Re: Docket No. DMA-1398

Mr. Sharky R. Shipman
Pidgeon Company Mines
Box 1903
Prescott, Arizona

Dear Mr. Shipman:

Your application, Form MF-100 has been referred to the Copper Branch of the Defense Minerals Administration. In order to apply for a loan for our exploration project, it will be necessary for you to file Form MF-103, of which we are enclosing five copies. In filling out this form it will not be necessary to repeat any information you have supplied in Form MF-100, but each of the questions which are not marked by an asterisk should be answered in full. We are not sure whether we can process alllate applications before the Defense Production Act of 1950 expires on June 30, 1951, or unless the Act is extended. It is therefore essential that the information supplied be complete.

For your information we are also enclosing copies of press releases dated April 11, and May 14, 1951.

Very truly yours,

J. B. Gowen

J. B. Gowen, Acting Chief
Copper Branch, DMA
