Re: Docket No. DMA-445

REGIONAL DIRECTOR'S OFFICE REGION IV JAN 29 1951 BUREAU OF MINES DENVER, COLORADO

Mr. R. A. Airheart
President, Reese Mining
Company
718 North Coronada Street
Los Angeles 26, California

Dear Mr. Airheart:

Your application for a $29,000 loan has been studied by the Copper Branch. It appears that this project has a considerable element of exploration in it. As yet procedures have not been completed to handle exploration loans.

If you wish, we will keep this application on file until it can be evaluated under the requirements for exploration projects.

Thank you for your interest in the defense minerals program.

Very truly yours,

/s/ J. K. Richardson
