

TABLE 1.--Solid-waste-disposal sites, 1972

[Information from California Department of Public Health (1969, tables 4-6 through 4-18, p. 4-18 through 4-42; and table 5-10, p. 5-29 through p. 5-32) and from unpublished records maintained by that department]

SITE DESCRIPTION
Number and name: Location shown by number on accompanying map. The names of disposal sites are those obtained from the California Department of Public Health.
Type: G, general purpose; S, special purpose; C, closed since 1950; and F, proposed.
Owner and operator: C, County; S, district; F, Federal; M, municipal; P, private; and S, State.
Method of operation: UN, uncontrolled dumping; C, controlled dumping; M, modified sanitary landfilling; SL, sanitary landfilling; S, other.
Surface- or ground-water-quality impairment: X, a water-pollution problem has existed, or still exists, due to disposal of wastes.
Site classification: Number is assigned on the basis of site characteristics in relation to its potential for surface- and/or ground-water pollution as follows: I, suitable for all except radioactive materials; II-1, suitable for some toxic materials; II-2, suitable for all non-toxic and decomposable materials; III, suitable for all non-toxic, insoluble, nondecomposable materials.

Site description					Material accepted										Average total daily disposal capacity at the site (tons)	Surface- or ground-water-quality impairment	Site classification	
Number and name	Type	Owner	Operator	Method of operation	Total area in site (acres)	Garbage and rubbish	Bulky wastes	Street refuse	Food processing	Industrial	Sewage solids	Agricultural	Domestic	Inert materials				Other materials
