Dear Mrs. Callahan:

On March 7, 1952, in response to our letter of March 3 to you, you informed us that you had been away from home for several months and that our letters to you may have been lost. You further stated that you would answer our questions to the best of your ability and requested an extension of time on your application.

On March 13, 1952, we sent you copies of our letters of September 1951 and January 21, 1952. To date we have not received an answer from you.

We note that your application is now more than a year old. We would like to clear all of the old DMA applications from our active file but cannot do so unless applicants furnish us with requested information.

We wish to cooperate in the matter of allowing ample time but if the needed information has not been received by June 30, 1952, we will then remove your application from the active file and consider the matter closed.

Sincerely yours,

W.A.K.

Dear Mrs. Callahan:

A review of your application of May 24, 1951, for a $7,050.00 exploration contract reveals that a letter dated January 21, 1952, by Mr. G. C. Selfridge, Chief, Iron and Ferro-Alloy Division of Defense Minerals Exploration Administration requests additional information necessary to process your application. We have not received an answer from you and we assume that you no longer desire to proceed with the application.

We wish to cooperate with you in the matter of allowing ample time, but if the needed data have not been received by April 1, 1952, we will then remove your application from the active file and consider the matter closed.

Sincerely yours,
