Re: Docket No. DMEA-4190 (Uranium)
Anchor Claims, T. 44 N., R. 66 E.
Elko County, Nevada

Dear Mr. Montgomery:

This is with reference to our letters of March 14 and May 17, Mr. Ricker's letter of June 26, and our further letter of July 30, 1956, relating to the captioned application.

As we have not received any reply to our letters, we are considering your application as having been withdrawn and are placing it in our inactive files.

We regret the necessity of taking such action, however, it is taken without prejudice to your proposed project. If at some future time you desire to reopen this case, you may do so by filing a new application, referring to the subject application by the DMEA docket number, and furnishing the information previously requested, together with any other information that you think might be helpful.

Sincerely yours,

Frank E. Johnson

Dear Mr. Montgomery:

Reference is made to our letters, dated March 14 and May 17, 1956, and also to Mr. Ricker's letter of June 26 to you, with reference to the captioned docket.

Inasmuch as we have received no reply, we assume that you no longer desire to proceed with the application. We wish to cooperate with you in the matter of allowing ample time, but if the needed data have not been received within thirty days from the date of this letter, we will then consider the docket closed.

Sincerely yours,

Dear Mr. Montgomery:

Your sample referred to in your letter has been here for some time awaiting a letter from you as to what you wanted done with it.

Since getting your letter, we have inspected it and find that it has only a trace of radioactivity.

We find no record in our files that you have ever replied to a letter of March 14, 1956 from our Washington office asking for more information on your property. We also have a copy of a letter dated May 17, 1956 from our Washington office inquiring if you intend to forward the data asked for in their letter of March 14.

We do not have men available to visit your property unless you can furnish sufficient data with your application that would justify a field examination.

Very truly yours,

Re: Docket No. DMEA-4190 (Uranium)
Anchor claims, T. 44 N., R. 66 E.
Elko County, Nevada

Dear Mr. Montgomery:

Your application for Government aid in exploring the claims, under the captioned docket number, has been referred to this Division for review and further action.

The subject application lacks considerable information which would enable us to judge the merits of your exploration proposal. Together with the assay results of the samples mentioned in Mr. Ricker's letter, dated February 21, 1956, addressed to you, we will require specific answers to the questions underlined in red pencil on the enclosed Application Form MF-103.

In submitting the subject application, we note that you enclosed only one copy of supplementary data with the four MF-103 forms. We require four copies of all data in order to expedite the processing of an application.

We will hold your application in abeyance for a reasonable length of time in order that you may submit the above-suggested additional information.

Sincerely yours,

SIGNED

March 9, 1956

Re: DMEA 4190
Harvey A. Montgomery
Anchor Mine
Elko County, Nevada
$27,385.00 - Uranium

Memorandum

To: E. W. Ellis, Defense Minerals Exploration Administration

From: N. E. Nelson, U. S. Geological Survey

Subject: Review of application

This review supersedes a review (not distributed) written before sketch maps and letter were received.

The applicant requests aid in exploring an area on which counts 2 to 3 times background are said to have been obtained.

The area seems to adjoin the Prince Group, probably the subject of application DMEA 3754, which application was denied. From the map furnished there is a resemblance, real or imagined, between the two occurrences, as both are 'pictured' as pipelike.

In the case of 3754, the examiners concluded there might be 33 tons of 0.06% U_3O_8 material. As yet, applicant Montgomery (4190) has reported no sampling or assaying. Until some such information is furnished, little or no consideration should be accorded the application. Perhaps a denial without prejudice is in order.

From: John E. Crawford, Bureau of Mines Member
Uranium Commodity Committee

Subject: Application for assistance, DMEA Docket 4190, Harvey A. Montgomery, Anchor Claim, Elko County, Nevada

I have reviewed the attached application, Harvey A. Montgomery, DMEA Docket 4190, dated February 10 and received in this office February 27. I have also discussed it with Joseph O. Hosted, Washington representative of the Atomic Energy Commission.

Information presented by the applicant does not include data which would substantiate an exploration program on the subject claim. Mr. Montgomery should be requested to submit more informative data.

Dear Mr. Montgomery:

Reference is made to your application for aid, forms MF-103, which we received today.

There is practically no pertinent data presented on which the expense of a field examination by DMEA engineers could be justified. Your readings are apparently only 2 to 4 times the background count, which does not indicate the possibility of discovering a commercial deposit of uranium ore.

You should take samples over appreciable widths and have them analyzed for U_3O_8 content. The Atomic Energy Commission, Reno Station, Bureau of Mines, 1605 Evans Ave., Reno, Nevada will be pleased to inspect your samples. In the meantime, I am forwarding your applications to our Washington office, which office will undoubtedly request more informative data than you have presented.

Very truly yours,

INSTRUCTIONS

1. *Name of applicant.*—(*a*) State here your full legal name, in the form in which you will wish to contract, and your mailing address: Harvey A. Montgomery
R. 1
Twin Falls, Idaho

(*b*) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

(*c*) If a corporation, add to above statement, titles, names and addresses of officers.

(*d*) If a partnership, add to the above statement the names and addresses of all partners.

2. *General.*—Read DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. *Applicant's property rights.*—(*a*) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract Located in T 44N, R 66 E.

(*b*) State any mine name by which the property is known. ANCHOR

(*c*) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise Federal land claimed by stake location & recorded.

(*d*) If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property. Federal Land.

(*e*) If you own the land, describe any liens or encumbrances on it NONE

(*f*) If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice.

4. *Physical description.*—(*a*) Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes. No old mines

(*b*) State past and current production, and ore reserves, if any, giving quantities and grades. NONE

(*c*) Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc.), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you.

(*d*) State the facts with respect to the accessibility of the project: Access roads, distances to shipping, supply and residence points.

(*e*) State the availability of manpower, materials, supplies, equipment, water, and power.
all available

16—66551-1

5. *The exploration project.*—(*a*) State the mineral or minerals for which you wish to explore Uranium & other valuable minerals

(*b*) Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed) of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, etc.

(*c*) The work will start within 30 days and be completed within 12 months from the date of an exploration project contract. with favorable weather conditions

(*d*) State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations. Stated in letter

6. *Estimate of costs.*—Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings to give the estimated total cost of the project:

(*a*) *Independent contracts.*—(Note.—If the applicant does not intend to let any of the work to contractors, write "none" after this item. To the extent that the work is to be contracted, do not repeat the cost of the contract-work in subsequent items.). State the cost of any proposed independent contracts for the performance of all or any part of the work, expressed in terms of units of work (such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved, etc.). NONE

(*b*) *Labor, supervision, consultants.*—Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants.

(*c*) *Operating materials and supplies.*—Furnish an itemized list, including items of equipment costing less than $50 each, and power, water and fuel.

(*d*) *Operating equipment.*—Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value, as the case may be.

(*e*) *Rehabilitation and repairs.*—Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project. NONE NEEDED

(*f*) *New buildings, improvements, installations.*—Furnish a detailed list showing the cost of any necessary buildings, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project.

(*g*) *Miscellaneous.*—Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes.

(*h*) *Contingencies.*—Give an estimate of any necessary allowances for contingencies not included in the costs stated above.

NOTE.—No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs.

7. (*a*) Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMEA No. 1)? yes

(*b*) How do you propose to furnish your share of the costs?

☒ Money ☒ Use of equipment owned by you ☐ Other

Explain in detail on acompanying paper.

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

Dated Feb. 10th, 1956

Harvey Montgomery (Applicant)

Liblity Insurance 230.
Payroll Taxes 705.
Payroll 15,000.
22,385

(h) Contingencies - Groceries, cooking equipment, gas, oil, tires, repairs for conveyances to and from project - $ 5000.00

Refer to

5. (d) - I was raised a farmer with lots of machinery experience including welding and repairing of tools and equipment. I have never had core drilling experience but I intend to hire a driller and geologist when needed. At present I operate a service station, general store and bulk gas and diesel fuel delivery. I am 48 years old and handy with most any kind of equipment.

I have been exploring in this area for over two years and feel that if I have accomplished this much the rest should be easy. If this isn't a good vein of ore, I'll be awful surprised.

(over)

These claims lay approximately a mile and a fourth east and south of our Prince Claims which we had an outcrop that assayed 4.57 Ag 308. I think the Anchor Claims are superior to the Prince as we never found a vein on them that looked like this.

Refer to #7 (b)

I don't know if this is right time to make this application or not, but when we discover some ore like I figure we will would like to either sink shaft or drift if possible - not to exceed $25,000.00

If this looks favorable I'd like to get it going as soon as possible. I figure we can get to work on it in 30 or 40 days with average weather. I realize this isn't complete, but if necessary I can come wherever necessary to complete on short notice. Respt.

INSTRUCTIONS

1. *Name of applicant.*—(*a*) State here your full legal name, in the form in which you will wish to contract, and your mailing address: [illegible]

(*b*) If other than an individual, add to your name above whether a corporation, partnership, etc., and the name of the State in which incorporated or otherwise organized.

(*c*) If a corporation, add to above statement, titles, names and addresses of officers.

(*d*) If a partnership, add to the above statement the names and addresses of all partners.

2. *General.*—Read DMEA Order 1, "Government Aid in Defense Exploration Projects," before completing this application. Submit this application and all accompanying papers in quadruplicate (four copies), with your name and address on each sheet of the application and on all accompanying papers. Where sufficient space is not provided on the form for all required information, state it on an accompanying paper, with a reference in each case to the instruction to which it refers by number. Comply with all applicable instructions; or, if not applicable, so state. File the application with Defense Minerals Exploration Administration, Department of the Interior, Washington 25, D. C., or with the nearest field executive officer thereof.

3. *Applicant's property rights.*—(*a*) State the legal description of the land upon which you wish to explore, including all land which you possess or control that may be benefited by the exploration, and excluding any land or interest in land which is not to be included in the exploration project contract [illegible]

(*b*) State any mine name by which the property is known. ANCHOR

(*c*) State your interest in the land, whether owner, lessee, purchaser under contract, or otherwise Federal land claimed by [illegible]

(*d*) If you are not the owner, submit with this application a copy of the lease, contract, or other document under which you control the property. [illegible]

(*e*) If you own the land, describe any liens or encumbrances on it NONE

(*f*) If the land consists of unpatented claims, add to the description above, the book and page numbers for each recorded location notice.

4. *Physical description.*—(*a*) Describe in detail any mining or exploration operations which have been or now are being conducted upon the land, including existing mine workings and production facilities. State your interest, if any, in such operations. Also describe accessibility of mine workings for examination purposes. NONE

(*b*) State past and current production, and ore reserves, if any, giving quantities and grades.

(*c*) Describe the geologic features of the property, including mineralization, type of deposit (vein, bedded, etc.), and your reasons for wishing to explore. Illustrate with maps or sketches. Send with your application (but not necessarily as a part of it) any geologic or engineering report, assay maps, or other technologic information you may have, indicating on each whether you require its return to you.

(*d*) State the facts with respect to the accessibility of the project: Access roads, distances to shipping, supply and residence points.

(*e*) State the availability of manpower, materials, supplies, equipment, water, and power. [illegible]

16—66551-1

5. *The exploration project.*—(*a*) State the mineral or minerals for which you wish to explore _____

(*b*) Describe fully the proposed work, including a map or sketch of the property showing a plan (and cross sections if needed) of any present mine workings, and the location of the proposed exploration work as related to such features as contacts, veins, ore-bearing beds, etc.

(*c*) The work will start within _____ days and be completed within _____ months from the date of an exploration project contract.

(*d*) State the operating experience and background of the applicant with relation to the ability to carry out such exploration project, and also that of the person or persons who will supervise the operations.

6. *Estimate of costs.*—Furnish a detailed estimate of the costs of the proposed work (you will have to use a separate sheet), under the following headings. Add the totals under all headings to give the estimated total cost of the project:

(*a*) *Independent contracts.*—(Note.—If the applicant does not intend to let any of the work to contractors, write "none" after this item. To the extent that the work is to be contracted, do not repeat the cost of the contract-work in subsequent items.) State the cost of any proposed independent contracts for the performance of all or any part of the work, expressed in terms of units of work (such as per foot of drilling, per foot of drifting, per hour of bulldozer operations, per cubic yard of material moved, etc.).

(*b*) *Labor, supervision, consultants.*—Include an itemized schedule of numbers, classes and rates of wages, salaries or fees for necessary labor, supervision and engineering and geological consultants.

(*c*) *Operating materials and supplies.*—Furnish an itemized list, including items of equipment costing less than $50 each, and power, water and fuel.

(*d*) *Operating equipment.*—Furnish an itemized list of any operating equipment to be rented, purchased, or which is owned and will be furnished by the Operator, with the estimated rental, purchase price, or suggested use-allowance based on present value, as the case may be.

(*e*) *Rehabilitation and repairs.*—Furnish a detailed list showing the cost of any necessary initial rehabilitation or repairs of existing buildings, installations, fixtures, and movable operating equipment, now owned by the Operator and which will be devoted to the exploration project.

(*f*) *New buildings, improvements, installations.*—Furnish a detailed list showing the cost of any necessary buildings, fixed improvements, or installations to be purchased, installed or constructed for the benefit of the exploration project.

(*g*) *Miscellaneous.*—Furnish a detailed list showing the cost of repairs to and maintenance of operating equipment (not including initial rehabilitation or repairs of the Operator's equipment), analytical work, accounting, workmen's compensation and employers' liability insurance, and payroll taxes.

(*h*) *Contingencies.*—Give an estimate of any necessary allowances for contingencies not included in the costs stated above.

NOTE.—No items of general overhead, corporate management, interest, taxes (other than payroll and sales taxes), or any other indirect costs, or work performed or costs incurred before the date of the contract, should be included in the estimate of costs.

7. (*a*) Are you prepared to furnish your share of the cost of the proposed project in accordance with the regulations on Government participation (Sec. 7, DMEA No. 1)?

(*b*) How do you propose to furnish your share of the costs?

☐ Money ☒ Use of equipment owned by you ☐ Other

Explain in detail on acompanying paper.

CERTIFICATION

The undersigned, whether as an individual, corporate officer, partner, or otherwise, both in his own behalf and acting for the applicant, certifies that the information set forth in this form and accompanying papers is correct and complete, to the best of his knowledge and belief.

Dated _____, 195_.
