
Note: The location of each measured section and essential stratigraphic data are listed in table 1. Individual stratigraphic sections shown in the cross sections (pls. 2–6) are indentified by the abbreviated name of the 15-minute quadrangle in which the stratigraphic section lies (see pl. 1) and by number within the quadrangle. For example, the section of Chidsey Point Gully (PY–7) is section number seven in the Penn Yan 15-minute quadrangle.

STRATIGRAPHIC SECTIONS OF THE GENESEE FORMATION AND CONTIGUOUS ROCKS FROM CANANDAIGUA LAKE TO TULLY, ONONDAGA COUNTY, NEW YORK
