VIPONT DEVELOPMENT REPORT NOVEMBER 1st to 15th Incl.

Name A-8 Location 14N-7W-A Direction Drift North-West from A-2.

| | |
|---|---|
| Previously reported | 812 feet |
| Advanced | 21 " |
| Total | 833 feet |

Rhyolite-Limestone contact.

Name A-41 Location 13N-7W-A Direction Drift North-West from A-14

| | |
|---|---|
| Previously reported | 103 feet |
| Advanced | 21 " |
| Total | 124 feet |

Limestone, Shale in back of drift.

Name A-52 Location 14N-2W-D Direction Wardlaw Crosscut N. E. from A-8 Drift (at #24)

| | |
|---|---|
| Previously reported | 408 feet |
| Advanced | 30 " |
| Total | 438 feet |

Quartzite-schist.

Name A-58 Location 10N-5W-B Direction Drift North-East from A-54 (at #72)

| | |
|---|---|
| Previously reported | 13 feet |
| Advanced | 44 " |
| Total | 57 feet |

Ore 3½ ft. wide average value 12 oz.

Name A-59 Location 10 N 4W-D Direction Inclined Raise North-East at 65 degrees from A-1 (237' from #8)

| | |
|---|---|
| Previously reported | 24 feet |
| Advanced | 45 " |
| Total | 69 feet |

24 to 64 Limestone 64 to 69 Ore average value 30 oz.

Name A-60 Location 9N-4W-A Direction Inclined raise West at 57 degrees from A-1 (212 ft from #8)

| | |
|---|---|
| Started and advanced | 74 feet |

0-8 Rhyolite. 8-58 Limestone. 58-59½ Ore 100 oz.
59½-70 Limestone. 70-74 Shale.

Name A-61 Location 14N-2W-B Direction Inclined Raise N. E. at 60 degrees from A-52 (408 ft from start A-52)

| | |
|---|---|
| Started and advanced | 21 feet |

Quartzite-Schist

Name A-62 Location 10N-5W-C Direction Drift S. E. from A-57 (18 ft from start A-57)

| | |
|---|---|
| Started and advanced | 28 feet |

Limestone.

Name F-5 Location 10 4W-D Direction Drift South from A-59 Raise (floor 57' vertically above A Level)

| | |
|---|---|
| Started and advanced | 3 feet |

Limestone

Name K-11 Location 12N-2W-B Direction Drift S. E. from K-6 (219 ft from start K-6)

| | |
|---|---|
| Previously reported | 12 feet |
| Advanced | 42 " |
| Total | 54 feet |

Limestone.

Name O-4 Location 17N-1W-C Direction Cross cut North from O-1 drift (57 ft from start O-1)

| | |
|---|---|
| Previously reported | 161 feet |
| Advanced | 13 " |
| Total | 174 feet |

Rhyolite.

Name O-7 Location 16N-2W-B Direction Inclined Raise N. W. at 50 degrees from O-4 (142 ft from start O-4

| | |
|---|---|
| Previously reported | 79 feet |
| Advanced | 4 " |
| Total | 83 feet |

79-81 Mineralized 6 oz. 81-83 Shale

| | |
|---|---|
| PREVIOUSLY REPORTED | 1612 feet |
| ADVANCED | 346 " |
| TOTAL | 1958 feet. |

84 Tone to Ore Dump Average value 12.4 oz.

# Development Nov. 1-15, 1919

| Level | Place | Location | Description | Prev. Reported | Advance | Total | Remarks |
|---|---|---|---|---|---|---|---|
| A | 8 | 14N7WA | Drift N.W. from A2 | 812 | 21 | 833 | Rhyolite - Lime[illegible] on footwall |
| A | 41 | 13N7WA | Drift N.W. from A14 | 103 | 21 | 124 | Limestone, shale in back of Drift |
