May 29, 1956

Memorandum

To: Robert E. Adams, Chief
Operations Control and Statistics Division

From: Ernest Wm. Ellis, Chief
Rare and Miscellaneous Metals Division

Subject: Docket No. DMEA 4317 (Formerly DMEA-3870)(Uranium)
Westmont Explorations Limited
Sun Dog, et al., Group of Claims
San Juan County, Utah

Since the Field Team has recommended an exploration program on the subject property and a review of the Field Team's report indicates that a contract should be written, a new docket number should be assigned to this case.

The Field Team's recommendations are based on a second field examination of the property after a long crosscutting adit was driven by the Applicant.

As soon as the new docket number has been issued, please return the file to this Division.
