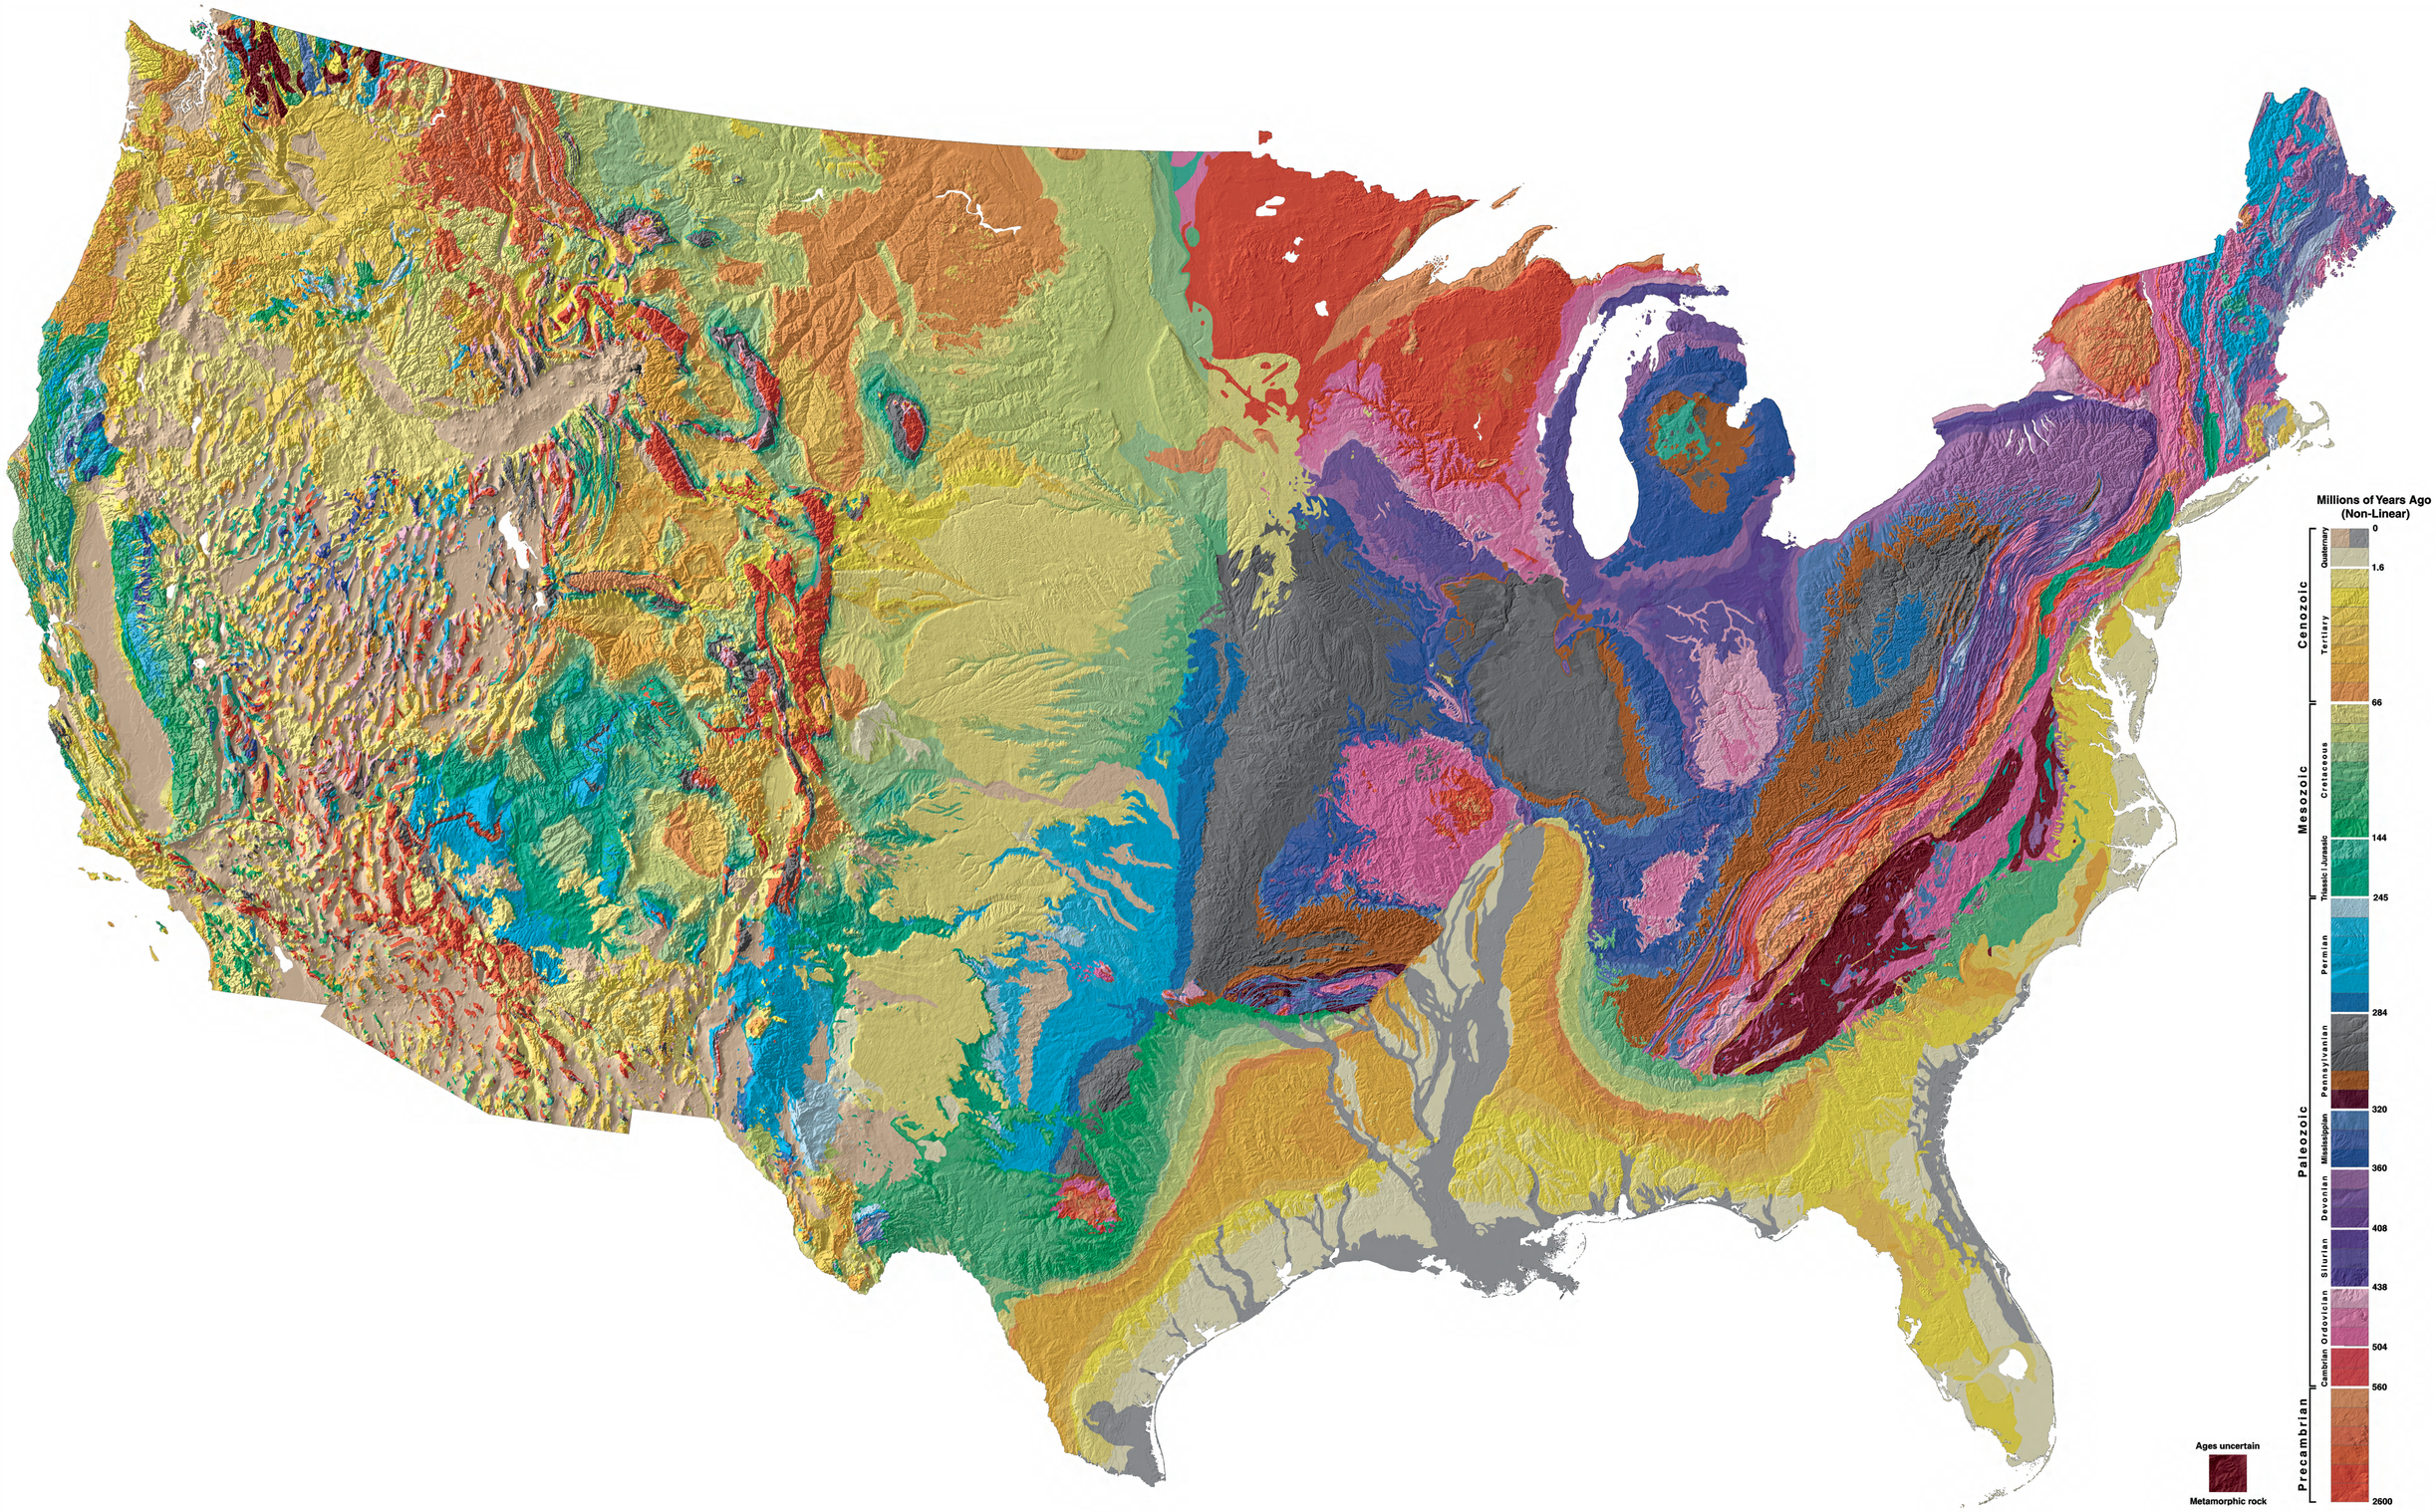
U.S. DEPARTMENT OF THE INTERIOR
U.S. GEOLOGICAL SURVEY

GEOLOGIC INVESTIGATIONS SERIES I-2720, Version 1.0
Pamphlet accompanies map



Through computer processing we have combined the following two maps: (1) Thelin, Gail P., and Pike, Richard J., 1991, Landforms of the conterminous United States-A digital shaded-relief portrayal: U.S. Geological Survey Miscellaneous Investigations Map I-2206, scale 1:3,500,000, and (2) King, Philip B., and Beikman, Helen M., compilers, 1974, Geologic map of the United States (exclusive of Alaska and Hawaii): U.S. Geological Survey, three sheets, scale, 1:2,500,000. Please note a perfect registration is not possible because of the different technologies and scales used in the original generation of these two maps. We have modified the geologic map in some areas of low relief where a mismatch in registration was most obvious.

A TAPESTRY OF TIME AND TERRAIN

By

José F. Vigil, Richard J. Pike, and David G. Howell

2000

SCALE 1:3 500 000
25 0 25 50 75 100 150 200 MILES
25 0 25 50 75 100 150 200 KILOMETERS

Cartographic preparation by Eleanore B. Jewel
Manuscript approved for publication on February 22, 2000

ISBN 0-607-93424-0
