EXPLANATION

(47)
×
7.1

Location of measured section; number above, in parentheses, is thickness of interval between Coal beds Nos. 1 and 2, in feet; number below is thickness of coal in coal bed no. 1, in feet. Plus sign following number indicates that number is minimum thickness of bed whose base or top was not exposed. Question mark following number indicates uncertain correlation.

100

Isopach on the interval between the top of coal bed No. 1 and base of coal bed No. 2, in feet. Isopach interval 50 and 100 feet.

10 ? ? ?

Isopach on thickness of coal in coal bed no. 1, in feet. Isopach interval 10 feet. Queried where position uncertain.

Northern and western limit of deposition of the Suntrana Formation (See fig. 14).

This map is preliminary and has not been edited or reviewed for conformity with Geological Survey standards
