Mr. William E. Kin,
Hereford, Arizona

Re: Kelly Mines, Arizona
DMA Docket - 1339

Dear Mr. King:

Your letter of May 10, 1951, together with five yellow prospect notices, covering the Kelly Mines, Santa Rita Mountains district, has been referred to the Minor and Rare Metals Branch.

I am enclosing herewith copy of Mineral Order 5, entitled, "Regulations Governing Severance Payments in Defense Exploration Projects". I am also enclosing herewith five copies of Form DF-103, which I would appreciate your completing in quadruplicate and returning to the office of the undersigned. Please note that all questions asked on Form DF-103 must be completed on separate typewritten sheets and in considerable detail. Unless you already have maps showing the locations of your claims, mineral showings, and the "pin-point" the proposed exploration operations, it will be rather difficult for us to process your application. I would ask therefore that you read the questions on Form DF-103 carefully and prepare as detailed report as possible in supporting your application.

Please refer to your docket number in all correspondence.

Yours very truly,

Joseph Bourret
Acting Chief
Minor and Rare Metals
