Mineral Surveys

Wilderness Studies Related to
Bureau Of Land Management

The Federal Land Policy and Management Act (Public Law 94-579, Oct. 21, 1976), requires the U.S. Geological Survey and the U.S. Bureau of Mines to conduct mineral surveys on certain areas to determine their mineral resource potential. Results must be made available to the public and be submitted to the Administration and the Congress. This report presents the results of a mineral survey of the Mokelumne Wilderness Area & Adjacent Further Planning Areas (RARE II), California.
