4/25/12

Today Peter Wright, David Mott and Scott Edmiston got together to ship chemistry samples going to TestAmerica Labs.

We double checked all coblers, completed AJR/COC forms and re-iced samples.

Scott volunteered to take sample custody and deliver samples directly to TestAmerica and NWQL (Radon only) on 4/26/12.

Peter kept custody of remaining age-dating samples and will ship from Billings at a later date.

Peter did ship MBAS samples from Riverton to TestAmerica in Savanah, GA. Samples were sent overnight via FedEx.
