Defense Minerals Exploration Administration

OFFICIAL DOCKET FILE Idm-E NO._____ DMEA NO. 4784

Application
- [ ] Denied
- [x] Withdrawn

Contract
- [ ] Terminated - Not Certified
- [ ] Terminated - Certified
- [x] Cancelled
- [ ] Royalty Agreement

The records contained in this file are marked (x) and arranged in this order:

Folder No. 1:

Left Side

- [ ] Royalty Audits
- [ ] Certification of Discovery
- [ ] Closing Letter
- [ ] Cost Audits
- [ ] Termination Notice or Agreement
- [ ] Recision Notice
- [ ] Assignment of Contract
- [ ] Contract Amendments
- [ ] Contract with all exhibits and annexes
- [ ] Owner's Consent to Lien and Subordination Agreement
- [x] Application and attachments

Right Side

- [ ] Project summary (final)
- [ ] Work Completed analysis (final)

All other material filed in chronological order including the following reports if checked:

- [ ] Field Team Semi-Annual Report for Certified Project
- [ ] Final Field Team Report (Tab)
- [ ] Operator's Final Report (Tab)
- [ ] Interim Field Team Reports
- [ ] Operator's monthly reports and all attachments
- [ ] On-site Exam Report (Tab)
- [ ] Settlement Sheets
- [ ] Drill Logs

Additional Folders:

Left Side

Folders No._____: Reports
- [ ] Analysis of Semi-Annual Inspection Reports
- [ ] Project Summary (Interim) by DMEA Engineers

Right Side

- [ ] Field Team Semi-Annual Report for Certified Project
- [ ] Field Team Interim Reports
- [ ] Operator's Monthly Reports with transmittal, narrative and maps.

Folders No._____: Maps (Use pocket folder or envelope)

Folders No._____: Settlement Sheets

Folders No._____: Drill Logs

Folders No._____: Royalty material

Re: Docket No. DMEA-4784 (Zinc)
The New Jersey Zinc Company
Lawson Area
Hawkins and Hancock Counties,
Tennessee

Dear Mr. Goodwin:

Your application for Government assistance to explore the cited property has been reviewed by the Division of Base Metals of the Defense Minerals Exploration Administration and is being referred to:

Mr. Robert A. Laurence
Executive Officer
DMEA Field Team, Region V
Post Office Bldg, Room 13
Knoxville 2, Tennessee

If additional information concerning your application is needed, the Field Team will get in touch with your Tennessee office at an early date.

Sincerely yours,

C. O. Mittendorf (for)

Administrator

July 18, 1957

Re: DMEA 4784; Zinc; $110,880
The New Jersey Zinc Co.
Lawson Area, Sector 1
Copper Ridge Belt
Hawkins County, Tennessee

From: O. M. Bishop, USBM

Subject: Review of application dated July 9, 1957, received July 17, 1957

The applicant requests assistance in diamond drilling 3 separate tracts of land which comprise most of the land holdings between the areas of Contracts E-956 and E-950.

On the basis of geochemical prospecting, the applicant has found anomalous quantities of zinc in the soil overlying the Kingsport formation. This fact in conjunction with the similarity to geochemical anomalies overlying significant discoveries made to the west (Contract E-956) and east (Contract E-950) appear to give ample justification for the proposed exploration.

I recommend referral to the field team for their analysis of the proposed exploration and costs.

July 15, 1957
Re: DMEA 4784
New Jersey Zinc Company
Lawson Area
Copper Ridge Belt
Hawkins County, Tennessee
$110,880 - Zinc

Memorandum

To: W. R. Griswold, Defense Minerals Exploration Administration

From: N. E. Nelson, U. S. Geological Survey

Subject: Review of application

The applicant requests assistance in exploring three non-contiguous groups of tracts of land. The groups lie between the Eidson and Independence areas on which the applicant is doing DMEA assisted work.

Results to date of drilling on the adjoining areas are

Name of Area	Date of Interim	DMEA	Idm E	Holes Drilled No.	Ore Holes No.
Independence	May 27, '57	4153	950	23	7
Eidson	June 27, '57	4177	956	37	4

As for the other areas, the applicant has done geochemical prospecting for soil zinc. The results in general appear somewhat unfavorable countwise compared to results on the adjoining areas, as low numbers, 3's and 4's predominate, but there are several 5's, 6's and 7's, one 8, one 9, one 10, and a 15 is shared with the Independence area. Likewise the blocks showing significant count, that is over 2, are small and scattered.*

Referral of the application to the Field Team is recommended.

N. E. Nelson

N. E. Nelson

*Numbers are hundreds of parts per million.
