Re: Docket No. DMEA-351 - Mica
Styles-Fouts Mine
Yancey County, North Carolina

Dear Mr. Watkins:

Your application for aid for an exploration project and other reports available to us in Washington concerning the subject property have been reviewed.

Projects approved by the Defense Minerals Exploration Administration must, in its judgment, show definite promise of yielding material of acceptable grade in quantities that will significantly improve the mineral supply position for the National Stockpile Program.

Careful study of all our information, although noting a small amount of mica on your lease, indicates to us that the probability of disclosing minable ore reserves by your proposed program is not sufficiently promising to justify Government participation. We regret to advise you, under these circumstances, that your application for exploration assistance is denied.

We wish to thank you for your interest in the Defense Minerals Program and for bringing the property to our attention.

Sincerely yours,

C. O. Mittendorf

Administrator

Memorandum

To: Administrator

From: Nonmetallic Minerals Division

Subject: A closing review of Docket No. DMEA-2351 - Mica
Contract: None - A denial
Property: Styles-Fouts Mine, located along the east side of Plum Branch, 1.6 Miles North of U. S. Hwy. No. 19 and 3.9 airline miles from Burnsville, Yancey County, North Carolina.
Applicant: Clay W. Watkins, Lessee
913 Oakland Drive
Hendersonville, North Carolina
Amount applied for - $3,000

Closing Letter: Attached hereto is copy of letter denying assistance for this application.

Docket Summary:

1/14/53	Application received from Region VII.
1/14/53	Application acknowledged.
2/6/53	A field examination requested from Region VII.
2/8/53	Date of Report of Examination by Field Team, Region VII. Report written by Kefton H. Teague, USGS and Lawrence E. Shirley, USBM.
_____	Letter of denial of application sent to applicant.

Resume:

The examination report in part states: "A feldspar mine has been operated at this place. Occasional small pieces of ruby mica occur in the coarse feldspathic pegmatite, but not in sufficient quantity or size to justify exploration."

"This pegmatite appears to have merit as a producer of block feldspar, but there is no possibility for the production of strategic sheet mica, neither as the main product or as a by-product. Therefore, this application for exploration assistance should be denied."

Comment:

In view of the unfavorable report submitted by the BMRA Field Team, Region VII, the Nonmetallic Minerals Division concurs in a denial of this application.

Field Examination Report on

STYLES--FOUTS MINE

DMEA-2851, (Mica)
Applicant: Clay W. Watkins, 913 Oakland Drive,
Hendersonville, N. C.

A feldspar mine has been operatored at this place. Occasional small pieces of ruby mica occur in the coarse feldspathic pegmatite, but not in sufficient quantity or size to justify exploration. The application should be denied.

This property was inspected February 11, 1953. Mr. B. G. Woody accompanied the field examiners on the examination which required one hour.

The Styles-Fouts mine is located along the east side of Plum Branch, 1.6 miles north of U. S. Highway No. 19. It is 3.9 airline miles N. 68° E., of Burnsville, Yancey County, North Carolina. Access to the mine is good.

A feldspar pegmatite emplaced in hornblende gneiss has been worked along the strike for about 200 feet by numerous pits about 25 feet deep. It has been worked entirely for feldspar, and apparently very little mica has ever been recovered. The intrusion is more than 30 feet thick and contains perthite feldspar crystals more than two feet across. There is no apparent zoning present. The mica occurs as small thin books scattered throughout the pegmatite.

This pegmatite appears to have merit as a producer of block feldspar, but there is no possibility for the production of strategic sheet mica, neither as the main product or as a by-product. Therefore, this application for exploration assistance should be denied.

REVIEW OF FIELD TEAM REPORT ON APPLICATION DMEA-2851 (mica)

To: L. G. Houk, Defense Minerals Exploration Administration.
From: R. E. Van Alstine, U. S. Geological Survey.
Applicant: Clay W. Watkins, 913 Oakland Drive, Hendersonville, N. C.
Name of property: Style-Fouts mine.
Location of property: on east side of Plum Branch, 1.6 miles north of U. S. Highway No. 19. It is 3.9 airline miles N. 68° E., of Burnsville, Yancey County, North Carolina.
Date of field team report: February 18, 1953.
Authorship of field team report: K. N. Teague and L. E. Shirley
Field team's recommendation: No possibility for the production of strategic sheet mica; therefore, denial.
Comments: None

ACTION SUGGESTED: Follow field team's recommendation.

Dear Mr. Watkins:

Your application for assistance in exploring the Styles-Fouts Mine, Yancey County, North Carolina, has been reviewed by the Nonmetallic Minerals Division of the Defense Minerals Exploration Administration and has been referred to Mr. Robert A. Lawrence, Executive Officer, DMEA Field Team, Region VII, Room 13, Post Office Building, Knoxville 2, Tennessee, for a field examination.

The Regional Office will contact you at an early date in regard to the examination of the property. Any assistance that you may render the members of the field team during the examination will be appreciated.

Sincerely yours,

C. O. Mittendorf

INSTRUCTIONS

1. *Name of applicant.*—(*a*) State here your full legal name, in the form in which you will wish to contract, and your mailing address:

Clay W. Watkins
913 Oakland Drive.
Hendersonville, North Carolina

(*b*) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

(*c*) If a corporation, add to above statement, titles, names and addresses of officers.

(*d*) If a partnership, add to the above statement the names and addresses of all partners.

2. *General.*—Read DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. *Applicant's property rights.*—(*a*) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract

Strip of land 600 feet wide in Yancey County, North Carolina-owned by Frances M. Hamrick, Dover R. Fouts and wife, Madge Fouts. For legal description see copy of lease attached hereto.

(*b*) State any mine name by which the property is known. Styles-Fouts Mine.

(*c*) State your interest in the land, whether ~~owner~~, lessee, ~~purchaser under contract, or otherwise~~

Lessee.

(*d*) If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property.

(*e*) If you own the land, describe any liens or encumbrances on it

Do not own.

(*f*) If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice.

4. *Physical description.*—(*a*) Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes.

(*b*) State past and current production, and ore reserves, if any, giving quantities and grades.

(*c*) Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc.), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you.

(*d*) State the facts with respect to the accessibility of the project: Access roads, distances to shipping, supply and residence points.

(*e*) State the availability of manpower, materials, supplies, equipment, water, and power.

16—66551-1

See 4. attached hereto.

5. *The exploration project.*—(a) State the mineral or minerals for which you wish to explore Strategic Mica.

(*b*) Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed) of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, etc.

(*c*) The work will start within 60 days and be completed within 6 months from the date of an exploration project contract.

(*d*) State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations.

6. *Estimate of costs.*—Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings to give the estimated total cost of the project:

(*a*) *Independent contracts.*—(Note.—If the applicant does not intend to let any of the work to contractors, write "none" after this item. To the extent that the work is to be contracted, do not repeat the cost of the contract-work in subsequent items.) State the cost of any proposed independent contracts for the performance of all or any part of the work, expressed in terms of units of work (such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved, etc.).

(*b*) *Labor, supervision, consultants.*—Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants.

(*c*) *Operating materials and supplies.*—Furnish an itemized list, including items of equipment costing less than $50 each, and power, water and fuel.

(*d*) *Operating equipment.*—Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value, as the case may be.

(*e*) *Rehabilitation and repairs.*—Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project.

(*f*) *New buildings, improvements, installations.*—Furnish a detailed list showing the cost of any necessary buildings, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project.

(*g*) *Miscellaneous.*—Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes.

(*h*) *Contingencies.*—Give an estimate of any necessary allowances for contingencies not included in the costs stated above.

NOTE.—No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs.

7. (*a*) Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMEA No. 1)?

(*b*) How do you propose to furnish your share of the costs?

☑ Money ☐ Use of equipment owned by you ☐ Other

Explain in detail on acompanying paper.

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.
