Dear Mr. Langford:

Thank you for your letter of June 22, 1965, wherein you inform us of the withdrawal of your application. We shall consider the application as having been withdrawn and place it in our inactive files.

Should work be done in the region that would demonstrate the existence of a silver-bearing target area, we would be happy to give consideration to another application which should refer to the present one. Information contained in the latter would not have to be repeated, but new bank letters and any new information developed should be submitted.

As requested, enclosed is the brochure covering the two captioned areas. By a copy of this letter we are requesting our Denver office to return their copy to you.

Sincerely yours,

George Fumich, Jr.

Acting Director

Dear Mr. Fumich:

In view of your letter of June 17, 1965 and earlier correspondence, I respectfully suggest that you return our brochure covering the two above captioned areas to me at your convenience.

We still feel that for the dollar invested, the best way to explore for silver in this virgin region is to drill the subsurface and try to cover as much ground as possible. If shows are found, then do detail drilling. It appears to me that there is no way to accomplish this within the rules of OME thereby allowing OME to grant us financial assistance. Accordingly, we withdraw our application at this time.

I wish to thank OME for consideration of our application. If the rules should be amended which would allow your approval of our application, I would appreciate hearing from you.

Very truly yours,

B. J. Langford
