OFFICIAL DOCKET FILE

Terminated (~~or cancelled~~) without certification. DMEA No. 1914

This is the official contract file containing all official records of the project. Duplicate material has been removed. The records contained in the files are checked and are arranged in this manner:

Left Side

Certificate of Audit (Final).

Interim Audit(s).

✓ Report of Review.

✓ Termination Notice or Agreement.

Recision Notice.

Assignment of Contract.

✓ Contract Amendments (latest on top).

✓ Contract with all exhibits and annexes.

Owner's Consent to Lien.

Subordination Agreement.

Leases and assignments of leases.

✓ Application and attachments.

Schedule of Collections.

✓ Operator's monthly reports and all attachments (latest on top).

Right Side

✓ Project summary.

✓ Work completed analysis.

✓ All other material is filed in chronological order with correspondence including the following reports as checked:

✓ Final Field Team Report. (Tab)

Operator's Final Report.

Interim Reports.

✓ On-site Exam Report(s). (Tab)

Settlement Sheets.

DEFENSE MINERALS EXPLORATION ADMINISTRATION
CONTRACT ADMINISTRATION AND AUDIT DIVISION

REPORT OF REVIEW

I have reviewed the Monthly Reports of:

Harold E. Enloe

Route 1

Franklin, North Carolina

pertaining to Exploration Project Contract No. Idm-E191, Docket No. DMA-1914X, including Amendment No. 1, for the period of February 1 to February 14, 1952.

My review included an examination of the Monthly Reports (Forms MF-104) and supporting documents attached thereto, comparison of the costs claimed with the contract and pertinent schedules, consultation with the Government representative who visited and examined the project, and a determination of the reasonableness and propriety of the costs.

This review was made in lieu of an audit of the Operator's accounts and records for the following reasons:

(a) the administrative cost to the Government of an audit would be excessive in relation to value of the contract or the estimated amount of possible disallowances thereunder;
(b) the Monthly Reports were supported by documentary proof of the costs incurred under the contract;
(c) entire cost was for bulldozing at standard rates.

The review disclosed the following facts in regard to the amount paid or to be paid the contractor:

Total cost as billed by Contractor		$ 100.00
Exceptions:		
By DMEA Finance Office	$ -0-	
Herewith	-0-	-0-
Total Accepted Cost		$ 100.00

The contract calls for a 90 per cent participation of exploration expenses by the United States Government. Therefore, payment to the contractor by the Government in the amount of Ninety Dollars and 00/100

- $90.00 -

is considered valid and proper.

Date: JUN 25 1952

GOVERNMENT'S COPY

NOTICE OF TERMINATION OF EXPLORATION PROJECT CONTRACT, UNDER THE TERMS OF THE CONTRACT, BEFORE THE COMPLETION OF THE WORK

To: Harold E. Enloe

Route #1

Franklin, North Carolina

Operator under Exploration Project Contract I-dm-E 191, Docket No. DMEA- 191X, dated 22 day of October 1951.

The United States of America, acting through the Department of the Interior, Defense Minerals Exploration Administration, under the terms of the above-mentioned contract, hereby terminates the contract on the following grounds: 1/

~~(a) Your failure to provide your share of the money necessary to prosecute operations pursuant to the terms of the contract.~~

~~(b) In the opinion of the Government, you have failed to prosecute operations pursuant to the terms of the contract.~~

(c) In the opinion of the Government, operations up to the time of this notice have not indicated the probability of making any worthwhile discovery and in the opinion of the Government further operations are not justified.

Upon the receipt of this notice, as provided in said contract, you are required to dispose of any remaining materials, supplies, facilities, buildings, fixtures, equipment, or other items, in which the Government has an interest, for the joint account of yourself and the Government; and to render to the Government a full and final accounting of your operations under the contract and of your expenditures of money on account thereof.

Any work prosecuted or costs incurred by you after the receipt of this notice shall be for your sole account, except for (a) such necessary and reasonable costs and expenses as may be incurred in preserving and disposing of any facilities, buildings, fixtures,

1/ Strike out any grounds not applicable.

CONTRACT AMENDMENT I.

Contract Docket No. DMA-1914X, Idm-E191, dated October 22, 1951, between the UNITED STATES OF AMERICA and HAROLD E. ENLOE, is hereby amended as follows:

1. Item 3, titled "Exploration Project" is amended to provide that the operator shall commence work within 75 days, and shall complete the project within four (4) months from date of the contract.

This amendment shall not be construed to increase the estimated total cost of the project, the aggregate total amount which the Government may be obligated to pay, or the percentage of the cost which the Government may be obligated to pay, under the provisions of Article 13 of the contract form.

Contract Above Cancelled

EXPLORATION PROJECT CONTRACT [1]

It is agreed this 22nd day of October, 1951, between the United States of America, acting through the Department of the Interior, Defense Minerals Administration, hereinafter called the "Government," and [2]
Harold E. Enloe
Route No. 1
Franklin, North Carolina

hereinafter called the "Operator," as follows:

1. *Authority for contract.* This agreement is entered into under the authority of the Defense Production Act of 1950, pursuant to Mineral Order 5, entitled "Regulations Governing Government Aid in Defense Exploration Projects."

2. *Operator's property rights.* The exploration project shall be conducted on that certain property situated in the State of North Carolina, County of Macon described as follows: [3]
as the Garden Branch Mine, located 5 miles west of Franklin, North Carolina.
Legal description further described in Annex I (attached hereto.)

with respect to which the Operator represents and undertakes: [4]

(*a*) That he is the sole owner, in possession and entitled to possession, and that the property is ~~subject only to the following claims, liens, or encumbrances, a copy of which, the subordination agreement of the holder of is attached:~~
free of liens or encumbrances.

(*b*) ~~That he is a lessee, in possession and entitled to possession, and the subordination agreement of the lessor is attached.~~

3. *Exploration project.* The Operator, within 30 days from the date of this contract shall commence work on a project of exploration for [5] Mica; shall prosecute the work efficiently, expertly, in a workmanlike manner, in accordance with good mining standards, with suitable and adequate equipment, materials, and labor, all properly designed to bring the project to completion within a period of [6] 90 days from the date of this contract. The exploration project and the work to be performed are more fully described on Exhibit "A" attached hereto, which, with any maps or drawings thereto attached, is made a part of this contract.

4. *Performance of the work.* The work shall be performed by the Operator, under his sole direction and control: *Provided,* That with the consent of the Government and its written approval of the contract or contracts, all or any part of the work may be performed by the Operator through contract or contracts with independent contractors. The Government shall have the right to enter and observe and inspect the work at all reasonable times, and the Operator shall provide the Government with all available means for doing so. The Government may consult with and advise the Operator on all phases of the work.

5. *Fixtures and improvements.* The Operator shall devote the land and all existing improvements, facilities, buildings, installations, and appurtenances to the purposes of the exploration project without any allowance for the use, rental value, depreciation, depletion, or other cost of acquiring, owning, or holding possession thereof. Any additional facilities, buildings, and fixtures, to be purchased, installed, or erected by the Operator, with the estimated cost of each, to which the Government will contribute currently its agreed pro rata share, are listed in Exhibit "A" attached hereto. The difference between the cost of such additional facilities, buildings, or fixtures, and the salvage value thereof at the conclusion of the work, shall be charged as a cost of the project to which the Government has contributed its pro rata share.

6. *Operating equipment.* Any operating equipment to be rented, purchased, or furnished by the Operator, with the allowable rental, purchase price, or depreciation, as the case may be, is listed under appropriate headings in Exhibit "A" attached hereto. As to equipment purchased for the project, the Government will contribute its agreed pro rata share of the cost thereof, and the difference between the cost and the salvage value at the conclusion of the work shall be charged as a cost of the project to which the Government has contributed its pro rata share.

[1] If sufficient space is not provided in any blank, use an extra sheet of paper and refer to it in the blank.
[2] State name, address, and nature of organization if any.
[3] Give legal description or enough to identify the property.
[4] Strike out the provision not applicable.
[5] Name of mineral.
[6] Not in excess of 2 years.

7. *Title to and disposition of property.* All facilities, buildings, fixtures, equipment, or other items costing more than $50 each, paid for or purchased with funds contributed jointly by the Operator and the Government, shall belong to the Operator and the Government jointly, in proportion to their respective contributions, and upon the termination of the contract, if they have any salvage value, shall be disposed of for their joint account unless the Government, in writing, waives its interest in any such items. The Government may require the dismantling, severance from land, and removal of any such items in order to realize its interest in the salvage value thereof, and the cost of any such removal and of the disposal of the items shall be for the joint account of the parties in proportion to their respective interests.

8. *Labor and supervision.* An itemized schedule of labor, by numbers and classes (miners, muckers, millmen, etc.), and of supervisors, by numbers and positions, with the maximum wages or salaries that may be paid to each as an allowable cost of the project is set forth in Exhibit "A" attached hereto.

9. *Rehabilitation and repairs.* A statement of the cost of any necessary rehabilitation or repairs to put existing facilities, buildings, installations, and fixtures into useful and operable condition and which are to be allowed as costs of the project is included in Exhibit "A."

10. *Allowable costs of the project.* The costs of the project in which the Government will participate are limited to the necessary, reasonable, direct costs of performing the exploration work, including the costs of materials, supplies, engineering, power, water, analytical work, accounting, and utilities, including items of equipment costing less than $50 each; and the costs referred to in Articles 5, 6, 8, and 9, and the exhibits annexed to and referred to in this contract. Although the Government may pay part of the cost of new or additional facilities, structures, buildings, and equipment, only the depreciation on such items, computed as indicated in Articles 5 and 6, will be charged as a cost of the project. No items of general overhead, corporate management, interest, taxes, or any other indirect costs not expressly allowed by these provisions, or work performed or costs incurred before the date of this contract, shall be allowed as costs of the project in which the Government will participate.

11. *Accounts and audits.* The Operator shall keep suitable records and accounts of operations, which the Government may inspect and audit at any time. The Government may at any time require an audit of the Operator's records and accounts by a certified public accountant, the cost thereof to be treated as a cost of the project. The Operator shall keep and preserve said records and accounts for at least 3 years after the completion of the project or the termination of this contract.

12. *Progress reports.* The Operator shall provide the Government with monthly reports of work performed under the contract upon forms to be provided by the Government. Each monthly progress report shall bear the certification of the Operator and shall constitute the Operator's invoice of costs incurred on the project during the period covered by the report.

13. *Payment to the Operator.* The monthly progress report (invoice), to the extent approved by the Government, shall be processed for payment by the Government. Payment shall be made in the amount of 90 percent of the approved costs incurred; *Provided,* That the aggregate total of all sums paid by the Government under this agreement shall not exceed $450.00, which is 90 percent of the agreed estimated total cost of this project, $500.00.

14. *Final reports by Operator.* Upon completion of the project or termination of this contract, the Operator shall provide the Government with a comprehensive geologic and engineering report, including an estimate of ore reserves, to the best of his ability. Four copies of all reports shall be furnished to the Government.

15. *Repayment by Operator.* If, upon the completion of the exploration project or termination of the contract, the Government considers that a discovery or development has resulted from the work from which commercial production of ore may be made, the Government, within 6 months thereafter, shall so certify to the Operator, particularly describing and delimiting its estimate of the discovery or the development. Thereafter, if and as ore is produced as a result of such discovery or development, the Operator and his successor in interest shall be and become obligated to pay to the Government a percentage royalty on the net smelter returns or other net proceeds realized from such ore, concentrates, or metal produced within ten (10) years from the date of this contract, until the total amount contributed by the Government, without interest, is fully repaid or said 10 years have elapsed, whichever occurs first, as follows:

Of net smelter returns or other net proceeds not in excess of eight dollars ($8.00) per ton of ore: One and one-half (1½) percent.

Of net smelter returns or other net proceeds in excess of eight dollars ($8.00) per ton of ore: One and one-half (1½) percent, plus one-half (½) percent for each additional full fifty cents ($0.50) in excess of eight dollars ($8.00) per ton of ore, but not in excess of a maximum of five (5) percent.

This obligation to repay from net returns or proceeds shall be and remain a claim and lien upon the mineral deposit which is the subject of the exploration project and upon any production resulting from such discovery or development, in favor of the Government, until fully paid, or until said 10-year period has elapsed; and this claim and lien and the Government's right to repayment shall survive any termination of the contract, whether by completion of the exploration project or otherwise. This article is not to be construed as imposing any obligation on the Operator or his successor in interest to produce ore from any such discovery or development.

16. *No assignment of contract.* Without the written consent of the Government, the Operator shall not assign or otherwise transfer or hypothecate this contract or any rights thereunder.

17. *Termination and completion.* The Government may, at any time, by written notice to the Operator, terminate this contract: (*a*) If the Operator fails to provide his share of the money necessary to prosecute operations pursuant to the terms of the contract; (*b*) if the Operator, in the opinion of the Government, fails to prosecute operations pursuant to the terms of the contract; or (*c*) if in the opinion of the Government, operations up to the time of the notice have not indicated the probability of making any worthwhile discovery and in the opinion of the Government further operations are not justified. Upon the completion of the project or any termination of the contract the Operator shall render to the Government a full and final accounting of his operations under the contract and his expenditures of money; shall dispose of any unused materials, supplies, and equipment for the joint account of the Operator and the Government in the proportion of their respective interests; and shall pay to the Government its pro-rata share of any money remaining.

Executed in sextuplicate the day and year first above written.

EXHIBIT "A"

Description of Work

Stage "A"

A bulldozer trench approximately 10' deep and 6' to 10' wide at the bottom will be excavated to a maximum length of 100' along the strike of the pegmatite. Approximate location of this work is shown on attached map; the exact location and direction of the trench will be mutually agreed upon in the field by Operator and Field Team. Total allowable cost $300, time limit 1 month.

Stage "B"

Subject to satisfactory completion of Stage "A" and approval by Field Team, two test pits approximately 6' in diameter will be dug in the bottom of bulldozer trench (excavated under Stage "A") to maximum individual depth of 8 feet. Exact location of the test pits will be mutually agreeable to Operator and Field Team. Allowable cost $200, time limit 30 days.

Fixtures & Improvements

Not applicable

Operating Equipment and Supplies

Stage "A"

1 Bulldozer (rental) complete with operator, fuel repairs, etc., 30 hours @ $10 per hour	$300

Stage "B"

Hand tools, supplies, contingencies	56

Labor and Supervision

Stage "A"

Included in Bulldozer rental contract.

Stage "B"

1 working foreman @ $1.25 per hour	80
1 laborer @ $1.00 per hour	64

Rehabilitation and Repairs

ANNEX I

The property of the Gardner Branch Mine, Macon County, North Carolina is owned by Harold E. Enloe and recorded in Book No. P-5, Page 563, Register of Deeds, Macon County, N. C. The legal description is as follows:

> Being the mineral rights and mining privileges contained in the following described property: BEGINNING on the Wayah Bald Road at a point known as the Old Pasture Hill Gap, running North of the Old Pasture Hill fence to a line designated in a timber deed made to the Carolina Wood Turning Co. in March 1950, which calls for the meanders of the ridge to said government line on Hack Knob. Running with Government line Northeast to the head of the water shed of the Garden Branch, running East to a corner known as the John Slagle and Jeff Enloe Corner. Thence South with the old John Slagle line back to the Wayah Bald Road and with the road to the BEGINNING CORNER. This boundary of land consists of 75 acres, more or less, having two deposits: one at the head waters of the Garden Branch, the other about 300 yards from the highway on what is known as the Old Pasture Hill, all these lands being on the water shed of the Garden Branch.

INSTRUCTIONS

Read Mineral Order 5, Regulations Governing Government Aid in Defense Projects, before completing this application. Submit four signed copies of the application to Defense Minerals Administration, Department of the Interior, Washington 25, D. C., or to the nearest field executive officer thereof, with your name and address on each sheet of the application and all accompanying papers. If any question is inapplicable, or if you cannot answer it, so state on the form. Where the space provided for answer is insufficient, answer on a separate sheet, annex it to the application form, and refer to it in space for answer. If the application is approved, you will be presented with an exploration project contract on Form MF-200, for your signature.

THE APPLICANT

*1. Is applicant an individual, partnership, or corporation?
*2. If a partnership, state names and addresses of partners.
*3. If a corporation, state names and addresses of officers, directors, and five largest stockholders.
*4. Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who will manage the project.
*5. Are you the owner or the lessee of the property?
6. If owner, state what claims, liens, or encumbrances, if any, are against the property.
7. If lessee, attach a copy of the lease and state if it is in good standing.

NOTE.—It will be necessary to procure and attach to the exploration project contract agreements of claimants, lienors, encumbrances and lessors subordinating their interests in the property to the interest of the Government under the contract.

8. Furnish current financial statement, showing assets and liabilities, and a profit and loss statement.
9. How much money is applicant prepared to invest in proposed project? Is it sufficient to pay your part of the cost of the project as detailed in question 23 of this application form, in accordance with the regulations on Government participation (Section 9 of Mineral Order 5)?

*If you have already answered these questions on MF-100, you are not required to answer the questions for this application.

16—64067-1

THE PROPERTY

10. (*a*) Give a description of the real property that will be in any way involved in the exploration project, including any existing mine or operating property.

(*b*) Give the legal description of the exact parcel, plot, or area upon which the exploration is to be conducted.

NOTE.—If both areas are the same, so state. The only obligation to repay the Government is from the net earnings from any commercial discovery made in the area specified in (*b*) above in which the exploration is to be conducted, and the expenditure of funds which may be charged as costs of the project must be limited to that area or to work necessary to perform the exploration in that area.

*11. State the present and former names of the property, if any.

*12. State, in detail, the location of the property with reference to towns, railroads, roads, shipping points, including distances and directions and kinds and conditions of roads.

*13. State source and quantity of water available for operations and its sufficiency at all seasons. State amount of power to be used, rate per hour or other cost, and source.

*14. Describe any existing useable facilities, equipment, buildings, or structure now on the property that will be devoted to the exploration work.

15. State in detail how the ore could be shipped and how and where milled.

*16. History:

(*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for any past suspensions of operations.

(*b*) State briefly the known history and production of adjoining and neighboring properties.

(*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.

*17. Production:

(*a*) If mine is in production, furnish the following information:

	Tons per day	*Grade or analysis*	*Cost per ton*	*Net value per ton*
(1) Mining				
(2) Milling				
(3) Shipped or sold				

*18. Ore or mineral reserves: (If property is or has been operating.)

(*a*) Describe the ore or mineral deposits briefly.

(*b*) Submit available maps and assay data.

(*c*) Give estimated tonnage and grade of each class of ore reserves.

19. State any conditions or circumstances regarding the property not sufficiently brought out by the foregoing questions.

THE EXPLORATION

20. For what mineral or minerals and for what types of deposits and ores will the exploration be conducted?

21. Describe briefly, but concisely, the proposed work and the estimated time required to complete it.

NOTE.—The Government will not participate in a project that will require more than 2 years to complete.

22. Furnish statement of the geological basis of the project with particular emphasis on factors leading the operator to expect the finding of commercial ore bodies. This statement should be accompanied by supporting maps such as geological maps, maps of the proposed openings and assay maps, sample lists, and other pertinent data.

THE REQUIREMENTS AND COSTS

23. Tabulate in the form of an itemized statement with a sum for each item the estimated requirements and costs of the project so that the total will give the estimated cost of the project in which the Government will participate, as follows:

(*a*) Labor, by numbers and classes (miners, muckers, millmen, etc.), with wages of each.

(*b*) Supervisors, by numbers and positions, with salaries of each.

(*c*) Cost of necessary repairs to existing facilities, structures, and buildings.

(*d*) Cost of necessary installation or construction of additional facilities, structures, and buildings.

(*e*) Cost of items of equipment, not now owned by the applicant which must be purchased for operations at a cost of $50 or more each.

(*f*) Cost of rental for equipment which the operator proposes to rent.

(*g*) Rental value of items of equipment which the operator now owns and which will be devoted to the work.

(*h*) Cost of materials and supplies, including items of equipment costing less than $50 each.

(*i*) Cost of power, water, utilities, and any other items not provided for above.

24. Furnish a time schedule of the project, stated in terms of months after project is approved, showing progress expected to be accomplished and the money expected to be spent.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this form and accompanying papers is correct and complete to the best of their knowledge and belief.

(Name of company)	By Harold E. Enbl (Signature of authorized official)
JULY 30, 1951 (Date)	OWNER (Title)

16—64067-1 U. S. GOVERNMENT PRINTING OFFICE

FORM MF-103

APPLICATION OF: HAROID E. ENLOE, ROUTE 1, FRANKLIN, N. C.

THE APPLICANT:

1. Individual.

4. Applicant has been mining in this district for the past 10 years. Also operates sawmill project. He will manage this project.

5. Owner.

6. No liens or encumbrances against property.

9. Ten percent; sufficient in accordance with Government participation on strategic mica (Section 9 of MO-5).

THE PROPERTY:

10. Description of the real property and legal description of the area are the same: (Deed recorded in Book # P-5, Page 563, Register of Deeds, Macon County, N. C.)

Being the mineral rights and mining privileges contained in the following described property: BEGINNING on the Wayah Bald Road at a point known as the Old Pasture Hill Gap, running North of the Old Pasture Hill fence to a line designated in a timber deed made to the Carolina Wood Turning Co. in March 1950, which calls for the meanders of the ridge to said government line on Hack Knob. Running with Government line Northeast to the head of the water shed of the Garden Branch, running East to a corner known as the John Slagle and Jeff Enloe Corner. Thence South with the old John Slagle line back to the Wayah Bald Road and with the road to the BEGINNING CORNER. This boundary of land consists of 75 acres, more or less, having two deposits: one at the head waters of the Garden Branch, the other about 300 yards from the highway on what is known as the Old Pasture Hill, all these lands being on the water shed of the Garden Branch.

11. Name of Mine: GARDEN BRANCH MINE.

12. Property is located 5 miles West of Franklin, N. C. (Railroad shipping point), on State Highway #64; thence Northwest 1½ miles on paved road.

13. Sufficient water on property for all requirements. No power required.

14. Mine contains no facilities, equipment, etc.

15. Mica (sheet & punch) will be processed and sheeted on property and shipped from Franklin, N. C.

THE PROPERTY (continued):

16. (a) Outcroppings appearing at this mine location have been somewhat uncovered to assure feasibility of exploration.

(b) Property is located directly within the mica belt of Western North Carolina. Neighboring properties, such as the Beasley Mines, Polly Miller Mines, Mill Knob, etc. have been high producers and their results are recorded with the Bureau of Mines.

(c) See attached examination report by A. W. Reid.

17. Mine is not in production.

18. Not applicable.

THE EXPLORATION:

20. Exploration will be for mica and associated minerals.

21. It is proposed to bulldoze off the entire vein surface and prepare for open-cut shaft and tunnel operation. Exploratory work will not exceed two months.

22. See attached examination report of A. W. Reid.

ESTIMATED REQUIREMENTS & COSTS:

23.	TOTAL
(a) Labor:	
4 laborers, 25 days @ $10 per day	$ 1,000.00
(b) Supervisory:	
1 Working Foreman, 2 months @ $280 per mo.	560.00
(e) Equipment (purchase)	
Hand tools	100.00
(f) Rental:	
Bulldozer, 80 hrs. @ $10. per hour	800.00

FORM MF-103

APPLICATION OF: HAROID E. ENLOE, ROUTE 1, FRANKLIN, N. C.
(GARDEN BRANCH MINE)

STATEMENT OF:

A. W. REID - PRACTICAL GEOLOGIST AND MINING ENGINEER

Applicant's property is situated WITHIN the main Mica Lead of Western North Carolina, which has always been highly productive of strategic ruby mica. Throughout the entire district outcroppings appear which point to the location of numerous mines.

I have examined this particular property and it presents sufficient evidence to warrant exploration in accordance with the contents of this application. I would recommend that development proceed as outlined.

A. W. Reid

INSTRUCTIONS

This form is to be filed with Defense Minerals Administration, Department of the Interior, Washington 25, D. C. It should be accompanied by appropriate application form when a specific type of Government assistance is requested, in the form of (1) loan, (2) purchase contract, (3) Government guarantee of a private loan, (4) priorities or allocation of mining equipment, and maintenance, repair and operating supplies, and (5) other forms of Government assistance that might arise under the Act. Submit four (4) signed copies of the form and accompanying papers. Name and address should be stamped or typed on each sheet of this form and all accompanying papers. *When a question is inapplicable it should be so stated on the form.* Additional sheets may be attached in answering any questions or in supplying additional information. (IF YOU CANNOT ANSWER A QUESTION, SO STATE.) If a question is answered elsewhere indicate where answered. It is not necessary to answer it again.

GENERAL TECHNICAL DATA

Supply the following information on separate sheets, arranged, numbered, and lettered as indicated:

1. Materials produced:
   (*a*) What are the chief mine, mill, or smelter products? Strategic Mica
   (*b*) What are the byproducts, if any? Feldspar
2. Name(s) and type(s) of mine(s), mill(s), smelter(s), refinery(ies), pit(s), quarry (ies), drilling operation(s). Include old names of property, if any. Show extent of workings, including the following:
   (*a*) Linear feet of shafts.
   (*b*) Linear feet of drifts and crosscuts.
   (*c*) Linear feet of tunnels or adits.
   (*d*) Linear feet of other mine openings (explain briefly).

   Indicate whether mine is flooded or not. Describe any pumping problems. Give size or productive capacity.
3. For each operation listed above supply the following:
   (*a*) Distance and direction from nearest town and shipping point. 6½ mi. W. of Franklin, N.C. (R.R. Sta.)
   (*b*) Mining district. Franklin
   (*c*) Township, Section, Range. Cartoogechaye
   (*d*) County, State. Macon County, North Carolina
4. (*a*) State whether or not property is now in operation, and if in operation, by whom operated.
   (*b*) Are you operating this property as:
   - ☐ Owner.
   - ☐ Lessee.
   - ☐ Contractor.
5. Number of years in production _____

   If not in production or operation, estimated date when production will begin _____
6. Experience of operators:

   Describe the mining and general business experience of (*a*) the applicant, and (*b*) the person or persons who manage the project.
7. History:
   (*a*) Give a statement, as complete as possible, of previous exploration, development, operation, and production of property, with reasons for suspension of operation.
   (*b*) State briefly the known history and production of adjoining and neighboring properties.
   (*c*) Furnish any available (private) reports that may apply to this application, including results of mine examinations, recommended exploration and development, and metallurgical investigations.

8. Names and addresses of Officers, Directors, or Partners, and in addition thereto, the five largest stockholders if applicant is a corporation.

Name and Address (a)	Official Title (If officer is also director indicate by "D") (b)	Total of Annual Salary, Commissions, Bonuses, Etc., Received From Applicant and Affiliates During Last Fiscal Year (c)	Estimated Net Worth Outside of Interest in Applicant (d)	Number of Shares Held in Applicant Corporation		Life Insurance Carried for Benefit of Applicant	
				Common (e)	Preferred (f)	Amount (g)	Net Cash Surrender Value After Loans (h)
	Total		x x x x x			x x x x x	x x x x x

If more lines are needed continue on separate sheet.

9. Capital Stock Issues:

For Corporate Applicants

Item	Authorized (a)	Outstanding (b)	Par Value (c)	Number of Shares Outstanding (d)	Dividend Rate Last Paid* (e)
Common stock	$	$	$		
Preferred stock	$	$	$		

*Indicate period covered.

10. Production: Operation has not yet started.

Item	Kind of Product (a)	1948 Total (b)	1949 Total (c)	1950 Total (d)	Present Average Monthly (e)
1. Quantity of product mined or quarried (Short, long, metric tons; barrels; pounds; etc.)					
2. Quantity of product processed (specify unit of measure and type of process)					
3. Quantity and grade of product sold or shipped (specify units of measure)					

11. Do you contemplate a change in the present average monthly rate of production? If so, state estimated maximum monthly production and basis of change.

12. Ore or Mineral Reserves:

(a) Describe the ore or mineral deposit briefly. Accompany the application by any available report on the geology and ore reserves.

(*b*) If deposit is other than placer:

(1) Submit assay plans and/or sections showing location and size of proved (measured) and probable (indicated) ore or mineral reserve.

(2) State the tonnage (indicate type of ton) and grade of each class of ore reserve, as above, and show how computed. Tabulated total ore reserve as follows:

TOTAL ORE OR MINERAL RESERVES

Ore or Mineral Reserve	Estimated Tons (a)	Metal or Mineral Content Per Ton (Grade) (b)	Gross Value Per Ton (c)	Recoverable Unit Value Per Ton (d)	Estimated Cost of Production Per Ton (e)
Measured (proved)					
Indicated (probable)					

(*c*) If placer:

(1) Give estimated total yardage and average marketable mineral content of each deposit.

(2) Submit map showing location of placer deposit and surrounding area, with all test holes or pits. Submit logs of each hole and test pit with depth and average value of each.

(3) Describe gravel, stating whether fine, medium or coarse; loose, tight, cemented, or frozen, and whether it contains stumps or boulders more than 1 foot in diameter; if so, how large, and in what proportion.

(4) Describe bedrock, giving type (granite, sandstone, shale, etc.) and state whether it is hard or soft, smooth, uneven or rough.

(5) Describe overburden, stating whether loose, tight, or cemented; fine or coarse textured; furnish estimate of average thickness and total amount.

(6) Tabulate the reserves using the form outlined above for ore or mineral reserves.

13. Access Roads:

Give road distances to shipping, supply and residence points, stating kind and condition of roads.

14. Water Supply:

State source and quantity of water available for operations and whether sufficient for all seasons of year.

15. Power:

State amount of power used, rate per hour, and source thereof.

16. Labor: Operation has not yet started.

State number and classes (miners, muckers, millmen, etc.) of men employed during a recent representative payroll period.

17. Equipment and Facilities:

Describe present equipment on the property, including buildings. (State condition.) List major pieces of equipment now owned or controlled and in serviceable condition available for this operation.

18. Are there any particular conditions or circumstances affecting your operations that are not described above? If so, explain.

*Per MO-7 Amended, the above answers are all that are required.

Total Contract Amount $ 500.00
Government Participation: 90 % Amount, $ 450.00
Distribution of Expenditures for Month of February

Final Report

STRATEGIC AND CRITICAL MINERAL EXPLORATION PROGRAM
OPERATOR'S MONTHLY PROGRESS REPORT

Operators are to submit monthly reports to the designated field representative of the Defense Minerals Administration. Reports are to be submitted in quadruplicate prior to the 15th day of the month following the reporting period.

Narrative.—A concise narrative description of progress made, results accomplished, and any unusual difficulties encountered is to be furnished.

Maps.—Wherever possible, the narrative is to be illustrated with maps or sketches showing formations penetrated and location and assays of samples taken as well as advances in workings. In the case of diamond drilling or churn drilling, the location and inclination of holes is to be shown on a map; logs and assays also are to be submitted.

Cost Accounts.—All applicable parts of this form are to be filled in. This report will form the basis for payments of the Government's participating share of expenses. Audits of accounts may be made from time to time.

CERTIFICATION

The undersigned company, and the official executing this certification on its behalf, hereby certify that the information contained in this report is correct and complete to the best of their knowledge and belief.

Subject: Docket No. DMEA-1761 - Idm-E206
" " DMEA-1914 - Idm-N191
" DMEA-1929 - Idm-N198

Dear Mr. Laurence:

Reference is made to your memorandum to Operating Committee dated July 16 on termination of above mentioned contracts.

DMEA-1761 - Idm-E206

This docket should have been terminated by "Rescission of Exploration Project Contract by Agreement Before Work is Begun, Form 18262-3" but as the Operator has failed to sign and return "Mutual Agreement Termination, Form 18262-1", it is suggested that you send "Notice of Termination of Exploration Project Contract, Under the Terms of the Contract, Form 18262-2" using (b) as the applicable grounds.

DMEA-1914 - Idm-N191 and DMEA-1929 - Idm-N198

Send Operators "Notice of Termination Under Terms of the Contract, Form 18262-2" using (c) as the applicable grounds. Strike out Operator on page 2 of Form 18262-2 as the Operator's signature is unnecessary in this case.

Sincerely yours,

Acting Administrator
Defense Minerals Exploration
Administration

July 16, 1952

Memorandum

To: Operating Committee, D.M.E.A. Washington

From: Executive Officer, D.M.E.A. Region 7

Subject: Termination of Contracts by Mutual Agreement

The forms for mutual agreement to termination (18262-1) have been sent to the following Operators on the dates indicated:

DMEA-1761,	Idm-E206	May 13, 1952
DMEA-1914,	Idm-E191	May 15, 1952
DMEA-1929,	Idm-E198	June 14, 1952
DMEA-1955,	Idm-E244	June 14, 1952

No reply has been received from the first three. Signed form for DMEA-1955 was received on June 17 and has been forwarded to Washington office.

It appears probable that the other three forms will never be signed. Meanwhile we are considering the projects as terminated, on the basis of letters written to the Operators.

June 2, 1952

Memorandum

To: Frank E. Johnson

From: Acting Chief Counsel

Subject: Termination of Docket No. DMEA-1914, Harold E. Enloe

I have reviewed the termination form executed by the Executive Officer, DMEA Field Team, Region VII, in connection with the above identified contract.

The signature on the form is improper in that Robert A. Lawrence should have signed it as "Executive Officer". However, in view of the Operator's acknowledgment on his final report and voucher that he considers the contract terminated, it is unnecessary to execute a new termination form.

In a letter dated May 20, in connection with Docket No. DMEA-1761, the Acting Administrator instructed Mr. Lawrence to sign the termination forms over the title "Executive Officer", pursuant to his delegation from the Secretary. Therefore, it should not be necessary to instruct Mr. Lawrence again on this subject.

May 15, 1952

Memorandum

To: C. O. Mittendorf, Acting Administrator, DMEA

From: Robert A. Laurence, Executive Officer, DMEA, Region VII

Subject: DMEA-1914, Idm-E191 (mica). Notice of Termination of Contract

Attached herewith are 5 copies of the form sent us with your letter of May 12. One copy has been sent to the Operator and one retained here. We have never received the forms for termination by mutual agreement. However, Mr. Enloe stated on his final report, which accompanied his final (and only) voucher, that he considered the project terminated.

Total amount expended was $100, of which the Government's share was $90, leaving $360 to be returned to the revolving fund.

The Operator complied with the contract, and the only reason for termination was that the early bulldozer work showed that there was no reasonable chance of making a commercial discovery.

FINAL REPORT

DMEA-1914, GARDEN BRANCH MINE, (mica)

Macon County, N. C.

The Garden Branch Mine is a small occurrence of pegmatite located 5.5 miles west of Franklin, Macon County, N. C. along the north side of Wayah Gap, road. When originally examined during September 1951 one shallow pit exposed a pegmatite which appeared to be about four feet thick. Fragments of mica books up to 5 inches across were exposed in the dump.

This contract, Idm-E191 was for $500. During February 1952 one bulldozer cut 65 feet long, and 7 feet deep was cut across the pegmatite zone. This cut exposed two pegmatite stringers each about one foot thick. The pegmatite exposed in the old shallow pit appears to be nothing more than a pod which pinches out completely about four feet below the surface. The stringers crosscut weathered horndblende gneiss.

Only a small amount of mica in sizes less than one inch in diameter were exposed by the cut. The Operator, Harold E. Enloe, was informed verbally on February 14, 1952 that the contract was terminated because in the opinion of the Field Team there was little possibility of making a worthwhile discovery, thus further expenditures were not justified.

March 28, 1952 K. H. Teague, Geologist.

To: Frank E. Johnson, Chairman, Operating Committee

From: Executive Officer, DMEA, Region VII

Subject: Amendment to Contract DMA-1914X, Idm-E191, Harold E. Enloe

Attached please find original and three copies of the amendment to above subject docket. One copy was retained in this office and one by the operator.

The reason for the delay in getting these signed was due to Mr. Enloe being in the hospital. Work will start today.

Re: Docket DMA-19141, Mica
Exploration Project Contract
Idm-E191
Harold E. Enloe

Dear Mr. Laurence:

Enclosed herewith please find six (6) copies of contract for subject Exploration Project. We have signed for the Government and the contract bears registration Serial Number Idm-E191 and effective date of October 22, 1951.

The contract is to be signed by the Operator in the presence of yourself or member of the DMA staff without any changes to the contents. If any provisions are unsatisfactory to the Contractor, the contract must be returned to this office for re-execution.

After signing the contract, one copy is to be given to the Contractor and one copy retained for your office. The remaining copies including the original are to be sent to this office as soon as possible.

A copy of the contract required by the Regional Finance Office will be forwarded directly by the Washington Finance Section, together with accounting instructions.

Sincerely yours,

(signed) FRANK E. JOHNSON (for)

OCT 4 1951

MEMORANDUM:

TO: Director, Production Expansion Division
Defense Minerals Administration

FROM: Director, Supply Division
Defense Minerals Administration

SUBJECT: Recommendation for Contract Approval

Name of Applicant: Harold E. Enloe
Route 1
Franklin, North Carolina

DMA No. 1914X

Commodity: Mica

Amount Requested: $3,260

Amount Approved: $500

Government Participation: 90% $ 450

for Tom Lyon

DMA - 1914X

RECOMMENDATION

1. That an Exploration Aid Contract be granted in the amount of $500, Government participation 90%, in accordance with Exhibit "A" attached.

2. That the project be authorized in two Stages "A" and "B"; Stage "B" to be undertaken after successful completion of Stage "A" and approval by Field Team.

3. That operator be allowed 30 days from contract date to begin work under contract.

EXHIBIT "A"

Description of Work

Stage "A"

A bulldozer trench approximately 10' deep and 6' to 10' wide at the bottom will be excavated to a maximum length of 100' along the strike of the pegmatite. Approximate location of this work is shown on attached map; the exact location and direction of the trench will be mutually agreed upon in the field by Operator and Field Team. Total allowable cost $300, time limit 1 month.

Stage "B"

Subject to satisfactory completion of Stage "A" and approval by Field Team, two test pits approximately 6' in diameter will be dug in the bottom of bulldozer trench (excavated under Stage "A") to maximum individual depth of 8 feet. Exact location of the test pits will be mutually agreeable to Operator and Field Team. Allowable cost $200, time limit 1/2 month.

30 days

Fixtures & Improvements

Not applicable.

Operating Equipment and Supplies

Stage "A"

1 Bulldozer (rental) complete with operator, fuel repairs, etc., 30 hours @ $10 per hour $ 300

Stage "B"

Hand tools, supplies, contingencies 56

Labor and Supervision

Stage "A"

Included in Bulldozer rental contract.

Stage "B"

1 working foreman @ $1.25 per hour	$ 80
1 laborer @ $1 per hour	64

Rehabilitation and Repairs

Not applicable.

Memorandum

To: Chief, Industrial Minerals Branch, DMA

From: Chief, Programming and Planning, DMA

Subject: DMA 1914X
Harold E. Enloe, Franklin, N. C.
Commodity: Mica
Amount: 90% of $500 - $450

The prospective available supply of strategic mica is far short of meeting defense requirements. Consequently, it is highly desirable that exploration for new domestic deposits be stimulated by any reasonable Government assistance to private interests. Any exploration project that holds promise of finding significant new reserves, merits consideration by Defense Minerals Administration.

REPORT OF EXAMINATION BY FIELD TEAM, REGION VII

DMA-1914X, Garden Branch Mine (Enloe)

Macon County, N. C.

By

Kefton H. Teague, Geologist
U. S. Geological Survey
and

A. L. Peyton, Engineer
U. S. Bureau of Mines

September 19, 1951

UNITED STATES
DEPARTMENT OF THE INTERIOR

Report of Field Examination on
(Harold E. Enloe)
DMA-1914X, Garden Branch Mine
Macon County, N.C.

This property was examined on September 4, 1951 and re-examined on September 19, 1951. It is located 5 1/2 miles west of Franklin, Macon County, North Carolina, along the north side of Wayah Gap road. At this place two different pegmatites have been partically exposed. One is located about 100 yards west of Garden Branch and 100 yards north of Wayah Gap road. This occurrence is designated as the Lower Garden Branch prospect in this report. The other deposit is located near Garden Gap at the headwaters of Garden Branch, about one-half mile north of Wayah Gap road. This occurrence will be designated as the Upper Garden Branch Prospect.

Upper Garden Branch Prospect: At this place when first examined there was a 4-foot pit completely filled and overgrown. The applicant was informed that insufficient data could be obtained from the exposures to appraise the deposit. Following some pick and shovel work at the deposit by the applicant, it was re-examined.

The pegmatite is poorly exposed. It appears to be less than two feet thick, occurring in a semi-weathered biotite gneiss. Although quality of mica in the pegmatite appears to be satisfactory, it occurs only in small sizes. To obtain access to the property it would be necessary to construct a road for over one mile. Because the deposit is somewhat inaccessible, and is apparently small, it is the recommendation

of the Field Team that no work be considered at this place.

Lower Garden Branch Prospect- At this place one pit 7-feet deep has been dug in an east-west trending pegmatite. The pegmatite is approximately four feet thick where exposed in the pit and has a near vertical dip. It occurs in a weathered biotite gneiss.

Mica found at this place is light ruby in color, clear, flat, and splits well. Books up to 5-inches across occur in the dump. Mica books and flakes can be found in the soil along a strike distance of approximately 100-feet.

The Field Team believes that a limited amount of prospecting is justified at this deposit. It is recommended that a bulldozer trench approximately 100-feet long and 10-feet deep be dug on the pegmatite. Two small test pits (6-8-feet deep) are recommended if enough evidence is found to justify them.

Estimated Cost:

1/	1- Bulldozer (rental) @ $10/hr. for 30 hrs.	$300.	
	1 Working foreman @ $1.25/hr. for 8 shifts	80.	200
	1 Laborer @ $1.00/hr. for 8 shifts	64.	
	Miscellaneous hand tools	56.	
	Estimated total	$ 500.	
	Estimated Time 8 shifts		

1/ Includes operator, fuel, oil and repairs.

Review of Application for Exploration Assistance

Docket No. 194x

Commodity MICA

Total Amount $3260

Govt. Participation 90%

1. Name and Address of Applicant Harold E. Enloe
Route 1, Franklin, N.C.

2. Location of Property 6½ miles west of
Franklin, N.C.

3. Mineral or metal Mica Is it listed in Section 9 of MO-5?

If not, application will be rejected. YES

4. Geologic probability of discovery—based on data in application (question #16, 17, 18, 20 and 22)*

Mines or Survey reports, etc., do you rate chances:

a) Good

b) Poor

c) None

d) Don't know—needs field examination ✓

e) Is there an alternative and favorable project?
(If so, attach an explanation)

5. Is the applicant's right to the property clearly stated? Yes. owner
(question 5, 6, 7)*

6. If applicant is a lessee, is a copy of the lease attached? —

Does the lease have sufficient time to run to cover a future

productive period? —

*question numbers are those of MF-103

7. Are subordination agreements necessary? NO

a) MF-201? _____

b) MF-202 _____

8. From the data presented, does the proposed project appear feasible from the point of view of:

a) Available manpower Yes

b) Equipment and supplies Yes
(Question 14 plus general knowledge of availability)*

c) Accessibility (question 12)* Yes

d) Water (question 13)* Yes

e) Power (question 13)* Yes

Is a field check needed on any of these points? Yes

9. Does the experience of the applicant appear to be adequate to assure that he can properly conduct the proposed project? (question 4)* Yes

Is a field check needed on this point? NO

10. Exhibit A. (questions 21 and 22)*

a) Is the project adequately described? NO - Dimensions lacking

If not, are there sufficient data given so that you can describe the project? NO If so, attach a draft.

b) Is there an adequate map or sketch of the proposed work? NO

c) Is the proposed work "exploration" under the definition of Section 8, MO-5? Depends on extent of

If not, what part of it is? Bulldozing & need for some - Field team decide How much is advisable -

Field Team

Is this part a worthwhile exploration project? Decide

d) Are the cost estimates detailed? Not on footage basis

Can they be summarized, as on page 2 of Procedural Instruction 5-A, from the available data? NO If so, attach a draft.

e) Are the cost estimates reasonable? Appear so

f) Should more information be requested from applicant? By Field Team

g) Is a field examination necessary to complete Exhibit A? Yes

11. Exhibit B (question 23-d)*

a) Is it applicable? Not Applicable

b) If so, are sufficient data furnished? _____ If so, attach a draft.

c) Is a field check needed? NO

12. Exhibit C (question 23-e, f and g)*

a) Is it applicable? Yes

b) Sufficient data? Yes If so, attach a draft.

c) Are rents and charges reasonable? Appear so

d) Is a field check needed? Yes Actual needs

13. Exhibit D (question 23-a, b)*

a) Are there sufficient data? Yes

b) Is the schedule adequate for the work proposed? Yes

c) Is the schedule excessive for the work proposed? Field Team Decide

d) Are the proposed wages and salaries reasonable? Appear so

e) Is a field check needed? Yes

14. Exhibit E (question 23-c)*

a) Is it applicable? Not Applicable

b) Sufficient data?

c) Reasonable?

d) Field check needed? No

15. In your judgment, can the proposed work be done in the proposed time? Yes

(All exploration must be completed within two years)

16. If field examination is not needed, attach your recommendation.

17. If field examination is needed, do you have any special instructions for the field team not indicated by your answers to the foregoing question? Acquire all mining geologic data If geology & mica quality favorable work out a concrete program with Applicant and submit all necessary contract data and sketch map
