Re: OME-6258 (Iron Ore)
A. B. Bartlett and G. K. Rogers
Mag Lode and Placer Claims
Fremont and Custer Counties, Colorado

Dear Mr. Bartlett:

In your July 1 letter you request us to return your reports to you. Therefore, we are enclosing one copy each of the following material:

Southwestern Engineering Co. Report, December 11, 1961;

"Iron Ore Deposits," April 26, 1961;

Memorandum by Walter E. Duncan, December 28, 1960;

Colorado School of Mines Research Report, dated November 24, 1961, by Burt C. Mariacher;

Southwestern Engineering Company Report, July 12, 1960; and

Two assay sheets by The Colorado Assaying Company, each dated August 27, 1958.

By copy of this letter to our Denver Field Office, we are requesting that it also return whatever of the above material may be in its files.

In compliance with your request, we have reviewed your application, but regret that we found no basis upon which to change our decision.

Sincerely yours,

George Fumich, Jr.

Director

Re: OME-6258 (Iron ore)
A. B. Bartlett and G. K. Rogers
Mag Lode and Placer Claims
Fremont and Custer Counties, Colorado

Gentlemen:

Your application for financial assistance in exploring your property in Fremont and Custer Counties, Colorado, has been reviewed by this office.

The information submitted indicates to us that the proposed field work is principally designed to extend the lateral limits of deposits of gabbro containing titaniferous magnetite that crop out on parts of your property.

The work proposed would merely extend the limits of known mineralization and not result in a significant discovery being made. Consequently, Government participation in the cost of the proposed work would not be warranted. Under the circumstances I regret that your application must be denied.

Sincerely yours,

George Fumich, Jr.

Director
