Re: Vindicator Group
DMA Docket No. 1283

Dear Mr. Clark:

Your application of May 15, 1951, DMA Docket No. 1283, for an exploration project has been received by the Minor and Rare Metals Branch of the Supply Division. Before a decision can be reached on your request it will be necessary to obtain additional information.

I am enclosing herewith five copies of Form MF-103, to be executed by you in quadruplicate. I am also enclosing Contract Form MF-200, which I suggest you review carefully at this time. In the event your project is given preliminary clearance, the next step is to execute a formal contract; unless the exhibits referred to (Exhibits A to E, inclusive) are complete in all details, including maps, some delay will result. I would suggest therefore that you prepare this material immediately and forward six copies to this office.

Please note that a detailed map of your proposed exploration is made a part of the contract, together with all other exhibits.
