Memorandum

To: Stanley Walker, Chief, Mining and Utilities Branch
Defense Minerals Administration

From: Executive Officer, DMA Field Team, Region IV

Subject: DMA Docket 1362 (NM-63) Swift and Kuhfus, Grandview Tungsten Mine, Socorro County, New Mexico

Attached are the original and two copies of a letter from Swift and Kuhfus, withdrawing the subject access road application. The Grandview Tungsten Mine is on the White Sands Bombing Range, Socorro County, New Mexico and the Army has asked that the property be vacated.

J. H. East, Jr.

Re: Access Road (AR-63),
Grandview Tungsten
Socorro Co., N. Mex.

Mr. H. E. Kuhfus
4262 West First St.
Los Angeles 4, Calif.

My dear Mr. Kuhfus:

We understand from our engineer, Mr. Grant R. Rubly, who visited New Mexico last month to check your application for an access road to your Grandview tungsten mine in Socorro County, New Mexico, that your property is on the White Sands Bombing Range and that you now cannot operate it.

Will you please give us written confirmation of this and if you cannot operate on the bombing range will you please withdraw your application for an access road? This will clear our records.

Sincerely yours,

Walter R. Storms, Chief
Arizona-New Mexico Branch

Dear Mr. Kuhfur:

Your letter of July 30 concerning your exploration application DMA-1362 has come to my attention. The application is still in Washington, however, we are advising Mr. W. R. Storms that you can be contacted at the Yucca Lodge on Thursday or Monday. Presumably, he will have an examiner contact you whenever an investigation is made.

Sincerely yours,

Paul T. Allsman for

Mr. J. H. East Jr.
D.M.A. 224 - New Custom House
Denver, Colorado.

Dear Mr. East,

We have two reports on our tungsten property in Socorro County, N.M. - one by Mr. A.S. Walters, the other by Jack Pierce formerly with the New Mexico Miner & Prospector Magazine.

Both reports have been sent to Washington, D.M.A. Mr. Bradley.

We believe our property can be an important producer of tungsten - furthermore since the property has a forty-six foot shaft - in ore and other openings we believe we can produce worthwhile tonnage quickly.

Your Engineer can readily attest to the mineralization, of that we are certain. We hope you will be able to assign a man to our project soon.

We are in town Thursday & Monday A.M. at the Yucca Lodge.

Very truly yours,
Swift & Kuhfuss
By H.E. Kuhfuss.
