EXPLANATION

Magnetic contours

Showing total intensity magnetic field of the earth in gammas relative to arbitrary datum. Hachured to indicate closed areas of lower magnetic intensity. This is a residual aeromagnetic map with the International Geomagnetic Reference Field for 1965 (updated to 11/75) removed and 1,000 gammas added. Contour intervals 20 and 100 gammas.

Location of measured maximum or minimum intensity within closed high or closed low
