Re: Uranium - DMA-1777

Dear Mr. Foreman:

Receipt of your letter of January 14, 1952, is hereby acknowledged.

Review of your application indicates that your project consists essentially of exploration, whereas your request was for a mine development loan.

The program for exploration assistance is described in the enclosed press release of May 14, 1951, and MD-5, as amended. If you decide to request an exploration project, application should be made on forms MF-100 and MF-[illegible], (five copies of each enclosed), to Defense Minerals Exploration Administration, Department of the Interior, Washington, D. C. Four copies of each of these forms should be submitted, with full and complete answers to all the questions, preferably on separate sheets of paper. The extra copies are for your files.

Very truly yours,

Tom Lyon
