Fremont County, Wyoming

Gentlemen:

On June 2 we wrote you regarding your application for Government assistance on the cited exploration project.

Since we have had no reply to our letter we must assume that you are no longer interested. Therefore, your application is being placed in the inactive file.

Sincerely yours,

C. O. Mittendorf

Gentlemen:

On April 29 we wrote you with reference to your application for aid in the cited exploration project. We advised you that further information was necessary before we could proceed with your application.

To date we have had no reply to our letter. Unless we hear from you within thirty (30) days we shall assume that you are no longer interested and your application will be placed in the inactive file.

Sincerely yours,

W. R. Griswold

Re: Docket No. DMEA-3788 (Copper)
Anderson Mining Company
Fremont County, Wyoming

Gentlemen:

We have received your application for aid in an exploration project in Fremont County, Wyoming. Before we can proceed with your application, you should provide us with certain additional information.

We should have a property map showing your three unpatented mining claims, with the claim names. On this map you should also show the approximate location of your proposed work.

Since you propose to first do 4,000 feet of diamond drilling, it would be well to postpone any work of underground exploration until you have the drilling results.

We note that you state you would furnish your share of the cost of the proposed project by use of your own equipment, your labor and maintenance of all equipment and supervisory work, your travel time and certain necessary materials as they are needed. We must point out that, under the proposed diamond drilling, the principal cost item would be the payments to the diamond drill contractor. Hence, it would be necessary for you to have funds available to cover current payments for such work. If a contract with the Government was in effect you would be reimbursed for half of such approved expenditure.

Also, please forward us copies of any assay results or settlement sheets covering ore sales which you may have available.

We shall hold your application in abeyance until we hear from you.

Sincerely yours,

W. R. Griswold

Re: DMEA-3788
Anderson Mining Co.
(Anderson Property)
Fremont Co., Wyo.
$103,286.80 - Uranium

Memorandum

To: E. W. Ellis, Defense Minerals Exploration Administration

From: E. L. Newcomb, U. S. Geological Survey

Subject: Review of application

The applicant plans a program consisting of 4,000 feet of core drilling and 100 feet of drifting. The estimated costs on many items are exhorbitant; for example, $400 per foot for drifting.

Although copper and uranium mineralization are reported by the operator and a shipment of ore sent to American Smelting at Garfield, Utah, there is not sufficient data presented to fairly appraise the prospect. The operator should be requested to submit ore purchase certificates, sample assays for uranium and copper from the short drift and crosscut tunnel, and any private reports prepared on the property. A limited amount of uranium exploration may be warranted, but further information should be obtained before a possible field referral is considered.

Re: Exploration Assistance

Anderson Mining Company
323 "I" Street
Rock Springs, Wyoming

Gentlemen:

The receipt of your application dated (not dated) for exploration assistance under the Defense Production Act of 1950, as amended, is hereby acknowledged.

Your application has been assigned Docket Number DMEA 3788 and referred to the Base Metals Division.

Kindly identify all future correspondence relating to your application by this docket number.

Sincerely yours,

Robert E. Adams, Chief
Operations Control and
Statistics Division

April 25, 1955

April 19, 1955

Memorandum

To: Secretary to the Operating Committee, DMEA

From: Executive Officer, DMEA Field Team, Region III

Subject: Application for DMEA assistance (Copper-Uranium), Anderson Mining Company, Fremont County, Wyoming

Enclosed are the original and two copies of the subject application for Government assistance.

The application as submitted is incomplete and the following information should be requested from the applicant:

(1) The names of the various claims included in the application.

(2) The total estimated cost of the project.

(3) Copies of a claim map showing the location of the proposed work. A section drawing was submitted by the applicant but we still need to know the relationship of the applicant's proposals to the property boundaries.

Please advise if we should request this information from the applicant or if it should be obtained by Washington office personnel after a review of the application has been made.

One copy of the application has been retained in this office.

APPLICATION FOR AID IN AN EXPLORATION PROJECT, PURSUANT TO DMEA ORDER 1, UNDER THE DEFENSE PRODUCTION ACT OF 1950, AS AMENDED

Not to be filled in by applicant

Docket No. 3788
Metal or Mineral Copper, Uranium
Date Received 4-25-55
Estimated Cost $103,286.80
Participation (Government %)

INSTRUCTIONS

1. *Name of applicant.*—(*a*) State here your full legal name, in the form in which you will wish to contract, and your mailing address: Anderson Mining Company - 323 "I" Street, Rock Springs, Wyoming
John M. Anderson - 323 "I" Street, Rock Springs, Wyoming
Dean H. Gookin - 90 Center Street, Rock Springs, Wyoming
Myron V. A. Megeath - 914 McKeehan Avenue, Rock Springs, Wyoming

(*b*) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

(*c*) If a corporation, add to above statement, titles, names and addresses of officers.

(*d*) If a partnership, add to the above statement the names and addresses of all partners.

2. *General.*—Read DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. *Applicant's property rights.*—(*a*) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract
(See Attached Sheet)

(*b*) State any mine name by which the property is known. Anderson Mining Company

(*c*) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise Unpatented Mining Claims on Public Land

(*d*) If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property.

(*e*) If you own the land, describe any liens or encumbrances on it -

(*f*) If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice. Book 61 Page 90; Book 61 Page 92; Book 61 Page 94

4. *Physical description.*—(*a*) Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes.

(*b*) State past and current production, and ore reserves, if any, giving quantities and grades.

(*c*) Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc.), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you.

(*d*) State the facts with respect to the accessibility of the project: Access roads, distances to shipping, supply and residence points.

(*e*) State the availability of manpower, materials, supplies, equipment, water, and power.

5. *The exploration project.*—(*a*) State the mineral or minerals for which you wish to explore Copper and Uranium

(*b*) Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed) of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, etc.

(*c*) The work will start within 60 days and be completed within 24 months from the date of an exploration project contract.

(*d*) State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations. See Attached Sheet

6. *Estimate of costs.*—Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings to give the estimated total cost of the project:

(*a*) *Independent contracts.*—(Note.—If the applicant does not intend to let any of the work to contractors, write "none" after this item. To the extent that the work is to be contracted, do not repeat the cost of the contract-work in subsequent items.) State the cost of any proposed independent contracts for the performance of all or any part of the work, expressed in terms of units of work (such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved, etc.).

(*b*) *Labor, supervision, consultants.*—Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants.

(*c*) *Operating materials and supplies.*—Furnish an itemized list, including items of equipment costing less than $50 each, and power, water and fuel.

(*d*) *Operating equipment.*—Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value, as the case may be.

(*e*) *Rehabilitation and repairs.*—Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project.

(*f*) *New buildings, improvements, installations.*—Furnish a detailed list showing the cost of any necessary buildings, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project.

(*g*) *Miscellaneous.*—Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes.

(*h*) *Contingencies.*—Give an estimate of any necessary allowances for contingencies not included in the costs stated above.

NOTE.—No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs.

7. (*a*) Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMEA No. 1)? Yes

(*b*) How do you propose to furnish your share of the costs?

☐ Money ☒ Use of equipment owned by you ☒ Other

Explain in detail on acompanying paper.

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

3. Applicant's Property Rights:

(A) Beginning 1500 feet NE of the discovery monument location set forth in the notice of location filed in the office of the County Clerk and Ex-Officio Register of Deeds in and for Fremont County, Wyoming,- by John M. Anderson, Robert Jack and Gary W. Hawks, and beginning at the SW end of the center monument and running thence SE 300 feet to the SE corner of monument No. 1; thence NE 1500 feet to the NE corner of monument No. 2; thence NW 300 feet to the NW end of the center monument; thence NW 300 feet to the NW corner of monument No. 3; thence SW 1500 feet to the SW corner of monument No. 4; thence SE 300 feet to the place of beginning, including all dips, spurs, angles and variations NW from Robert Jack ranch and 3/4 miles NE Bernt Meadows, apparently Section 17, Township 29 North Range 101 W, 6th PM, Fremont County, Wyoming.

Beginning 600 feet SW of the location discovery monument described in the notice of location filed in the office of the County Clerk and Ex-Officio Register of Deeds in and for Fremont County, Wyoming, by John M. Anderson, Robert Jack and Gary W. Hawks, and beginning at the South and center monument and running thence SE 300 feet to the SE corner of monument No. 1; thence NE 1500 feet to the NE corner of monument No. 2; thence NW 300 feet to the NW end of the center monument; thence NW 300 feet to the NW corner of monument No. 3; thence SW 1500 feet to the SW corner of monument No. 4; thence SE 300 feet to the place of beginning including all dips, spurs, angles and variations NW 4 miles from the Robert Jack ranch and 1/2 mile NE Bernt Meadows, apparently in Section 17, Township 29 North, Range 101 West 6th PM, Fremont County, Wyoming.

Beginning 1500 feet NE of location discovery monument described in the notice of location filed in the office of the County Clerk and Ex-Officio Register of Deeds in and for Fremont County, Wyoming, by John M. Anderson, Robert Jack and Gary W. Hawsk, and beginning at the SW end of the center monument and running thence SE 300 feet to the SE corner of monument No. 1; thence NE 1500 feet to the NE corner of monument No. 2; thence NW 300 feet to the NW end of center monument; thence NW 300 feet to the NW corner of monument No. 3; thence SW 1500 feet to the SW corner of monument No. 4; thence SE 300 feet to the place of beginning including all dips, spurs, angles and variations NW 4 miles from the Robert Jack ranch and 1/2 mile NE of Bernt Meadows, apparently in Section 17, Township 29 North, Range 101 West, 6th PM, Fremont County, Wyoming.

ANDERSON MINING COMPANY
323 "I" STREET
ROCK SPRINGS, WYOMING

4. Physical Description:

(a) One old drift that goes in at about a 30 degree angle for approximately 12 feet, following a vein of copper ore. This vein is apparently 2 feet in depth. Then there is a tunnel (cross-cut) of approximately 30 feet that has not reached the ore bearing vein.

Our interest in such operations is to sink a slope to hit main ore bearing vein. According to geological information we have, we are on a finger of the main vein. This finger vein shows a .02 percent of Uranium on the floor. The copper assay is 6 to 6.5 percent.

This operation is located in the famous South Pass Country, about 7 miles from Highway 28 . . . .easily accessible when winter weather breaks; can be easily accessible the year around with minor amount of snow removal equipment.

(b) Twenty-five tons of ore (copper) assaying 3 percent and gold and silver contents of .09 and 2.7 ounces respectively shipped to American Smelting Company, Garfield, Utah in July 1954. No current production. The shipped ore was mine run from old diggings . . .
Ore reserves unknown. This is the reason we are asking Government assistance in an effort to ascertain the extent of this operation.

(c) This is Pre-Cambrian formation with an upheaval basic dike that has brought veins to the surface. It is a vein-type deposit. We are including sketch map of the same. We have a number of pegmatites in this same area. Mr. Bill Tonking, Geologist, for Bear Creek Mining Company, Denver, Colorado, Development Company for Kennecott Copper Corporation, has examined our properties. Although it does not seem large enough for Kennecott, he stated this is the second best deposit he has investigated in the past four years. Mr. Tonking also stated it is very possible the deposit may be much larger than is indicated at the surface and suggested we explore this possibility by core drilling and other development. He further stated he would be most happy to forward this information to any party interested in further development of this mining property.

(d) The property is easily accessible with a small amount of snow removal equipment needed in the winter. We have two sources of shipping by rail: Lander, Wyoming, 42 miles from location (7 miles dirt road - remainder oil surface highway); Rock Springs, Wyoming, 86 miles (7 miles dirt road - remainder oil surface highway). Supply and residence points: Rock Springs, Wyoming.

(e) Manpower is plentiful. Our source would be the many unemployed coal miners of the Southwestern Wyoming region. These are experienced miners. Materials and supplies are

ANDERSON MINING COMPANY
323 "I" STREET
ROCK SPRINGS, WYOMING

4. Physical Description (Cont'd.)

available here in Rock Springs thru several sources including the Colony Corporation and the Union Pacific Coal Company.

Water is available at sight of location by piping and pumping approximately 1000 feet.

Power must be manufactured by Portable Power Plant.

ANDERSON MINING COMPANY
323 "I" STREET
ROCK SPRINGS, WYOMING

5. The Exploration Project:

(b) We propose to core drill, to find the most practical location for sinking a shaft or slope to develop the ore-bearing vein. See Attached Sketch.

(d) We are private citizens: John M. Anderson is a Shipping Operator for Intermountain Chemical Company at Westvaco, Wyoming. Dean H. Gookin owns and operates a General Automotive Repair Shop (light and heavy duty). Myron V.A. Megeath is Personnel Adviser, Mountain Fuel Supply Company, Rock Springs, Wyoming. Gookin has had some previous Gold mining experience (Gold Coin Mine and Developing Company, Councel, Idaho in 1935-36). Gookin was also Maintenance Mechanic for F. H. Hoge in Alaska on the Alcan Highway in 1941.

Adequate supervisory and men with mining experience are plentiful in this region.

ANDERSON MINING COMPANY
323 "I" STREET
ROCK SPRINGS, WYOMING

6. Estimate of Costs:

(a) Independent Contracts -
Core Drilling - $5.50 per foot, plus transportation. (This drilling will all be done in the Pre-Cambrian Granite formation.) -
4,000 feet @ $5.50 . . . . . $22,180.00

Building Contractor at Prevailing Wage Scale - (Estimated $3.75 Per Hour)
600 Man Hours @ $3.75 . . . . . 2,230.00

Drifting - Per Foot, 6 x 8 Foot Slope -
$400.00 Per Running Foot - 100 Feet 40,000.00

(b) One Supervisor - $500.00 Per month -
Per Year. 6,000.00

Geological and Engineering Consultants (When Needed) - $50.00 Per Day - Estimated Total:
20 Days @ $50.00 -- Per Year 1,000.00

Caretaker and Laborer - $350.00 Per month --
Per Year. 4,200.00

(c) Furnished by Contractors.

(d) 1 Caterpillar Tractor with Dozer Furnished by Operator - $12.50 Per Hour - 1,000 Hours . . . 12,500.00

1 - ½ Ton Pickup Truck, Per Mile 12

1 - 1½ Ton Truck, Per Mile. 16

1 - Portable Gas Welding Unit - Per Hour . . . 6.00

Maintenance Tools, including Power Saws, Motors, Grinders, Winch and Cable - Total 450.00

1 Diesel Power Plant (To Be Purchased) 2,500.00

Office Equipment - Desk, Typewriter, Adding Machine, File Cabinet, etc. 500.00

(e) None

(f) 1 Office, Bunkhouse, Cookhouse (Combined)

(d) Continued

1 Air Compressor and Drill complete with liners 2,500.00

ANDERSON MINING COMPANY
