OFFICIAL DOCKET FILE Contract No. _____ Docket No. OME-6855

Application
- [ ] Denied
- [x] Withdrawn

Contract
- [ ] Terminated - Not Certified
- [ ] Terminated - Certified
- [ ] Cancelled
- [ ] Royalty Agreement

The records contained in this file are marked (x) and arranged in this order:

Folder No. 1:

Left Side

- [ ] Royalty Audits
- [ ] Certification of Discovery
- [ ] Closing Letter
- [ ] Cost Audits
- [ ] Termination Notice or Agreement
- [ ] Recision Notice
- [ ] Assignment of Contract
- [ ] Contract Amendments
- [ ] Contract with all exhibits and annexes
- [ ] Owner's Consent to Lien and Subordination Agreement
- [x] Application and Attachments

Right Side

- [ ] Project Summary (final)
- [ ] Work Completed Analysis (final)

All other material filed in chronological order including the following reports if checked:

- [ ] Field Team Semiannual Report for Certified Project
- [ ] Final Field Team Report (Tab)
- [ ] Operator's Final Report (Tab)
- [ ] Interim Field Team Reports
- [ ] Operator's monthly reports and all attachments
- [ ] On-site Exam. Report (Tab)
- [ ] Settlement Sheets
- [ ] Drill Logs

Additional Folders:

Left Side

Folders No. _____: Reports

- [ ] Analysis of Semiannual Inspection Reports
- [ ] Project Summary (Interim) by MME Engineers

Right Side

- [ ] Field Team Semiannual Report for Certified Project
- [ ] Field Team Interim Reports
- [ ] Operator's Monthly Reports with Transmittal, Narrative and Maps

Folders No. _____: Maps (Use pocket folder or envelope)

Folders No. _____: Settlement Sheets

Folders No. _____: Drill Logs

Memorandum

To: Chief, Office of Minerals Exploration
Washington, D. C.

From: Field Officer
Region II

Subject: New Application (Silver)
Atlas Realty and Investments, Inc.
Silver Park Mine
Lincoln County, Nevada

Enclosed is one copy of a new application received in this office on July 22, 1971. A duplicate copy is retained in our files.

Although exploration may be warranted as recommended by J. D. Mason, the application is incomplete in the following numbered categories:

1. Financial Eligibility:

The Applicant's letters to the banks, while forthright, request a loan of $150,000, whereas the Government's share of the proposed project would be $37,500.

2. Applicant's Rights in Land:

The land is not controlled by the Applicant, but by its president under the terms of an Option Agreement from the owner, Nevada Park Mining Company, to Jesse H. Knight who executed an Assignment of Lease and Option to Purchase, and also executed an Irrevocable Power of Attorney in favor of Richard Knight, who is president and a director of the corporate Applicant. Lien and Subordination Agreements from the owner were not submitted with the application.

The Option Agreement is renewable at yearly intervals on June 8. An OME contract overlapping that date should require a renewal payment ($500.00) and receipt for one year in advance.

5. Exploration Work:

The Applicant proposes to explore the property by two methods: an unspecified type and amount of underground workings on the 50- and 65-foot levels, and 5,000 feet of core drilling in 10 holes from the surface in unspecified locations. The relationship of the work to the land boundaries is not illustrated or described.

7. Estimate of Costs:

It is not clear how the Applicant arrived at an estimated cost of $50,000. Total direct cost of diamond drilling was estimated to be $48,100 by J. D. Mason in 1968. In addition, the Applicant proposes to build a bunkhouse ($6,000), a hoist house ($2,000), and employ "... muckers, miners, trammers, hoistmen, millmen, etc." for an unspecified number of months.

No drilling bids are submitted, but figures are quoted from a bid received in 1964.

R. M. Smith
for H. K. Stager

MINERAL(S) FOR WHICH YOU WISH TO EXPLORE: Silver and Uranium

ESTIMATED COST OF PROJECT: $50,000.00

PROPERTY NAME	LOCATION COUNTY	STATE
Nevada Park Mining Co.	Lincoln	Nevada

GENERAL INSTRUCTIONS

Before filling out this application, please read the *OME Regulations for Obtaining Federal Assistance in Financing Explorations for Mineral Reserves* (30 CFR Chap. II). To assure prompt action, your application must provide all applicable material and information specified on the back of this application form. Avoid unnecessary correspondence and delays by submitting complete and accurate information. *Please submit two copies of this application and all accompanying papers* except as otherwise noted. Place your name and address on each sheet. Each item of information, maps, and reports required as a part of this application is described on the back of this form. Identify each attached statement by the item number to which it applies. If an item does not apply to your application, show the item number on your statement and after it write "not applicable." Maps or sketches should be used to supplement narrative descriptions of the property location and boundaries in item 2, existing mine workings and geology in item 3, and the proposed exploration work in item 5. When this information is not too complex, all of it may be shown on one map or sketch. All documents and other attachments submitted as a part of this application, except those in item 3(g) which you mark to be returned, become the property of the Government and will not be returned to the applicant. Send true copies, *not originals*, of leases, contracts, and other documents which are an essential part of your business records. *File this application with the Department of the Interior, U.S. Geological Survey, Office of Minerals Exploration, Washington, D. C., 20242, or with the nearest OME Field Office.*

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief, and that he would not ordinarily undertake the proposed exploration under current conditions and circumstances at his sole expense.

7/20/71.
DATED

Richard Knight

President
TITLE

A wilfully false statement or certification to any Department or Agency of the United States Government is a criminal offense. U. S. Code, Title 18, Sec. 1001.

INFORMATION REQUIRED WITH THIS APPLICATION

1. Financial Eligibility:

(a) Submit evidence of efforts made within 90 days preceding the filing of this application to obtain credit from your bank of account and at least one other banking institution or other private source of credit. Such evidence shall include (1) true copies of your letters to credit sources which show date of loan request, amount and terms requested, and proposed use of loan funds and (2) true copies of replies from credit sources. If the loan was offered under terms which you consider unreasonable, state why you consider them so.

(b) List names and addresses of affiliated, parent, or controlling companies or organizations and state extent and nature of their interest.

(c) State how you propose to furnish your share of the cost of the exploration work.

2. Applicant's Rights in Land:

(a) State your interest in the land and mineral rights, whether owner, lessee, purchaser under contract, or other. If you are not the owner, submit one true copy of the lease, contract, or other document (with address of owner) under which you control the property. Describe all liens, mortgages, or other encumbrances on the land and state book and page number and official place where recorded.

(b) State the legal description (section, township, and range; metes and bounds; patent number of claims) of the land upon which you wish to explore and all adjacent land which you own or control. Describe any part of the land or workings which should not be subject to Government royalty and liens. If the land consists of unpatented claims, state book and page number for each recorded location notice, including amended locations, and official place where recorded. State all the names by which you know the property.

(c) For all land or mineral rights encumbered or not owned, submit five copies of Lien and Subordination Agreements signed by owner on MME Form 52. If the agreements cannot be obtained, state reasons and whether you can furnish a performance bond.

3. Physical Description:

(a) Describe in detail and illustrate with maps or sketches all mining or exploration operations which you know have been or are being conducted upon the land. Include existing mine workings and all production facilities.

(b) State your interest, if any, in operations described in (a)

(c) State, if you know, the past and current production, supporting your statement with copies of settlement sheets, mine records, or published data if available.

(d) Describe known ore reserves, giving quantities and grades.

(e) Describe by narrative and maps or sketches the geologic features of the property, including ore minerals, geologic formations if known, and type of deposit (vein, bedded, etc.).

(f) If you have sampled the area you propose to explore, show where the samples were taken, describe sampling methods used, and provide copies of assay certificates. State your reasons for expecting to find ore.

(g) Send with your application at least *two* copies of all geologic or engineering reports, assay maps, or technologic information which you have, indicating whether you require their return.

4. Accessibility of Property:

(a) To aid the OME representative who may examine the property state name, address, and telephone number of person who will meet him; give directions for reaching the property; and describe accessibility of property and of any mine workings.

(b) Name the shipping and supply points and state the distances to the property.

5. Exploration Work:

(a) Describe fully the proposed exploration work giving individual footages and sizes of openings *for each item of work*. Use narrative, maps, plans, and sections as necessary. Show location of the proposed work as related to geologic features such as veins, ore-bearing beds, contacts of rock formations, etc. Show also the relation of the proposed work to any existing mine workings and to *land boundaries* or to the closest identifiable corner.

(b) If an access road must be built, show the proposed location on the property map and state the length, type and construction methods proposed.

(c) If an OME contract is executed, state how soon thereafter work would be started and finished. State your anticipated average daily or monthly rate of progress for each type of work.

6. Experience:

State your operating experience and background to conduct this exploration work and also that of the person who will supervise the work.

7. Estimate of Costs:

Furnish detailed estimates of the necessary costs for time and materials *for each item of the work proposed in 5(a)* under the headings listed below with a total for each heading and the estimated total cost of the work. Costs for any work to be performed by an independent contractor should be listed separately under category (a) below. Costs for any work that is not to be performed by an independent contractor should be listed under categories (b) through (g).

(a) Independent contracts. State the total cost of any proposed independent contract for all or any part of the work, and the number of units and the unit cost for each type of work, such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, or per cubic yard of material moved. Cost estimates should be supported by bids from three contractors if possible. (*Note*—If none of the work is to be contracted, write "none" after this item.)

(b) Personal services. The cost of supervision, engineering and geological services, outside consultants, and labor should be itemized by numbers and classes of employees; rates of wages, salaries or fees; and periods of employment. State whether these services are available.

(c) Operating materials and supplies. List items of material and supplies giving quantity and price of each. Include under this heading power, water, and fuel, and units of equipment and tools costing less than $50 each.

(d) Operating equipment. List items of equipment and tools costing $50 or more per unit. Give specifications and indicate how each item is to be acquired—i. e., rented, purchased or provided by the applicant. If rented or purchased, state the estimated rental or purchase price. If furnished by the applicant, state condition and present fair market value.

(e) Initial rehabilitation and repairs. Describe the type and the cost of *initial* rehabilitation or repair of existing buildings, fixtures, installations (exclusive of mine workings), and movable operating equipment now owned by the applicant which will be used in the exploration work.

(f) New buildings, fixtures, installations. Describe each building, fixed improvement, and installation to be purchased, constructed, or installed for the exploration work, stating specifications and cost including labor, materials, and supervision.

(g) Miscellaneous. Describe the type and estimate the cost of repairs and maintenance of the operating equipment listed in 7(d). Do not repeat initial repairs listed in 7(e). Show also the costs of analytical work, accounting, workmen's compensation and employees' liability insurance, payroll taxes, and other required costs that do not fall within the previous categories. [*Note*—The Government will not contribute to costs incurred before the date of the contract, or to costs of or incident to: (1) acquiring, using, or possessing land and any existing improvements, facilities, buildings, installations, and appurtenances, or the depreciation and depletion thereof; (2) general overhead, corporate management, interest and taxes (other than payroll and sales taxes); (3) insurance (other than employees' liability insurance); and (4) damages to persons or property (other than authorized repair to or replacement of equipment or other property used in the work).]

Atlas Realty and Investments, Inc.

OME LOAN APPLICATION - INFORMATION REQUIRED WITH APPLICATION

1. FINANCIAL ELIGIBILITY:

(a) Letter from three banking institutions submitted herewith, together with our letters to them.

(b) No affiliations, parent companies nor controlling companies involved in this application.

(c) We propose to furnish our share of the cost of the exploration work through personal capital, machinery, engineering and labor of stockholders of the company.

2. APPLICANT'S RIGHTS IN LAND:

(a) Our right and interest in the property lies in assignment of lease and option with Nevada Park Mining Company as held in escrow with The Continental Bank and Trust Company, 200 South Main Street, Salt Lake City, Utah, known as the Holbrook-Knight Escrow No. 5740-E, copy of which is submitted.

There are no liens, mortgages, or other encumbrances on the property. Richard Knight is also the principal stockholder in Nevada Park Mining Company, owning over 200,000 shares of the 500,000 shares authorized and outstanding.

(b) Legal description: The Sam Tilden Lode, being Mineral entry No. 364, surveyed as Lot No. 40 containing 20.34 acres, more or less and described as follows: Beginning at Cor. No. 1, a post marked No. 1, U.S. Mineral Survey No. 40, from which the Flagstaff in Silver Park, marked "U.S.Mineral Monument No. 1," bears N. 81 degrees E. at the distance of 381 feet, and post No. 4, of Survey No. 38, made for the Miners Delight Lode, bears N. 70 degrees E. at the distance of 1660 feet, and working shaft on this claim bears N. 50 degrees 30' W. at the distance of 800 feet; thence from said Cor. No. 1, S 71 degrees W. 600' to Cor. No. 2, a post marked "No. 2, U.S. Survey No. 40"; thence N. 29 degrees W. 1500 feet to Cor. No. 3, a post marked No. 3, U.S. Survey No. 40", thence N. 71 degrees E. 600' to Cor. No. 4, a post marked "No. 4, U.S. Survey No. 40";thence S. 29 degrees, east 1500' to the place of beginning, containing20.34 acres of Land, more or less and embracing 1500 linear feet of the Sam Tilden Lode, to-wit: 700 Linear fe et Southeasterly and 800' northwesterly from location notice on said Lode.

Also the Roadside Lode, being mineral entry No. 363, surveyed as Lot No. 41, containing 20.34 acres, more or less and particularly described as follows: Beginning at Cor. No. 1, a post marked "No. 1, U.S. Survey No. 41", from which the Flagstaff in Silver Park, marked U.S. Mineral Monument No. 1", bears N. 81 degrees, East, at the distance of 381' and post No. 4 of Survey No. 38 made for the Miner's Delight Lode, bears N. 70 degrees East at the distance of 1660'; thence from said Cor. No. 1, N. 71 degrees east 600' to Cor. No. 2, a post marked "No. 2, U.S. Survey No. 41" thence N. 29 degrees, west 1500' to Cor. No. 3, a post marked "No. 3, U.S. Survey No. 41; thence S. 29 degrees East 1500' to the place of beginning, containing 20.34 acres of land, more or less and embracing 1500 linear feet of the Roadside Lode tO-wit: 750 linear feet Northwesterly and 750 linear feet Southeasterly from location notice on said Lode:

Atlas Realty and Investments, Inc.

P. O. 2516

Salt Lake City, Utah 84110

Also the Summit Lode, being Mineral Entry No. 362, surveyed as Lot No. 42, containing 20.34 acres, more or less and particularly described as follows: Beginning at Cor. No. 1, a post marked "No. 1, U.S. Mineral Survey, No. 42 from which the Flagstaff in Silver Park, marked "U.S. Mineral Monument No. 1", bears S. 55 degrees West at the distance of 235 feet and Post No. 4 of Survey No. 38 made for the Miner's Delight Lode, bears N. 69 degrees East at the distance of 1060'; thence from said Cor. No. 1, N. 71 degrees east 600' to Cor. No. 2 a post marked "No. 2, U.S. Survey No. 42"; thence N. 29 degrees West 1500 feet to Cor. No. 3, a post marked "No. 3, U.S. Survey No. 42"; thence S. 71 degrees West 600' to Cor. No. 4, a post marked "No. 4, U.S. Survey No. 42"; thence S. 29 degrees East 1500' to the place of beginning, containing 20.34 acres of land, more or less and embracing 1500 linear feet of the Summit Lode, to-wit: 750 linear feet Southeasterly and 750 linear feet Northwesterly from location post on said Lode.

The Land Office Numbers are as follows: - All Patented Claims.

Name of Claim	Lot Number	General Land Office Number
Summit Lode	42	3996
Roadside Lode	41	3997
Sam Tilden Lode	40	3998

3. PHYSICAL DESCRIPTION.

(a) Maps and sketches indluded in two Engineer's reports are included as part of this application. In addition to the shafts and drifts mentioned in the engineer's reports, there is a man-way, or incline shaft leading on a 45 degree angle from 75' away from the main shaft - leading down to the 50-65' level of the main shaft, where three drifts and some stoping has been done on those levels.

1½ miles distant is the 500 ton per day mill erected in 1965 by Eugene Jordan Associates to ~~the~~ mill the Atlanta Gold and Uranium gold ore. With slight changes, this mill could be adapted for use in milling the ore for which we are exploring and for which this application is being made.

(b)The interest of R. Knight, president of Atlas Realty and Investments, Inc., has been to hold the property together for the past 17 years as principal stockholder in Nevada Park Minig Company, and to keep the shaft and man-ways open and available for inspection - mucking out where necessary and making general repairs in the interest of safety and up-keep of the property.

(c) See separate sheet showing assay reports and information relative to settlement sheets, etc.

(d) Shown in both Engineer's reports.

(e) " " " " "

Atlas Realty and Investments, Inc.

P. O. 2516

Salt Lake City, Utah 84110

3. (f) Shown in engineer's reports. - From their samples, as well as copies of assay sheets, reports submitted herewith.

(g) Two copies of Clyde Collins, J/D. Mason reports, herewith submitted. Both engineers are registered.

4. ACCESSIBILITY OF PROPERTY.

(a) Name of person who will meet with OME representative; Richard Knight, 1234 Old Canyon Drive, Hacienda Heights, California - 91745, - telephone 213-333-3816.

Direction for reaching the property shown on attached maps. After reaching Atlanta District, turn-off roads from the main county road to Atlanta, will be well marked by signs, - "Nevada Park, or Silver Park".

The 400' shaft has not been used for many years except as access to the 50' and 65' level drifts. These drifts are also reached by man-way mentioned previously, which have been recently cleared of muck and cave-ins to facilitate inspection.

(b) The shipping point for our ore will be either Caliente, Nevada, or Ely, Nevada, about 75 miles, either way. Supply points are Pioche, 51 miles; or Ely, 75 miles.

5. Exploration Work.

(a) Inasmuch as both mining engineers who have examined the property and have made detailed recommendations relative to exploration and development, it is planned to follow those recommendations in addition to exploring for present and new ore bodies on the 50' and 65' levels where some shipments have been made by lessees, using two to five men in this operation while drilling is being made.

The size of the openings are all standard, excepting the opening to the man-way mentioned above, which is some two feet at the portal.

(b) No access roads need be built. Lincoln County graveled road leads from black-top Highway 93 at Pony Springs, for 21 miles to Atlanta; Our private dirt road leads directly to main shaft and other points on the property.

(c) If OME contract is executed, work thereon will begin immediately. I anticipate from conversation with the drilling companies that their work could be completed in several weeks from beginning.

6. EXPERIENCE.

My experience in this type of work outside of the actual drilling, which will be made by independent contractor, has been thirty years of general management of some twenty mining companies under family ownership in addition to serving of the Boad of Directors of some thirteen subsidiary mining companies of Anaconda Copper Company in the Tintic Mining District of Utah.

Practically, I have personally mined, mucked, timbered, laid track, set square-sets in heavy ground on extensive (1400') of tunneling on Great Western Mines Company property in Big and Little Cottonwood and Snake Creek Canyons in Salt Lake and Wasatch Counties of Utah.

Atlas Realty and Investments, Inc.

P. O. 2516
Salt Lake City, Utah 84110

7. ESTIMATES OF COSTS.

(a) Independent Contract: (Sprague and Henwood.)(1964 figures)

Item 1. Mobilization and Demobilization. - Lump sum. $550.00

Item 2. Coredrilling, vertical holes - Sizes:

Depths:-	NX	BX	AX
0 - 250'	$7.85/ft	$7.50/ft.	$7.25/ft
250 - 500'	8.75	8.40	8.15
500 - 750'	9.75	9.40	9.15

Item 3. Reaming - Sizes BX to NX . . . . . $4.00/ft.
AX to BX . . . . . 3.65/ft.

Item 4. Cementing, or drilling cement, per hr. $15.00

Item 5. Standby time. . . . . " " 13.50

Item 6. Casing left in place, or lost in hole @ current list prices.

Item 7. Cement, drill mud and materials @ invoice cost plus 10%, f.o.b. jobsite.

7. PERSONAL SERVICES.

(a) Engineering and Technical Services Available at Site:

Daily Rate, with one aide. $110.00/day
with no aide 75.00/day

Weekly rate (five days) . . . . . 300.00/wk.
Monthly rate (4.3 weeks) . . . . . 1150.00/Mo.

Labor and Aides: Daily rate - $3.50/hr. plus 15% for labor load or $4.025/hr; $35.00 per eight hour shift, includes payroll taxes and industrial insurance.

Weekly rate: - $165.00 per 40 hr. week.
Monthly rate: (4.3 weeks) . . . $700.00/month.
Mileage: Any work more than 25 miles from Pioche, will include a charge of 15¢ per mile going to and returning to Pioche, Nev.
Expenses: To include but not necessarily limited to meals, lodging, and phone calls made in behalf of the client. Also any drafting and survey supplies as agreed to by the client and the consultant.

Personal Services of T. Knight, General Manager: Going rate for hard-rock miners, or $50.00 per day, during government contract participation.

Personal Services of muckers, miners, tammers, hoist-men, mill-men, etc.: - to be arrived at going rate for such help or as outlined in above.

Atlas Realty and Investments, Inc.

P. O. 2516

Salt Lake City, Utah 84110

7. ESTIMATE OF COSTS.

(c) Operating materials and supplies.

5 shovels @ $6.00	$30.00
5 miner's picks @ $7.00	35.00
Cable for slusher	50.00
4 - Five gallon water cans for fresh water @ $2.50	10.00
Carbide lamps (in lieu of electric power)	50.00
Galvanized tin or fiber-glass for roofing	50.00
Nails, screws, misc. small tools	50.00

(d) Operatin Equipment.

Used Compressor	600.00
Slusher	300.00
Tugger	1075.00
Powder, caps, fuse-	100.00
Rails, fish plates, spikes, ties, etc.,	100.00
Misc. pipe (water & air)	100.00

(e) Initial rehabilitation and Repairs.

Headframe is the only usuable structure. To brace up and put into usaable condition. 200.00

Bunkhouse, including 5 bunks, table, heating, cooking facilities 6,000.00

(f) New buildings, fixtures, installations.

Hoist house, tool house. 20' x 20', frame. . . . 2,000.00

(g) Miscellaneous.

Initial accounting and bookeeping will be done by manager, under supervision of CPA, who will set up and audit books, figure payroll taxes, insurance, workmen's compensation, etc., at such time as the work begins.

June 15, 1971.

Mr. Richard Clark
Walker Bank and Trust Company
175 South Main
Salt Lake City, Utah

Dear Dick:

Six years ago I was applying for a government loan through their OME assistance program and they required the enclosed letter from two banks as evidence that I had attempted to obtain financing through that avenue before applying for the OME loan.

Again this summer I am embarking on another mining venture and need a similar letter for the same purpose. Unless your good bank would be interested in lending $150,000 for such a venture, I'd greatly appreciate having such a letter from you to go with my current application to the government. Incidently, the government, nor no one else has ever lost dime one on any of my mining ventures, while many have gained.

Trusting all is well in Zion and with you in particular, I am

Sincerely yours,

Dick

RICHARD H. CLARK
VICE PRESIDENT

Nevada Park Mining Company
P. O. Box 2516
Salt Lake City, Utah

Gentlemen:

In connection with your recent request for a loan in the amount of $150,000, we wish to inform you that this bank is not in the position at the present time to entertain such an application. It is not our policy to make loans for the purposes of mining exploration.

We sincerely trust that you will be able to make some other arrangements which will develop your needed funds.

Sincerely,

Richard H. Clark

RHC:cw

Temporary Address: 1234 Old Canyon Drive

Mr. Albert C. Giannini, President
The First National Bank of Ely
Ely, Nevada

Dear Sir:

We are currently applying for a government SBA assistance loan to develop some silver property near Pioche, and need evidence in writing that we have failed to get the necessary capital through a bank or private sources. A letter from your bank would serve this purpose, since I am sure that it is not your policy to lend $150,000 to individuals or groups for exploration projects in mining, regardless of the promise of success of the venture.

Trusting that we may hear from you in the near future, I am

Very truly yours,

Richard Knight

Hacienda Heights, California 91745

Dear Mr. Knight:

Please be advised that your application for a loan in the amount of $150,000.00, proceeds to be used in the exploration of mining property in the vicinity of Pioche, Nevada, has been declined due to the speculative nature of this type of a venture.

Very truly yours,

Albert C. Gianoli

Albert C. Gianoli
President

June 15, 1971.

Mr. George E. Caine
First Security Bank of Utah, N.A.
Main @ First South Office
Salt Lake City, Utah

Dear Mr. Caine:

Enclosed is a letter you furnished me for Nevada Park Mining Company in 1965.
We are again embarking on an exploration and development program for this property since litigation and Charter problems prevented our completing application to the Government OME program in 1965.

If you would be kind enough to furnish me a similar letter to the one enclosed, it will be greatly appreciated. The OME application requires that we show failure to obtain the necessary capital through banks and or other private scources.

Thanking you kindly, I am

Very truly yours,

Richard Knight

Atlas Realty and Investments, Inc.
Nevada Park Mining Company Property
Lincoln County, Nevada

Gentlemen:

This is in reply to your letter of September 3, 1971 withdrawing your application for financial assistance to explore the Nevada Park Mining Company Property, and requesting return of engineering reports, maps, and other material submitted with the application.

We regret that you are withdrawing the application but we will consider it as withdrawn. Should you wish to reapply at a later date, please refer to this docket number and submit such information as is necessary to update and complete the present application.

As requested, we are returning herewith the following material:

Option Agreement between Holbrook and Knight dated June 8, 1968 - 8 pages
Irrevocable Power of Attorney - 1 page
Assignment of Lease and Option to Purchase - 1 page
C. E. Collins' report dated November 5, 1963 - 7 pages and 1 map.
J. D. Mason report dated December 17, 1968 - 8 pages and 1 map.
Location map and maps of Nevada Park Mine - 3
List of assays and copy of two assay certificates - 2 pages

Sincerely yours,

Harold Kirkemo

Re: OME-6855 (Silver-Uranium)
Atlas Realty and Investments, Inc.
Nevada Park Mining Company Property
Lincoln County, Nevada

Gentlemen:

Preliminary review of your application for financial assistance in exploring the subject property indicates that additional information is needed before we can continue its processing.

1. New letters to and from two banks are needed indicating a request for an amount representing the Government's share of the cost of the exploration, in this case, $37,500. The letters of request to the banks submitted with the application are clearly requests for an outright letter of rejection and as such are not acceptable.

2. We note under paragraph 4 of the Option Agreement, dated June 8, 1968, that the Optioner does not have title to the claims described in the application and neither warrants nor agrees to defend the title to them. If an applicant does not own the property which he proposes to explore, Lien and Subordination Agreements must be obtained from the owners. It appears from the Option Agreement that it would be difficult or impossible to secure such Lien and Subordination Agreements in this instance. Therefore, a performance bond in the amount of the Government's participation, $37,500, would have to be posted by the applicant in the event of a contract. It is requested that you state whether you can furnish a performance bond in lieu of the agreements.

3. A map showing the claims or property described in the application should be submitted.

4. The type and amount of work proposed on the 50- and 65-foot levels should be specified and shown on a map or sketch with the specific target of the work indicated. Likewise, the location, approximate depth and direction of the proposed drill holes should be shown on a map with their specific target of exploration indicated. The relationship of all of the proposed exploration to property boundaries should be indicated on the maps or sketches.

5. Cost estimates for any work to be contracted should be supported by recent bids from three contractors if possible. The application quotes figures from a 1964 bid which may not reflect present prices.

We should mention that budget restraints in fiscal year 1972, which started July 1, 1971, will restrict the OME program to a very few of the more promising proposals. However, we shall be pleased to continue the processing of your application upon receipt of the requested information. This request for additional information should not be construed as a commitment by the Government to grant an exploration contract.

Sincerely yours,

Harold Kirkemo
