the work at all reasonable times, and the Operator shall provide the Government with all available means for doing so. The Government may consult with and advise the Operator on all phases of the work.

ARTICLE 4. *Costs of the project.*—The agreed, estimated costs of performing the work, expressed in terms of units of work to be performed (per foot of drifting, per foot of drilling, per cubic yard of material to be moved, etc.) are set forth in Exhibit "A," attached hereto. The Government will pay 90 percent of these agreed, estimated costs, as they accrue, for units of work actually performed that conform with the description or specifications for the work set forth in this contract, in an aggregate total amount not in excess of $6,786.00, which is 90 percent of $7,540.00 the agreed, estimated total cost of the project in which the Government will participate: *Provided,* That until the Operator's final report and final accounting have been rendered to the Government and any final check or auditing required by the Government has been made, and a final settlement of the contract has been made, the Government may withhold from the last voucher or vouchers such sums as it sees fit not in excess of ten (10) percent of the maximum total which the Government might have been called upon to pay under the terms of the contract. The Government may, as it sees fit, make payments direct to the Operator's independent contractors, if any, for the account of the Operator, rather than to the Operator.

ARTICLE 5. *Reports, accounts, audits.*—(*a*) *Progress reports.* The Operator shall provide the Government with monthly reports of units of work performed under the contract, in quintuplicate (five copies), upon forms provided by the Government. These progress reports shall be certified by the Operator, and shall constitute both the Operator's invoice of units of work performed on the project during the period covered by the report and his voucher for repayment by the Government, unless the Government requires the use of a standard voucher form with invoice attached. Progress reports shall include surface and/or underground engineering-geological maps or sketches showing the progress of the exploration, with assay-reports on samples taken concurrently with the advance in mineralized ground.

[1] If sufficient space is not provided in any blank, use an extra sheet of paper and refer to it in the blank.
[2] State name, address, and nature of organization if any.
[3] Give legal description or enough to identify the property, particularly excluding any land or interest therein to which the Government's lien is not to attach or the production from which is not to be subject to the Government's percentage royalty.
[4] Strike out the provision not applicable.
[5] Name of mineral or minerals.

(*b*) *Final report.*—Upon completion of the exploration work or termination of the contract the Operator shall provide the Government with an adequate geological and engineering report, in quintuplicate (five copies), including an estimate of ore reserves resulting from the exploration work.

(*c*) *Compliance with requirements.*—If, in the opinion of the Government, any of the Operator's reports are insufficient or incomplete, the Government may procure the making or completion of such reports and attachments as an expense of the exploration work; and the Government may withhold approval and payment of any vouchers depending upon insufficient or incomplete reports.

(*d*) *Accounts and audits.*—The Operator shall keep suitable records and accounts of the units of work performed, which the Government may inspect and audit at any time. The Government may at any time require a check of the work performed and an audit of the Operator's records and accounts, by a certified public accountant or otherwise, the cost thereof to be treated as a cost of the project. The Operator shall keep and preserve said records and accounts for at least 3 years after the completion of the project or the termination of this contract. Upon the completion of the project or termination of the contract the Operator shall render a final account and statement of work performed to accompany his final report.

ARTICLE 6. *Repayment by Operator.*—(*a*) If, at any time, the Government considers that a discovery or a development from which production may be made has resulted from the exploration work, the Government, at any time not later than 6 months after the Operator has rendered the required final report and final account, may so certify in writing to the Operator. The certification shall describe broadly or indicate the nature of the discovery or development. In the event of such certification, any minerals mined or produced from the land described in Article 2 within 10 years from the date of this contract, including any mined or produced before the certification, shall be subject to a percentage royalty which the Operator or his successor in interest shall pay to the Government, upon the net smelter returns, the net concentrator returns, or other net amounts realized from the sale or other disposition of any such production, in whatever form disposed of, including ore, concentrates, or metal, until the total amount contributed by the Government, without interest, is fully repaid, or said 10 years have elapsed, whichever occurs first, as follows: **See Annex I, substituted for that part of 6(a) preceding the colon:**

(1) One and one-half (1½) percent of any such net amounts not in excess of eight dollars ($8.00) per ton.

(2) One and one-half (1½) percent of any such net amounts, plus one-half (½) percent of such net amounts for each additional full fifty cents ($0.50) by which such net amounts exceed eight dollars ($8.00) per ton, but not in excess of five (5) percent of such net amounts.

(For instance: The percentage royalty on a net amount of five dollars ($5.00) per ton, would be one and one-half (1½) percent; on a net amount of ten dollars ($10.00) per ton, three and one-half (3½) percent.)

(*b*) As here used, "net smelter returns," "net concentrator returns," and "other net amounts realized from the sale or other disposition," mean gross revenue from sales, or if not sold, the market value of the material after it is mined in the form in which and the place where it is held. In the case of integrated operations in which the material is not disposed of as such, these terms mean what is or would be the gross income from mining operations for percentage depletion purposes in income-tax determination.

(*c*) To secure the payment of its percentage royalty, the Government shall have and is hereby granted a lien upon the land described in Article 2 and upon any production of minerals therefrom, until the royalty claim is extinguished by lapse of time or is fully paid.

(*d*) This article is not to be construed as imposing any obligation on the Operator or the Operator's successor in interest to engage in any mining or production operations.

ARTICLE 7. *Assignment, transfer, or loss of Operator's interest.*—Without the written consent of the Government, the Operator shall not assign or otherwise transfer or hypothecate this contract or any rights thereunder. The Operator shall not make any voluntary nor permit any involuntary transfer or conveyance of the Operator's rights in the land described in Article 2, without making suitable provision for the preservation of the Government's right to a percentage royalty on production and lien for the payment thereof; *Provided,* that mere failure by the Operator to maintain the Operator's rights in the land, without any consideration running to the Operator other than relief from the cost of maintaining such rights (as by surrender of a leasehold, failure to perform assessment work, or failure to exercise an option), coupled with complete abandonment by the Operator of all interest in or operations on the land for a period of 10 years from the date of this contract, shall not constitute such a transfer or conveyance. Should the Operator make or permit any transfer or conveyance in violation of this provision, the Operator shall be and remain liable for payment to the Government of the same amounts, at the same times, as would have been paid under the terms of the percentage royalty on production. If for any reason the net smelter returns, net concentrator returns, or other net amounts realized from the sale or other disposition of such production are not available as a means of measuring the amount of the Operator's liability, the amount thereof shall be estimated as well as may be, and in the event of dispute as to such estimates, the determination thereof by the Administrator of Defense Minerals Exploration Administration or by his successor shall be final and binding upon the Operator.

ARTICLE 8. *Termination and completion.*—The Government may, at any time, by written notice to the Operator, terminate this contract: (*a*) If the Operator fails to provide his share of the money necessary to prosecute operations pursuant to the terms of the contract; (*b*) if the Operator, in the opinion of the Government, fails to prosecute operations pursuant to the terms of the contract; or (*c*) if, in the opinion of the Government, operations up to the time of the notice have not indicated the probability of making any worth while discovery and in the opinion of the Government further operations are not justified.

ARTICLE 9. *Changes and added provisions* _____

Executed in sextuplicate the day and year first above written.

EXPLORATION PROJECT CONTRACT
ROY HERBERT FOUTS
DOCKET NO. DMEA-2917

DEPARTMENT OF THE INTERIOR
Defense Minerals Administration
FILED
JUL 2 3 1953

ANNEX I

The following provisions are in lieu of all of paragraph (a) of Article 6 which precedes the colon:

If at any time the Government considers that a discovery or development from which production may be made has resulted from the exploration work, the Government, at any time not later than six months after the Operator has rendered the final report and final account required by the exploration project contract, may so certify in writing to the Operator. Such certification shall describe broadly or indicate the nature of the discovery or development. The Operator, or his successor in interest, shall pay to the Government a royalty on all minerals mined or produced from the land which is the subject of the exploration project contract, as follows: (1) Regardless of any certification of discovery or development, from the date of the contract until the lapse of the time within which the Government may make such certification of discovery or development, or until the total net amount contributed by the Government, without interest, is fully repaid, whichever occurs first, unless the Government waives its right to a royalty; or (2) if the Government makes a certification of discovery or development, for a period of ten years (or other period fixed by the contract) from the date of the contract, or until the total net amount contributed by the Government, without interest, is fully repaid, whichever occurs first. Said royalty shall be a percentage of the net smelter returns, the net concentrator returns, or other net amounts realized from the sale or other disposition of any such production, in whatever form disposed of, including ore, concentrates, or metal, as follows:

EXPLORATION PROJECT CONTRACT
ROY HERBERT FOUTS
DOCKET NO. DMEA-2917

ANNEX II

The land referred to in Article 2 of the contract form is part of the land described in a deed from the Bank of Franklin to M. D. Billings, dated August 28, 1935, and recorded in the office of the Register of Deeds for Macon County, North Carolina, in Deed Book Y-4 at page 248, and lies north of the Allman Cove Branch indicated on the plat attached hereto, made a part hereof, and entitled "Allman Cove Mica Tract."

EXPLORATION PROJECT CONTRACT
ROY HERBERT FOUTS
DOCKET NO. DMEA-2917

EXHIBIT "A"

Description of the Work

The west end of the Allman Cove pegmatite will be explored by the work described below and indicated on the attached map entitled "Allman Cove Mica Mines, DMEA-2917."

1. Enlarge the existing 48-foot shaft, which is 4 feet by 4 feet in cross section, to 5 feet by 7 feet in cross section, and timber as necessary. The shaft is to be divided into two compartments by a partition, and approved ladders are to be installed in the manway compartment.

2. Deepen the shaft on the pegmatite not more than 52 feet, in cross section 5 feet by 7 feet.

3. Drift not more than 40 feet to the southeast and 60 feet to the northwest from the 95-foot point in the shaft. Drifts will be 6 feet by 6 feet in cross section.

The location, direction, and extent of all work shall have prior approval of the Government.

Agreed Unit Costs

| | | |
|---|---|---|
| Enlarging shaft (including cost of partition, ladders, and necessary timbering) 48 feet @ $30.00/ft. | $1,440.00 | |
| Deepening shaft (including cost of partition and ladders) 52 feet @ $42.00/ft. | 2,184.00 | |
| Timbering shaft from 48-foot point to bottom (as necessary) 52 feet @ $8.00/ft. | 416.00 | |
| Drifting 100 feet @ $35.00/ft. | 3,500.00 | |
| Total Agreed Unit Costs | | $7,540.00 |
| Government Participation at 90% | | $6,786.00 |

MF-203

OWNER'S CONSENT TO LIEN

Recorded
JUL 2 3 1953

WHEREAS, the undersigned, as owner, co-owner, lessor, or seller has an interest in certain property in the State of North Carolina, County of Macon, described as follows:1/ All that part of the land described in a deed from the Bank of Franklin to M.D. Billings, dated August 28, 1935, and recorded in the office of Register of Deeds for Macon County, North Carolina, in Deed Book Y-4 at page 248, that lies on the North of the Allman Cove Branch,

which is the subject of a proposed exploration project contract, hereinafter called the "contract", between the United States of America, hereinafter called the "Government", and

2/ Roy Herbert Fouts

hereinafter called the "Operator"; and

WHEREAS, under certain provisions of said contract which are set forth on the reverse side hereof, the Government is entitled to a percentage royalty on production and to certain other rights and equities which do or may conflict with or be adverse to the interest of the undersigned in said property;

NOW THEREFORE, the undersigned, in consideration of said contract and as an inducement to the Government to enter into same, undertakes and agrees as follows:

1. The Government's equity in and right to dismantle, sever, take possession of, and remove and dispose of facilities, buildings, fixtures, equipment, or other items as provided in the contract, or any amendment thereof, shall prevail over and be prior and superior to any conflicting or adverse rights of the undersigned, and the Government is authorized to enter upon the land for such purposes.

2. To secure the payment to the Government of the percentage royalty on production3/ provided for under the terms of said exploration project contract, or any amendment thereof which does not increase the maximum amount of the Government's claim here stated or alter the provisions for repayment, there is hereby granted to the Government a lien upon the land herein described and upon any production of minerals therefrom, until the royalty claim is fully paid in the amount of the Government's contribution, not in excess of 4/$ 6,786.00, or ten years have elapsed from the date of the contract.

3. The undersigned shall commit no act nor assert any claim that may contravene or conflict with the lien, claim, or rights of the Government under the provisions of said contract. This agreement shall be binding upon the heirs, executors, administrators, successors, and assigns of the undersigned.

Dated this 21st day of February, 1953.

Eliza Cobb Grist [Seal]

Paul L. Grist [Seal]

[Seal]

1/ Either (a) insert the legal description of the land, or (b) strike out the words "as follows" and insert "in a lease [or contract, deed, or other document] dated _____, and recorded in book _____ page _____ official records of said county." If (b) is used, the book and page of recordation cannot be dispensed with. If the space provided is insufficient, use an Annex, and refer to the Annex in the space.

Insert the name of the Operator as it will appear in the exploration project contract.

ing or production from the land is not required, and in the absence of production there is obligation to repay the Government.

sert the maximum amount of the Government's contribution.

RELEVANT CONTRACT PROVISIONS

Repayment by Operator. (a) If, at any time, the Government considers that a discovery or a development from which production may be made has resulted from the exploration work, the Government, at any time not later than six months after the Operator has rendered the required final report and final account, may so certify in writing to the Operator. The certification shall describe broadly or indicate the nature of the discovery or development. In the event of such certification, any minerals mined or produced from the land described in Article 2 within 10 years from the date of this contract, including any mined or produced before the certification, shall be subject to a percentage royalty which the Operator or his successor in interest shall pay to the Government, upon the net smelter returns, the net concentrator returns, or other net amounts realized from the sale or other disposition of any such production, in whatever form disposed of, including ore, concentrates, or metal, until the total amount contributed by the Government, without interest, is fully repaid, or said 10 years have elapsed, whichever occurs first, as follows:

(1) One and one-half (1½) per cent of any such net amounts not in excess of eight dollars ($8.00) per ton.

(2) One and one-half (1½) per cent of any such net amounts, plus one-half (½) per cent such net amounts for each additional full fifty cents ($0.50) by which such net amounts exceed eight dollars ($8.00) per ton, but not in excess of five (5) per cent of such net amounts.

(For instance: the percentage royalty on a net amount of five dollars ($5.00) per ton, would be one and one-half (1½) per cent; on a net amount of ten dollars ($10.00) per ton, three and one-half (3½) per cent.)

(b) As here used, "net smelter returns", "net concentrator returns", and "other net amounts realized from the sale or other disposition", mean gross revenue from sales; or if not sold, the market value, the market value of the material after it is mined in the form in which and the place where it is held. In the case of integrated operations in which the material is not disposed of as such, these terms mean what is or would be gross income from mining operations for percentage depletion purposes in income tax determination.

(c) To secure the payment of its percentage royalty, the Government shall have and is hereby granted a lien upon the land described in Article 2 and upon any production of minerals therefrom, until the royalty claim is extinguished by lapse of time or is fully paid.

(d) This article is not to be construed as imposing any obligation on the Operator or the Operator's successor in interest to engage in any mining or production operations.

Title to and disposition of property. All facilities, buildings, fixtures, equipment, or other items costing more than $50.00 each, paid for or purchased with funds contributed jointly by the Operator and the Government, although title may be taken in the name of the Operator, shall belong to the Operator and the Government jointly, in proportion to their respective contributions, and upon the completion of the work or the termination of the contract shall be disposed of promptly by the Operator for the joint account of the Government and the Operator, either by return to the vendor, by sale to others, or purchase by the Operator at a price at least as high as could otherwise be obtained, as may appear to be for the best interest of the Government, unless the Government, in writing, waives its interest in any such item. If necessary to accomplish such disposition, the Operator shall dismantle, sever from the land, and remove any such item, the cost thereof to be for the joint account of the parties in proportion to their respective interests. If the Operator, within 90 days after the receipt of written notice from the Government, fails, neglects, or refuses to dispose of such property, the Government may itself enter upon the land, take possession of, and remove and dispose of any such property as above provided.

# APPLICATION FOR AID IN AN EXPLORATION PROJECT, PURSUANT TO DMEA ORDER 1, UNDER THE DEFENSE PRODUCTION ACT OF 1950, AS AMENDED

*Not to be filled in by applicant*

Docket No. dmea 21917
Metal or Mineral
Date Received 3-4-53
Estimated Cost
Participation (Government %)

## INSTRUCTIONS

1. *Name of applicant.*—(*a*) State here your full legal name, in the form in which you will wish to contract, and your mailing address: Roy Herbert Fouts, General Delivery, Franklin, N.C.

(*b*) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

(*c*) If a corporation, add to above statement, titles, names and addresses of officers.

(*d*) If a partnership, add to the above statement the names and addresses of all partners.

2. *General.*—Read DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. *Applicant's property rights.*—(*a*) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract All that part of the land described in a deed from the Bank of Franklin to M.D. Billings, dated August 28, 1935, and recorded in the office of Register of Deeds for Macon County, North Carolina, in Deed Book Y-4 at page 248, that lies on the North of the Allman Cove Branch.

(*b*) State any mine name by which the property is known. Allman Cove Mine

(*c*) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise Lessee (Six copies of owners consent to lien attached)

(*d*) If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property.

(*e*) If you own the land, describe any liens or encumbrances on it

(*f*) If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice.

4. *Physical description.*—(*a*) Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes. See Exhibit "A"

(*b*) State past and current production, and ore reserves, if any, giving quantities and grades.

(*c*) Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc.), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you. Map attached

(*d*) State the facts with respect to the accessibility of the project: Access roads, distances to shipping, supply and residence points. 1¼ mile from Town of Franklin, on gravel road.

(*e*) State the availability of manpower, materials, supplies, equipment, water, and power.

16—66551-1

Manpower fair, materials & supplies good, electricity on property, stream on property, equipment all can be obtained from Spruce Pine, North Carolina or Atlanta, Georgia.

5. *The exploration project.*—(*a*) [redacted] the mineral or minerals for which you wis[redacted] explore Mica

(*b*) Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed) of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, etc.

(*c*) The work will start within 30 days and be completed within Six months from the date of an exploration project contract.

(*d*) State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations.

6. *Estimate of costs.*—Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings to give the estimated total cost of the project:

(*a*) *Independent contracts.*—(Note.—If the applicant does not intend to let any of the work to contractors, write "none" after this item. To the extent that the work is to be contracted, do not repeat the cost of the contract-work in subsequent items.) State the cost of any proposed independent contracts for the performance of all or any part of the work, expressed in terms of units of work (such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved, etc.).

(*b*) *Labor, supervision, consultants.*—Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants.

(*c*) *Operating materials and supplies.*—Furnish an itemized list, including items of equipment costing less than $50 each, and power, water and fuel.

(*d*) *Operating equipment.*—Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value, as the case may be.

(*e*) *Rehabilitation and repairs.*—Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project.

(*f*) *New buildings, improvements, installations.*—Furnish a detailed list showing the cost of any necessary buildings, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project.

(*g*) *Miscellaneous.*—Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes.

(*h*) *Contingencies.*—Give an estimate of any necessary allowances for contingencies not included in the costs stated above.

NOTE.—No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs.

7. (*a*) Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMEA No. 1)?

(*b*) How do you propose to furnish your share of the costs?

☐ Money ☒ Use of equipment owned by you ☐ Other

Explain in detail on acompanying paper.

## CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

Dated February 24, 1953

Roy Herbert Foote

**Title 18, U. S. Code (Crimes), Section 1001, makes it a criminal offense to make a willfully false statement or representation to any department or agency of the United States as to any matter within its jurisdiction.**

U. S. GOVERNMENT PRINTING OFFICE 16—66551-1

4. There is one open shaft on the property 45' deep, which has just been completed, with the following equipment: Air-compressor, hoist, pump, jackhammer, and other Msc. equipment. This equipment is still on the property and will be used on the exploration.

5. b. I propose to drive a shaft 5' x 7', one hundred feet deep. This is to be located about 50' west of the 45' shaft in item 4 above. This proposed shaft will be a two-way one. 5' x 5' for the ore to be removed through, and 2' x 5' for a man-way, with ladder reaching the bottom, and a platform every 12'.

   Would like to drive two drifts 5' x 7' from the shaft. One running east, and one running west, both of which will be 50' long.

   c. I am General Manager of Mica Development Corporation, directing all operations in the extraction of Mica at the Chalk Hill Mine by overseeing the individual phases of work; divising effecient methods of assorting, rifting, trimming, and preparing mica for market, and have charge of all personnel.

   Parks Brendle will supervise the operation and has been mining for over 10 years.

6. The cost of this operation will be as follows:

| | | |
|---|---|---|
| Shaft, | $50.00 per foot and 100 feet | $ 5,000.00 |
| Drift, | 35.00 per foot and 100 feet | 3,500.00 |
| | Total------- | $ 8,500.00 |

NORTH CAROLINA
MACON COUNTY

THIS LEASE AGREEMENT, Made and entered into this the 8th day of November, 1952, by and between ELIZA COBB GRIST and husband PAUL GRIST, of Macon County, North Carolina, parties of the first part, and PARKS BRENDLE, FRANK BRENDLE and ROY H. FOUTS, of Macon County, North Carolina, parties of the second part,

WITNESSETH:

That the said parties of the first part in consideration of One Dollar paid to them by parties of the second part, the receipt of which is hereby acknowledged, and subject to the terms and conditions hereinafter set forth, have let and leased and by these presents do hereby let and lease unto said parties of the second part, their heirs and assigns, the mica and all mica mining privileges as hereinafter set forth, upon the following described lands in Macon County, North Carolina:

> All of the Allman Cove Property formerly owned by M. D. Billings and now owned by Eliza Cobb Grist, including all the lands owned by Eliza Cobb Grist and all mineral rights and mining privileges owned by her in parts of said tract heretofore conveyed, except all lands and mineral rights lying on the South side of Allman Cove Branch.

The terms and conditions of this lease are as follows:

1. Parties of the second part shall have the right under the terms hereof to enter upon said property and explore, prospect for, mine, dig, mill, process and remove all mica now in, under or upon the above described lands; to construct such roads or trails, and erect such structures and buildings upon said property as may be necessary or convenient to properly conduct mining operations, and the right to use the water in any stream upon said land for said mining operations.

2. Parties of the second part agree to pay to parties of the first part the following royalty: Twelve and one-half ($12\frac{1}{2}$) per cent of the gross selling price of all mica recovered from said property. Parties of the second part agree to pay to parties of the first part a minimum royalty of Fifteen ($15.00) Dollars each month, the first such payment to be made on or before the 10th day of December, 1952, and a minimum royalty of the sum of Fifteen ($15.00) Dollars to be paid on or before the 10th day of each month thereafter; and should they fail to pay said minimun royalty, the parties of the first part may by giving parties of the second part written notice cancel said lease.

3. Parties of the second part agree to make all royalty payments monthly, on or before the 10th day of each calendar month on all mica sold the preceding month.

4. Parties of the second part agree to keep a correct and itemized record of all sales, which record shall be open for inspection of parties of the first part, and parties of the second part shall furnish to parties of the first part at the time of each monthly payment a copy of each sales report or invoice.

5. The duration of this lease shall be three (3) years from the date hereof, but it is understood and agreed that if mining operations upon said property shall prove profitable, then parties of the second part shall have the right to renew this lease for one (1) year at the end of said time, provided that they shall have operated the mine continuously for the preceding eight (8) months.

6. As a part of this lease, parties of the first part give and grant unto the parties of the second part such necessary right or way, as the parties of the first part own or have power to convey, to build such

trails or roads upon said property as may be necessary for the installation of machinery or the proper operation of the mines.

7. It is mutually agreed by the parties hereto that this lease shall take the place of a lease from parties of the first part to Parks Brendle and Frank Brendle, dated ~~November 7~~ MARCH 18, 1952, and recorded in the office of Register of Deeds for Macon County, North Carolina, in Deed Book C-6, page 22, and that said lease is hereby cancelled.

8. So long as this lease shall be in effect the parties of the second part shall operate the mines in such manner as not to unnecessarily damage the property for further operations, and shall keep the mines properly timbered and either remove all muck as they operate or place it on well timbered lofts.

TO HAVE AND TO HOLD said mica and mining privileges hereinabove set forth according to the terms hereof, unto the said parties of the second part, their heirs and assigns, to their only use and behoof.

IN TESTIMONY WHEREOF, the parties hereto have hereunto set their hands and seals, the day and year first above written.

GSA FORM 1013
SEPTEMBER 1957

UNITED STATES
DEPARTMENT OF THE INTERIOR
DEFENSE MINERALS EXPLORATION ADMINISTRATION
WASHINGTON 25, D. C. 600

Project Summary Report

By: Walter C. Anderson May 10, 1954

1. DMEA Docket No. 2917 - Mica
Contract No. Idm-E561
Allman Cove Mica Mine
Macon County, North Carolina

Operator: Roy Herbert Fouts
Franklin, North Carolina

Operator's property rights:
Lease and option - dated November 8, 1952
Owner's Consent to Lien dated February 21, 1953

2. Contract - dated July 2, 1953

Work authorized:

| | |
|---|---|
| Enlarging existing shaft - 48 feet @ $30.00/ft. | $1,440.00 |
| Deepening shaft - 52 feet @ $42.00/ft. | 2,184.00 |
| Timberging shaft from 48 ft. point - 52 ft. @ $8.00/ft. | 416.00 |
| Drifting 100 feet @ $35.00/ft. | 3,500.00 |
| Total estimated cost | $7,540.00 |
| Government participation @ 90% | $6,786.00 |

Amendments:

No. 1 - 3/1/54. Extends completion date from 8 months to 10 months.

No. 2 - 3/16/54. Wherever it appears in the contract, "drifting" is changed to "Crosscut and/or drift".

Work completed:

| | |
|---|---|
| Enlarging shaft - 48 ft. at $30.00/ft. | $1,440.00 |
| Deepening shaft - 52 ft. @ $42.00/ft. | 2,184.00 |
| Timbering shaft - 16 ft. @ $8.00/ft. | 128.00 |
| Crosscutting and/or drifting 100 ft. @ $35.00/ft. | 3,500.00 |
| Total accepted cost | $7,252.00 |
| Government participation @ 90% | $6,526.80 |

Work started on July 20, 1953, and was completed on February 26, 1954. 155.67 pounds of mica worth $2,773.43 was sold to the Government during project and a considerable amount has not yet been trimmed.

Field Team Final Report received March 26, 1954
Operator's Final Report received May 5, 1954.

3. Audit - Report of Review issued April 26, 1954 (no exceptions).

| | |
|---|---|
| Total accepted cost | $7,252.00 |
| Government participation | $6,526.80 |

4. Certification of Discovery March 1, 1954

| Reserves | Lbs. Book Mica | Lbs Trimmed Strategic Mica |
|---|---|---|
| Indicated (above 95 foot level) | 15,000 | 1,500 |
| Inferred (95-150 foot level) | 60,000 | 6,000 |

5. Comments:

How conducted - Efficiently, economically and progress was good at all times.

Operation - good. Operator conducted a well planned, systematic operation.

Engineering - Shaft was well located and the direction and extent of drifting well planned. Operator's reporting - narrative portions of interim reports were somewhat inadequate. Final report was well done.

Geologic premises - The premise that the mica bearing pegmatite would continue in depth proved right, although it is considerable less thick at the bottom.

Geologic criteria upon which work was based:

1. Pegmatite 20 to 30 ft. thick.
2. Well-defined quartz mass 2 to 3 ft. thick in middle of pegmatite.
3. Flat, hard, clear, dark-rum mica.
4. Produced mica during World War II worth $3,468.54.

Criteria developed during project:

1. Conformable pegmatite 20 feet thick.
2. Large and better than average quality mica books occurring throughout the pegmatite.

Future possibilities: The Operator is now mining on his own and seems likely to have good operation.

Recommendations:

Nonmetallic Minerals Division concurs with the Field Team that certification of discovery should be made.

The Bureau of Mines and Geological Survey also concur.

Report of Inspection of Certified Project *

R. H. Fouts

Allman Cove mine, Macon County, N. C.
DMEA 2917 E561

The Allman Cove mine is being worked by Roy Fouts of Franklin, N. C. Work is being done in a combined stope and shaft that is 210 feet deep. Two mica shoots that plunge nearly vertically have been followed down in the stope for about 100 feet. This shaft is 200 feet east of the DMEA shaft.

Re: DMEA-2917 (Mica)
Roy Herbert Fouts
Allman Cove Mica Mine
Macon County, N. C.
Contract Idm-E561

Dear Sir:

In compliance with my letter to you dated February 16, 1961 I agreed to liquidate my obligation to you by April, 1961 in payments of $550.00 and $558.65 respectively but inasmuch as our sales prohibited us from paying the $550.00 on or before March 1, 1961, I have decided to liquidate the entire balance with monies from another source.

Enclosed is a check in the amount of $1,108.65.
I am

Yours very truly,

Roy H. Fouts

MAR 3 1961

Mr. Roy Herbert Fouts
P. O. Box 314
Franklin, North Carolina

Re: DMEA-2917 (Mica)
Roy Herbert Fouts
Allman Cove Mica Mine
Macon County, North Carolina
Contract Idm-E561

Dear Mr. Fouts:

By letter dated February 9, 1961, I advised you that further collection action in the matter of your indebtedness under the referenced contract would be withheld provided that the balance due was liquidated by payment of $550.00 on or before March 1, 1961, and $558.65 on or before April 1, 1961. By letter dated February 16 you promised to comply with this schedule.

It was hoped that payments would be received as promised, thereby alleviating the need for additional collection action and probable further costs to you. To this date, however, you have failed to make the payment of $550.00 promised for March 1.

This office has been extremely lenient in the matter of enforcing collection of the royalty due on your account, which has been in a delinquent status for almost the entire period since you resumed operations of the mine. I trust, therefore, that you will favor us with a prompt remittance of the entire balance due of $1,108.65 in order that this account may be closed without further action.

If full payment is not received before April 1, 1961, I will have no alternative but to refer the matter to the Comptroller General of the United States.

Sincerely yours,

(signed) FRANK E. JOHNSON

Contract Idm-E557

Dear Mr. Johnson:

Received your letter of February 9, 1961 and will comply with your suggestion to liquidate the balance of $1,108.65 due out of the first referenced contract by payment of $550.00 on or before March 1, 1961 and $558.65 on April 1, 1961.

Replying to your letter of January 5, 1961 regarding operations under the second referenced contract , please contact B-K Associates, Inc., Franklin, N. C., c/o Clyde Drake and he will furnish you with sales information and make payment of royalty as he is handling the bookkeeping. My capacity with this firm is consulting engineer. We have the mine in operation and it is producing worthwhile amounts of sheet mica which is being sold to General Services Administration.

Yours very truly,

Roy H. Fouts

and
DMEA-3000 (Mica)
B. T. R. Mining Company
Terrell Bryson Mine
Macon County, North Carolina
Contract Idm-E557

Dear Mr. Fouts:

Receipt is acknowledged of your February 3 letter enclosing a $500.00 check in partial liquidation and proposing monthly payments for liquidation of the remainder of your indebtedness for delinquent royalty under the first referenced contract.

As was explained in our November 29 and January 9 letters, this office does not have the authority to postpone indefinitely such action as may be necessary to enforce the collection of monies properly due the Government under exploration project contracts. In your case we have been exceptionally lenient. Your account has been in a delinquent status for about one and one-half years.

We will defer, however, further collection actions or legal proceedings, which may result in costs and interest charges to you, provided that we receive by return mail a letter:

(1) Promising to liquidate the balance of $1,108.65 due under the first referenced contract by payment of $550.00 on or before March 1, 1961, and $558.65 on or before April 1, 1961; and
(2) Replying to our January 5 letter regarding operations under the second referenced contract.

Sincerely yours,

EDTalbert/ama

Re: DMEA-2917(Mica)
Roy Herbert Fouts
Allman Cove Mica Mine
Macon County, N. C.
Contract Idm-E561

Dear Sir:

Reference is made to your letter of November 29, 1960 and January 9, 1961 on the above subject and note very carefully what you have to say.

We are enclosing an itemized sales through October 15, November 15, and December 15, 1960. This includes all sales made and monies received on dates indicated.

Enclosed is a check in the amount of $500.00 to be applied against the balance.

We will do out utmost to liquidate the remainder at the rate of $300.00 to $500.00 per month and possibly more if favorable mining conditions continue.

We are

Yours very truly,

Roy H. Fouts

P. O. Box 314
Franklin, N. C.
November, 1960

Mr. & Mrs. Paul Grist
Route # 1
Dillard, Georgia

Dear Mr. & Mrs. Grist:

The following is a statement of mica sold from your Allman Cove Mine for the period ending November 15, 1960:

| | | | | |
|---|---|---|---|---|
| Gen. Serv. Adm. | 10-17-60 | 144.50 lbs. | Initial Pay. | $ 1,676.45 |
| Gen. Serv. Adm. | 10-21-60 | 112.23 lbs. | Final Pay. | 816.85 |
| Gen. Serv. Adm. | 10-24-60 | 135.57 lbs. | Initial Pay. | 1,345.86 |
| Gen. Serv. Adm. | 10-27-60 | 143.81 lbs. | Final Pay. | 1,387.44 |
| Gen. Serv. Adm. | 10-31-60 | 135.19 lbs. | Initial Pay. | 1,452.79 |
| Gen. Serv. Adm. | 11-4-60 | 135.17 lbs. | Final Pay. | 1,075.31 |
| Gen. Serv. Adm. | 11-7-60 | 105.12 lbs. | Initial Pay. | 887.69 |
| Gen. Serv. Adm. | 11-14-60 | 100.30 lbs. | Initial Pay. | 872.25 |
| GEN. "Serv. Adm. | 11-14-60 | 134.87 lbs. | Final Pay. | 1,060.54 |
| Franklin Mineral Products 3,950 lbs. @ $32.00 per ton | | | | 39.50 |
| Total---------- | | | | $10,614.68 |

12½% of $10,614.68 = $1,326.84. A check for this amount is enclosed.

Yours very truly,

Roy H. Fouts

FEB 7 1961

Memorandum

To: Chief, Fiscal Section
Division of Administrative Services
Office of the Secretary

From: E. D. Talbert, Acting Chief (Signed) E. D. Talbert
Contract Administration and Audit Division

Subject: DMEA-2917 (Mica)
Roy Herbert Fouts
Allman Cove Mica Mine
Macon County, North Carolina
Contract Idm-E561

Attached for deposit to the subject DMEA account under symbol 14X4401 as a royalty receipt is Moody Mica Mine's check no. 1745, dated February 3, 1961, drawn in the amount of $500.00 on The Bank of Franklin, Franklin, North Carolina.

This check is in partial payment of Roy Herbert Fouts' indebtedness for delinquent royalty.

Re: DMEA-2917 (Mica)
Roy Herbert Fouts
Allman Cove Mica Mine
Macon County, North Carolina
Contract Idm-8561

Dear Mr. and Mrs. Grist:

Enclosed is a copy of my letter of this date to Roy Herbert Fouts demanding payment within thirty days of delinquent royalty due the Government under provisions of the referenced exploration project contract.

In consideration of the contract and as an inducement to the Government to enter into it, an Owner's Consent to Lien was executed by you on February 21, 1953, to secure payment to the Government of the percentage royalty on production provided for under the terms of the contract. Under a provision of this document you granted to the Government a lien upon the land described therein and upon any production therefrom.

Accordingly, if the enclosed demand for payment of delinquent royalty ($1,168.24, plus royalty on sales subsequent to September 15, 1960) is not satisfied within thirty days, legal proceedings under this lien may be involved in whatever action the Comptroller General of the United States may initiate. Prompt payment will alleviate the need of such proceedings and probable further costs to all parties concerned.

Sincerely yours,

(signed) FRANK E. JOHNSON

Acting Director

JAN 9 1961

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

Mr. Roy H. Fouts
Post Office Box 314
Franklin, North Carolina

Re: DMEA-2917 (Mica)
Roy Herbert Fouts
Allman Cove Mica Mine
Macon County, North Carolina
Contract Idm-E561

Dear Mr. Fouts:

By letter dated November 29, 1960, request was made for your prompt payment of the delinquent royalty due the Government under the referenced contract or a substantial partial payment coupled with the submission of an acceptable plan for the liquidation of the remainder. You also were requested to submit copies of the settlement sheets applicable to your August 22, August 29, September 6, September 12, September 13, and subsequent sales to the Spruce Pine Mica Purchase Depot. Neither a reply nor a remittance has been received.

As was stated in the November 29 letter, this office does not have the authority to postpone indefinitely such action as may be necessary to collect royalties properly due the Government. Accordingly, unless the amount due ($1,168.24, plus royalty on sales subsequent to September 15, 1960) is received within 30 days from the date of this letter, I will have no alternative but to report this indebtedness to the Comptroller General of the United States for such action as may be in the interest of the Government. Subsequent proceedings may result in further costs and inconvenience to you.

Sincerely yours,

(signed) FRANK E. JOHNSON

NOV 29 1960

Mr. Roy H. Fouts
Post Office Box 314
Franklin, North Carolina

Re: DMEA-2917 (Mica)
Roy Herbert Fouts
Allman Cove Mica Mine
Macon County, North Carolina
Contract Idm-3561

Dear Mr. Fouts:

By letter dated September 23, 1960, to the Acting Field Officer, Region IV, you submitted a check in the amount of $945.57 for the Government's percentage royalty on sales to the Spruce Pine Mica Purchase Depot during the period of January 21, 1960, to June 6, 1960. This remittance was applicable to full settlements on Lots Nos. 549, 574, 603, 621, 647, 670, 690, 711, 729, 754, 771, and 786, and initial payments on Lots Nos. 811, 847, 861, and 887.

At the same time you submitted the settlement sheets covering the above listed lots, plus those applicable to Lots Nos. 921, 922, 938, 2, 9, 16, 22, 28, and 31 sold to the Spruce Pine Mica Depot during the period of June 20, 1960, to August 15, 1960. Also submitted were copies of your monthly letters to Mr. and Mrs. Paul Grist reporting all sales of mica during the period of January 15, 1960, through September 15, 1960.

On the basis of these documents, as of September 15 you were indebted to the Government for royalty on sales as follows:

| | | |
|---|---|---|
| (1) | Final payments on Spruce Pine Mica Purchase Depot Lots Nos. 811, 847, 861, and 887 | $ 2,613.24 |
| (2) | Full settlements on Spruce Pine Mica Purchase Depot Lots Nos. 921, 922, 938, 2, 9, 16, 22, 28, and 31 | 15,903.06 |
| (3) | Initial payments on Spruce Pine Mica Purchase Depot sales on August 22, August 29, September 6, September 12, and September 13 | 4,502.38 |

43683

| | |
|---|---|
| (4) Commercial sales of punch, thins, and scrap during the period of January 15, 1960, through August 15, 1960 | $ 346.16 |
| Total | $23,364.84 |
| Royalty @ 5% | $ 1,168.24 |

Your September 28 letter stated that you were not in a position to pay the amount due on these sales but hoped to be in the very near future. As this Office does not have the authority to indefinitely postpone the collection of royalty due the Government, we will appreciate your prompt payment of the amount now due ($1,168.24, plus royalty on sales proceeds subsequent to September 15, 1960), or a substantial partial payment coupled with the submission of an acceptable plan for the orderly liquidation of the remainder.

Also, please submit copies of the settlement sheets covering the August 22, August 29, September 6, September 12, and September 13 sales (item 5 of the penultimate paragraph above), plus all subsequent sales to the Spruce Pine Mica Purchase Depot to the extent required for the percentage royalty thereon to fully repay the Government's contribution. This amount, as shown by our records, is computed as follows:

| | |
|---|---|
| Contribution repayable | $6,526.80 |
| Royalty paid through September 28, 1960 | 4,918.15 |
| Balance repayable | 1,608.65 |
| Additional royalty due on sales proceeds through September 15, 1960 | 1,168.24 |
| Maximum royalty due on sales subsequent to September 15, 1960 | $ 440.41 |

Sincerely yours,

(signed) FRANK E. JOHNSON

Re: DMEA-2917 (Mica)
Roy Herbert Fouts
Allman Cove Mica Mine
Macon County, North Carolina
Contract Idm-E561

Dear Mr. Fouts:

In your letter of September 28, 1960, to Mr. Lawrence G. Houk, Acting Field Officer, Region IV, you stated you were not in a position to pay additional amounts but hoped to be in the near future. We will appreciate receiving your advice as to what arrangement you can make to complete payment of royalty due.

Payment was amount requested by Reg IV

Your attention is called to the settlement sheets and check submitted with your last remittance. The amount paid does not check with the amount due as indicated by these settlements. We assume the amount will balance out when the additional amount due is paid.

Sincerely yours,

Acting Director

Dear Mr. Fouts:

Thank you for your letter of September 28, enclosing both your check of $945.57 for royalties covering mica sales, as indicated by our check at the Mica Purchasing Depot during the week of June 12, 1960, and the copies of settlement sheets to mid-September.

This payment on account meets with our approval, and we trust that you will be in a position to further reduce your obligation for royalty due in the near future.

Sincerely yours,

/s/ Lawrence G. Houk

Dear Mr. Houk:

I'm very sorry that I haven't written you before now, but it is not that I ignored your letter but I was not in a position to send you a payment.

Enclosed is an itemized statement of mica sold from the Allman Cove Mine through September 15, 1960 and a check in the amount of $945.57 due on sales covering your audit during the week of June 12, 1960. There is an additional amount due for punch and scrap for a period of your audit and also the balance through September 15, 1960.

We are not in a postion to pay the additional amounts but hope to be in the very near future.

Hoping that this meets with your approval. Best personal regards, we are

Re: DMEA-2917 (Mica)
Roy Herbert Fouts
Allman Cove Mine
Macon County, North Carolina
Contract Idm-E561

Dear Mr. Fouts:

Reference is made to requests of June 29, 1960, and August 17, 1960, by the Acting Field Officer of Region IV, for payment of royalty due the Government on sales of mica to the Spruce Pine Depot. The efforts of our field representatives to collect this past due royalty have proven unsuccessful and the matter has been referred to this office for appropriate action.

Demand is therefore made for payment of $945.57 due on sales between January 21, 1960, and June 6, 1960, and royalty on final settlements on the last five lots. Please attach the settlement sheets with your check for all sales, including scrap and punch.

If you are not in position to pay this amount within sixty days, a substantial part payment and assurance of regular periodic payments to liquidate the balance will be considered by this office.

Sincerely yours,

(signed) FRANK E. JOHNSON

Re: DMRA-2917 (Mica)
Roy Herbert Fouts
Allman Cove Mine
Macon County, North Carolina
Contract Idm-E561

Dear Mr. Fouts:

Reference is made to my letter of June 29, 1960, requesting payment of the royalty due the Government.

The Spruce Pine Depot records show you owe royalty on receipts of $18,911.39 through June 6, 1960, plus additional royalty on any final settlements you have received. Please send your check for royalty due on these sales, and include any royalty on later mica sales.

If payment is not received within 30 days the matter will be referred to the Washington office for appropriate action for collection.

Sincerely yours,

Lawrence G. Houk

Re: DMEA-2917, Idm-E561-mica
Allman Cove Mine
Macon County, N. C.

Dear Mr. Fouts:

A check on sales of mica was made at the Government Mica Purchasing Depot in Spruce Pine, North Carolina during the week of June 12.

The check shows that 1483.94 pounds of trimmed mica from the Allman Cove mine were sold to the Depot between January 21, 1960 and June 6, 1960. The value of this mica, not including the final settlement on the last five sales amounts to $18,911.39 on which the royalty at 5 percent amounts to $945.57. A check for this amount, plus the royalty on the final settlement of the last five sales of trimmed mica and any punch or scrap should be paid as soon as possible.

Please attach settlement sheet with your check for royalty on all sales.

Very truly yours,

Lawrence G. Houk

Memorandum

To: L. G. Houk, Acting Field Officer, Region IV

From: V. J. Lynch, OME Office Knoxville, Tennessee

Subject: Certified Projects, Spruce Pine and Franklin North Carolina areas.
During reporting period January 1, 1960 to July 1, 1960.

I spent June 13, 14 and 15 in Spruce Pine, North Carolina inspecting the books at the Mica Purchasing Depot.

In the Spruce Pine area there are only two mines producing mica, these are the Abernathy which never had a DMEA contract and the Sink Hole which has completely repaid the Government's participation.

In the Franklin area the Allman Cove Mine, operated by Roy Fouts has been producing consistently during this reporting period. Since January 21, a total of 1483.94 pounds of trimmed mica has been sold to the Depot. This is valued at $18,911.39, not including the final payments on the last five sales. (The Operator has paid $564.10 in royalties this period.) He still owes $945.57.

I had an article in the Tri-County News stating that I would be in Spruce Pine June 12 thru 15th but it did not do much good. I had no callers. The mica mining business is dead for several reasons, the most inportant of which is that the miners think the purchasing program is about over with and they do not want to get into any sort of a deal that they cannot get their money out of in a hurry if they have to. Another reason is that they are not satisfied with the 50% Government Participation; they would prefer at least 75%.

Attached is the list of Dockets which you sent us. It has been checked with our records. Some royalty payments were omitted; these we have added. We have no way of checking projects in Arkansas and Missouri.

Re: Royalty Payments on DMEA-2917,
Idm-E516, Mica.

Dear Mr. Fouts:

The total amount of trimmed mica which you sold to the GSA Mica Purchasing Depot in Spruce Pine, North Carolina from May 5, 1959 through January 12, 1960 is 1041.9 pounds as stated in your letter of February 12. The total value of this mica according to the Depot records is $15,135.44. This differs with your total of $14,911.88 by $223.56. However, you have not included $223.76 for the final settlement of Lot No.524, sold January 12 and on which the final settlement was made January 22, 1960.

A resume of payments to date, and royalties due as of January 12, 1960 are as follows:

| Mica sold | Pounds | Value |
|---|---|---|
| Sheet | 1041.9 | $15,135.44 * |
| Scrap | 9170.0 | 143.56 |
| Punch | 1586.0 | 101.04 |
| | Total..... | $15,380.04 |

Royalty at 5% of $15,380.04 = $769.00
Royalty paid 11/3/59.. $204.90
Royalty paid 2/12/60 200.00
-404.90
Royalty due to date..... $364.10

*This includes final settlement on Lot No.524 made 1/22/60 in the amount of $223.76.

Sincerely yours,

V. J. Lynch. Acting

Dear Mr. Lynch:

Re: DMEA-2917, Idm-E 561 - Mica
Allman Cove Mine
Macon County, N.C.

Received your letter of January 29, 1960 and note what you have to say regarding royalty at 5% which is due you.

According to my records a total of 1,041.9 lbs of trimmed mica from the Allman Cove Mine was sold between May 6, 1959 and January 12, 1960 and a total value of this mica was $ 14,911.88. I also sold 9, 170 lbs of scrap for $ 143.56, and 1586 lbs of Punch for $ 101.04.

I am enclosing to you statement for September, October, November, December, and January. You have the balance of the statements for period. There is not enough difference to worry about, but I will abide by either after you have computed my statements.

Enclosing a check for $ 200.00, and by the time you have computed the royalty for scrap and punch and informed me of the amount you come up with I will forward check for balance.

I am

Yours very truly,

Re: DMEA-2917, Idm-E561-mica.
Allman Cove Mine
Macon County, N.C.

Dear Mr. Fouts:

We have recently completed a check of the mica sales made to the Government Mica Purchasing Depot at Spruce Pine, North Carolina.

The records show that a total of 1047.9 pounds of trimmed mica from the Allman Cove mine was sold between May 6, 1959 and January 12, 1960. The total value of this mica was $15,135.44 and the royalty at 5 percent would be $756.77. However, you had previously paid $204.90 in royalties which leaves a balance due of $551.87. We would appreciate having your check for that amount plus any royalties which may be due from the sales of punch or scrap mica.

Sincerely yours,

V. J. Lynch, Acting Executive
Officer, OME - Region V

Memorandum

To: Certifying Officer, OME - Region V - Norris, Tenn.

From: Executive Officer, OME - Region V

Subject: Royalty Payment : DMEA-2917, Idm-E561(mica)
Roy H. Fouts, Franklin, N.C.
Allman Cove Mine, Macon County, North Carolina

Attached are some initial and some final settlement sheets for mica sold from the subject mine in the amount of $4,097.99, this includes $67.86 for scrap mica listed on Mr. Fouts' letters to the land owners.

A check in the amount of $289.50 for royalty on sales is also attached. Included in this check is $84.60 due in royalty from Mr. L. L. Hubble a former Operator of the mine.

Dear Mr. Laurence: Re: DMEA-2917- Mica
Allman Cove Mine
Macon County, North Carolina
Contract Idm-E 561

In compliance with your letter of October 12, 1959, I am enclosing a check covering $84.60, representing 5% of the value of sales by L.L. Hubble, however; I have nothing to of documentary evidence of this, but the sales I have made invoice are enclosed as indicated in the following amounts.

| | | |
|---|---|---|
| Sales in letter of May 25, 1959---------- | | $ 268.80 |
| " " " " June 22, 1959-;---------- | | 812.18 |
| " " " " July 23, 1959---------- | | 1290.52 |
| " " " " Aug 21, 1959---------- | | 1726.69 |
| | Totals----- | $ 4098.19 |

5% of 4098.19=----------$ 204.90

L.L. Hubble 's 5%---------- 84.60
Check enclosed this total--- $ 289.50

I have made sales each month since, but will forward you a;check in the amount of 5% of these sales at a later date.

I am

Yours very truly,

Roy H. Fouts

GSA FORM 1013 SEPTEMBER 1957

P.O. Box 314,
Franklin, North Carolina
July 23, 1959

Mr. and Mrs Paulnerist
Route # 1,
Millard, Georgia

Dear Mr. and Mrs. Grists

The following is a statement of royalty from your Allman Cove Mine for the past month.

| | | | | |
|---|---|---|---|---|
| General Service Adm. | 5-26-59 | 33.51 | Initial Payment | 265.58 |
| General Service Adm | 6-18-59 | 39.69 | Final Payment | 245.42 |
| General Service Adm | 6-25-59 | 46.05 | Initial Payment | 356.20 |
| General service Adm | 7-6-59 | 42.00 | Initial Payment | 407.32 |
| Franklin Mineral Product Co. | 6-30-59 | Scrap-------- | | 16.00 |

$ 1290.52 Totals

12½% of 1290.52= $ 161.31 of which a check of that amount is enclosed.

As you will note a sale dated 5-26-59 should have been included last month. This was an oversight.

Yours very truly,

ROY H. FOOTS

Mr. Roy H. Fouts
P.O. Box 314
Franklin, North Carolina

Re: DMEA-2917-mica
Allman Cove Mine
Macon County, North Carolina
Contract Idm-E661

Dear Mr. Fouts:

Inspection of our records indicates that a total of $138.65 is due the Government as royalties on mica sales from the Allman Cove mine. Of this amount, $84.60 represents 5% of the value of sales by the Mica Mining Corporation (L. L. Hubble, Mgr.) and the rest, $54.05 is 5% of the value of sales made by you after resuming operation of the mine.

As you are again operating the mine, the "complete abandonment by the Operator of all interest in or operations on the land for a period of 10 years from the date of the contract" has not been accomplished. Therefore, since Mica Mining Corporation was not a party to the exploration contract, I must request payment of royalty on their sales from you. Please send me your check for $138.65, with sales slips or other documentary evidence of the sales made by you.

Sincerely yours,

Robert A. Laurence
Executive Officer, OME

OCT 6 1959

Memorandum

To: Executive Officer, OME Field Team, Region V

From: Chairman, Operating Committee

Subject: Docket No. DMEA-2917 (Mica)
Roy Herbert Fouts
Allman Cove Mine
Macon County, North Carolina
Contract No. Idm-E561

The Semi-Annual Report of Certified Project for the period January 1 to July 1, 1959, states that Roy Herbert Fouts is again operating the Allman Cove mine and has made sales on which Government royalty due amounting to $54.05 will be paid as soon as final settlement sheets are received from the Spruce Pine Mica Depot.

Inasmuch as Mr. Fouts has resumed operation of the property it is clear that "complete abandonment by the Operator of all interest in or operations on the land for a period of 10 years from the date of the contract" has not been accomplished. Thus he is liable for the payment of the Government's royalty on all sales of production to date, including sales on which royalty of $84.60 is reported due from the Mica Mining Corporation. Accordingly, it is suggested that you request payment of this amount from Mr. Fouts.

In the event that collection cannot be made from him, the Government's lien for royalty due may be enforced against Elizabeth Cobb Grist and Paul L. Grist under provisions of the Owner's Consent to Lien executed by them.

George C. Selfridge

SEP 29 1959

Memorandum

To: Acting Director
Office of Minerals Exploration

From: Associate Solicitor
Division of Mineral Resources

Subject: Operators liability for royalties
Docket No. DMEA-2917 (Mica)
Roy Herbert Fouts
Allman Cove Mine
Macon County, North Carolina
Contract No. Idm-E561

Your memorandum of September 24 to the Associate Solicitor, Division of Mineral Resources, enquires as to the liability for royalty of the original lessee-operator under the exploration contract who has resumed possession and operation of the property after a period of operations by others.

You refer to our memorandum dated March 22, 1957, regarding another contract: Idm-E523, DMEA-2841, Foote Mineral Company, which you point out "states that surrender of the leasehold, coupled with abandonment of all interest in the land for a period of ten years from the date of the contract, excuses both the operator and the landlord from the payment of royalty if the contract is on the February 1952 Form MF-200 and the 'abandonment clause' has not been eliminated. It is further stated that, should the operator regain any interest in the land during the ten-year period, liability for royalty would resume."

We find nothing in the facts stated by you regarding the subject Fouts contract nor in the file thereof that indicate that Fouts abandoned his interest in the land. Even if he did initiate an abandonment by leaving the property to others (which does not appear), yet his resumption of possession and operation within the ten-year period would prevent that action from becoming effective as an abandonment within the definition

of that term in the contract.

Your understanding of the matter, as stated in the last paragraph of your memorandum, is entirely correct.

Charles M. Soller
Associate Solicitor

SEP 24 1959

Memorandum

To: Associate Solicitor, Division of Mineral Resources

From: Acting Director, Office of Minerals Exploration

Subject: Docket No. DMEA-2917 (Mica)
Roy Herbert Fouts
Allman Cove Mine
Macon County, North Carolina
Contract No. Idm-E561

The subject contract dated July 2, 1953, was prepared on Form MF-200(A) (February 1952) and contained an "abandonment clause" in Article 7. The land, which was the subject of the contract, was owned by Eliza Cobb Grist and Paul L. Grist, who signed Form MF-203, Owner's Consent to Lien. A certification of discovery or development was issued on May 17, 1954.

Roy Herbert Fouts, the Operator named in the contract, conducted the exploration and operated the mine through 1955 and paid royalty aggregating $2,811.29 on sales during that period. In 1956 and 1957 the mine was operated by Chain Mica Company, from whom royalty amounting to $264.59 was collected. Subsequently the mine was operated by Mica Mining Corporation, from whom royalty in the amount of $41.39 was collected; however, that company made additional sales of mica from the property amounting to $1,692.10, on which Government royalty at 5 percent would amount to $84.60. This latter amount has not been collected.

The Semi-Annual Report of Certified Project for the period January 1, 1959, to July 1, 1959, submitted by V. J. Lynch, mining engineer, OME, Region V, states that Mica Mining Corporation no longer operates in the area and that Roy H. Fouts is the present operator of the mine and will pay all royalty that he owes as soon as final settlement sheets are received from the Spruce Pine Mica Purchase Depot. Mr. Fouts is one of our better operators and we do not anticipate any trouble collecting Government royalty on any sales of production by him.

The Associate Solicitor's memorandum dated March 22, 1957, pertaining to Contract No. Idm-E523, Docket No. DMEA-2841, Foote Mineral Company, states that surrender of the leasehold, coupled with abandonment of all interest in the land for a period of ten years

43683

from the date of the contract, excuses both the operator and the landlord from the payment of royalty if the contract is on the February 1952 Form MF-200 and the "abandonment clause" has not been eliminated. It is further stated that, should the operator regain any interest in the land during the ten-year period, liability for royalty would resume.

Will you please confirm or correct my understanding that as Mr. Fouts resumed operation of the property during the ten year period there was no valid abandonment by him and that he is liable for the royalty on sales of production by Mica Mining Corporation which that company failed to pay? It is also my understanding that the Government has a valid lien on the property for such royalty which may be enforced against the landowners if Mr. Fouts should fail to pay.

Date Examined: Sept. 2, 1959. Mine Name: Allman Cove

County: Macon State: North Carolina Commodity: Mica

DMEA Docket No. 2917. Contract No. Idm-E561. Date of Contract: 7/2/53

Date Certified: May 17, 1954. Expiration of Royalty Pay't: 7/2/63

Total Amt. of Contract: $7,540. Total Expended: $7,252.00

Amount of Gov't Participation at 90%....$6,526.80

Royalty Paid this Period: None. Previously Paid: $3,118.98

Total Royalty Paid to Date: $3,118.90. 98

Percent Gov't Participation Repaid: 47.8%

Royalty Due on Production to Date: $138.65

ROYALTY REMARKS: Royalty payments amounting to $84.60 are due from the Mica Mining Corporation (L. L. Hubble, Mgr.) and $54.05 from Roy Fouts, present Operator of the mine.

It was learned that the Mica Mining Corporation no longer operates in the Franklin, North Carolina area. The officers of the Company left the area owing the Government royalty on production, royalty due the land owner, and some wages owed to the miners.

Mr. Roy Fouts, the present Operator will pay all royalties that he owes as soon as the final settlement sheets are received from the GSA Mica Purchasing Depot in Spruce Pine, N.C.

DMEA EXPLORATION PROJECT

SEMI-ANNUAL REPORT OF CERTIFIED PROJECT

Reporting Period: January 1, 1958 to July 1, 1958.

Examined: June 25, 1958.

Operator: Roy H. Fouts, Franklin, N. C. Last operated by Mica Mining Corp. Box 489, Franklin, North Carolina

Mine Name: Allman Cove. County: Macon. State: North Carolina.

Docket No. DMEA-2917. Contract No. 561. Commodity: Mica

Date of Contract: July 2, 1953. Date Certified: May 17, 1954

Expiration Date of Royalty Payments: July 2, 1963.

Total Amount of Contract: $7,540.00. Total Expended: $7,252.00

Government Participation at 90% ....$6,526.80

Royalty Payments this Period: $20.37 Previously Paid: $3,098.61

Total Royalty Paid to date: $3,118.98

Percent Gov't Participation Repaid...47.9%

Royalty Due on Production to date:: $84.60

Royalty Remarks: No royalty has been paid by the last Operator on any of his production. The following sales are known to have been made by Mica Mining Corp., and there may be others of which no record was available:

| Sold to: | Date | Item | Proceeds |
|---|---|---|---|
| Gov't Mica Depot.. | 12-18-57 | 125.56 lbs sheet | $1,426.89 |
| " " " | 2-21-58 | 15.36 " " | 235.29 |
| Franklin Minerals | 2-1-58 | 1870 " scrap | 29.92 |
| | | Total.... | $1,692.10 |
| | | Royalty - 5% | $84.60 |

Original Estimate of Reserves (from Final Field Team Report)

| | LBS | Trimmed Strategic |
|---|---|---|
| Indicated (above 95 ft level) | 15,000-book | 1,500 lbs. |
| Inferred (95 to 150 ft level) | 60,000 " | 6,000 " |

Production this period and not reported previously:

| Type mica | Pounds | Value |
|---|---|---|
| Sheet | 17.36 | $269.61 |
| Punch | 2,127.00 | 212.70 |
| Scrap | 7,965.00 | 125.83 |
| Total.... | 10,109.36 | $608.14 |

Previous Production:

| | | |
|---|---|---|
| Sheet | 3,477.16 | $61,428.60 |
| Punch | 15,779.00 | 1,679.94 |
| Scrap | 23,268.00 | 355.43 |
| | 42,524.16 | $63,463.97 |

Total DMEA Production to date:

| | | |
|---|---|---|
| Sheet | 3,494.52 | $61,698.21 |
| Punch | 17,906.00 | 1,892.64 |
| Scrap | 31,233.00 | 481.26 |
| Total... | 52,633.52 | $64,072.11 |

Remarks: No work was being done at this mine when visited June 25, 1958. All equipment except a hoist and ventilating fan had been removed from the property. Roy H. Fouts, who operated the mine under the DMEA contratt told the writer the lease is now held by a man named Ayers of Cincinnati, Ohio. The Mica Mining Corporation were forced to shut the mine down by the State Mine Inspector because they would not adhere to the state mining regulations. The shaft being over 100 feet deep did not have a headframe or guides. Mr. Fouts stated he is trying to get the mine back, but to date has been unsuccessful.

In the last semi-annual report it was stated the Mica Mining Corporation was composed of Carl Hubble and others from Baltimore, Md. This was in error as L. L. Hubble, father of Carl Hubble was the Operator.

Contract No. Idm-E561

Dear Mr. Hubble:

On February 17, 1958, I wrote to you, requesting payment of $72.84 which is due the Government as its 5 percent royalty on two sales of mica totalling $1456.81. No reply to that letter has been received.

We cannot postpone indefinitely the collection of royalties due the Government. If payment is not received within 30 days of the date of this letter, it will be referred to our Washington office for appropriate action.

Sincerely yours,

Robert A. Laurence

Contract No. Idm-E561

Dear Mr. Laurence:

This office does not object to having a copy of the royalty audit report and certificate sent to the landowners as suggested in your memorandum dated March 7, 1958.

When a mining property is being operated at the time of a royalty audit and the royalty payments are found to be on a current basis, only the Operator should be furnished a copy of the report. If the Operator is delinquent in the payment of royalty the landowner should be furnished a copy of the report to put him on notice that he may become liable for the royalty in the event collection cannot be made from the Operator. If the property is not in operation at the time of the audit a copy of the report should be furnished to the landowner as information.

Sincerely yours,

Mine Name: Allman Cove. County: Macon. State: North Carolina

DMEA 2917, Contract: Idm-E561. Commodity: Mica

Date of Contract: July 2, 1953. Date Certified: May 17, 1954

Expiration Date of Royalty Payments: July 2, 1963

Total Amount of Contract: $7,540. Total Expenditures: $7,252.00

Amt. Gov't. Participation @ 90%...$6,526.80.

Royalty Paid this Period: $112.70. Previously Paid: $2,985.91

Total Royalty Paid todate: $3,098.61.

Percent Gov't Participation Repaid: 47.48%. Royalty Due: $ 71.34 ✓

Royalty Remarks: One sale was made by the present Operator on Dec. 18, 1957. The total amount received for this sale was $1,426.89. The Government royalty has not been paid on this sale.

Original Estimate of Reserves(Final Report Engr. & Geol.)

| | Lbs Book Mica | Lbs. Trimmed |
|---|---|---|
| Indicated above 95 ft. level | 15,000 | 1,500 |
| Inferred 95 to 100 ft. level | 60,000 | 6,000 |

Production this Period:

| Type | Pounds | Value |
|---|---|---|
| Sheet | 196.57 | $2,678.38 |
| Total | 196.57 | $2,678.38 |

Previous Production:

| | | |
|---|---|---|
| Sheet | 3,280.43 | $58,814.87 |
| Punch | 15,779.00 | 1,679.94 |
| Scrap | 23,268.00 | 355.43 |
| Total.... | 42,327.43 | $60,850.24 |

Total DMEA Production todate:

| Type | Pounds | Value |
|---|---|---|
| Sheet | 3,477.00 | $61,493.25 |
| Punch | 15,779.00 | 1,679.94 |
| Scrap | 23,268.00 | 355.43 |
| | 42,524.00 | $63,528.62 |

Remarks:

This mine was visited January 24, 1958. When visited the mine was being operated by the Mica Mining Company composed of Carl Hubble and several others from Baltimore, Maryland. Five men were working at the mine. Floyd Tallent who was in charge, stated the shaft was at a depth of 140 feet and they had drifted about 12 feet in two directions from the shaft. He said the State Mine Inspector had been there and told Mr. Hubble it was mandatory that a rigid headframe with guides be constructed. Mr. Hubble had made no attempt to conform with this requirement. Mr. Tallent also told the writer that Mr. Hubble said he was going to sink the original DMEA shaft to a greater depth. As this shaft was 100-feet deep it will also require a headframe.

The small amount of mica being recovered is ruled and of poor quality.

2/8/58.

Mr. Ralph M. Henson
Chain Mica Co.
c/o Conley Motor Co., Inc.
P.O. Box 191
Franklin, N. C.

Re: DMEA-2917, Idm-E561-mica
Allman Cove Mica Mine
Macon County, N. C.

Dear Mr. Henson:

Your check No.240, dated December 5, in the amount of $41.39 has been received. We presume this is royalty on a sale of mica made on November 15, 1957 in the amount of $827.80. If this is correct, please mail this office copies of the settlement sheets to cover this check.

We also wish to call your attention to the fact that the Government is entitled to royalty on all production from the mine. Todate we have received no royalty on punch or scrap mica sold by your Company.

Very truly yours,

V. J. Lynch, Acting

Re: DMEA-2917, Idm-E561-mica
Allman Cove Mica Mine
Macon County, N. C.

Dear Mr. Henson:

Your check No.240, dated December 5, in the amount of $41.39 has been received. We presume this is royalty on a sale of mica made on November 15, 1957 in the amount of $827.80. If this is correct, please mail this office copies of the settlement sheets to cover this check.

We also wish to call your attention to the fact that the Government is entitled to royalty on all production from the mine. Todate we have received no royalty on punch or scrap mica sold by your company.

Very truly yours,

V. J. Lynch, Acting
Executive Officer, DMEA

DMEA EXPLORATION PROJECT

Semi-Annual Report of Certified Project

Reporting Period: 1-1-57 to 7-1-57. Date Examined: Aug. 9 & 21, 1957

Operator: Roy H. Fouts, Franklin, N.C. Now leased to Chain Mica Co. Franklin, N.C.

Mine Name: Allman Cove. County: Macon State: North Carolina

Docket No. DMEA-2917, Contract No. Idm-E561. Commodity: Mica

Date of Contract: July 2, 1953. Certified: May 17, 1954

Royalty Expiration Date: July 2, 1963.

Total Amount of Contract: $7,540.00. Total Expendtures: $7,252.00

Government Participation at 90%---$6,526.80

Royalty Payments this Period: $125. Previous Payments: $2,860.91

Total Royalty Paid: $2,985.91. Gov't Participation Repaid: 45.75%

Royalty Due on production todate: $50.13. ✓

Royalty Remarks: Royalty has been paid on all sheet mica sold to the Government with the exception of one sale made June 26 and another on March 26, 1957 by Tom (Red) Sanders which amounted to $129.30. Hoke Meadows told the writer they sold Mr. Sanders a quantity of punch from which he evidently recovered some sheet mica. No royalty has been paid on any scrap or punch mica sold by the Chain Mica Co.

Original Estimate of Reserves (from Final Engr. & Geol. Report)

| | Lbs. Book Mica | Lbs trimmed Strategic |
|---|---|---|
| Indicated above 95 ft level | 15,000 | 1,500 |
| Inferred 95 to 150 ft level | 60,000 | 6,000 |

Production this period:

| Type | Pounds | Value |
|---|---|---|
| Sheet | 136.57 | $2,112.78 |
| Total | 136.57 | $2,112.78 |

| | Sheet | 3,143.86 | $56,702.09 |
| | Punch | 15,779.00 | 1,679.94 |
| | Scrap | 23,268.00 | 355.43 |
| | Total | 42,180.86 | $58,737.46 |

Total DMEA Production todate:

| | | |
|---|---|---|
| Sheet | 3,280.43 | $59,814.87 |
| Punch | 15,779.00 | 1,679.94 |
| Scrap | 23,268.00 | 355.43 |
| Total | 42,327.43 | $60,850.24 |

Remarks:

T he writer called at the subject mine on August 9. There was no one about. However, all equipment necessary for mining was on the premises. While on a return visit, August 21, Hoke Meadows one of the partners in Chain Mica Co., arrived while the writer was there. He had come to check the pumps and said they were unable to get help to mine because they would not pay enough.

Mr. Meadows was given a list of mica sales on which royalty had not been paid. He stated it would be given to his partners, and they would make payment.

| Total | 42,043.39 | $56,226.10 |

Total DMEA Production to Date:

| Type | Pounds | Value |
|---|---|---|
| Sheet | 3,143.86 | $56,702.09 |
| Punch | 15,779.00 | 1,679.94 |
| Scrap | 23,268.00 | 355.43 |
| Total | 42,180.86 | $58,737.46 |

Remarks: This property was visited on March 19, 1957. There was evidence that mining had been conducted here recently. There was no one on the property when visited. Some bulldozing had been done to the east of the DMEA shaft and a new shaft had been sunk. This shaft is located approximately 100 feet east of the original DMEA work. A compressor, hoist, and pump were on the location.

In conversing with a man that lived near the property, it was learned that Hoke Meadows had been operating the mine. It was later learned that he is one of the members of the Chain Mica Company. The other members are Carl Green, Charles Conley, Jr., and Ralph Henson, all of Franklin.

Mr. Charles Conley, Jr., was contacted on March 20th at the Ford Agency in Franklin, where he is associated with his father. He stated that

he was aware of the Government's lien on the property and that a check for the Government's royalty on sales made would be forthcoming in a few days.

Punch-13,541 lbs...$1,471.84; Scrap-17,268 lbs...$265.43; Sheet-2,381.04 lbs.
Total DMEA Production to Date: Punch,15,779 lbs. $45,306.12
$$1679.94; Scrap,23,268 lbs. $355.43; Sheet 2996.35 lbs...$54,190.71
Percent of Revised Reserves Mined 50% (above 95 foot level)

Total Production: 42,043.35 lbs ..$56,226.10.

Production Remarks: Production during this period came from that area west of the shaft explored under DMEA Contract. All drifts were stoped to within 50 feet of the surface or until old works were encountered.

Other Remarks:

(Investments, description of additional exploration or development work, production facilities, and plant installations, etc. since completion of the exploration project work.) The following crosscut and drift work has been completed during this period in an area East of the main shaft: 13 feet N39°E, 15 feet N20°E, 20 feet S29°E, 37 feet S52°E, 22 feet S6°E, 13 feet N83°E, 72 feet N45°E. No additional exploration is reported in that area west of the shaft during this reporting period; previous work to the west consisted of stoping to within 50 feet of the surface or until old works were encountered. The mine is now flooded and no work has been attempted in the past three months. The present lessee does not indicate that he will return to the mines

REPORT OF INSPECTION ON CERTIFIED PROJECT

DMEA-2917, Idm-E 561 (mica)

Roy H. Fouts, Franklin, North Carolina

ALLMAN COVE MINE
Macon County, North Carolina

Accompanied by B. J. Brekhus, Auditor, Contract Administration and Audit Division, the writer contacted Mr. Fouts on July 12, 1954 in regard to royalties due on the subject contract. An audit of their records showed that up to July 1, 1954 sales amounting to $9,545.21 had been made to the Government Buying Depot and $450.17 worth of scrap and punch had been sold. Mr. Fouts promised to send a check for the government royalty on the above sales. The mine is still in operation and is producing a good quantity of excellent grade mica. The sales to the mica depot to July 1, averaged $19.64 per pound which is well above the average being sold.

July 12, 1954.

Dear Mr. Laurence:

This is to certify that the following Mica was sold from the Almond Cove Mine during the month of June 1955.

General Services Administration

186.06 lbs ---------- $2382.95

Milton Buchanan

200 lbs at 12¢ per lb ---------- 24.00

Milton Buchanan

444 lbs @ 11¢ per lb ---------- 48.84

Total ---------- $2455.79

5% of $2455.79 is $122.78, of which a check in that amount is enclosed.

Yours Very Truly,

s/ ROY H. FOUTS

Re: Docket No. DMEA-2917 - Mica
Allman Cove Mica Mine
Macon County, North Carolina
Contract No. Idm-8561

Dear Mr. Fouts:

Transmitted herewith is a Certification of Discovery or Development on Contract No. Idm-8561 on the Allman Cove Mica Mine, Macon County, North Carolina.

By the terms of the Exploration Project Contract and of the Certification, all production from the property from the date of the Exploration Project Contract, July 2, 1953, is subject to the Government's percentage royalty as set forth in the contract until the sum of $6,326.80 is paid, or until July 2, 1963, whichever occurs first.

Payments should be made to Mr. Robert A. Laurence, Executive Officer, Defense Minerals Exploration Administration Field Team, Region VII, Room 13, Post Office Building, Knoxville 2, Tennessee. Checks should be drawn payable to the Treasurer of the United States. The purchaser should be advised to deduct the royalties from the amount due on each shipment and forward check direct to the Executive Officer.

Royalty payments to the Government should be accompanied by suitable evidence, such as copies of settlement sheets showing quantity and grade of ore sold, the name of the purchaser, and the price and charges certified to be correct by the purchaser.

You are requested to notify Mr. Laurence of any changes in ownership or production rights that may have any effect on the Government's right to its percentage royalty. Also, if production ceases at any time for any extended period, please notify Mr. Laurence at six-month intervals that no production has been made.

Sincerely yours,

C. O. Mittendorf

Administrator

Contract No. Ion-2561

Operating Committee
Mr. Johnson
Mr. Chambers
Mr. Houk

Dear Mr. Gumbel:

I am enclosing one copy of a Certification of Discovery or Development relating to the subject contract.

The exploration contract was signed July 2, 1953, with the Government participating to the extent of 90% of $7,540.00 or $6,786.00.

The project was started on July 20, 1953, and completed February 26, 1954, after the expenditure of $7,254.00 which is the total accepted cost according to the Audit Review. The Government paid 90% of the total accepted cost or $6,5[illegible]6.30.

The work performed on this project consisted of rehabilitating 48 foot shaft, deepening it to 100 feet and driving 36 feet of crosscut and 64 feet of drift. A conformable arc-shaped pegmatite averaging 20 feet in thickness has been explored over a length of about 100 feet. The work performed indicated reserves of strategic mica.

The DMEA concurs with the field team evaluation of the work performed and has certified that a discovery or development has resulted from the work under this contract.

Operator's Final Report

OPERATOR'S FINAL REPORT
ROY HERBERT FOUTS
Docket No. DMEA 2917-Mica
Allman Cove Mine
Macon County, North Carolina
Contract No. Idm - E561

The west end of the Allman Cove pegmatite a shaft of 100 feet was put down on the south side of the vein, and the following is a description of work:

Forty eight feet of the existing shaft which was 4 x 4 feet in cross section was enlarged to 5 x 7 feet in cross section. The shaft was divided into two compartments, by a partition and ladder installed in the manway compartment, which extends to the bottom. Both compartments were timbered until such a time as we hit solid rock, which was about 64 feet.

The surface the shaft was in the wall zone, but cut the south side of the pegmatite after about 15 to 20 feet and continued on the edge of the shaft through some old works and until such a time as it left the shaft which was around 85 feet, leaving about two feet of granite between the pegmatite and the shaft. We encountered impure quartzite,garnet, feldspar and mica schist.

On or about the 95 fool level we drove 100 feet, cross cutting which was 5 feet by 7 feet, and as follows:

We drifted north around 26 feet cutting 24 feet of pegmatite and to the north wall, encountering mostly impure quartz, mica schist, garnet, gneiss, scrap mica and biitotite. Then we drove in a westernly direction along the north wall about 28 feet, thence south 15 feet in a southwesternly direction to the south wall and up to now finding no block mica.. We then followed the south wall which was very irregular 31 feet, hitting some block mica. We mined out about 2500 lbs of block mica and sheeted out around 100 lbs, along this 31 feet.

Sales to the Mica depot have been as follows:
February 17, 1954; 88.30 lbs --$1401.70
March 10, 1954; 67.37 lbs---$1371.73

Memorandum

To: Operating Committee - DMEA - Washington

From: Field Team, DMEA - Region VII

Subject: Reserves Estimate on Allman Cove Mine, DMEA-2917, Idm-E 561
Macon County, North Carolina

As requested in your letter of April 8, 1954, the following estimation of reserves of the subject mine is submitted:

| | Pounds Book mica | Pounds Trimmed strategic mica |
|---|---|---|
| Indicated (above 95 ft. level) | 15,000 | 1,500 |
| Inferred (95-150 ft. level) | 60,000 | 6,000 |

The price received for mica sold under the present program from this mine has been about twice the average of all mica sold to the Spruce Pine Depot. Also, the present of trimmed mica per unit of "mine-run" mica has been unusually high, up to 17 percent according to the operator.

Re: Docket No. DMEA-2917 - Mica
Allman Cove Mica Mine
Macon County, North Carolina
Contract No. Idm-E561

Dear Mr. Fouts:

Reference is made to the narrative portion of your February Monthly Operator's Report.

Please refer to Section (c) of Form MF-104 (Rev.). The narrative statement should be a concise description of the progress made, results accomplished, difficulties encountered type of rock penetrated, amount of pegmatite in the face, and an estimate of the amount of mica produced.

It is necessary that you submit an Operator's Final Report which we have not yet received. This report should summarize the work completed, give a statement of the pounds of block mica recovered, and an estimate of the value when sheeted, also a record of any mica sales to the Buying Depot.

Sincerely yours,

SIGNED

Subject: Docket No. DMEA-2917 - Mica
Roy Herbert Fouts
Allman Cove Mica Mine
Macon County, North Carolina
Contract No. Idm-8561

Dear Mr. Laurence:

Reference is made to the Field Team's Final Report on the subject project.

Please refer to Operating Committee Memorandum No. 9 of July 15, 1952, on Field Team Reports and read paragraph 4, Page 5, under "Final Reports on Completed and Terminated Contracts", also Supplement No. 1, dated June 30, 1953. The subject report has no information on ore reserves or data from which ore reserve estimates can be calculated. The attached map does not clearly indicate the size and mica content of proven pegmatite.

We will appreciate receiving this information so we can complete our project summary report which in the case of certified projects includes a statement on ore reserves.

Sincerely yours,

George C. Selfridge

EXPLORATION PROJECT CONTRACT

FINAL REPORT
On
DMEA-2917, ALLMAN COVE MINE
Idm-E 561, (mica)

Operator: Roy H. Fouts, Franklin, North Carolina

The Allman Cove mine is located 1.25 miles northwest of the center of the town of Franklin, Macon County, North Carolina.

Work completed under the contract consisted of enlarging an existing 48-foot vertical shaft, which was 4' x 4' in cross section, to 5' x 7' and timbering; deepening the shaft an additional 52 feet; and driving 100 feet of laterals from the 95 foot level. Several thousand dollars worth of strategic mica was recovered during the project and the Operator is presently mining and doing additional exploratory work from the levels made during the project. A certification of discovery should be issued.

Work started on July 20, 1953 and was completed on February 26, 1954. An existing 48-foot 4' x 4' shaft was enlarged and timbered. This shaft was then deepened 52 feet, 16 feet of which was timbered. From the 95 foot level of the shaft, a crosscut was driven 25 feet in a N. 30° E direction to the hanging wall of the pegmatite. A drift was made westward from the head of this crosscut for 28 feet along the hanging wall, then an 11 foot crosscut southeastward to the foot wall. From the head of the latter crosscut a drift was extended for 36 feet northwestward along the foot wall of the pegmatite. This drift to date has been extended an additional 19 feet at the Operator's expense.

A conformable pegmatite, arcuate in plan, was revealed by work at the 95-foot level (see attached map). At this level the pegmatite is about 20 feet thick, considerable less than at the surface. It consists of feldspar, quartz, muscovite, biotite, garnet and pyrite. Mica books occur throughout the pegmatite but tend to be more abundant, larger and of better quality along the footwall. The latter is especially true near the heading of the northwest drift. Mica recovered near the shaft is considerably ribboned and mineral stained. The enclosing rock is biotite-garnet gneiss.

About $2400 worth of sheet mica has been sold to date and a considerable amount has not as yet been trimmed. Prices received to date have been above average for the district.

Expenditures:

| | | |
|---|---|---|
| (a) | Total approved | $7,540.00 |
| (b) | Total Cost of project | 7,252.00 |
| (c) | Government's share of cost | 6,526.80 |
| (d) | Government's share unexpended | 259.20 |
| (e) | Value of production during operation - unknown | |

The project was conducted in a satisfactory and efficient manner. No equipment was purchased under the contract.

Mr. Robert A. Laurence
Executive Officer, DMEA
Field Team, Region VII
Room 13, Post Office Bldg.
Knoxville 2, Tennessee

Dear Mr. Laurence:

We wish to call your attention to the following dockets, the completion dates of which may require extension by amendment:

| Docket | Contract | Completion date |
|---|---|---|
| DMEA-2784 | Idm-E519 | February 14, 1954 |
| DMEA-2785 | Idm-E518 | February 14, 1954 |
| DMEA-2840 | Idm-E507 | February 9, 1954 |
| DMEA-2872 | Idm-E559 | February 28, 1954 |
| DMEA-2873 | Idm-E562 | March 2, 1954 |
| DMEA-2917 | Idm-E561 | March 2, 1954 |
| DMEA-2921 | Idm-E548 | February 15, 1954 |
| DMEA-3008 | Idm-E560 | March 2, 1954 |

In those cases where this will be necessary and you approve, will you please furnish us copies of such amendments.

Sincerely yours,

George C. Selfridge

Chairman, Operating Committee (SAB)

INTERIM REPORT

DMEA-2917 Idm-E561 (mica) ALLMAN COVE MINE

OPERATOR: Roy H. Fouts, Franklin, North Carolina.

LOCATION: 1-1/4 miles northwest of the center of the town of Franklin, Macon County, N. C. in the east-central part of the Franklin Quadrangle. The mine lies on low ridges west of N. C. Highway #28 and is easily reached by 1/2 mile of gravel road.

This contract has been completed. Drifts totaling 100 feet have been driven under contract with an additional 15 feet completed at the expense of the operator. The present face consists of feldspar, quartz, thin biotite streaks and small blocks of muscovite mica. ~~The body continues to be pulled, wall to wall, with complete removal of pegmatite thickness.~~

To summarize this contract, an existing shaft was enlarged from 4' x 4' to 5' x 7' in cross section for a depth of 48'. The shaft was deepened for an additional 52 feet in new ground. Turnoff was made to the north from the 94 foot shaft level and a crosscut was driven in pegmatite to the hanging wall for a distance of 25'. A right angle turn was made at this point and the hanging wall was followed to the west-southwest for 29 feet. The direction of the body changed again at this point and 36 feet of drift, completing the contract, was driven to the northwest (N 30-65° W). Material encountered is similar to that described in the present face. Mica content of the pegmatite has varied considerably from sparse to rich. One large sale of mica has been made and others will be made from mica on hand as sheeting progresses.

The operator was very cooperative throughout this contract and conducted a well planned, systematic operation. He accepted and acted upon all safety suggestions made that would improve the operation.

# MONTHLY REPORT OF OPERATOR

The Operator (Contractor) of an exploration project is required to make a monthly report to the Government through the Regional Executive Officer. This report consists of three parts as follows:

(a) *Form MF-104—Operator's Monthly Report and Voucher.*—This form details expenditures and constitutes a voucher for reimbursing the Operator for the Government's share of costs;

(b) *Form MF-104A—Operator's Unit Cost and Progress Report.*—This is a statistical report of expenditures which shows costs for the various types of operation; and

(c) *Narrative.*—A concise narrative description of progress made, results accomplished, and any unusual difficulties encountered must be furnished as an attachment to this Report and Voucher. Wherever possible, the narrative is to be illustrated with maps or sketches showing formations penetrated and location and assays of samples taken as well as advances in workings. In the case of diamond drilling or churn drilling, the location and inclination of holes is to be shown on a map; logs and assays also are to be submitted.

The Monthly Report of Operator should be prepared in an original and four copies all of which must be sent to the Executive Officer of the Region not later than the 15th of the month following.

*Preparation of Form MF-104—Operator's Monthly Report and Voucher.*—All the applicable spaces in Form MF-104 should be filled in by the Operator, and the Operator or his agent should sign the certification in the lower left corner of the form.

The items of costs are arranged in the order they appear in Article 6 (a) of Form MF-200 (Revised February 1952), however, this form is readily adaptable for use in reporting activities under other contract forms.

Under Item (1) delete words "Short Form" if the contract is a sub-contract under Form MF-200; and delete word "Independent" if the contract reported is on Form MF-200 (A). Also, report work paid for on a unit basis under contract Form MF-200 as though it were performed under an independent contract.

Under Item (2) include labor, supervision and technical services incurred for the exploratory operations. Do not include labor, supervision and technical services used for work performed under items (5) and (6).

Under Item (3) include the costs of material and supplies used in the project other than that used under items (5) and (6).

Under Item (4) appear the three types of operating equipment expenditures, that is, rental, purchase and depreciation. The expenditures made for renting equipment belonging to a third party will be reported under "Rental". The amount paid or duly obligated for payment for the purchase of equipment will be reported under "Purchase". The amount of expenditures due the Operator to reimburse him for depreciation of equipment owned will be reported under "Depreciation".

Item (5) comprises costs of labor, supervision, technical services, materials, etc., which are used in the initial rehabilitation and repair of existing buildings, installations, fixtures, and equipment. These costs, therefore, should not be reported under items (2) and (3).

Item (6) includes the labor, supervision, technical services, materials, etc., used in the installation or construction of new buildings, fixed improvements, etc., necessary for the project. These costs, therefore, should not be reported under items (2) and (3).

Item (7) covers miscellaneous types of expenditure such as payroll taxes, liability insurance, workmen's compensation insurance, repairs to equipment and sampling and analysis. Only that part of payroll taxes, liability insurance and workmen's compensation which are paid by the operator should be reported under item (7). The share paid by the employee as a payroll deduction is to be included under item (2) as labor costs.

Item (8) includes any unforeseen costs not included in the other seven categories.

The original of Form MF-104 when submitted for reimbursable expenses incurred under contract Form MF-200 must be supported by original documentation or by certified copies of purchase orders, payrolls or transcripts of payrolls, unless such documentation has been waived by the Regional Executive Officer. This certification may be stated thus, "Certified True Copy (or Transcript)", followed by appropriate signature. If the Executive Officer of the Region determines that a contract under Form MF-200 should have an "on-site" audit, that is, a Government auditor should make an audit of the Operator's books and records of account, the Operator need not support his monthly voucher with original or certified documents except in cases of equipment purchases whose individual costs exceed $50.00. In these cases the original or a certified copy of the purchase order or invoice should be attached to the Monthly Voucher. N. B.—Only the *original* of Form MF-104 is required to be documented. The four copies of Form MF-104 are not to be thus supported.

Form MF-104 submitted for reimbursement under fixed price contracts on Form MF-200 (A), however, are not required to be supported by documentation of any kind. The Operator will submit his claim under item (1) of Form MF-104 by deleting as stated above the word "Independent" and by showing the number of feet or other units immediately after the appropriate descriptive word, such as, drilling, bulldozing, crosscutting, drifting, etc., and giving the "Monthly Total" amount due. "Totals Previously Reported", and "Totals to Date" columns should also be filled in.

(For Government use only)

## INSTRUCTIONS

*Preparation of Form MF–104A—Operator's Unit Cost and Progress Report.*—Applicable places on Form 104A should be filled in by the Operator. The purpose of this form is twofold as follows: (1) to furnish the supervising engineers and other administrators with statistical information necessary to better determine the progress of the project; and (2) to furnish more permanent information on mining costs for future use. The more important phases of operation on which permanent information is desired have been outlined in the form. There are blank lines, however, for those unusual phases which may need to be reported for a particular project. It will be necessary for the Operator to distribute his costs among the applicable phases reported with the exception of three items the costs of which are not to be distributed by the Operator. These three items are: "Operating Equipment Purchased", "Initial Rehabilitation and Repairs", and "New Buildings, Improvements, etc." The reason for not distributing these items on a monthly basis is doubtless clear to the Operator, since such distribution might well overstate the cost for any one month or period short of the entire contract period.

Form MF–104A has been designed to tie in with Form MF–104 for both monthly and cumulative costs. The "Total Costs" on Form MF–104A for each month should equal the monthly "Total Costs" as reported on Form MF–104. This is also true of the "Total Costs To Date".

In preparing Form MF–104A, it will be necessary frequently to distribute certain costs over a number of items. For instance, supervisory and engineering costs may have to be distributed over several phases, such as, drifting, crosscutting, raising, etc., provided that these items were reported active for the month. Such distributions should be made on the basis of time spent on the various phases, on man days of labor charged to such phases, or on some other equitable basis. "Operating Equipment", "Initial Rehabilitation and Repairs", and "New Buildings Improvements, etc.", will be distributed to the several phases of the project by the Washington Office of DMEA at the close of the project if determined necessary. The last two columns headed "Authorized by Contract" will be filled in by the Operator if such information is found in the contract. This information is usually a part of Exhibit "A" of the contract. A space for remarks has been provided for the use of the Operator to call attention to any unusual circumstances causing excessive or disproportionate unit costs.

OPERATOR: Roy H. Fouts, Franklin, North Carolina

LOCATION: 1-1/4 miles northwest of the center of the town of Franklin, Macon County, N. C. in the east-central part of the Franklin Quadrangle. The mine lies on low ridges west of N. C. Highway #28 and is easily reached by 1/2 mile of gravel road.

Drifting continues on this contract and now totals 89 feet. Present drifting is to the northwest and 25 feet has been accomplished since the body changed direction. The operator reports an increase in the amount of mica recovered and this confirms observations made in the drift. Processing of mica is underway and the sheeting house was visited by the examiners. Progress on this contract is satisfactory.

# MONTHLY REPORT OF OPERATOR

The Operator (Contractor) of an exploration project is required to make a monthly report to the Government through the Regional Executive Officer. This report consists of three parts as follows:

(a) *Form MF-104—Operator's Monthly Report and Voucher.*—This form details expenditures and constitutes a voucher for reimbursing the Operator for the Government's share of costs;

(b) *Form MF-104A—Operator's Unit Cost and Progress Report.*—This is a statistical report of expenditures which shows costs for the various types of operation; and

(c) *Narrative.*—A concise narrative description of progress made, results accomplished, and any unusual difficulties encountered must be furnished as an attachment to this Report and Voucher. Wherever possible, the narrative is to be illustrated with maps or sketches showing formations penetrated and location and assays of samples taken as well as advances in workings. In the case of diamond drilling or churn drilling, the location and inclination of holes is to be shown on a map; logs and assays also are to be submitted.

The Monthly Report of Operator should be prepared in an original and four copies all of which must be sent to the Executive Officer of the Region not later than the 15th of the month following.

*Preparation of Form MF-104—Operator's Monthly Report and Voucher.*—All the applicable spaces in Form MF-104 should be filled in by the Operator, and the Operator or his agent should sign the certification in the lower left corner of the form.

The items of costs are arranged in the order they appear in Article 6 (a) of Form MF-200 (Revised February 1952), however, this form is readily adaptable for use in reporting activities under other contract forms.

Under Item (1) delete words "Short Form" if the contract is a sub-contract under Form MF-200; and delete word "Independent" if the contract reported is on Form MF-200 (A). Also, report work paid for on a unit basis under contract Form MF-200 as though it were performed under an independent contract.

Under Item (2) include labor, supervision and technical services incurred for the exploratory operations. Do not include labor, supervision and technical services used for work performed under items (5) and (6).

Under Item (3) include the costs of material and supplies used in the project other than that used under items (5) and (6).

Under Item (4) appear the three types of operating equipment expenditures, that is, rental, purchase and depreciation. The expenditures made for renting equipment belonging to a third party will be reported under "Rental". The amount paid or duly obligated for payment for the purchase of equipment will be reported under "Purchase". The amount of expenditures due the Operator to reimburse him for depreciation of equipment owned will be reported under "Depreciation".

Item (5) comprises costs of labor, supervision, technical services, materials, etc., which are used in the initial rehabilitation and repair of existing buildings, installations, fixtures, and equipment. These costs, therefore, should not be reported under items (2) and (3).

Item (6) includes the labor, supervision, technical services, materials, etc., used in the installation or construction of new buildings, fixed improvements, etc., necessary for the project. These costs, therefore, should not be reported under items (2) and (3).

Item (7) covers miscellaneous types of expenditure such as payroll taxes, liability insurance, workmen's compensation insurance, repairs to equipment and sampling and analysis. Only that part of payroll taxes, liability insurance and workmen's compensation which are paid by the operator should be reported under item (7). The share paid by the employee as a payroll deduction is to be included under item (2) as labor costs.

Item (8) includes any unforeseen costs not included in the other seven categories.

The original of Form MF-104 when submitted for reimbursable expenses incurred under contract Form MF-200 must be supported by original documentation or by certified copies of purchase orders, payrolls or transcripts of payrolls, unless such documentation has been waived by the Regional Executive Officer. This certification may be stated thus, "Certified True Copy (or Transcript)", followed by appropriate signature. If the Executive Officer of the Region determines that a contract under Form MF-200 should have an "on-site" audit, that is, a Government auditor should make an audit of the Operator's books and records of account, the Operator need not support his monthly voucher with original or certified documents except in cases of equipment purchases whose individual costs exceed $50.00. In these cases the original or a certified copy of the purchase order or invoice should be attached to the Monthly Voucher. N. B.—Only the *original* of Form MF-104 is required to be documented. The four copies of Form MF-104 are not to be thus supported.

Form MF-104 submitted for reimbursement under fixed price contracts on Form MF-200 (A), however, are not required to be supported by documentation of any kind. The Operator will submit his claim under item (1) of Form MF-104 by deleting as stated above the word "Independent" and by showing the number of feet or other units immediately after the appropriate descriptive word, such as, drilling, bulldozing, crosscutting, drifting, etc., and giving the "Monthly Total" amount due. "Totals Previously Reported", and "Totals to Date" columns should also be filled in.

## INSTRUCTIONS

*Preparation of Form MF–104A—Operator's Unit Cost and Progress Report.*—Applicable places on Form 104A should be filled in by the Operator. The purpose of this form is twofold as follows: (1) to furnish the supervising engineers and other administrators with statistical information necessary to better determine the progress of the project; and (2) to furnish more permanent information on mining costs for future use. The more important phases of operation on which permanent information is desired have been outlined in the form. There are blank lines, however, for those unusual phases which may need to be reported for a particular project. It will be necessary for the Operator to distribute his costs among the applicable phases reported with the exception of three items the costs of which are not to be distributed by the Operator. These three items are: "Operating Equipment Purchased", "Initial Rehabilitation and Repairs", and "New Buildings, Improvements, etc." The reason for not distributing these items on a monthly basis is doubtless clear to the Operator, since such distribution might well overstate the cost for any one month or period short of the entire contract period.

Form MF–104A has been designed to tie in with Form MF–104 for both monthly and cumulative costs. The "Total Costs" on Form MF–104A for each month should equal the monthly "Total Costs" as reported on Form MF–104. This is also true of the "Total Costs To Date".

In preparing Form MF–104A, it will be necessary frequently to distribute certain costs over a number of items. For instance, supervisory and engineering costs may have to be distributed over several phases, such as, drifting, crosscutting, raising, etc., provided that these items were reported active for the month. Such distributions should be made on the basis of time spent on the various phases, on man days of labor charged to such phases, or on some other equitable basis. "Operating Equipment", "Initial Rehabilitation and Repairs", and "New Buildings Improvements, etc.", will be distributed to the several phases of the project by the Washington Office of DMEA at the close of the project if determined necessary. The last two columns headed "Authorized by Contract" will be filled in by the Operator if such information is found in the contract. This information is usually a part of Exhibit "A" of the contract. A space for remarks has been provided for the use of the Operator to call attention to any unusual circumstances causing excessive or disproportionate unit costs.

INTERIM REPORT

DMEA-2917 Idm-E561 (mica) ALLMAN COVE MINE

OPERATOR: Roy H. Fouts, Franklin, North Carolina

LOCATION: 1¼ miles northwest of the center of the town of Franklin, Macon County, N. C., in the east-central part of the Franklin Quadrangle. The mine lies on low ridges west of N. C. Highway #28 and is easily reached by 1/2 mile of gravel road.

Drifting continues on this contract and now totals 75 feet. The west-southwest drift was driven for 39 feet. Due in part to a gneiss inclusion the body changed direction at this point to N 45° - 60° W and 11 feet has been driven in this direction. On this NW portion of the drift the body has narrowed considerably and more mica was observed in the face than had been seen during any previous examination. Much of the mica was ribbon and the blocks appeared to be aligned vertically. Feldspar and quartz were the predominant minerals with minor amounts of garnet and secondary sulphides.

The operator complied to the suggestion that all drift walls be washed down for observation and a better picture of the pegmatite resulted. Progress on this contract is satisfactory.

INTERIM REPORT

DMEA-2917 Idm-E561 (mica) ALLMAN COVE MINE

OPERATOR: Roy H. Fouts, Franklin, North Carolina.

LOCATION: 1-1/4 miles northwest of the center of the town of Franklin, Macon County, N. C. in the east-central part of the Franklin Quadrangle. The mine lies on low ridges west of N. C. Highway #28 and is easily reached by 1/2 mile of gravel road.

Drifting continues on this contract and now totals ~~70~~ 60 feet. The west drift has made a gradual turn to S 50° W and has been driven for 35 feet. The present face shows pegmatite and 3 to 4 feet of biotite gneiss. Some small mica can be observed along the walls at several points, but nothing encouraging has been found recently. The operator was advised to wash both walls down before the next visit in order for the examiners to observe the pegmatite and as a guide for drifting operations.

The drifts are in very good condition. No timbering has been necessary. Progress on this contract is satisfactory.

APPROVAL BY DMEA EXECUTIVE OFFICER OR ALTERNATE:

Signature W. A. Beck Title ACTING EXECUTIVE OFFICER DMEA REGION VII Date JAN 6 1954

# MONTHLY REPORT OF OPERATOR

The Operator (Contractor) of an exploration project is required to make a monthly report to the Government through the Regional Executive Officer. This report consists of three parts as follows:

(a) *Form MF-104—Operator's Monthly Report and Voucher.*—This form details expenditures and constitutes a voucher for reimbursing the Operator for the Government's share of costs;

(b) *Form MF-104A—Operator's Unit Cost and Progress Report.*—This is a statistical report of expenditures which shows costs for the various types of operation; and

(c) *Narrative.*—A concise narrative description of progress made, results accomplished, and any unusual difficulties encountered must be furnished as an attachment to this Report and Voucher. Wherever possible, the narrative is to be illustrated with maps or sketches showing formations penetrated and location and assays of samples taken as well as advances in workings. In the case of diamond drilling or churn drilling, the location and inclination of holes is to be shown on a map; logs and assays also are to be submitted.

The Monthly Report of Operator should be prepared in an original and four copies all of which must be sent to the Executive Officer of the Region not later than the 15th of the month following.

*Preparation of Form MF-104—Operator's Monthly Report and Voucher.*—All the applicable spaces in Form MF-104 should be filled in by the Operator, and the Operator or his agent should sign the certification in the lower left corner of the form.

The items of costs are arranged in the order they appear in Article 6 (a) of Form MF-200 (Revised February 1952), however, this form is readily adaptable for use in reporting activities under other contract forms.

Under Item (1) delete words "Short Form" if the contract is a sub-contract under Form MF-200; and delete word "Independent" if the contract reported is on Form MF-200 (A). Also, report work paid for on a unit basis under contract Form MF-200 as though it were performed under an independent contract.

Under Item (2) include labor, supervision and technical services incurred for the exploratory operations. Do not include labor, supervision and technical services used for work performed under items (5) and (6).

Under Item (3) include the costs of material and supplies used in the project other than that used under items (5) and (6).

Under Item (4) appear the three types of operating equipment expenditures, that is, rental, purchase and depreciation. The expenditures made for renting equipment belonging to a third party will be reported under "Rental". The amount paid or duly obligated for payment for the purchase of equipment will be reported under "Purchase". The amount of expenditures due the Operator to reimburse him for depreciation of equipment owned will be reported under "Depreciation".

Item (5) comprises costs of labor, supervision, technical services, materials, etc., which are used in the initial rehabilitation and repair of existing buildings, installations, fixtures, and equipment. These costs, therefore, should not be reported under items (2) and (3).

Item (6) includes the labor, supervision, technical services, materials, etc., used in the installation or construction of new buildings, fixed improvements, etc., necessary for the project. These costs, therefore, should not be reported under items (2) and (3).

Item (7) covers miscellaneous types of expenditure such as payroll taxes, liability insurance, workmen's compensation insurance, repairs to equipment and sampling and analysis. Only that part of payroll taxes, liability insurance and workmen's compensation which are paid by the operator should be reported under item (7). The share paid by the employee as a payroll deduction is to be included under item (2) as labor costs.

Item (8) includes any unforeseen costs not included in the other seven categories.

The original of Form MF-104 when submitted for reimbursable expenses incurred under contract Form MF-200 must be supported by original documentation or by certified copies of purchase orders, payrolls or transcripts of payrolls, unless such documentation has been waived by the Regional Executive Officer. This certification may be stated thus, "Certified True Copy (or Transcript)", followed by appropriate signature. If the Executive Officer of the Region determines that a contract under Form MF-200 should have an "on-site" audit, that is, a Government auditor should make an audit of the Operator's books and records of account, the Operator need not support his monthly voucher with original or certified documents except in cases of equipment purchases whose individual costs exceed $50.00. In these cases the original or a certified copy of the purchase order or invoice should be attached to the Monthly Voucher. N. B.—Only the *original* of Form MF-104 is required to be documented. The four copies of Form MF-104 are not to be thus supported.

Form MF-104 submitted for reimbursement under fixed price contracts on Form MF-200 (A), however, are not required to be supported by documentation of any kind. The Operator will submit his claim under item (1) of Form MF-104 by deleting as stated above the word "Independent" and by showing the number of feet or other units immediately after the appropriate descriptive word, such as, drilling, bulldozing, crosscutting, drifting, etc., and giving the "Monthly Total" amount due. "Totals Previously Reported", and "Totals to Date" columns should also be filled in.

INTERIM REPORT

DMEA-2917 Idm-E561 (mica) ALLMAN COVE MINE

OPERATOR: Roy H. Fouts, Franklin, North Carolina.

LOCATION: 1¼ miles northwest of the center of the town of Franklin, Macon County, N. C. in the east-central part of the Franklin Quadrangle. The mine lies on low ridges west of N. C. Highway #28 and is easily reached by 1/2 mile of gravel road.

Drifting continues on this contract and now totals 42 feet. Drifting began to the north and the hanging wall was intercepted at 25 feet. An abrupt turn was made at this point and the wall was followed to the west for a distance of 17 feet. Drifting will continue in this direction for the present. Material encountered consists of feldspar, quartz, biotite mica and sparse muscovite mica of small sizes. Mica examined was flat, hard and of good ruby color, but contained much stain and biotite specks. Progress on this contract has been satisfactory.

Mr. R. A. Laurence, Executive Officer of DMEA, Region VII, accompanied the Field Examiners on this visit to the mine.

(b) *Form MF-104A—Operator's Unit Cost and Progress Report.*—This is a statistical report of expenditures which shows costs for the various types of operation; and

(c) *Narrative.*—A concise narrative description of progress made, results accomplished, and any unusual difficulties encountered must be furnished as an attachment to this Report and Voucher. Wherever possible, the narrative is to be illustrated with maps or sketches showing formations penetrated and location and assays of samples taken as well as advances in workings. In the case of diamond drilling or churn drilling, the location and inclination of holes is to be shown on a map; logs and assays also are to be submitted.

The Monthly Report of Operator should be prepared in an original and four copies all of which must be sent to the Executive Officer of the Region not later than the 15th of the month following.

*Preparation of Form MF-104—Operator's Monthly Report and Voucher.*—All the applicable spaces in Form MF-104 should be filled in by the Operator, and the Operator or his agent should sign the certification in the lower left corner of the form.

The items of costs are arranged in the order they appear in Article 6 (a) of Form MF-200 (Revised February 1952), however, this form is readily adaptable for use in reporting activities under other contract forms.

Under Item (1) delete words "Short Form" if the contract is a sub-contract under Form MF-200; and delete word "Independent" if the contract reported is on Form MF-200 (A). Also, report work paid for on a unit basis under contract Form MF-200 as though it were performed under an independent contract.

Under Item (2) include labor, supervision and technical services incurred for the exploratory operations. Do not include labor, supervision and technical services used for work performed under items (5) and (6).

Under Item (3) include the costs of material and supplies used in the project other than that used under items (5) and (6).

Under Item (4) appear the three types of operating equipment expenditures, that is, rental, purchase and depreciation. The expenditures made for renting equipment belonging to a third party will be reported under "Rental". The amount paid or duly obligated for payment for the purchase of equipment will be reported under "Purchase". The amount of expenditures due the Operator to reimburse him for depreciation of equipment owned will be reported under "Depreciation".

Item (5) comprises costs of labor, supervision, technical services, materials, etc., which are used in the initial rehabilitation and repair of existing buildings, installations, fixtures, and equipment. These costs, therefore, should not be reported under items (2) and (3).

Item (6) includes the labor, supervision, technical services, materials, etc., used in the installation or construction of new buildings, fixed improvements, etc., necessary for the project. These costs, therefore, should not be reported under items (2) and (3).

Item (7) covers miscellaneous types of expenditure such as payroll taxes, liability insurance, workmen's compensation insurance, repairs to equipment and sampling and analysis. Only that part of payroll taxes, liability insurance and workmen's compensation which are paid by the operator should be reported under item (7). The share paid by the employee as a payroll deduction is to be included under item (2) as labor costs.

Item (8) includes any unforeseen costs not included in the other seven categories.

The original of Form MF-104 when submitted for reimbursable expenses incurred under contract Form MF-200 must be supported by original documentation or by certified copies of purchase orders, payrolls or transcripts of payrolls, unless such documentation has been waived by the Regional Executive Officer. This certification may be stated thus, "Certified True Copy (or Transcript)", followed by appropriate signature. If the Executive Officer of the Region determines that a contract under Form MF-200 should have an "on-site" audit, that is, a Government auditor should make an audit of the Operator's books and records of account, the Operator need not support his monthly voucher with original or certified documents except in cases of equipment purchases whose individual costs exceed $50.00. In these cases the original or a certified copy of the purchase order or invoice should be attached to the Monthly Voucher. N. B.—Only the *original* of Form MF-104 is required to be documented. The four copies of Form MF-104 are not to be thus supported.

Form MF-104 submitted for reimbursement under fixed price contracts on Form MF-200 (A), however, are not required to be supported by documentation of any kind. The Operator will submit his claim under item (1) of Form MF-104 by deleting as stated above the word "Independent" and by showing the number of feet or other units immediately after the appropriate descriptive word, such as, drilling, bulldozing, crosscutting, drifting, etc., and giving the "Monthly Total" amount due. "Totals Previously Reported", and "Totals to Date" columns should also be filled in.

## INSTRUCTIONS

*Preparation of Form MF–104A—Operator's Unit Cost and Progress Report.*—Applicable places on Form 104A should be filled in by the Operator. The purpose of this form is twofold as follows: (1) to furnish the supervising engineers and other administrators with statistical information necessary to better determine the progress of the project; and (2) to furnish more permanent information on mining costs for future use. The more important phases of operation on which permanent information is desired have been outlined in the form. There are blank lines, however, for those unusual phases which may need to be reported for a particular project. It will be necessary for the Operator to distribute his costs among the applicable phases reported with the exception of three items the costs of which are not to be distributed by the Operator. These three items are: "Operating Equipment Purchased", "Initial Rehabilitation and Repairs", and "New Buildings, Improvements, etc." The reason for not distributing these items on a monthly basis is doubtless clear to the Operator, since such distribution might well overstate the cost for any one month or period short of the entire contract period.

Form MF–104A has been designed to tie in with Form MF–104 for both monthly and cumulative costs. The "Total Costs" on Form MF–104A for each month should equal the monthly "Total Costs" as reported on Form MF–104. This is also true of the "Total Costs To Date".

In preparing Form MF–104A, it will be necessary frequently to distribute certain costs over a number of items. For instance, supervisory and engineering costs may have to be distributed over several phases, such as, drifting, crosscutting, raising, etc., provided that these items were reported active for the month. Such distributions should be made on the basis of time spent on the various phases, on man days of labor charged to such phases, or on some other equitable basis. "Operating Equipment", "Initial Rehabilitation and Repairs", and "New Buildings Improvements, etc.", will be distributed to the several phases of the project by the Washington Office of DMEA at the close of the project if determined necessary. The last two columns headed "Authorized by Contract" will be filled in by the Operator if such information is found in the contract. This information is usually a part of Exhibit "A" of the contract. A space for remarks has been provided for the use of the Operator to call attention to any unusual circumstances causing excessive or disproportionate unit costs.

INTERIM REPORT

DMEA-2917 Idm-E561 (mica) ALLMON COVE MINE

OPERATOR: Roy H. Fouts, Franklin, North Carolina.

LOCATION: 1¼ miles northwest of the center of the town of Franklin, Macon County, N. C. in the east-central part of the Franklin Quadrangle. The mine lies on low ridges west of N. C. Highway No. 28 and is easily reached by 1/2 mile of gravel road.

Drifting is underway on this contract and is now at 18 feet. Turnoff was made to the northeast from about the 94 foot level in the shaft and required crosscutting about 5 feet in biotite gneiss before intercepting the pegmatite. The entire drift cross section is now in pegmatite and the material is composed of feldspar, quartz and small muscovite mica which is widely scattered throughout the body. No commercial mica has been produced to date from drift operations. Progress on this contract is satisfactory.

INTERIM REPORT

DMEA-2917 Idm-E561 (mica) ALLMAN COVE MINE

OPERATOR: Roy H. Fouts, Franklin, North Carolina

LOCATION: 1¼ miles northwest of the center of the town of Franklin, Macon County, N. C. in the east-central part of the Franklin Quadrangle. The mine lies on low ridges west of N. C. Highway #28 and is easily reached by ½ mile of gravel road.

Shaft sinking has been completed on this contract to a depth of 101 feet. As soon as flooring, establishment of a sump and pump installation is complete, crosscutting to the northeast will begin. The shaft was cribbed for a total distance of 64 feet from the surface and separated manway with ladders and landings extend to near bottom. The shaft bottomed in biotite gneiss containing small garnet and secondary sulphides. Progress on this contract is satisfactory.

INTERIM REPORT

DMEA-2917 Idm-E561 (mica) ALLMAN COVE MINE

OPERATOR: Roy H. Fouts, Franklin, North Carolina.

LOCATION: $1\frac{1}{4}$ miles northwest of the center of the town of Franklin, Macon County, N. C., in the east-central part of the Franklin Quadrangle. The mine lies on low ridges west of N. C. Highway No. 28 and is easily reached by $\frac{1}{2}$ mile of gravel road.

Shaft sinking continues on this contract and is now at 91.5 feet. Only 8.5 feet of sinking, including a sump, remains on this contract. Material encountered from the surface to 80 feet has been both pegmatite and biotite gneiss. From 80 feet to the present bottom only gneiss has been drilled. The pegmatite left the shaft on the northeast side and crosscutting will begin in that direction as soon as bottoming and sump is completed to 100 feet. All timbering is in excellent condition and as soon as practicable the separated manway will be extended to the bottom.

Signature W. A. Beck ACTING Title EXECUTIVE OFFICER DMEA REGION VII Date NOV 5 1953

# MONTHLY REPORT OF OPERATOR.

The Operator (Contractor) of an exploration project is required to make a monthly report to the Government through the Regional Executive Officer. This report consists of three parts as follows:

(a) *Form MF-104—Operator's Monthly Report and Voucher.*—This form details expenditures and constitutes a voucher for reimbursing the Operator for the Government's share of costs;

(b) *Form MF-104A—Operator's Unit Cost and Progress Report.*—This is a statistical report of expenditures which shows costs for the various types of operation; and

(c) *Narrative.*—A concise narrative description of progress made, results accomplished, and any unusual difficulties encountered must be furnished as an attachment to this Report and Voucher. Wherever possible, the narrative is to be illustrated with maps or sketches showing formations penetrated and location and assays of samples taken as well as advances in workings. In the case of diamond drilling or churn drilling, the location and inclination of holes is to be shown on a map; logs and assays also are to be submitted.

The Monthly Report of Operator should be prepared in an original and four copies all of which must be sent to the Executive Officer of the Region not later than the 15th of the month following.

*Preparation of Form MF-104—Operator's Monthly Report and Voucher.*—All the applicable spaces in Form MF-104 should be filled in by the Operator, and the Operator or his agent should sign the certification in the lower left corner of the form.

The items of costs are arranged in the order they appear in Article 6 (a) of Form MF-200 (Revised February 1952), however, this form is readily adaptable for use in reporting activities under other contract forms.

Under Item (1) delete words "Short Form" if the contract is a sub-contract under Form MF-200; and delete word "Independent" if the contract reported is on Form MF-200 (A). Also, report work paid for on a unit basis under contract Form MF-200 as though it were performed under an independent contract.

Under Item (2) include labor, supervision and technical services incurred for the exploratory operations. Do not include labor, supervision and technical services used for work performed under items (5) and (6).

Under Item (3) include the costs of material and supplies used in the project other than that used under items (5) and (6).

Under Item (4) appear the three types of operating equipment expenditures, that is, rental, purchase and depreciation. The expenditures made for renting equipment belonging to a third party will be reported under "Rental". The amount paid or duly obligated for payment for the purchase of equipment will be reported under "Purchase". The amount of expenditures due the Operator to reimburse him for depreciation of equipment owned will be reported under "Depreciation".

Item (5) comprises costs of labor, supervision, technical services, materials, etc., which are used in the initial rehabilitation and repair of existing buildings, installations, fixtures, and equipment. These costs, therefore, should not be reported under items (2) and (3).

Item (6) includes the labor, supervision, technical services, materials, etc., used in the installation or construction of new buildings, fixed improvements, etc., necessary for the project. These costs, therefore, should not be reported under items (2) and (3).

Item (7) covers miscellaneous types of expenditure such as payroll taxes, liability insurance, workmen's compensation insurance, repairs to equipment and sampling and analysis. Only that part of payroll taxes, liability insurance and workmen's compensation which are paid by the operator should be reported under item (7). The share paid by the employee as a payroll deduction is to be included under item (2) as labor costs.

Item (8) includes any unforeseen costs not included in the other seven categories.

The original of Form MF-104 when submitted for reimbursable expenses incurred under contract Form MF-200 must be supported by original documentation or by certified copies of purchase orders, payrolls or transcripts of payrolls, unless such documentation has been waived by the Regional Executive Officer. This certification may be stated thus, "Certified True Copy (or Transcript)", followed by appropriate signature. If the Executive Officer of the Region determines that a contract under Form MF-200 should have an "on-site" audit, that is, a Government auditor should make an audit of the Operator's books and records of account, the Operator need not support his monthly voucher with original or certified documents except in cases of equipment purchases whose individual costs exceed $50.00. In these cases the original or a certified copy of the purchase order or invoice should be attached to the Monthly Voucher. N. B.—Only the *original* of Form MF-104 is required to be documented. The four copies of Form MF-104 are not to be thus supported.

Form MF-104 submitted for reimbursement under fixed price contracts on Form MF-200 (A), however, are not required to be supported by documentation of any kind. The Operator will submit his claim under item (1) of Form MF-104 by deleting as stated above the word "Independent" and by showing the number of feet or other units immediately after the appropriate descriptive word, such as, drilling, bulldozing, crosscutting, drifting, etc., and giving the "Monthly Total" amount due. "Totals Previously Reported", and "Totals to Date" columns should also be filled in.

INTERIM REPORT

DMEA-2917 Idm-E561 (mica) ALLMAN COVE MINE

OPERATOR: Roy H. Fouts, Franklin, North Carolina.

LOCATION: $1\frac{1}{4}$ miles northwest of the center of the town of Franklin, Macon County, N. C., in the east-central part of the Franklin Quadrangle. The mine lies on low ridges west of N. C. Highway #28 and is easily reached by 1/2 mile of gravel road.

Shaft sinking continues on this contract and is now at 83.5'. Solid cribbing extends from the collar to 63 feet, and temporary ladders extend to the bottom. The shaft cross section has previously been in both pegmatite and wall rock, but the pegmatite left the shaft at 75' and the remaining 8.5' has been in biotite schist. Very little mica has been produced in sinking. Progress on this contract is satisfactory.

DMEA-2917 Idm-E561 (mica) ALLMAN COVE MINE

OPERATOR: Roy H. Fouts, Franklin, North Carolina.

LOCATION: 1¼ miles northwest of the center of the town of Franklin, Macon County, N. C., in the east-central part of the Franklin Quadrangle. The mine lies on low ridges west of N. C. Highway #28 and is easily reached by ½ mile of gravel road.

Shaft sinking continues on this contract and is now at 75 feet. The shaft cross section is now in 40% pegmatite and 60% biotite schist. The pegmatite is composed of feldspar, quartz, biotite and muscovite micas and secondary sulphides, probably pyrite.

This operation is a good example of what can be done with a small mica mine in North Carolina. An excellent timber job has been accomplished, mechanical ventilation has been provided to the working area and competent miners are on the job. Progress on this contract has been good.

# MONTHLY REPORT OF OPERATOR

The Operator (Contractor) of an exploration project is required to make a monthly report to the Government through the Regional Executive Officer. This report consists of three parts as follows:

(a) *Form MF-104—Operator's Monthly Report and Voucher.*—This form details expenditures and constitutes a voucher for reimbursing the Operator for the Government's share of costs;

(b) *Form MF-104A—Operator's Unit Cost and Progress Report.*—This is a statistical report of expenditures which shows costs for the various types of operation; and

(c) *Narrative.*—A concise narrative description of progress made, results accomplished, and any unusual difficulties encountered must be furnished as an attachment to this Report and Voucher. Wherever possible, the narrative is to be illustrated with maps or sketches showing formations penetrated and location and assays of samples taken as well as advances in workings. In the case of diamond drilling or churn drilling, the location and inclination of holes is to be shown on a map; logs and assays also are to be submitted.

The Monthly Report of Operator should be prepared in an original and four copies all of which must be sent to the Executive Officer of the Region not later than the 15th of the month following.

*Preparation of Form MF-104—Operator's Monthly Report and Voucher.*—All the applicable spaces in Form MF-104 should be filled in by the Operator, and the Operator or his agent should sign the certification in the lower left corner of the form.

The items of costs are arranged in the order they appear in Article 6 (a) of Form MF-200 (Revised February 1952), however, this form is readily adaptable for use in reporting activities under other contract forms.

Under Item (1) delete words "Short Form" if the contract is a sub-contract under Form MF-200; and delete word "Independent" if the contract reported is on Form MF-200 (A). Also, report work paid for on a unit basis under contract Form MF-200 as though it were performed under an independent contract.

Under Item (2) include labor, supervision and technical services incurred for the exploratory operations. Do not include labor, supervision and technical services used for work performed under items (5) and (6).

Under Item (3) include the costs of material and supplies used in the project other than that used under items (5) and (6).

Under Item (4) appear the three types of operating equipment expenditures, that is, rental, purchase and depreciation. The expenditures made for renting equipment belonging to a third party will be reported under "Rental". The amount paid or duly obligated for payment for the purchase of equipment will be reported under "Purchase". The amount of expenditures due the Operator to reimburse him for depreciation of equipment owned will be reported under "Depreciation".

Item (5) comprises costs of labor, supervision, technical services, materials, etc., which are used in the initial rehabilitation and repair of existing buildings, installations, fixtures, and equipment. These costs, therefore, should not be reported under items (2) and (3).

Item (6) includes the labor, supervision, technical services, materials, etc., used in the installation or construction of new buildings, fixed improvements, etc., necessary for the project. These costs, therefore, should not be reported under items (2) and (3).

Item (7) covers miscellaneous types of expenditure such as payroll taxes, liability insurance, workmen's compensation insurance, repairs to equipment and sampling and analysis. Only that part of payroll taxes, liability insurance and workmen's compensation which are paid by the operator should be reported under item (7). The share paid by the employee as a payroll deduction is to be included under item (2) as labor costs.

Item (8) includes any unforeseen costs not included in the other seven categories.

The original of Form MF-104 when submitted for reimbursable expenses incurred under contract Form MF-200 must be supported by original documentation or by certified copies of purchase orders, payrolls or transcripts of payrolls, unless such documentation has been waived by the Regional Executive Officer. This certification may be stated thus, "Certified True Copy (or Transcript)", followed by appropriate signature. If the Executive Officer of the Region determines that a contract under Form MF-200 should have an "on-site" audit, that is, a Government auditor should make an audit of the Operator's books and records of account, the Operator need not support his monthly voucher with original or certified documents except in cases of equipment purchases whose individual costs exceed $50.00. In these cases the original or a certified copy of the purchase order or invoice should be attached to the Monthly Voucher. N. B.—Only the *original* of Form MF-104 is required to be documented. The four copies of Form MF-104 are not to be thus supported.

Form MF-104 submitted for reimbursement under fixed price contracts on Form MF-200 (A), however, are not required to be supported by documentation of any kind. The Operator will submit his claim under item (1) of Form MF-104 by deleting as stated above the word "Independent" and by showing the number of feet or other units immediately after the appropriate descriptive word, such as, drilling, bulldozing, crosscutting, drifting, etc., and giving the "Monthly Total" amount due. "Totals Previously Reported", and "Totals to Date" columns should also be filled in.

(Instructions on reverse)

(For Government use only)

## INSTRUCTIONS

*Preparation of Form MF-104A—Operator's Unit Cost and Progress Report.*—Applicable places on Form 104A should be filled in by the Operator. The purpose of this form is twofold as follows: (1) to furnish the supervising engineers and other administrators with statistical information necessary to better determine the progress of the project; and (2) to furnish more permanent information on mining costs for future use. The more important phases of operation on which permanent information is desired have been outlined in the form. There are blank lines, however, for those unusual phases which may need to be reported for a particular project. It will be necessary for the Operator to distribute his costs among the applicable phases reported with the exception of three items the costs of which are not to be distributed by the Operator. These three items are: "Operating Equipment Purchased", "Initial Rehabilitation and Repairs", and "New Buildings, Improvements, etc." The reason for not distributing these items on a monthly basis is doubtless clear to the Operator, since such distribution might well overstate the cost for any one month or period short of the entire contract period.

Form MF-104A has been designed to tie in with Form MF-104 for both monthly and cumulative costs. The "Total Costs" on Form MF-104A for each month should equal the monthly "Total Costs" as reported on Form MF-104. This is also true of the "Total Costs To Date".

In preparing Form MF-104A, it will be necessary frequently to distribute certain costs over a number of items. For instance, supervisory and engineering costs may have to be distributed over several phases, such as, drifting, crosscutting, raising, etc., provided that these items were reported active for the month. Such distributions should be made on the basis of time spent on the various phases, on man days of labor charged to such phases, or on some other equitable basis. "Operating Equipment", "Initial Rehabilitation and Repairs", and "New Buildings Improvements, etc.", will be distributed to the several phases of the project by the Washington Office of DMEA at the close of the project if determined necessary. The last two columns headed "Authorized by Contract" will be filled in by the Operator if such information is found in the contract. This information is usually a part of Exhibit "A" of the contract. A space for remarks has been provided for the use of the Operator to call attention to any unusual circumstances causing excessive or disproportionate unit costs.

INTERIM REPORT

DMEA-2917 Idm-E561 (mica) ALLMAN COVE MINE

OPERATOR: Roy H. Fouts, Franklin, North Carolina.

LOCATION: 1¼ miles northwest of the center of the town of Franklin, Macon County, N. C., in the east-central part of the Franklin Quadrangle. The mine lies on low ridges west of N. C. Highway No. 28 and is easily reached by 1/2 mile of gravel road.

Shaft sinking continues on this contract and is now at 64 feet. This footage includes 48 feet of shaft enlargement and reconditioning. The shaft contained 14 feet of water at the time of this visit and bottom was not examined, but the operator reported that the bottom was in pegmatite material. Pumping in the past has been by an air sump which has now reached its capacity. A new 1½ h.p. electric pump was in the process of installation during this visit and should handle the water satisfactorily to the 100 foot shaft depth. An electric signaling device has been installed recently. Progress on this contract is satisfactory.

# MONTHLY REPORT OF OPERATOR

The Operator (Contractor) of an exploration project is required to make a monthly report to the Government through the Regional Executive Officer. This report consists of three parts as follows:

(a) *Form MF-104—Operator's Monthly Report and Voucher.*—This form details expenditures and constitutes a voucher for reimbursing the Operator for the Government's share of costs;

(b) *Form MF-104A—Operator's Unit Cost and Progress Report.*—This is a statistical report of expenditures which shows costs for the various types of operation; and

(c) *Narrative.*—A concise narrative description of progress made, results accomplished, and any unusual difficulties encountered must be furnished as an attachment to this Report and Voucher. Wherever possible, the narrative is to be illustrated with maps or sketches showing formations penetrated and location and assays of samples taken as well as advances in workings. In the case of diamond drilling or churn drilling, the location and inclination of holes is to be shown on a map; logs and assays also are to be submitted.

The Monthly Report of Operator should be prepared in an original and four copies all of which must be sent to the Executive Officer of the Region not later than the 15th of the month following.

*Preparation of Form MF-104—Operator's Monthly Report and Voucher.*—All the applicable spaces in Form MF-104 should be filled in by the Operator, and the Operator or his agent should sign the certification in the lower left corner of the form.

The items of costs are arranged in the order they appear in Article 6 (a) of Form MF-200 (Revised February 1952), however, this form is readily adaptable for use in reporting activities under other contract forms.

Under Item (1) delete words "Short Form" if the contract is a sub-contract under Form MF-200; and delete word "Independent" if the contract reported is on Form MF-200 (A). Also, report work paid for on a unit basis under contract Form MF-200 as though it were performed under an independent contract.

Under Item (2) include labor, supervision and technical services incurred for the exploratory operations. Do not include labor, supervision and technical services used for work performed under items (5) and (6).

Under Item (3) include the costs of material and supplies used in the project other than that used under items (5) and (6).

Under Item (4) appear the three types of operating equipment expenditures, that is, rental, purchase and depreciation. The expenditures made for renting equipment belonging to a third party will be reported under "Rental". The amount paid or duly obligated for payment for the purchase of equipment will be reported under "Purchase". The amount of expenditures due the Operator to reimburse him for depreciation of equipment owned will be reported under "Depreciation".

Item (5) comprises costs of labor, supervision, technical services, materials, etc., which are used in the initial rehabilitation and repair of existing buildings, installations, fixtures, and equipment. These costs, therefore, should not be reported under items (2) and (3).

Item (6) includes the labor, supervision, technical services, materials, etc., used in the installation or construction of new buildings, fixed improvements, etc., necessary for the project. These costs, therefore, should not be reported under items (2) and (3).

Item (7) covers miscellaneous types of expenditure such as payroll taxes, liability insurance, workmen's compensation insurance, repairs to equipment and sampling and analysis. Only that part of payroll taxes, liability insurance and workmen's compensation which are paid by the operator should be reported under item (7). The share paid by the employee as a payroll deduction is to be included under item (2) as labor costs.

Item (8) includes any unforeseen costs not included in the other seven categories.

The original of Form MF-104 when submitted for reimbursable expenses incurred under contract Form MF-200 must be supported by original documentation or by certified copies of purchase orders, payrolls or transcripts of payrolls, unless such documentation has been waived by the Regional Executive Officer. This certification may be stated thus, "Certified True Copy (or Transcript)", followed by appropriate signature. If the Executive Officer of the Region determines that a contract under Form MF-200 should have an "on-site" audit, that is, a Government auditor should make an audit of the Operator's books and records of account, the Operator need not support his monthly voucher with original or certified documents except in cases of equipment purchases whose individual costs exceed $50.00. In these cases the original or a certified copy of the purchase order or invoice should be attached to the Monthly Voucher. N. B.—Only the *original* of Form MF-104 is required to be documented. The four copies of Form MF-104 are not to be thus supported.

Form MF-104 submitted for reimbursement under fixed price contracts on Form MF-200 (A), however, are not required to be supported by documentation of any kind. The Operator will submit his claim under item (1) of Form MF-104 by deleting as stated above the word "Independent" and by showing the number of feet or other units immediately after the appropriate descriptive word, such as, drilling, bulldozing, crosscutting, drifting, etc., and giving the "Monthly Total" amount due. "Totals Previously Reported", and "Totals to Date" columns should also be filled in.

## INSTRUCTIONS

*Preparation of Form MF-104A—Operator's Unit Cost and Progress Report.*—Applicable places on Form 104A should be filled in by the Operator. The purpose of this form is twofold as follows: (1) to furnish the supervising engineers and other administrators with statistical information necessary to better determine the progress of the project; and (2) to furnish more permanent information on mining costs for future use. The more important phases of operation on which permanent information is desired have been outlined in the form. There are blank lines, however, for those unusual phases which may need to be reported for a particular project. It will be necessary for the Operator to distribute his costs among the applicable phases reported with the exception of three items the costs of which are not to be distributed by the Operator. These three items are: "Operating Equipment Purchased", "Initial Rehabilitation and Repairs", and "New Buildings, Improvements, etc." The reason for not distributing these items on a monthly basis is doubtless clear to the Operator, since such distribution might well overstate the cost for any one month or period short of the entire contract period.

Form MF-104A has been designed to tie in with Form MF-104 for both monthly and cumulative costs. The "Total Costs" on Form MF-104A for each month should equal the monthly "Total Costs" as reported on Form MF-104. This is also true of the "Total Costs To Date".

In preparing Form MF-104A, it will be necessary frequently to distribute certain costs over a number of items. For instance, supervisory and engineering costs may have to be distributed over several phases, such as, drifting, crosscutting, raising, etc., provided that these items were reported active for the month. Such distributions should be made on the basis of time spent on the various phases, on man days of labor charged to such phases, or on some other equitable basis. "Operating Equipment", "Initial Rehabilitation and Repairs", and "New Buildings Improvements, etc.", will be distributed to the several phases of the project by the Washington Office of DMEA at the close of the project if determined necessary. The last two columns headed "Authorized by Contract" will be filled in by the Operator if such information is found in the contract. This information is usually a part of Exhibit "A" of the contract. A space for remarks has been provided for the use of the Operator to call attention to any unusual circumstances causing excessive or disproportionate unit costs.

GPO 83-38475

OPERATORS
MONTHLY PROGRESS REPORT
FOR the
Month of August 1953

DMEA No. 2917
Idm-E561

Work Accomplished

Installed Sump Pump, built shed and installed blower, built two magazines, pulled the power line in, wired buildings with electric lights, and trimed and enlarged shaft 28 feet.

Daily Notes

3 Aug 53 Enlarged shaft 3' and timbered same.
4 Aug 53 Enlarged shaft 3' and timbered same.
5 Aug 53 Enlarged shaft 3' and timbered same.
6 Aug 53 Enlarged shaft 3' and timbered same.
7 Aug 53 Enlarged shaft 3' and timbered same.

10 Aug 53 Enlarged shaft 3' and timbered same.
11 Aug 53 Enlarged shaft 3' and timbered same.
12 Aug 53 Enlarged shaft 3' and timbered same.
13 Aug 53 Enlarged shaft 3' and timbered same.
14 Aug 53 Enlarged shaft 3' and timbered same.

17 Aug 53 Enlarged shaft 3' and timbered same.
Installed Sump Pump.
18 Aug 53 Enlarged shaft 3' and timbered same.
19 Aug 53 Enlarged shaft 3' and timbered same.
20 Aug 53 Enlarged shaft 3' and timbered same.
21 Aug 53 Enlarged shaft 3' and timbered same.
The above timbering included partition, and ladders.
24 Aug 53 Built Blower house.
25 Aug 53 Started Covering shaft.
26 Aug 53 Finished covering shaft and started work on magazines.
27 Aug 53 Finished two magazines, one for exploders and one fo dyanmite, installed blower and blower pipe.
28 Aug 53 Installed blower motor and put it in operation.

31 Aug 53 Enlarged shaft 2' and timbered same.

INTERIM REPORT

DMEA-2917 Idm-E561 (mica) ALLMAN COVE MINE

OPERATOR: Roy H. Fouts, Franklin, North Carolina.

LOCATION: 1¼ miles northwest of the center of the town of Franklin, Macon County, N. C. in the east-central part of the Franklin Quadrangle. The mine lies on low ridges west of N. C. Highway No. 28 and is easily reached by ½ mile of gravel road.

Enlargement and timbering of this shaft is still in progress and is now at 46 feet. The shaft has been cribbed solid to this depth with 2" x 6" sawed oak timbers; a separated partition, ladders and landings have been installed also to depth. The mine is making water, which has been handled satisfactorily with an air sump pump. A power line has been run to the mine recently and an electric pump will be installed in the near future. A housed, electric driven, mechanical blower has been recently installed for ventilation purposes. The operator plans to complete shaft trimming and rehabilitation by the end of the current month. Progress on this contract is satisfactory.

# MONTHLY REPORT OF OPERATOR

The Operator (Contractor) of an exploration project is required to make a monthly report to the Government through the Regional Executive Officer. This report consists of three parts as follows:

(a) *Form MF-104—Operator's Monthly Report and Voucher.*—This form details expenditures and constitutes a voucher for reimbursing the Operator for the Government's share of costs;

(b) *Form MF-104A—Operator's Unit Cost and Progress Report.*—This is a statistical report of expenditures which shows costs for the various types of operation; and

(c) *Narrative.*—A concise narrative description of progress made, results accomplished, and any unusual difficulties encountered must be furnished as an attachment to this Report and Voucher. Wherever possible, the narrative is to be illustrated with maps or sketches showing formations penetrated and location and assays of samples taken as well as advances in workings. In the case of diamond drilling or churn drilling, the location and inclination of holes is to be shown on a map; logs and assays also are to be submitted.

The Monthly Report of Operator should be prepared in an original and four copies all of which must be sent to the Executive Officer of the Region not later than the 15th of the month following.

*Preparation of Form MF-104—Operator's Monthly Report and Voucher.*—All the applicable spaces in Form MF-104 should be filled in by the Operator, and the Operator or his agent should sign the certification in the lower left corner of the form.

The items of costs are arranged in the order they appear in Article 6 (a) of Form MF-200 (Revised February 1952), however, this form is readily adaptable for use in reporting activities under other contract forms.

Under Item (1) delete words "Short Form" if the contract is a sub-contract under Form MF-200; and delete word "Independent" if the contract reported is on Form MF-200 (A). Also, report work paid for on a unit basis under contract Form MF-200 as though it were performed under an independent contract.

Under Item (2) include labor, supervision and technical services incurred for the exploratory operations. Do not include labor, supervision and technical services used for work performed under items (5) and (6).

Under Item (3) include the costs of material and supplies used in the project other than that used under items (5) and (6).

Under Item (4) appear the three types of operating equipment expenditures, that is, rental, purchase and depreciation. The expenditures made for renting equipment belonging to a third party will be reported under "Rental". The amount paid or duly obligated for payment for the purchase of equipment will be reported under "Purchase". The amount of expenditures due the Operator to reimburse him for depreciation of equipment owned will be reported under "Depreciation".

Item (5) comprises costs of labor, supervision, technical services, materials, etc., which are used in the initial rehabilitation and repair of existing buildings, installations, fixtures, and equipment. These costs, therefore, should not be reported under items (2) and (3).

Item (6) includes the labor, supervision, technical services, materials, etc., used in the installation or construction of new buildings, fixed improvements, etc., necessary for the project. These costs, therefore, should not be reported under items (2) and (3).

Item (7) covers miscellaneous types of expenditure such as payroll taxes, liability insurance, workmen's compensation insurance, repairs to equipment and sampling and analysis. Only that part of payroll taxes, liability insurance and workmen's compensation which are paid by the operator should be reported under item (7). The share paid by the employee as a payroll deduction is to be included under item (2) as labor costs.

Item (8) includes any unforeseen costs not included in the other seven categories.

The original of Form MF-104 when submitted for reimbursable expenses incurred under contract Form MF-200 must be supported by original documentation or by certified copies of purchase orders, payrolls or transcripts of payrolls, unless such documentation has been waived by the Regional Executive Officer. This certification may be stated thus, "Certified True Copy (or Transcript)", followed by appropriate signature. If the Executive Officer of the Region determines that a contract under Form MF-200 should have an "on-site" audit, that is, a Government auditor should make an audit of the Operator's books and records of account, the Operator need not support his monthly voucher with original or certified documents except in cases of equipment purchases whose individual costs exceed $50.00. In these cases the original or a certified copy of the purchase order or invoice should be attached to the Monthly Voucher. N. B.—Only the *original* of Form MF-104 is required to be documented. The four copies of Form MF-104 are not to be thus supported.

Form MF-104 submitted for reimbursement under fixed price contracts on Form MF-200 (A), however, are not required to be supported by documentation of any kind. The Operator will submit his claim under item (1) of Form MF-104 by deleting as stated above the word "Independent" and by showing the number of feet or other units immediately after the appropriate descriptive word, such as, drilling, bulldozing, crosscutting, drifting, etc., and giving the "Monthly Total" amount due. "Totals Previously Reported", and "Totals to Date" columns should also be filled in.

REMARKS:

(Instructions on reverse)

(For Government use only)

## INSTRUCTIONS

*Preparation of Form MF–104A—Operator's Unit Cost and Progress Report.*—Applicable places on Form 104A should be filled in by the Operator. The purpose of this form is twofold as follows: (1) to furnish the supervising engineers and other administrators with statistical information necessary to better determine the progress of the project; and (2) to furnish more permanent information on mining costs for future use. The more important phases of operation on which permanent information is desired have been outlined in the form. There are blank lines, however, for those unusual phases which may need to be reported for a particular project. It will be necessary for the Operator to distribute his costs among the applicable phases reported with the exception of three items the costs of which are not to be distributed by the Operator. These three items are: "Operating Equipment Purchased", "Initial Rehabilitation and Repairs", and "New Buildings, Improvements, etc." The reason for not distributing these items on a monthly basis is doubtless clear to the Operator, since such distribution might well overstate the cost for any one month or period short of the entire contract period.

Form MF–104A has been designed to tie in with Form MF–104 for both monthly and cumulative costs. The "Total Costs" on Form MF–104A for each month should equal the monthly "Total Costs" as reported on Form MF–104. This is also true of the "Total Costs To Date".

In preparing Form MF–104A, it will be necessary frequently to distribute certain costs over a number of items. For instance, supervisory and engineering costs may have to be distributed over several phases, such as, drifting, crosscutting, raising, etc., provided that these items were reported active for the month. Such distributions should be made on the basis of time spent on the various phases, on man days of labor charged to such phases, or on some other equitable basis. "Operating Equipment", "Initial Rehabilitation and Repairs", and "New Buildings Improvements, etc.", will be distributed to the several phases of the project by the Washington Office of DMEA at the close of the project if determined necessary. The last two columns headed "Authorized by Contract" will be filled in by the Operator if such information is found in the contract. This information is usually a part of Exhibit "A" of the contract. A space for remarks has been provided for the use of the Operator to call attention to any unusual circumstances causing excessive or disproportionate unit costs.

Re: Docket No DMEA - 2917 - Mica
Allman Cove Mica Mines
Macon County, North Carolina

Dear Mr. Houk:

Received your letter of June 25, returning plot of the Allman Cove Mica Tract, which was submitted by me in connection with the subject application.

This application was submitted by me February 24, 1953. On March 23rd the Field Team made the examination and I am of the openion they gave it favorable consideration, however; as of this date I have heard nothing more.

It is my sincere belief that this mica mine has very good possibilities if operation is carried out in the proper manner. This I feel that I am capable of doing. Mica from this mine I have already sold to the Government Depot in Spruce Pine, North Carolina on March 17th, acceptance number 4-762.

I would appreciate it if you would inform me of it's status at your nearest convenience, and if there is additional information you need I will be pleased to furnish same.

Sincerely yours,

Roy H. Fouts

Subject: Docket No. DMEA-2917 - Roy Herbert Fouts
Allman Cove Mica Mines
Macon County, North Carolina

Dear Mr. Laurence:

Please find herewith the original and five copies of a contract covering the subject exploration project which have been signed by the Government with register number and effective date as shown.

If the contract meets with your approval, insert the time for starting and completing the work in Article 3 of the contract and present it to the Operator for approval and signature. Please explain to the Operator that the contract, when executed, is a firm commitment under the terms of which it is obligated to complete the work outlined at the agreed unit cost. If any part of this contract does not have either your approval or that of the Operator and cannot be amended within your delegated authority, then the original and all copies of the contract are to be returned to this office, together with the proposed changes for consideration.

After execution of the contract, the copies are to be distributed in the usual manner.

Copies of memoranda from the Bureau of Mines and the Geological Survey are enclosed.

Memorandum

To: Operating Committee, D M E A - Washington

From: Field Team, D M E A - Region 7 - Knoxville, Tennessee

Subject: Docket No. DMEA-2917 (mica) Roy H. Fouts, Allman Cove Mica Mines, Macon County, North Carolina

Mica produced from the existing 48-foot shaft and short drift to the southeast was sold to the Spruce Pine Mica Depot, G. S. A. Spruce Pine, North Carolina. The amount is not known, but several hundred dollars worth of mica was sold. This mica is of strategic grade.

The unit cost for trimming the 4 x 4 shaft is high because it involves dewatering, removal of timber, trimming, and timbering. The Field Team does not believe that this cost is excessive.

REVIEW OF FIELD TEAM REPORT ON APPLICATION DMEA-2917 (mica)

To: L. G. Houk, Defense Minerals Exploration Administration
From: D. M. Larrabee, U. S. Geological Survey
Applicant: Roy H. Fouts, General Delivery, Franklin, North Carolina.
Name of property: Allman Cove.
Location of property: 1½ miles northwest of Franklin, North Carolina.
Date of field team report: March 30, 1953.
Authorship of field team report: Teague, Beck, Shirley.
Field team's recommendation:
4'x4'x48' shaft be trimmed to 5'x7' and deepened to 100'.
40' drifts from 95' level, to southeast
60' drifts from 95' level, to northwest.
Comments: None.
ACTION SUGGESTED: Follow field team's recommendation.

## REPORT OF EXAMINATION BY FIELD TEAM, REGION VII

DMEA-2917, ALLMAN COVE MINE (Mica)
Macon County, North Carolina

By

Kefton H. Teague, Geologist
U. S. Geological Survey

Wm. A. Beck, Mining Engineer
U. S. Bureau of Mines

Lawrence E. Shirley, Mining Engineer
U. S. Bureau of Mines

March 30, 1953

Examination Report on

DMEA-2917, ALLMAN COVE MINE (mica)

Applicant: Roy H. Fouts, c/o General Delivery,
Franklin, North Carolina

This deposit has merit for exploration. The west end of the deposit appears to have promise for future production; therefore, the field examiners recommend that exploration be conducted on that area.

The field examiners visited this deposit on March 23, 1953, accompanied by the applicant, Roy H. Fouts. Two hours were spent on the examination.

The following description of the mine is taken from Mica Deposits of Franklin-Sylva District, North Carolina, North Carolina Department of Conservation and Development., Bull. 49, P.20, 1946.

"The Allman Cove group of mines is one and one-quarter miles northwest of the center of the town of Franklin, in the east-central part of the Franklin quadrangle. The mine lies on low ridges west of North Carolina Highway 28, from which they are easily reached over ½ mile of good dirt road.

"The earliest work at the Allman Cove mine was done about 1870 or 1880. Surface mining was done and a long adit was driven northward from the creek. About 1904, the large pit at the west end of the workings was worked for kaolin to a depth of about 60 feet. The mine has been worked intermittently by many operators. Mica suitable for condensers and telephone equipment is reported to have been produced in 1918 or 1919. Since 1925 operations have been nearly continuous and have been carried on mainly by John and W. P. Brindle, John and Floyd Tallent, and J. W. Roper. The mine was worked between January and March 1943 by F. E. Snow and E. B. Ward, and then until the summer of 1943 by Mr. Snow.

"The Allman Cove mine consists of three large and several small pits, at least 16 shafts ranging in depth from about 15 to 90 feet, and many short drifts at various levels. The underground workings are now inaccessible except the deep shaft and stopes at the east end. It is judged from reports that the pegmatite may have been almost completely worked out down to water level, which is 50 to 70 feet below the surface, a little above the altitude of the creek to the south.

"The pegmatite body is nearly divided into two parts by a projection of wall rock (mica gneiss) near the middle of the workings. The pegmatite body thickens both east and west of this point. The eastern part trends east and is nearly vertical. In the easternmost shaft the pegmatite is only 18 inches thick, but it is nearly 30 feet thick in the main workings,

and about 20 feet thick in the large pit. The west part of the pegmatite trends N. 70° W. and probably dips steeply to the south. It is about 20 feet thick and probably tapers out at the southeast end and branches into several stringers at the northwest end. The pegmatite is intrusive into mica gneiss; in general it lies parallel to the strike of the foliation but in places cuts across it.

"The pegmatite is composed of partly kaolinized feldspar (probably plagioclase), quartz, muscovite, and biotite. The eastern part of the pegmatite contains a number of irregular streaks of "burr rock." All of the mica seen in the east workings was small, wavy, ruled, and cracked. Most of it was scrap but a little would yield punch or sheet up to about 2 by 2 inches. The mica was moderately stained by clay and iron oxide, and intergrowths with biotite were abundant.

"The underground workings at the west end were flooded and could not be examined; hence the following description of this part of the pegmatite is based upon reports by miners. A well-defined quartz mass, 2 to at least 3 feet thick, in part "burr rock", lies in the middle of the pegmatite body. Sheet mica has been found on both sides of it, but most of the mica is along the south wall. The mica occurs in larger books at this end than at the east, but it is considerably ruled. Flat, hard, clear, dark-rum mica is produced. Very little biotite is found."

Since the above "quoted" report was prepared the applicant has sunk a 4' x 4' shaft, 48 feet deep, at the site of the proposed shaft shown on the attached map, and driven about 15 feet of drift to the southeast. Some mica resulted from this work, but the amount is not known.

Area covered by the applicant's lease is adequate to cover the area of proposed exploration. The southern boundary of the lease (Allman Cove Branch) is shown on the attached map. The applicant is at present successfully operating a mica mine in Macon County, North Carolina, and appears competent to conduct the proposed operation.

The field examiners believe that this deposit justifies exploration assistance. Past reports indicate that the western part of the deposit offers more possibilities than elsewhere, therefore, the exploration should be conducted at that end. We recommend that the 4' x 4', 48-foot shaft be trimmed (it contains some cribbing, but is not solidly timbered) to 5' x 7' and deepened to 100 feet. From the 95-foot level, 40 feet of drifts should be driven to the southeast and 60 feet of drifts to the northwest.

This program is the same as the applicant's except for reconditioning the shaft instead of sinking a new shaft.

Estimated Cost:

| | | |
|---|---|---|
| Trimming 4' x 4' shaft to 5' x 7' (2 compt.) shaft 48 feet @ $30/foot..... | $1,440.00 | |
| 52 ft. 5' x 7' (2compt) shaft @ $40/ft. | 2,080.00 | |
| Timber, 52 ft. shaft @ $10/ft. | 520.00 | |
| 100 ft. 6'x6' drift @ $35/ft. | 3,500.00 | |
| Estimated Total Cost..... | | $7,540.00 |

Estimated time required - 100 shifts.

March 30, 1953

Kefton H. Teague, USGS

Re: Docket No. DMEA-2917 - Mica
Allman Cove Mine
Macon County, North Carolina

Dear Mr. Routs:

Your application for assistance in exploring your property has been reviewed by the Nonmetallic Minerals Division of the Defense Minerals Exploration Administration and has been referred to Mr. Robert A. Laurence, Executive Officer, DMEA Field Team, Region VII, Room 13, Post Office Building, Knoxville 2, Tennessee, for a field examination.

The regional office will contact you at an early date in regard to the examination of your property. Any assistance that you may give the members of the field team in the examination will be appreciated.

Sincerely yours,

C. O. Mittendorf (fw)

Administrator

Subject: Docket No. DMEA-2917 - Mica
Roy H. Fouts
Allman Cove Mine
Macon County, North Carolina

Dear Mr. Laurence:

Please arrange for a field examination of the subject mine and submit a report with your recommendation on the proposed exploration assistance program.

If an exploration program is recommended, the location of Allman Cove Branch should be indicated on the map as the property under lease is described as "All of the Allman Cove Property....., except all lands and mineral rights lying on the south side of Allman Cove Branch."

Two copies each of memoranda from the Geological Survey and the Bureau of Mines are enclosed for your convenience.

Sincerely yours,

George C. Selfridge (JHB)

Chairman, Operating Committee

Memorandum March 10, 1953

REVIEW OF APPLICATION DMEA-2917 (mica)

To: L. G. Houk, Defense Minerals Exploration Administration
From: D. M. Larrabee, U. S. Geological Survey
Applicant: Roy Herbert Fouts, General Delivery, Franklin, North Carolina.
Name of property: Allman Cove mine.
Location of property:
1¼ mile from Franklin in Macon County, North Carolina.
Estimated cost of project: $8,500.00.
Summary of applicant's proposal:

1) Sink a shaft 5' x 7', one hundred feet deep, located about 50' west of the present 45' shaft.
2) Drive two drifts 5' x 7' from the shaft. One running east, and one running west, both of which will be 50' long.

Sources of information on applicant's property:

1) Jahns, R. H., Allman Cove mine: Mica deposits of the Blue Ridge province, North Carolina and Georgia, U. S. Geological Survey Unpub. Prof. Paper. 3 pp.
2) Jahns, R. H. and Lancaster, F. A., 1950, Physical characteristics of commercial sheet muscovite in the southeastern states: U. S. Geological Survey Prof. Paper 225, p. 49.
3) Larrabee, D. M., January 5, 1944, Allman Cove mica mine, Franklin Twsp., Macon County, North Carolina: U. S. Geological Survey Unpublished Supplementary Report No. 1, Memorandum to H. M. Bannerman, 2 pp.
4) Larrabee, D. M. and Allen, W. B., January 4, 1944, Allman Cove mica mine, Macon County, N. C.: U. S. Geological Survey Strategic minerals investigations preliminary map.
5) Olson, J. C., September 11, 1944, Allman Cove mica mine, Macon County, N. C., recorded production during period 1925-41: U. S. Geological Survey Unpublished Report, 3 pp.
6) Parker, J. M. III, August 20, 1943, Allman Cove mica mines, Macon County, N. C.: U. S. Geological Survey Unpublished Report, 3 pp.
7) Parker, J. M. III and Fryklund, V. C. Jr., June-July 1943, Allman Cove mica mines: U. S. Geological Survey Strategic minerals investigations preliminary map.
8) Colonial Mica Corporation Punch Card.

Comments:

1) According to Colonial Mica Corporation records, $3,468.54 worth of ruby mica was produced at this mine.
2) According to Jahns (unpublished U.S.G.S. Prof. Paper), "Further production of mica seems most likely at greater depths at the west end of the mine."

Comments (cont'd.)

3) According to Larrabee (1944), "The pegmatite has been gophered from the 70' level to the surface, and there is little evidence to warrant further exploration. However, since the shaft is in excellent condition, it might be well to crosscut the pegmatite to the south contact to determine if any mica shoot can be found there. The distance from present workings would probably not exceed 15' in a southerly direction."

RECOMMENDATION:

Field examination.

D. M. Larrabee

March 6, 1953

Memorandum

To: Nonmetallic Minerals Division
Defense Minerals Exploration Administration

From: Chief, Ceramic and Fertilizer Materials Branch

Subject: DMEA-2917, Mica, Allman Cave Mine, Macon County, North Carolina

DEPARTMENT OF THE INTERIOR
Defense Minerals Administration
RECEIVED
6 1953

The Geological Survey (Professional Paper 225, page 49) tested 126 pieces of mica from subject mine to be 100 percent E-1 capacitor quality and color classed as cinnamon brown, generally acceptable as ruby mica. On the basis of this fact, a field team investigation is recommended to ascertain if an exploration program is justified.
