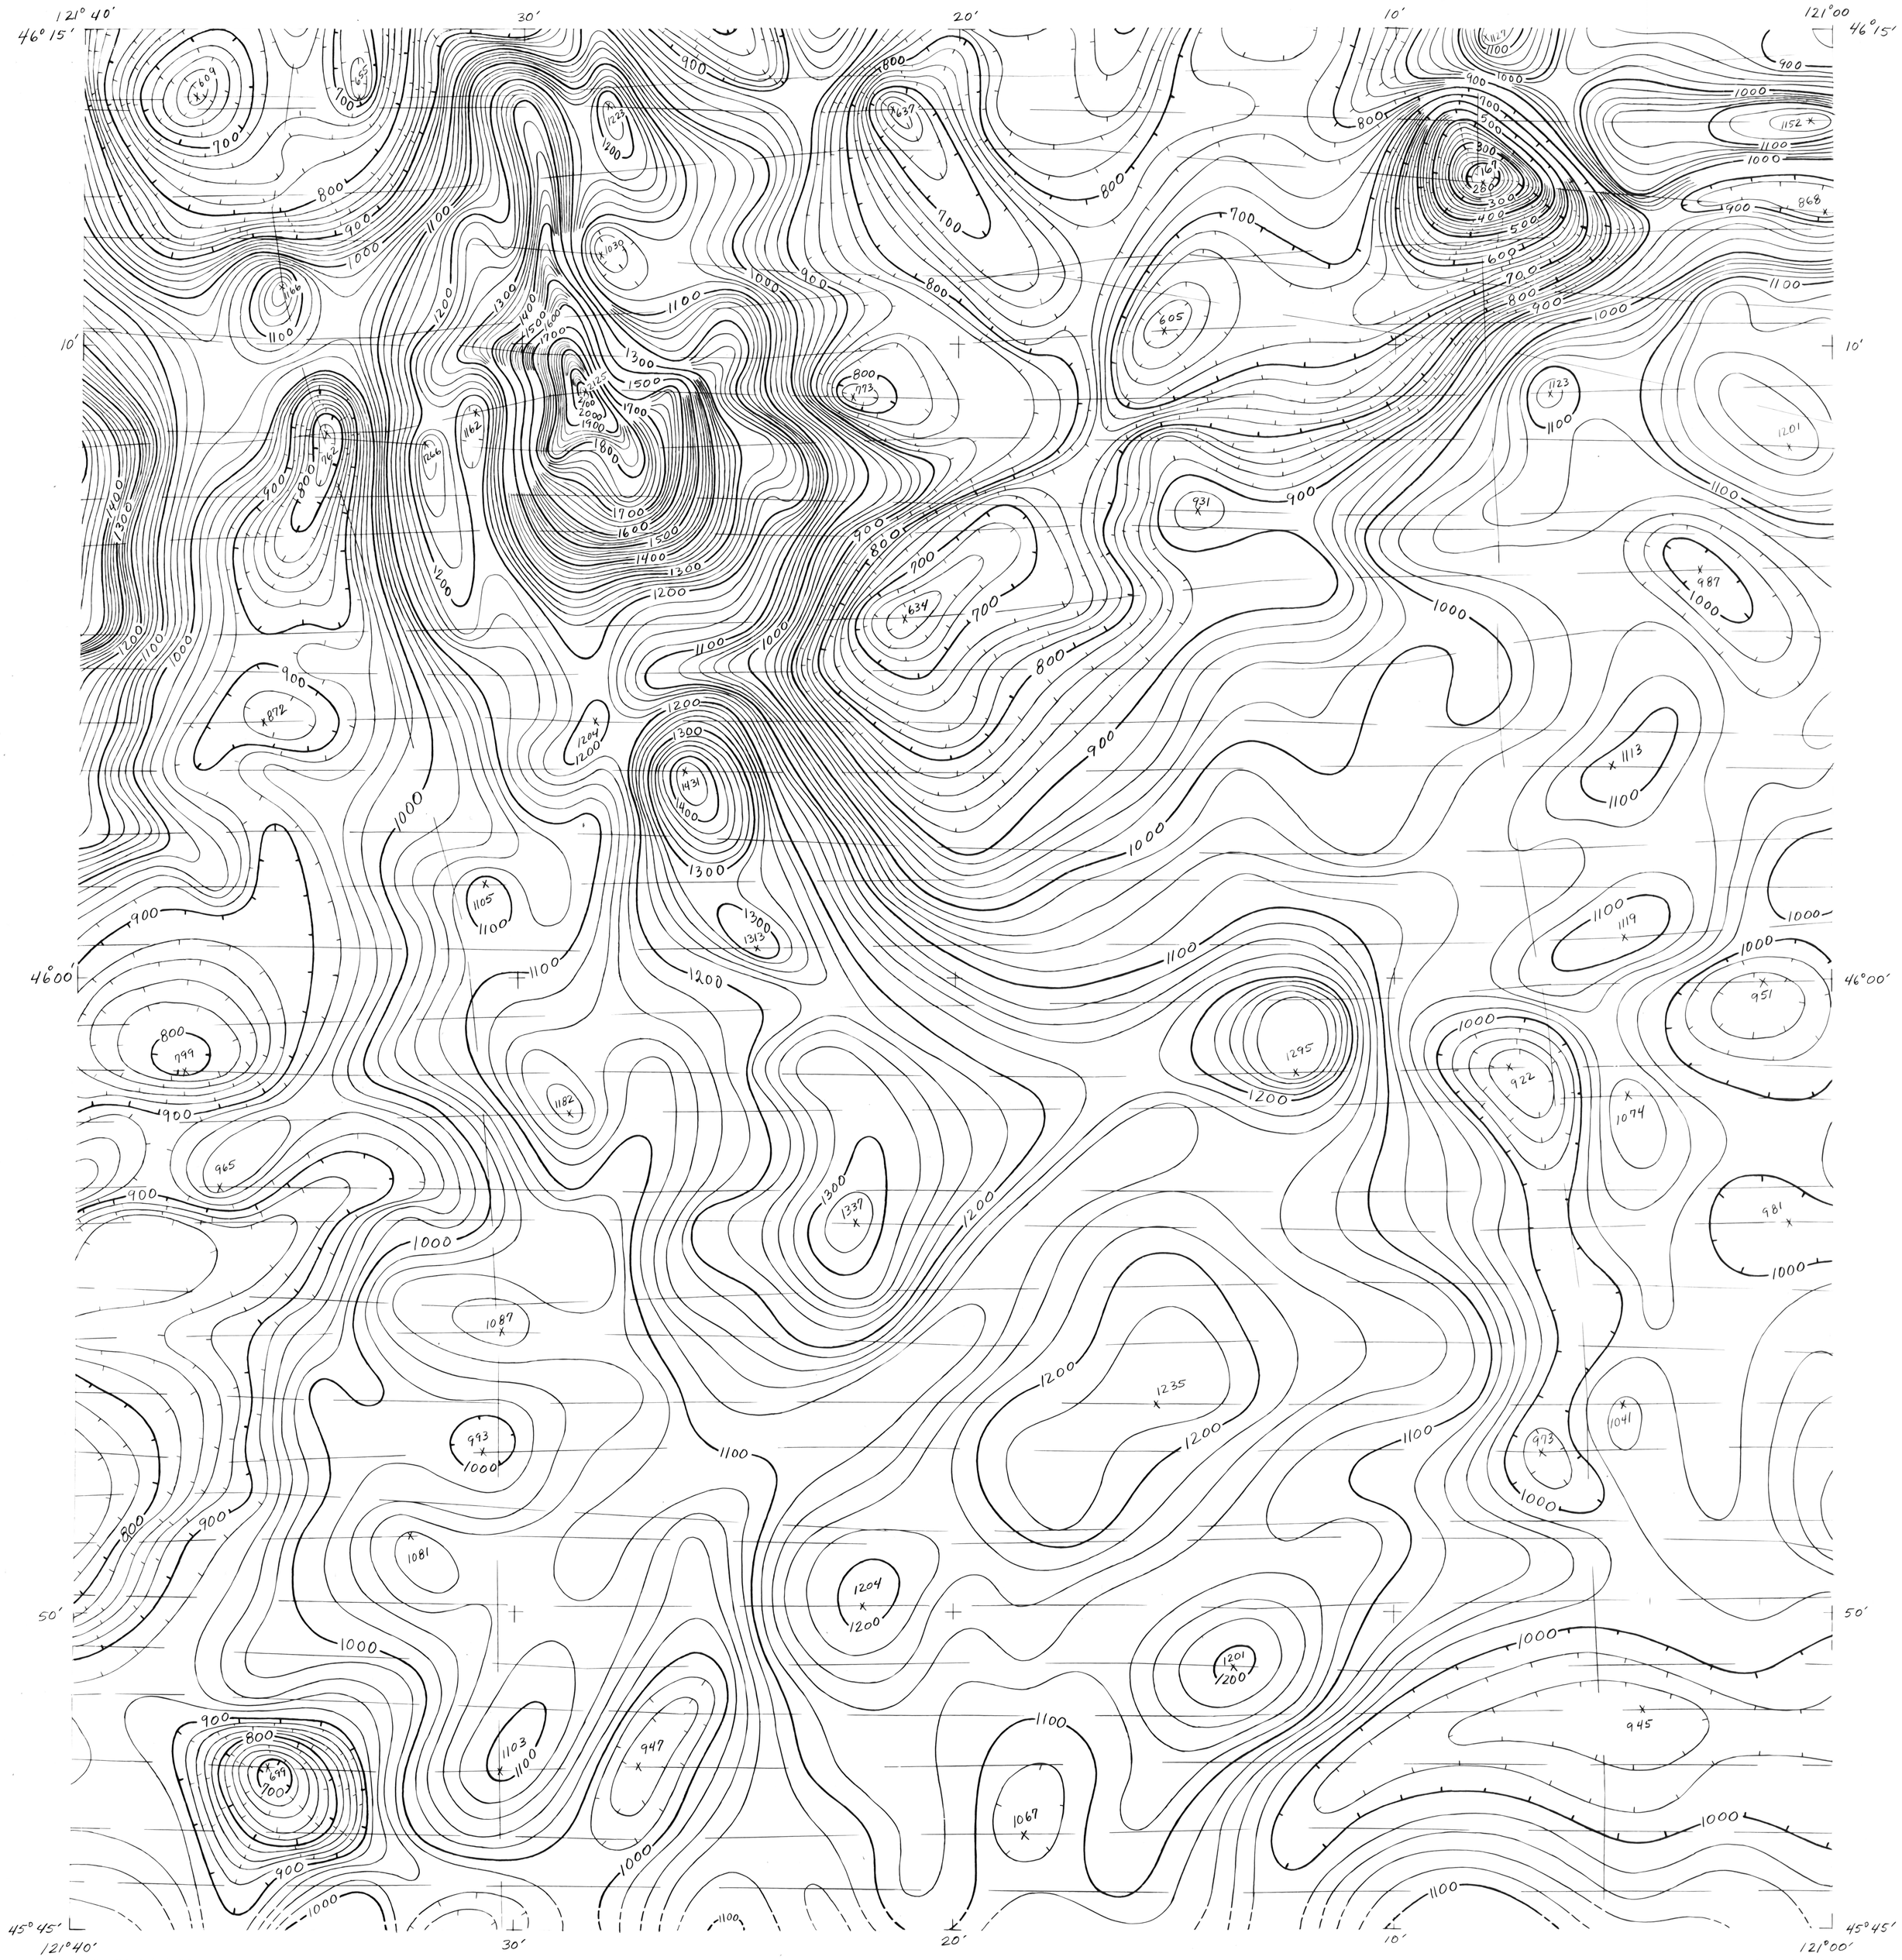
DEPARTMENT OF NATURAL RESOURCES

OPEN FILE I
No. 75-648
SHEET 4 of 4



Aeromagnetic survey flown and compiled by U.S. Geological Survey. Flown at 9,000 feet barometric elevation, 1974.

SCALE 1:62 500

1 ½ 0 1 2 3 4 5 MILES

1 .5 0 1 2 3 4 5 KILOMETRES

EXPLANATION

Magnetic contours

Showing total intensity magnetic field of the earth in gammas relative to arbitrary datum. Hachured to indicate closed areas of lower magnetic intensity. Dashed where data are incomplete.

Contour interval 20 gammas.

Main magnetic field of earth for 1965, updated to 1974, removed (Fabiano and Peddie, 1969), 1,000 gammas added.

Location of measured maximum or minimum intensity within closed high or closed low.

Flight path

Showing location and spacing of data
